RENEGADE

WHY DO WE CALL IT JEEP. ACTIVE DRIVE? BECAUSE THESE TWO 4x4 SYSTEMS CAN ACTIVELY TRANSITION FROM 4x4 INTO FUEL-SAVING FRONT-WHEEL DRIVE (FWD) FOR A WELCOMED GAIN IN EFFICIENCY. JUST KEEP THE SYSTEM'S STANDARD SELEC-TERRAIN® DIAL IN AUTO MODE AND RENEGADE WILL SEAMLESSLY MATCH ITS JEEP ENGINEERED CAPABILITY TO ANY ROAD CONDITION. TURN THE DIAL TO ANY OTHER MODE, AND 4x4 CAPABILITY IS ALWAYS ENGAGED.

ACTIVE DRIVE 4x4*

CAPABILITY MEETS FUEL EFFICIENCY

10/11 CAPABILITY
*Available

- BEST-IN-CLASS² 4x4 CAPABILITY -

CAPABLE OF SUPER POWERS

Both Jeep, Active Drive systems can keep you moving forward, even when just one wheel has traction on the ground. When this occurs, each system will automatically and seamlessly adjust to thrust a portion of the engine's power to the wheel (or wheels) with ground contact. This allows Renegade to really grab on and keep you moving forward.

This single-speed unit sends power generated from the engine and transmission to the wheel that needs it the most. This helps create the system's enhanced traction and dynamic driving performance.

POWER TRANSFER UNIT

The class-exclusive³ disconnecting rear axle helps make Renegade one of the most fuel-efficient small 4x4 SUVs in its class. It can switch from 4x4 into FWD mode when Selec-Terrain® is in Auto mode, providing a noticeable uptick in mpg.

DISCONNECTING REAR AXLE

20:1
CRAWL RATIO

FEATURES

EASY COME: HILL START ASSIST

Helps avoid roll-back when starting on steep inclines by keeping the brakes applied, giving you time to transfer your foot to the gas pedal. Standard.

EASY GO: HILL DESCENT CONTROL

Monitors throttle, speed and braking when gravity's pull wants to take over. Brakes are automatically applied for a safe and smooth descent. Exclusive on Trailhawk®

JEEP ACTIVE DRIVE LOW BEST-IN-CLASS² 4x4 CAPABILITY ON TRAILHAWK

Get tough on the ridges and rocks with Jeep Active Drive Low, a one-speed system featuring Hill Descent Control. Its gnarly low range delivers a Trail Rated® 20:1 crawl ratio. Exclusive on Trailhawk.

DIALED IN FOR ALL TERRAINS

No matter where you are, tackle Mother Nature's toughest conditions with the help of the available **Selec-Terrain® Traction Management System**, with the class-exclusive³ Selec-Terrain dial, standard on every Jeep® Active Drive 4x4 system. Five selectable settings help deliver safe and secure driving stability so you can explore the wonders of the world as you see fit. Choose from Auto, Snow, Sand and Mud modes, and exclusive on Trailhawk® – the addition of Rock mode. You'll dial in to authentic 4x4 capability that can take you to places others only dream of reaching.

LATITUDE SHOWN IN SNOW-COVERED COMMANDO

SNOW
Achieves impressive performance over snow- and ice-covered roads by maximizing vehicle stability and minimizing oversteer. Major systems automatically managed in this mode include antilock brakes and traction control.

MUD
Maximizes low-speed traction by allowing additional wheel slip via specifically tuned chassis controls, differentials and transmission ratios that are geared to successfully tackle mud.

AUTO
In Auto, Selec-Terrain® does all the work, automatically adjusting vehicle dynamics to gain fuel efficiencies, while allowing Renegade's performance to best suit the terrain.

ROCK
This available mode exclusive to Trailhawk® delivers low-speed 4x4 capability thanks to its rear differential locking element. This allows Renegade to command the world's most challenging terrain.

SAND
The system converts to a uniquely calibrated Sand mode that utilizes an aggressive throttle and up-shift points to tackle looser, sand-covered surfaces.

PANELS ARE LIGHTWEIGHT, STRONG AND HELP MAINTAIN CABIN ACOUSTICS. MY SKY OPENS UP YOUR WORLD AND BRINGS IT ALL IN.

OPTION 1: POWER RETRACTABLE This available option lets you open My Sky with the push of a button. It operates like a traditional sunroof system, allowing fore and aft ventilation. When power is not needed, both panels can be manually removed.⁶

OPTION 2: MANUALLY REMOVABLE FRONT AND REAR PANELS⁶ For a full-on fresh-air experience, this available option lets you manually take both panels off. Each panel weighs a mere 10 pounds and can be easily taken off and replaced by one person.

