

2006  
JAGUAR  
XJ

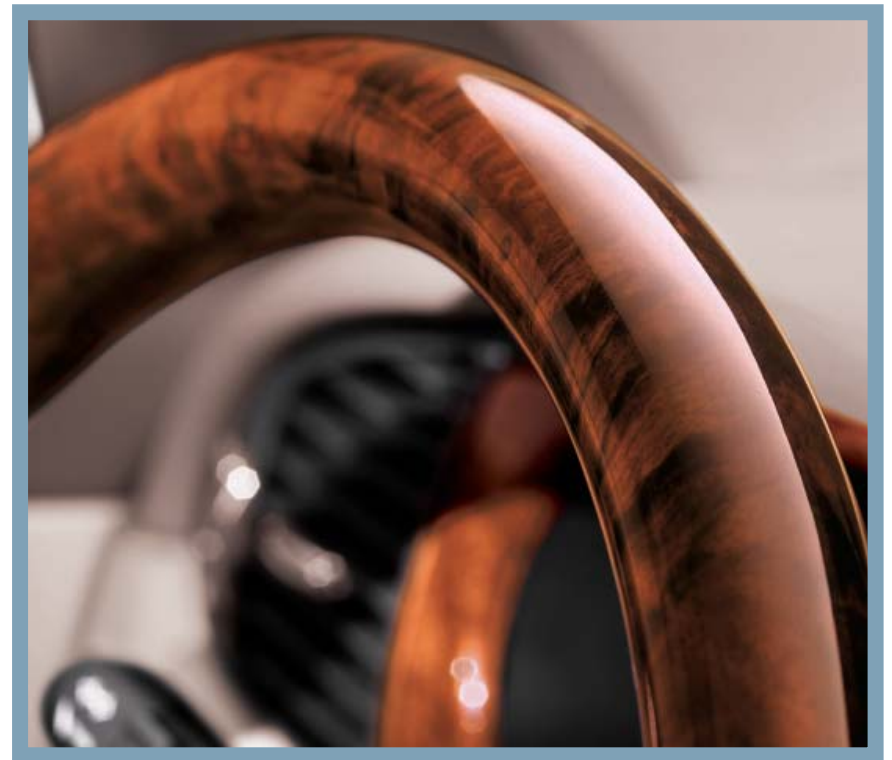

## BEAUTY THAT EXTENDS BEYOND THE SURFACE

There is no question that the 2006 Jaguar XJ is regarded as an object of beauty, not unlike the human form. The long, fluid lines that create its silhouette fall easily upon the eye, its proportions achieving a sense of lifelike elegance, grace and power.

It is, after all, a Jaguar, able to draw from the rich vocabulary of natural design cues that have long distinguished the XJ from other luxury sedans. But an XJ is no mere art object. It is a feat of radically advanced engineering, designed to bring the benefits of discreet technologies to its occupants.

The XJ's rivet-bonded, aluminum alloy monocoque is a clear departure from the construction used to create conventional automobiles. Aerospace construction methods build a foundation that is lightweight yet strong, ideal for achieving the aims of performance, safety and comfort. And for 2006, the Jaguar XJ aims even higher, with increased power, improved acoustics and many enhanced safety features.

## FEEL SATISFACTION BEYOND WORDS

An XJ is, by its nature, a very personal possession. Its artfully crafted interior, with its precise placement of controls and powerful yet intuitive technologies, is a reflection of all that is important to you. Open the door, slide into the driver seat and you are transported even before the car itself has ever moved.

It's your emotions that have begun a journey. Their destination is contentment, a sense of deep satisfaction with your immediate surroundings. There's no need to dwell on the exact source of your feelings: it is a sublime melding of many things, from twin-stitched seams to the face of a gauge, from the matched patterns of the wood to an acoustic interlayer laminated into the front and side glass.

Set the 2006 Jaguar XJ in motion, and the effect on your mood becomes more complex, but no less rewarding.

