

07 **Honda**

Cars & Trucks

It's been fun from Day One.

For almost 60 years, Honda has been listening carefully to understand what people want. But we already knew that people need to enjoy themselves. So it's always been a Honda core value to make getting where you're going more fun. And it's a standard feature you'll appreciate every time you take the wheel of a Honda car or truck.

Honda builds more engines than anyone else.

You can even rule the waves on a Honda.

Soichiro Honda founds Honda Motor Co.

1948

Honda becomes the leader in Japanese motorcycle production

1955

Honda introduces the Super Cub

1958

American Honda Motor Co. is established

1959

Honda stuns the racing world, taking the 125cc and 250cc championships at the Isle of Man TT

1961

Honda builds its first production car, the S500

1963

Honda begins automobile racing in Formula 1™

1964

First F-1 win, at Mexican Grand Prix

1965

Honda sells its 1,000,000th motorcycle in the U.S.

1968

Honda rocks the status quo, unveiling the 4-cylinder CB750 streetbike

1969

First Honda car arrives in the U.S., the N600

1970

Revolutionary CVCC® engine complies with tough Clean Air Act without using a catalytic converter

1974

For Adopt-a-Planet, we chose Earth.

Our environmental record is exceptional. Honda has been out front in meeting California's stringent emissions regulations. Our natural-gas Civic GX is the cleanest internal-combustion vehicle, as certified by the EPA¹. And the Union of Concerned Scientists has named Honda the "Greenest Automaker" three times in a row.²

Environmentology

Honda's legacy of innovation is unmatched in the vehicle industry. We have long acted on our spirited commitment to developing environmentally responsible technology. The results include world-changing advancements in fuel economy, low emissions and leading-edge hybrids. And as always, our engineers' attention is focused on the future. In fact, a Southern California family is already driving a limited-production Honda FCX hydrogen fuel-cell car in the Los Angeles area on a daily basis. It's all part of Honda's Environmentology.™

High mileage meets high performance.

Honda offers Accord and Civic hybrids.

In the first-ever EPA fuel-economy rankings, Civic comes out on top

1977

Honda begins assembling motorcycles in the U.S.

1979

First Honda automobiles are assembled in the U.S.

1982

Honda returns to Formula 1 racing

1983

Honda R&D Americas opens in Torrance, CA

1984

Honda-powered Formula 1 cars win the Constructor's Championship – the first of six consecutive titles

1987

Soichiro Honda is inducted into Detroit's Automotive Hall of Fame

1989

American Honda exports its 100,000th U.S.-assembled automobile

1992

Honda wins the World Solar Challenge race across Australia

The Honda Accord becomes North America's number-one export model

1994

Odyssey is introduced—with the world's first Magic Seat®

Honda becomes the first maker to develop a production ULEV engine

Honda announces research project into turbofan jet engines for small aircraft

1997

ULEV Accord sales begin in California

EV Plus electric car is launched

The Civic GX natural-gas vehicle goes into production in Ohio

1998

Honda fuel-cell prototype vehicles are introduced

1999

The Insight becomes the first gasoline-electric hybrid sold in the U.S.

Honda opens the world's first indoor all-directional vehicle-to-vehicle crash-test facility in Tochigi, Japan

2000

Honda Accord becomes the first SULEV on the market

Front airbags inflate and deflate in a fraction of a second.

Strength plus smarts equals safety.

Honda is achieving stellar crash-test results.

We're making Safety for Everyone.

Through a comprehensive and evolving approach to safety, Honda seeks to provide a high level of occupant and pedestrian protection in our cars and trucks, regardless of size or price, as well as increased crash compatibility with other vehicles.

Several Honda models have earned the NHTSA's 5-star crash-test rating.*

*Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (NCAP), found at safercar.gov.

We build in safety from the ground up.

