CAN YOU REALLY CALL IT 'ENTRY LEVEL' IF IT GIVES YOU SIX AIRBAGS AND MORE ROOM THAN SOME COMPACT CARS?

Why is it that with most so-called "entry level" cars, your first instinct is to exit? At Hyundai, we don't believe it has to be that way. Which is why we created Accent. Entry level, sub-compact, pocket rocket – call it what you want, but Accent is proof that a small car can think big.

Technically, Hyundai Accent compares with sub-compacts like Honda Fit and Toyota Yaris. Yet the fact is, Accent has more interior room than those cars' larger siblings, Civic and Corolla. Its safety engineering includes six airbags, standard. It gets the highest possible rating – five stars – in frontal collision crash tests conducted by the National Highway Transportation Safety Administration. It gets up to 36 MPG,¹ yet it's got more horsepower than Toyota Yaris. And it's backed by America's Best Warranty.² Of course, there is one thing you'll find about the Hyundai Accent that's not very big at all: Its sticker price.

The logo for the Hyundai Accent Blue edition, featuring the word "blue" in a stylized, lowercase, blue font with a white outline.

INTRODUCING ACCENT BLUE

For 2010, Hyundai proudly introduces a high-mileage BLUE edition to our acclaimed Accent lineup. Models sporting this "Blue" insignia deliver outstanding fuel economy at an outstanding price. In fact, our BLUE Accent is priced lower than any other Accent model, making it as economical on the showroom floor as it is on the open road.

¹ EPA estimates for comparison. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition. ² See dealer for LIMITED WARRANTY details.

SURPRISE PACKAGE.

A funny thing happens when you compare the room inside a Hyundai Accent to that of other sub-compacts. There is no comparison. Hyundai designers gave Accent so much space inside, it's classified as a Compact Car by the U.S. Government. In fact, Accent has up to 15.9 cubic feet of cargo volume, more than Honda Civic or Toyota Corolla. It's got more rear head room than they do, too.

Step into an Accent, and you'll find that we put all that space to good use. On most models, air conditioning comes standard. Conveniences like power windows with driver's auto-down, power door locks and power outside mirrors are all available on 3-door and 4-door models. And the standard 60/40 fold-down rear seat lets you split how you want it folded. So you have the flexibility to haul home those antique fair finds while still saving a seat or two for passengers.

CRANK UP THE VOLUME

A 6-speaker, 172-watt audio system with CD player, MP3 readability and XM® Satellite¹ radio is standard on the SE and GLS. And for 2010, steering-wheel-mounted audio controls are standard on SE and optional on GLS.

IPOD®/USB AND MP3 AUXILIARY INPUT JACKS

Plug in your iPod® or other portable music player.² All your tunes will come bursting through the Accent's audio system.

BLUETOOTH®³

A built-in microphone and speaker let you enjoy hands-free phone calls with exceptional clarity. Available as an option on Accent models, the system also has the ability to recognize multiple phones.

¹ XM® Satellite Radio requires XM subscription sold separately after complimentary introductory period. See your dealer for details. Fees and programming subject to change. XM service only available in the 48 contiguous United States. ©2009 XM Satellite Radio Inc. XM name and logos are registered trademarks of XM Satellite Radio. Other trademarks and channel names are the property of their respective owners. ² iPod is a registered trademark of Apple Inc. ³ The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Bluetooth is not available on Accent Blue models.

2010 ACCENT _ INTERIOR

SE INTERIOR IN BLACK CLOTH

NHTSA 5-STAR RATING.

Three-point seatbelts for every seat. Front seatbelt pretensioners. Front and rear crumple zones. Body-side reinforcements. Six airbags, standard. No wonder NHTSA gave the Accent GLS their highest crash rating for frontal impacts.¹

Behind the wheel, you'll find some of the same technologies that satisfy a driver's sporting desires also amplify the car's active safety features. Our 3-door Accent SE is dialed-in with a sport suspension that uses stiffer springs, dampers and a big, fat stabilizer bar. It also comes equipped with a quick-ratio steering rack. Point Accent SE into a corner, press the accelerator, and you'll feel the taut control these special engineering tweaks create.

ANTI-LOCK BRAKES

ABS uses computerized sensors to detect and prevent wheel lock-up, helping you maintain steering control while braking hard in emergency situations.

STRUCTURAL INTEGRITY

Accent surrounds you with a body that incorporates high-tensile steel, rear crumple zones, bodyside reinforcements and hood-buckling creases to protect you in an impact from any direction.

ELECTRONIC BRAKE-FORCE DISTRIBUTION

This technology varies the brake force applied to each wheel based on road conditions, speed and load, among other factors. By applying the maximum brake pressure needed, braking distances are minimized.

¹ Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).