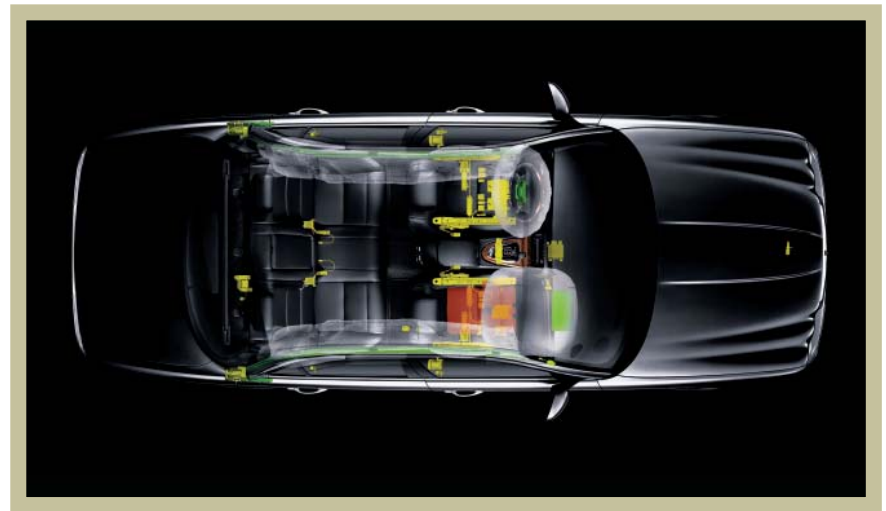

# PROTECTION

The safety engineering of the XJ is designed as a system, with each component supporting the functionality of the others. None of them acts independently, and the most critical component of the system is the driver.

Safety always demands that the driver and all passengers use their safety belts, and that the driver acts responsibly at all times. The safety engineering of the XJ includes an energy-absorbing front-seat system. Designed to help add an extra measure of protection in low-speed rear impacts, the system is triggered by the weight of the occupant being forced back into the seat by collision energy. The backrest moves rearward but remains upright for a distance of about two inches, then tilts rearward.

The combined effect of these two movements absorbs impact energy and reduces the relative acceleration of the front-seat occupant's head and body. And on all 2006 XJ models, a tire pressure monitoring system is standard. Radio-frequency transmitters at each wheel, including the full-size spare, warn the driver if tire pressure falls. Jaguar's Adaptive Restraint Technology System (A.R.T.S.) uses sensors to help optimize restraint protection for the occupants.

By detecting such variables as the presence, position and weight of the front passenger, the position of the driver in relation to the steering wheel, and safety belt use, A.R.T.S. can determine which safety systems to activate and, when applicable, the airbag deployment energy levels most appropriate.

