

2008 | TRIBECA

A full-page background image of a vast, calm blue ocean under a bright, cloudy sky. The water is a deep, clear blue, and the sky is a lighter blue with soft, white clouds. The horizon line is visible in the lower third of the image.

READY FOR MORE.

IT'S WHAT MAKES A SUBARU, A SUBARU.

Tribeca Limited in Desert Beige leather with optional navigation system and third-row seating.

THE SUBARU TRIBECA

THE MANIFESTATION OF MORE.

The Subaru Tribeca offers everything you already love about Subaru—innovative engineering, intelligent design, impressive control and safety—while delivering even more. More power. More refinement. More versatility. More space. All in one dynamic, stylishly progressive SUV. From its incomparable driving experience, to its long list of updated amenities, from its smart 7-passenger seating configuration to its distinctive new design, the Tribeca is an example of what happens when the only compromise you make is to settle for more.

> VERSATILITY
TO BRING EVEN MORE

Tribeca Limited in Desert Beige leather with optional navigation system.

INTERIOR

Let the spaciousness envelop you. Admire the beautiful design layout. Enjoy the expansive legroom in the second row. The Tribeca interior makes a strong claim—more of a good thing is even better. In other words, it is a win-win when you can appreciate the bold styling while celebrating the subtle touches. From the warmth of the ambient lighting and the overall harmony of its design to the feel of the premium materials used in this well-appointed interior, the Tribeca provides thoughtful features to enhance every drive.

AMBIENT LIGHTING

Illuminate your drive with the warm inviting glow of the Tribeca ambient lighting, found on the center console and throughout the cabin.

DUAL-ZONE CLIMATE CONTROL

The dual-zone climate control provides independent temperature adjustments for both the driver and front passenger. And there's an available rear-cabin air conditioner with multiple fan speed settings for passengers in the back.

REAR VISION CAMERA

See exactly what's behind you with the help of the rear vision camera, included with the optional navigation system. It transmits images from the camera mounted above the license plate area, providing a rearward view while you're in reverse.

SEATING FEATURES

Find your perfect driving position—and keep it, with 2-position driver seat memory. Standard on the Tribeca Limited, this feature memorizes the settings for you and another driver and automatically reverts the seats at the push of a button. You'll also stay warm with heated front seats standard on the same model.

NAV NAVIGATION SYSTEM

Just a few taps on the available navigation system and you'll have a guide, whether it's to that out-of-the-way diner or the amusement park across the country. When not in use, you can get information on your fuel economy, maintenance reminders, a calendar, calculator and controls for vehicle settings.

AUDIO | ENTERTAINMENT

Whether it's a family vacation or a night on the town, programming your next trip has never been more fun. With a full suite of audio and entertainment features, the Tribeca can seem more like a traveling entertainment center than transportation. Drive to your favorite playlist. Have the kids check out the latest DVD release or their favorite video game on the available rear-seat DVD entertainment system. Enjoy a clear signal on satellite radio so you can listen to uninterrupted music, news or comedy—city to city, coast to coast. And having been fully entertained, it's possible that every once in a while the family will enjoy the scenery.

DVD ENTERTAINMENT

Your passengers can enjoy their favorite movie on the road with the available rear-seat DVD entertainment system, offering a large 9-inch monitor with wide screen format, wireless headphones, video iPod® compatibility (additional equipment required) and remote. They can also plug in a video camera or a console to play video games, or simply play an audio CD. When you put the vehicle in park, you can even watch the movie on the multifunction screen in the dashboard.

AUDIO SYSTEMS

Find your groove with the 6-speaker audio/single-disc CD player. Or be dazzled by the premium 9-speaker system of the Tribeca Limited with its 6-disc in-dash CD changer to keep the music flowing. Both can read MP3-formatted discs. Control it all with the steering-wheel-mounted controls that let you keep your hands in their proper driving positions.

AUXILIARY AUDIO JACK

Keep your playlists handy accessible with the auxiliary audio jack, which will accommodate your iPod® or virtually any portable media player. Located in the center console next to the 12-volt powerpoints, it can be tucked away when not in use. So plug it in, crank it up and enjoy your latest downloads.

SAT SATELLITE RADIO

Listen to rock, jazz, classical or any channel in digital quality sound, wherever your journey may take you. Every Tribeca is pre-wired for XM® or SIRIUS™ Satellite Radio¹ that lets you access over 130 channels of satellite feed. On navigation system equipped models, XM radio is standard.²

¹ Subscription and additional equipment required.
² Activation and monthly subscription sold separately.