Honda earns its 6th consecutive CART Driver's Championship

Honda introduces the humanoid robot ASIMO™

Civic Coupe becomes the first small car to earn NHTSA 5-star crash ratings in both frontal- and side-impact testing

The Civic GX becomes the first car certified as AT-PZEV

2001

Honda introduces its first mass-market hybrid, the Civic Hybrid

2002

The Honda FCX becomes the first fuel-cell vehicle ever to earn certification from the EPA and CARB

Honda celebrates 25 years of listing on the New York Stock Exchange

Honda introduces the AquaTrax®, the company's first personal watercraft

Honda assembles its 10,000,000th vehicle in the U.S.

2003

Four out of five Honda vehicles sold in the U.S. are assembled in North America, with the help of 530 U.S. suppliers

Honda has over 25,000 American associates

Honda takes the top seven places at the Indianapolis 500®

2004

Honda wins the Indy Racing League Manufacturer's Championship

Five Honda models earn 5-star ratings in crash testing from NHTSA, far more than any other brand

Honda unveils its Safety for Everyone initiative

Honda introduces the Ridgeline

2005

This job is a dream.

Honda is in the business of inventing the future. So our engineers are encouraged to set their minds free, dreaming up things like the world's most advanced humanoid robot, ASIMO. Or a mini 4-stroke gasoline engine that weighs only 6 lbs.

We believe ingenious thinking can make great things possible.

Go 64 ways with Element's ingenious seats.

Reaching new heights in the HondaJet™

There's never been an In-Bed Trunk™ – until now.

Honda delivers an FCX to a Southern California family – the world's first individual customers of a fuel-cell vehicle

Honda wins "North American Car and Truck of the Year" awards for Civic and Ridgeline

2006

Civic is the only small car to win the IIHS Top Safety Gold Award

Honda introduces Environmentology

Honda Civic GX, Civic Hybrid and Insight ranked in top 4 Greenest Vehicles of 2006 by ACEEE

Ridgeline wins no fewer than 6 Truck of the Year awards

Honda introduces the Fit

Civic Sedan

The two-tier instrument panel is a quick read.

Advanced style distinguishes a spacious cabin.

Civic EX Sedan shown in Alabaster Silver Metallic.

This is no time to stand still—the 2007 Honda Civic Sedan has all the moves to take you to the next level. It delivers inspiring power while using fuel responsibly.³ Handling is quick and precise thanks to its meticulously engineered steering and suspension systems. Its aerodynamic shape slips through the wind, and it boasts the latest in Honda safety technology. And you can even get the available Honda Satellite-Linked Navigation System™⁴ with voice recognition to help you keep the good times on course.

Engineering

140-hp (SAE net, Rev 8/04)* 1.8-Liter, 16-Valve i-VTEC®
4-Cylinder Engine

EPA Mileage Estimates

6-Speed MT (City/Highway): TBD

*Horsepower and torque calculations reflect SAE J1349 procedures revised August, 2004.

It's time you listened to your wilder side. For '07, we took all the high-performance technology of the Si Coupe and combined it with the extra spaciousness of the Civic Sedan. The Si's 197-hp rush comes from the latest member of Honda's legendary K20 engine family, with an 11:1 compression ratio and an 8000-rpm redline. Add the sport-tuned suspension, and you're ready for serious G-forces. All that, and you can even tell your practical side that it has four doors. That should keep it quiet.

Civic Si Sedan shown in Habanero Red Pearl with available Honda Satellite-Linked Navigation System⁴ and summer tires.

Civic Hybrid

Smart thinking meets smart style in the Civic Hybrid. Its refined gasoline-electric powertrain helps you pocket plenty of fuel savings—with up to 49 mpg³ during city driving. The air enjoys its status as an Advanced Technology Partial Zero-Emission Vehicle⁸ (AT-PZEV), the most stringent U.S. standard achieved by a gasoline-powered vehicle. You get stylish looks, spirited performance, roomy comfort and first-class convenience. And you never plug it in. Once again, Honda makes the ingenious look easy.