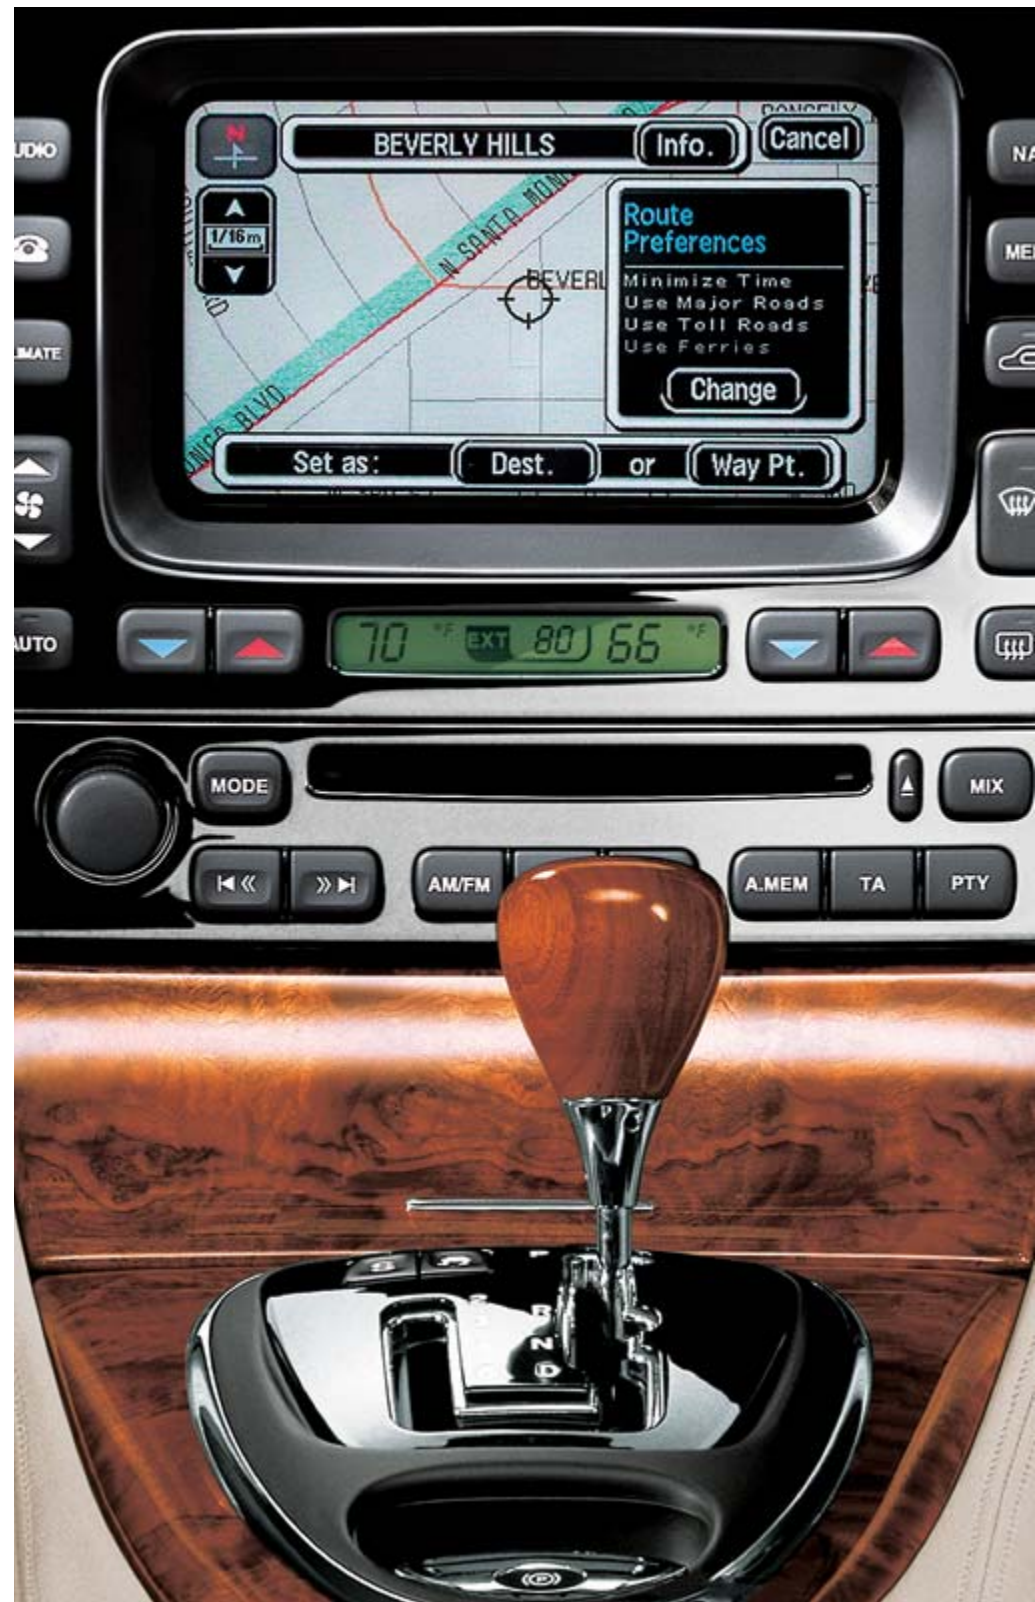

# DISCREET TECHNOLOGY

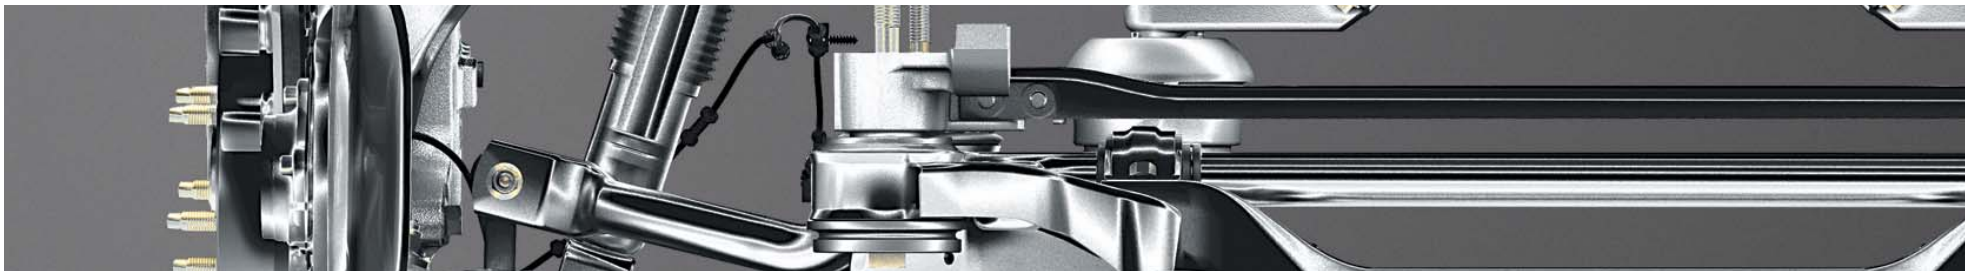

Only when a technological innovation has proven to be user-friendly will an electronic device earn its place within the XJ. To engage the XJ's Electronic Parking Brake, for example, the driver simply removes the key or lifts the switch located on the console between the front seats.

To help the XJ driver manage the conflicting demands of commuting, the XJ is pre-wired for JaguarVoice (a dealer-fit accessory), the latest version of the voice-command technology feature pioneered by Jaguar on production automobiles. It lets you use what may be the most powerful tool ever invented—the human voice—to control key functions of the climate, audio and navigation systems. Available Bluetooth® wireless technology<sup>1</sup> takes hands-free phone operation to a new level, as well.

The available DVD based navigation system with 7" color touchscreen helps make trips into unfamiliar territory less stressful, thanks to its ability to give clear directions and pinpoint important locations, such as hotels, restaurants, parking, Jaguar Dealers and gas stations. Using the touchscreen is also an easy way to control both the audio and climate control systems. Large, easy-to-understand screen graphics mean you can make adjustments at a glance. And to make driving safer, illumination at the rear of the XJ consists of two rows of light-emitting diodes (LEDs) that respond more quickly than ordinary incandescent bulbs, so the driver following your XJ can see your brake lights illuminate precious milliseconds sooner.

<sup>1</sup> Feature may not be available with all phones.

## PERFORMANCE

While there are certainly many Jaguar owners who choose an XJ for its comfort and style, there is another equally compelling reason to choose an XJ: An XJ sedan is, noted the editors of Road & Track,<sup>1</sup> “a luxury car for people who like to drive,” adding that the Jaguar sedan is both “...a delight to drive—and to the senses.”

Edmunds.com, meanwhile, noted the XJ’s “power delivery is ultra smooth as you might expect, and the only stray noise emanating from under the hood is the soothing thrum of the V8.”