MY SKY PANELS ARE EMBOSSED WITH A STRENGTH-ENHANCING X-FORM AND MADE OF A COMPOSITE HONEYCOMB STRUCTURE FOR EXCELLENT ACOUSTIC QUALITIES, RIGIDITY AND LIGHTWEIGHT REMOVAL.⁶

FRONT PANEL REMOVED⁶ Open the front panel to give the driver and front passenger a dose of fresh air. For manual panel removal,⁶ the vehicle must be parked. A special key attached to the fob unlocks and releases the panels so they can be lifted out.

ROOF PANEL STORAGE BAG When you remove the My Sky panels, slip them into their own special storage bag. It helps protect them from damage and fits nicely into the rear cargo area.

360° PROTECTION

RENEGADE OFFERS MORE THAN 70 AVAILABLE SAFETY AND SECURITY FEATURES. MANY OF THEM CAN BE VIEWED AND CONTROLLED THROUGH THE DRIVER INFORMATION DISPLAY (DID) ON RENEGADE'S INSTRUMENT PANEL.

PEACE OF MIND BEGINS WITH SEVEN STANDARD AIR BAGS⁷ Your sense of security is fully met with Renegade's all-around air bag⁷ system. Full-length front and rear side-curtain, driver inflatable knee bolster, seat-mounted side for front occupants, and advanced multistage driver and front passenger air bags⁷ all work in tandem to help provide encompassing protection. Standard.

ELECTRONIC STABILITY CONTROL (ESC)⁸ A vehicle-wide network of safety sensors provide instant aid should they detect you're veering off your intended path. ESC⁸ coordinates Electronic Roll Mitigation (ERM), Hill Start Assist (HSA), antilock brake system (ABS) and Brake Assist, all-speed traction control and Trailer Sway Control (TSC)⁸, sending them into action when needed. Standard.

UCONNECT⁹ VOICE COMMAND⁴ Allows driver to safely send, reply to or listen to a text, take or make phone calls, request detailed information like fuel prices, get navigation directions and more while keeping both hands on the wheel. Available on Bluetooth[®]-compatible smartphones.

TRAILER SWAY CONTROL (TSC)⁸ Crosswinds and traffic hold no sway over you and your payload. As part of ESC⁸, TSC⁸ helps keep you and the toys you are towing safely on course. Standard.

CHASSIS STRENGTH Renegade delivers exceptional peace of mind with a hero's heart – a strong unibody structure is constructed with nearly 70 percent high-strength steel. Standard.

ELECTRONIC ROLL MITIGATION (ERM) As an extension of ESC⁸, ERM employs ESC⁸ sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control. Standard.

UCONNECT ACCESS⁹ WITH 9-1-1 CALL¹⁰ AND ROADSIDE ASSISTANCE CALL¹¹ A direct connection to help is right at hand with Uconnect Access⁹, the next benchmark in emergency vehicle assistance. Two buttons on the overhead console offer connections to a 9-1-1 call center,¹⁰ or press "Assist" to quickly summon roadside help!¹¹ Available.

PARKSENSE[®] REAR PARK ASSIST SYSTEM¹² Renegade can help you park and back out with grace. This available system uses rear ultrasonic sensors to determine relative distance. Readouts in the DID notify the driver of rear object proximity.

PARKVIEW[®] REAR BACK-UP CAMERA¹² Back out safely with grace. This system helps bring previously hidden rear objects to your attention, on-screen in good time to react. Dynamic grid lines help guide the driver by bending with the degree of steering. Available. Requires Uconnect 5.0 or 6.5AN radio.

BLIND SPOT MONITORING (BSM)¹³ AND REAR CROSS-PATH DETECTION¹² These sentry systems constantly monitor the space between you and other drivers via dual wideband radar sensors located in the rear quarter panels. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors. Rear Cross-Path Detection¹² notifies you of vehicles crossing your path when in Reverse or backing out of a parking space. Available.

LANESENSE[®] LANE DEPARTURE WARNING (LDW) PLUS¹⁴ The vehicle's lane position is monitored by a camera mounted near the rearview mirror and, should the driver drift outside of lane boundaries and no turn signal is applied or if the driver's hands are off the wheel, a visual warning through the Driver Information Display (DID) is given and steering-wheel movement is felt. Available.

FORWARD COLLISION WARNING (FCW) PLUS¹⁵ Radar sensors detect when Renegade may be approaching another vehicle too rapidly and send an audible and visual alert along with a brake jerk if the driver does not react in time. Includes Advanced Brake Assist (ABA), which increases brake pressure if the driver isn't braking enough, and the Collision Mitigation System (CMS) reacts if the driver doesn't, which will actuate the brake system to avoid a collision. Available.