Engineering

110-hp (SAE net, Rev 8/04),* 1.3-Liter i-VTEC[®] 4-Cylinder Engine with Integrated Motor Assist IMA[®]
Continuously Variable Transmission (CVT)
Permanent Magnet Motor/Nickel-Metal Hydride (Ni-MH) Battery
Dual-Point Sequential (DSI) Ignition System with Immobilizer
Electric Power-Assisted Rack-and-Pinion Steering (EPS)
100,000-Miles-or-More Tune-Up Interval⁵

Safety

Front, Front Side and Side Curtain Airbags
Driver's and Front Passenger's Active Head Restraints
Driver's and Front Passenger's Seat Belt Reminder

Civic Coupe/ Si Coupe

Don't wait for tomorrow—hit fast-forward. That's what it's like slipping inside a sleek Civic Coupe.

There's big power, sharp handling, sophisticated safety and loads of high-tech features. So welcome to tomorrow—you're going to like it here.

Say two letters—Si—and you've said a mouthful. The Civic Si Coupe has the goods befitting the king of sport compacts. 197 hp. Six speeds. No compromises. If you're ready to rule, wrap yourself in those bucket seats and see what the deep bolsters are for.

Civic Si Coupe shown in Rallye Red with accessory fog lights and 18" alloy wheels and tires.

Accord Sedan

Leather and satellite navigation⁴ are available.

Accord EX-L V-6 Sedan shown in Alabaster Silver Metallic.

Driving an Accord can make any day better. No matter why you drive, an Accord is sure to make it more fun—our engineers count it as a requirement. Plus, you get modern styling, remarkable fuel efficiency,³ safety and luxury designed in too. For seriously sporting drivers, there's even an Accord EX-L V-6 Sedan available with a 6-speed manual transmission. Accord drivers know the human need for good times is at the heart of every Accord. The experts know something too—*Car and Driver* has placed Accord on its “10Best” Cars list again for 2006.⁹ For those counting, that's the 20th time.

Accord Hybrid

Yes, hybrids are about great fuel economy and ultra-low emissions. But with the 2007 Accord Hybrid, it's also about scintillating high performance. Because along with its 35-mpg³ highway rating, this Hybrid puts as much as 253 horsepower to work making your driving a lot more enjoyable. And luxurious comforts and conveniences aren't forgotten here at all—you may feel a little spoiled enjoying things like the supple leather trim and the dual-zone automatic climate control system. There's even a power moonroof to bring sunny skies or starry nights inside. Leave it to Honda to make social responsibility fun.

Accord Hybrid shown in Silver Frost Metallic.

Accord Coupe

How to take comfort in high performance.

The Accord Coupe is the complete package, offering legendary Honda quality, cutting-edge technology and a long list of safety features, including standard Vehicle Stability Assist™ (VSA®) on V-6 models. Plus, it's truly a driver's car, and has been meticulously engineered to deliver precise cornering, brisk acceleration and strong braking. And yes, it will readily accommodate you as well as four lucky others in luxurious comfort and sophisticated style. But we all know where the luckiest one of all gets to sit.

5-Speed MT (City/Highway) 33/38
5-Speed AT (City/Highway) 31/38 (Fit) 31/37 (Fit Sport)

*Horsepower and torque calculations reflect SAE J1349 procedures revised August, 2004.

The new Fit makes small feel big.

Fit Sport shown in Storm Silver Metallic.

Why be predictable? In the new Honda Fit, you make up the rules as you go. It's smart-sized, quick on the draw and up for anything but the usual. Its eager engine and compact size mean a great power-to-weight ratio for zigging and zagging through the day. Multiple seating modes can make room for five rowdy pals or an unexpected amount of odds and ends—or some of each. It's perfect when you're all about finding lots of new ways to go your own way. Work. Play. Make a scene. Because life's too short to follow someone else's rules.

S2000

Its cockpit is designed to focus your senses.

S2000 shown in New Formula Red.

It wasn't merely "inspired" by racing. The Honda S2000 was developed on the high-speed straightaways, breathtaking sweepers and tight hairpins of Suzuka, site of the Japanese Grand Prix, by engineers who have helped to achieve Honda's extraordinary heritage of success in motorsports. Settle into the cockpit, run it up through the gears and revel in its cornering prowess—you'll have no problem discovering this sport machine's true genetic code. The S2000 is the link between world-beating performance—and you.