7 PASSENGER SEATING

Travel in comfort with five. Maximize your cargo space. Or go with seating for seven. With optional, easily-accessed third-row seating and a sliding second row, you have true flexibility. Whatever you need, the Tribeca offers you a seamless blend of design and functionality that gives you tons of seating options. And more.

Tribeca Limited in Deep Bronze Metallic with Desert Beige leather and optional third-row seating.

VERSATILITY

Smart ways to carry people and luggage wherever you're going is something you expect from Subaru. Tribeca builds on that promise with expanded options to meet its expanded room. It's easy to reconfigure the cabin to meet your needs with almost 75 sq. ft. of cargo space, up to 64 unique seating configurations with the flat-folding second and third row seating and room for up to seven. From bringing home the groceries to going on the family vacation, the Tribeca can adapt to your life. Whatever comes your way.

SECOND ROW

With a seatback split three ways, the flexible design lets you easily configure the space. Seat three across, or fold down one or two seatbacks to carry longer cargo. The second row slides almost eight inches front to back for greater legroom and easy access to the third row, and also reclines for comfort.

THIRD ROW

The placement for the third-row seatback lets you utilize the entire row for full 7-passenger capability. You can also access the seats from both sides of the vehicle. Or fold one or both seats for access to the 37.6 cu. ft. of cargo space. With the second-row seats also folded, you'll have up to 74.4 cu. ft. of capacity.

> POWER
TO ACCELERATE YOUR LIFE

SUBARU BOXER ENGINE

Every engine generates power. But the unique, 256-horsepower, 247 lb.-ft. of torque, 3.6-liter 6-cylinder SUBARU BOXER engine of the Tribeca has been engineered to give you so much more. Designed to deliver increased punch when you need it and smooth acceleration anytime, there's no surprise that the engine offers a dynamic performance profile. But its horizontally opposed configuration also helps give the Tribeca a lower center of gravity, enhancing stability and precision handling for the

drive. The result is a fully-realized combination of power and control, so you can do what you need to do, when you need to do it. Paired with a redesigned 5-speed automatic transmission with SPORTSHIFT® manual control, you'll feel the power from off-the-line to redline. For the first time, it requires only regular unleaded to make it easier on the wallet. With enhanced efficiency, greater durability, impressive performance and intelligent design the SUBARU BOXER engine packs quite a punch.

AIM HIGH

PLACE LOW

SMOOTHER OPERATION

The 180-degree boxer engine layout allows the pistons to move in exact horizontal opposition, effectively negating vibrations. Its smoothness not only sweetens power delivery, it also helps increase longevity.

SUBARU BOXER ENGINE

INLINE ENGINE

V-TYPE ENGINE

GREATER CONTROL

Compared to other types of engines, the lower profile of the SUBARU BOXER engine helps the Tribeca lean less around curves and while maneuvering, giving you greater control overall.

TRIBECA

COMPETITOR

> CONTROL
TO ELEVATE THE JOURNEY

SUBARU SYMMETRICAL ALL-WHEEL DRIVE

Rain. Roadwork. An unexpected turn. You never know what's coming. So give yourself the adhesive advantage of the standard Subaru Symmetrical All-Wheel Drive (AWD) system to keep your tires sticking to the road. Its uniquely balanced configuration helps ensure stability and poise. Its efficiency at transmitting power delivers greater grip and quick response to slippage. And we've been perfecting AWD for over 30 years. Giving you the confidence to handle virtually any road on your own terms.

NON-SLIP GRIP

VTD ALL-WHEEL DRIVE

Under normal driving conditions, the Variable Torque Distribution (VTD) system splits power 45% front and 55% rear for a sporty feel. When wheel slippage is detected, the system dynamically reapportions torque for maximum grip.

Image above shown for illustration purposes only.

DRIVING DYNAMICS

Open roads and the errant pothole. Effortless acceleration and the odd ice patch. No matter what your drive may hold in store, you know the Tribeca can handle it all. With double wishbone rear suspension and steering that delivers car-like responsiveness and comfort, you feel in total control almost anywhere. The Tribeca delivers a truly great driving experience, no matter what the road throws your way.

SUSPENSION

Between you and the road is the performance-tuned Tribeca 4-wheel independent suspension. The double-wishbone rear suspension supplies a fluid, yet responsive ride, working in concert with the front suspension to help enhance stability and control. And its ground clearance of 8.4 inches helps give you access over rougher paths. The fully independent suspension of the Tribeca has been tuned to take corners with spirited performance, while providing a supple, smooth ride for the comfort of your passengers.