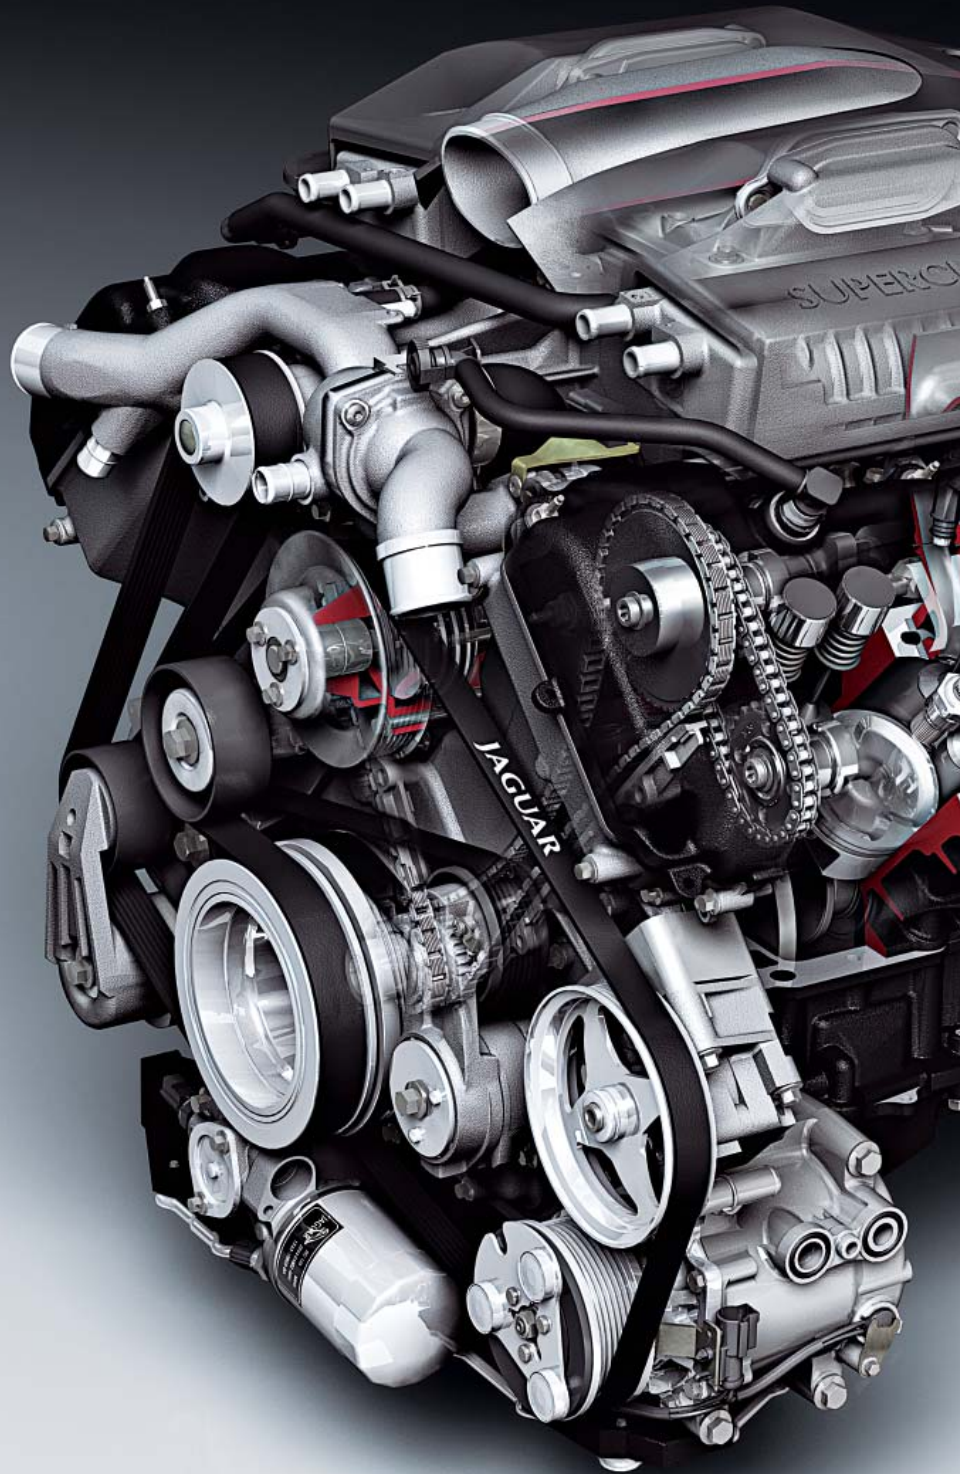

Drive an XJ and you will quickly hear this for yourself. How quickly? The XJ8, XJ8L and Vanden Plas—the models equipped with Jaguar’s naturally aspirated, 32-valve, 300-hp V8 engine—accelerate from 0 to 60 mph in just 6.3 seconds.<sup>2</sup> The XJR and Super V8, which are equipped with the 400-hp supercharged V8, take a mere 5 seconds.<sup>3</sup>

One reason for this breathless display of performance lies in the series of seamless gear shifts orchestrated by the XJ’s six-speed electronically controlled automatic transmission. And the XJ’s straight-line performance is matched by the poise it exhibits when cornering.