Engineering

237-hp (SAE net, Rev 8/04)* 2.2-Liter, 16-Valve, DOHC VTEC®
4-Cylinder Engine
Close-Ratio 6-Speed Manual Transmission

⁵Horsepower and torque calculations reflect SAE J1349 procedures revised August, 2004.

Luxury meets roominess in the Touring model.

The Odyssey has long defined what a minivan can be. And year after year, the Odyssey proves itself a favorite among owners and automotive critics alike. It repeated its Best Van win in *Car and Driver's* 2006 "5Best" Trucks⁹ competition, and *Automotive Lease Guide* has again awarded its Minivan Residual Value Award to the Odyssey for 2006.¹³ People who drive one are quick to understand that Odyssey is more than transportation—it's a rolling showcase of technology, advanced safety and fun-to-drive performance. You could say it's the essence of everything Honda knows—in minivan form.

Odyssey Touring shown in Nighthawk Black Pearl.

CR-V

CR-V even offers an available navigation system.⁴

It's something new to crave. Sure, the CR-V has always offered a lot to love. But one look tells you that the all-new 2007 CR-V has taken desire to a whole new level. From its alluring sheet metal to advanced technology and available leather seating, this CR-V is everything you want. And true to its core values, it's also everything you need. Five adults can soak up its spacious comfort, with lots of cubic space left for cargo.¹⁴ And every new CR-V comes with a full complement of safety features, including six airbags and Vehicle Stability Assist (VSA). So the new CR-V is a lot more than just an irresistible new face.

CR-V EX-L shown in Whistler Silver Metallic.

*Horsepower and torque calculations reflect SAE J1349 procedures revised August, 2004.

The new Element SC pumps up the style.

Element SC shown in Root Beer Metallic with accessory tailgate spoiler.

The Element embodies a unique attitude—call it a freedom from convention. And it turns out, not trying to fit in has made Element just the thing for almost anything you're up to. Element's seats for four are so versatile and flexible, there are no fewer than 64 configurations for people and cargo. Wide-opening side cargo doors and the clamshell tailgate make loading and unloading a snap. And for '07, there's the new SC model with a low stance, sharpened suspension, slick interior and decidedly street-ready attitude. So no matter how you live life, the Element offers plenty of ways to get out and live it your own unique way.

Pilot

You can opt for leather and a navigation system.⁴

Pilot 4WD EX shown in Formal Black.

Pilot's energetic performance, agile handling, smooth ride, solid reliability and seating for eight make it ideal for all your adventures. The experts agree. It won the large SUV class among *Car and Driver's* "5Best" Trucks in '06—and every year since its release.¹⁶ We chalk up the Pilot's consistent success to its unique blend of ruggedness and refinement. Its handsome good looks team with go-everywhere 4WD capability and advanced safety technologies. And there's a 2WD model that features a 3.5-liter engine with mileage-boosting Variable Cylinder Management™ (VCM™). So you can adventure a little farther.

The rear seat flips up for even more cargo room.¹⁴

Ridgeline

Right out of the gate, the Ridgeline made its point, earning the 2006 “North American Truck of the Year” award. It’s tough, big and plenty powerful. And it’s a Honda, so it’s got plenty of versatility, innovation and performance, too. For starters, check out the huge, lockable In-Bed Trunk and an interior just as comfortable as it is functional. Then get out on a rough road and feel how 247 hp flowing through VTM-4® 4WD can smoothly power you ahead. The results are in—the Ridgeline is all truck. And then some.

Ridgeline RTX shown in Steel Blue Metallic.

Your dealer's team of trained technicians is at the ready to help keep your Honda in superb shape. All 2007 Honda vehicles—and any Genuine Honda Accessories installed at the time of purchase—are covered by the 3-year/36,000-mile New-Vehicle Limited Warranty.¹⁸ Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty, too.¹⁹ For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

Visit us at honda.com. Get the latest photos, MSRPs, features, specs and more. You can “build” your own Honda, deck it out with accessories—even ask for a dealer price quote, apply for financing and check dealer inventories.

HONDA

Financial Services

Whether you buy or lease your Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

HONDA Care

Honda Care[®] is a highly affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. See your dealer for all the details.