BODY STRENGTH

The Tribeca is built on an extremely rigid platform, which not only aids its considerable handling abilities, but also provides a solid, smooth, quiet ride.

BRAKES

Every Tribeca is equipped with four-wheel disc brakes that are enhanced with Anti-lock Brake System (ABS) and Electronic Brake-force Distribution (EBD) that provides more even and stable braking by optimally apportioning power to the front and rear wheels.

VDC

VEHICLE DYNAMICS
CONTROL

This electronic stability control system helps keep you on your intended path by measuring variables such as steering input, braking and vehicle angle. Sensing any slide that causes the vehicle to deviate from your intended course, VDC applies individual brakes and/or reduces engine power to counteract the slide and help keep you safely in control.

> TECHNOLOGY
FOR GREATER PROTECTION

STRENGTH AT ITS CORE

Our multidimensional approach to safety is integrated into every Subaru. Every part, from advanced control technologies right down to the welds of the reinforced structure, has been engineered to provide the greatest amount of protection. Providing you with the peace of mind that is the essence of every Subaru experience.

“Top Safety Pick”¹ - Insurance Institute for Highway Safety

Achieved “Best Rollover Rating” in SUV testing.
★★★★★ for front and side impact collisions.²

- National Highway Traffic Safety Administration

ACTIVE SAFETY

Keeping you safe begins with the seamless traction of Subaru Symmetrical AWD and responsive handling to help keep your vehicle in control. These inherent Subaru advantages are supported by a comprehensive array of features to help you in an emergency. At Subaru, every innovation is designed with your protection in mind.

ELECTRONIC STABILITY CONTROL

The computer sensors of the Vehicle Dynamics Control (VDC) system continually monitor driving conditions to detect and help correct unintended deviations in the vehicle's trajectory and help set you back on the correct path.

BRAKE ASSIST

This feature helps provide safer braking in a panic stop. By sensing the speed with which the brake pedal is depressed, maximum brake pressure is immediately applied even if your right foot doesn't supply enough force.

FRONT, SIDE AND SIDE-CURTAIN AIR BAGS (SRS)³

An intelligent front air bag system senses driver's seat position and front-passenger seat occupancy to determine the safest deployment level for each. A rollover sensor detects an imminent rollover and activates the seat belt pretensioners and deploys the side-curtain and side-impact air bags.

REINFORCED CONSTRUCTION

Engineered for exceptional strength to help maintain the integrity of the cabin structure, the innovative Subaru ring-shaped reinforcements around the passenger compartment also help dissipate crash-impact energy away from occupants.

PASSIVE SAFETY

Subaru innovations not only help you evade a collision. They help you and your passengers avoid injury, thanks to features like side-impact beams, active front head restraints and the Subaru safety pedal system. And a full array of air bags and a Ring-Shaped Reinforcement Frame around the cabin help dissipate the energy of an impact. Together, they help the Tribeca achieve top ratings in crash tests.

¹ Rating for 2007 B9 Tribeca. Rating based on Insurance Institute for Highway Safety 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, and 20-mile-per-hour rear-impact test. For more information, contact the Insurance Institute for Highway Safety or visit their website at www.iihs.org.

² Ratings for 2008 Tribeca. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. Visit safercar.gov for more information.

³ Always wear seat belts. Children should be properly restrained in the rear seat.

YOUR SUBARU. YOUR WAY.

TRIBECA

Performance and value. Get the full complement of safety features that Tribeca has to offer, plus a new integrated key fob, a 7-inch in-dash multi-function screen, digital dual-zone climate control and a tri-split, reclining, sliding and folding second row. In the cargo area is a sizeable underfloor tray.

TRIBECA LIMITED

It's a more luxurious way to enjoy Tribeca versatility and performance, with more features and more refinement. A moonroof, leather-trimmed upholstery and heated front seats enhance comfort. Roof rails let you carry more cargo. And a premium audio system with 6-disc in-dash CD changer gives you more music.

AVAILABLE THIRD-ROW SEATING

Expand your options to create full 7-passenger seating capacity with the optional third-row seat. It has a 50/50 split for versatility so you can fold it completely into the floor when not in use. And it's easy to access from both sides thanks to the sliding second row. It also features rear auxiliary air conditioning, so passengers can control their climate.

Tribeca Specifications

ENGINE AND DRIVETRAIN	TRIBECA AND TRIBECA LIMITED
Engine	3.6-liter DOHC aluminum-alloy 24-valve 6-cylinder horizontally opposed SUBARU BOXER engine with Dual Active Valve Control System (DAVCS). Low-friction pistons. Iridium spark plugs.
Power	256 hp @ 6,000 rpm
Torque	247 lb-ft @ 4,400 rpm
Transmission	Standard 5-speed adaptive electronic direct-control automatic with SPORTSHIFT manual control
Emissions	Certified Low Emission Vehicle (LEV2 LDT2)
FUEL	
Fuel economy (city/highway)	16/21 mpg ¹
Fuel requirement	Unleaded gasoline (87 octane)

SUBARU SYMMETRICAL ALL-WHEEL DRIVE

Variable Torque Distribution (VTD)	VTD All-Wheel Drive utilizes an electronically controlled variable transfer clutch in conjunction with a planetary-type center differential. Torque distribution is normally configured at a performance-oriented rear-wheel-biased 45/55-split front-to-rear. Utilizing Vehicle Dynamics Control (VDC) sensors, VTD All-Wheel Drive evaluates road conditions by continually estimating surface friction and adjusts torque distribution accordingly front-to-rear for optimum traction.
------------------------------------	---

STABILITY AND TRACTION

Vehicle Dynamics Control (VDC)	Integrated with VTD All-Wheel Drive, standard VDC stability control utilizes sensors which constantly monitor wheel speed, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.
Traction Control System (TCS)	VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

CHASSIS

Steering	Engine-speed-sensitive power-assisted rack-and-pinion. Turns lock-to-lock: 3.4. Turning circle: 37.4 ft.
Suspension	Performance-tuned 4-wheel independent raised suspension. Front: Strut-type with lower L-arm. Stabilizer bar. Rear: Double-wishbone with upper A-arm. Stabilizer bar.
Brakes	4-wheel disc, ventilated front and rear. 4-channel, 4-sensor ABS with Electronic Brake-force Distribution (EBD).
Brake Assist	When emergency braking is detected by how quickly the brake pedal is applied, maximum brake pressure is immediately applied.
Brake discs	Front: 12.3 in./Rear: 12.4 in.

GENUINE SUBARU ACCESSORIES

Make a Subaru your Subaru with Genuine Subaru Accessories. From styling enhancements to storage solutions, you can outfit your Subaru to be as unique as your adventures, giving you the versatility to take everything—and anything—you need. And backed by a 3-year, 36,000 limited warranty, they're built with Subaru reliability in mind.

¹ AUTO-DIMMING MIRROR WITH COMPASS

The rearview mirror darkens to help reduce glare when headlights are detected from behind the vehicle. It also features an integrated electronic compass display.

² FRONT BUMPER UNDERGUARD

Adding a touch of style to a rugged profile, the front bumper underguard protects the lower bumper area from brush and debris.

³ ROOF-MOUNTED BIKE CARRIER

Featuring padded jaws that can securely hold bikes with 1" to 3" downtubes, each kit transports one bicycle in secure fashion on almost any kind of trip. Clamps sold separately.

⁴ HEAVY-DUTY ROOF CARGO BASKET

This roof basket mounts to cross bars and accommodates up to 100 pounds of cargo capacity. The kit includes mounting hardware, black cargo net with hooks and a custom fairing to help deflect wind noise.

Shown with Fork-mount Bike Carrier. Front wheel holder also sold separately

⁹ ALL-WEATHER FLOOR MATS

Custom-fitted, heavy-gauge floor mats help protect your vehicle carpet from sand, dirt and moisture. The mats are available for 5- and 7-passenger applications.

¹⁰ CARGO ORGANIZER

Conveniently transports your outdoor gear or up to four grocery bags. Quickly collapses for easy storage when not in use.

¹¹ PUDDLE LIGHTS

Illuminate your path with LED puddle lights mounted on both rocker panels, so you see the ground and avoid trouble when entering and exiting the vehicle.

¹² REAR BUMPER COVER

Protect the upper surface of the rear bumper from scratches and dings with a rugged rear bumper cover.

⁵ CARGO TRAY

Helps protect cargo area from dirt and spills. Can be easily removed and rinsed clean.

⁶ CARGO NET

Neatly holds cargo and prevents it from sliding while the vehicle is in motion.

⁷ CHROME-FINISHED 18-INCH ALLOY WHEEL

Ride even more stylishly with these 18-inch chrome finished alloy wheels.

⁸ REMOTE ENGINE STARTER

Conveniently allows vehicle to be started by remote control (up to 400 feet away depending on obstructions) so that the vehicle's interior temperature is more comfortable upon entry.

¹³ MOONROOF AIR DEFLECTOR

This air deflector helps reduce wind noise and cuts sun glare.

¹⁴ SKI & SNOWBOARD CARRIER

Gear up for the slopes with this carrier rack that holds up to six pairs of skis or four pairs of skis and poles. May also be used to carry snowboards or fishing rods.

¹⁵ TRAILER HITCH

Heavy-duty rated at 200 lbs. tongue weight and 2,000 lbs. towing capacity, this hitch is built strong. A separate accessory transmission oil cooler increases towing capacity to 3,500 lbs.

Ball not included. Trailer brakes may be needed.

¹⁶ SPLASH GUARDS

The durable polymer material helps protect vehicle from stones and road grime. Available in a set of four.

OWNERSHIP BENEFITS

Enjoying your Subaru for years to come—that's the promise of our comprehensive warranties and roadside assistance program. It's a fact attested to by 95% of Subaru vehicles sold in the past 10 years that are still on the road today.¹ It's the confidence you feel when you get behind the wheel.

NEW CAR LIMITED WARRANTY

3 years or 36,000 miles, whichever comes first.

POWERTRAIN LIMITED WARRANTY

5 years or 60,000 miles, whichever comes first.

RUST PERFORATION LIMITED WARRANTY

5 years, unlimited mileage.

WEAR ITEM LIMITED WARRANTY

3 years or 36,000 miles, whichever comes first. We cover you where others don't. Repairs to the following items will also be covered under warranty.

- Brake Pads
- Shoe Linings
- Clutch Linings
- Wiper Blades
- Transmitter Batteries

THE SUBARU ROADSIDE ASSISTANCE PROGRAM

This comprehensive package covers all 2008 Subaru vehicles during the first 3 years or 36,000 miles, whichever comes first. By calling the toll-free number in the Owner's Information Kit, Subaru owners can take advantage of any of the following benefits:

- 24-hour Roadside Assistance, seven days a week, 365 days a year, throughout the continental United States including Alaska.
- Emergency Towing Service to the nearest authorized Subaru dealer.
- Emergency Roadside Assistance for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle) and emergency fluid replacement.

SUBARU ADDED SECURITY®

It's possibly the most important option you choose. Protect your investment with a Subaru Added Security extended service contract—the only one backed by Subaru of America, Inc. Ask your salesperson for coverage details and assistance in selecting the plan that's best for you, up to 7 years or 100,000 miles.

SUBARU.COM

Begin your Subaru experience right in your own home. Here, you can find extensive information, including specs, photos and reviews. Build your own Subaru, locate dealers and schedule a test drive. After your purchase, activate your free My.Subaru site, where Subaru owners can track their vehicle's service history, schedule service appointments, receive special offers exclusive to My.Subaru members and much more.

SHARE THE EARTH

Integral to the Subaru ownership experience is understanding our never-ending commitment to finding innovative ways of preserving the environment. It's about leaving as small a footprint as possible—respecting the Earth, respecting the future, and respecting the consumer. Resulting in technology with real-world benefits that everyone can enjoy.

As a corporation, we feel that it is essential to be responsible citizens of Planet Earth. Our dedication to ease the burden on the environment at every stage begins from the time that a vehicle is conceptualized to when it's fully integrated into your life. During the process, we've become the first U.S. auto assembly plant to achieve zero landfill status, with the entire plant generating less waste than the average U.S. household. We've received ISO 14001 certification for recycling and waste reduction in every stage of manufacturing, marketing and sales. And we offer a full array of vehicles that meet PZEV (Partial Zero Emissions Vehicle) classification.² Some of our most popular models have available engines that have received the EPA's stringent SmartWay designation, which means they emit lower amounts of pollutants that cause smog. Spew less of the carbon dioxide that causes global warming. And have impressive fuel economy compared to other vehicles in their class. We think that owning a Subaru should be as rewarding as driving one.

¹ Based on R. L. Polk & Co. registration data in the U.S. 1997 to 2006. ² For 2008 Outback 2.5i, Legacy 2.5i and Forester 2.5X models certified as Partial Zero Emission Vehicles (PZEV) that are sold, registered and operated in California, Connecticut, Maine, Massachusetts, New York, Rhode Island or Vermont all emission parts are covered for 15 years/150,000 miles, whichever comes first. For complete warranty and program information, including coverage and disclosures see your Subaru dealer or log on to www.subaru.com.

Ready for more.

It's what makes a Subaru, a Subaru.