Jaguar’s Computer Active Technology Suspension (CATS) ensures an optimal blend of ride comfort and handling control, continually adjusting suspension firmness to suit driving conditions. In a test of the XJ with comparable luxury sedans, Car and Driver noted the XJ “feels spirited in a way that the others never match.”<sup>4</sup>

<sup>1</sup> Road and Track, 02/04. <sup>2</sup> 6.4, 0–100 km/hr. <sup>3</sup> 5.4, 0–100 km/hr. <sup>4</sup> Car and Driver, 12/03.

## ITS POWER COMES FROM WITHIN

In a literal sense, an XJ's power certainly comes from its 4.2-liter V8 engine. But the Jaguar XJ also has the power to captivate the imagination. It has the ability to seduce those who have experienced its innate responsiveness, its electrifying quickness and its refined performance.

That sort of power comes not only from under the hood, but from another place entirely, one located at the nucleus of the Jaguar DNA. The flagship Jaguar sedan has always been a luxury car of stirring performance.

Every XJ has recast the essential characteristics to remain relevant to a new generation of drivers. This is power that lasts: the XJ is now in its seventh generation. Each time, Jaguar has proved itself to be a breed apart.

## MIRRORS THAT SHED LIGHT

Both of the side mirrors on the XJ, not merely the driver mirror, are electrochromic. They self dim at night to help reduce the blinding glare of nighttime driving. Also, when you unlock the XJ, the lights integrated into the mirror housing turn on automatically to help illuminate the path as you walk to your XJ

## REAR SEATS THAT RECLINE

The Super V8 is the pinnacle of accommodation. It comes standard with a power rear bench seat, offering 6-way adjustment of the outboard positions. The intuitively shaped control switch makes it easy to change the rear seat-back angle, adjust lumbar support, raise or lower the outboard head restraints and even move the front-passenger seat forward or back.

## KEYS THAT CONTROL REMOTELY

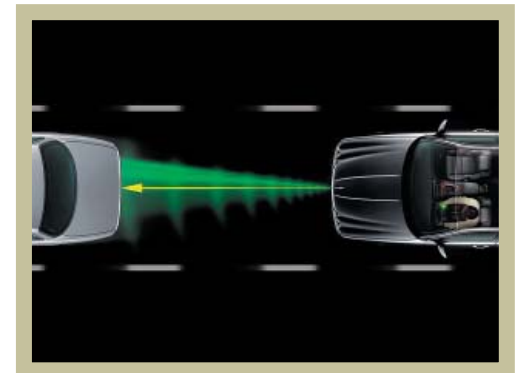

Turning a key in the XJ's ignition produces a powerful response. But using the key fob's features is also quite empowering. With its global opening feature, you can open the XJ's windows and sunroof simply by pressing the remote. It's like having your own personal magic wand.

## DOORS THAT LOCK ON CUE

An XJ is engineered with numerous thoughtful safety features designed to help safeguard you and your occupants. When you put your XJ in gear and pull away, the doors lock, so you can proceed knowing that all four doors and the trunk are secure.

## CRUISE CONTROL THAT ADAPTS

Adaptive Cruise Control (ACC) is an available feature that uses radar to help maintain a preselected distance compatible with the traffic ahead.

### WIPERS THAT SENSE RAIN

An XJ is a luxury car prepared to treat rain like an ever-present threat. Its rain-sensing wipers clear your view in rain snow or sleet. Sensors detect the volume of rain and adjust wiper speed accordingly. When the headlamps are in auto mode and the wipers are activated, the lights turn on automatically.

### WELL-ROUNDED INFORMATION

Surrounded by bright bezels, instrument panel gauges are lit to provide easy viewing.

### STEERING YOU RIGHT

At the touch of a button, you can tilt the angle of the steering wheel and move it closer to or farther from you. Save your settings as part of the memory feature that can recall up to three positions of the driver seat, side mirror and adjustable pedal system.

### HANDLES WITH EASE

All Jaguar XJs are known for attention to detail. On the Long Wheelbase models, reach up to take hold of its assist handles and you will feel the sensation of soft, stitched leather. Each handle also conceals a light to ease your entry and exit from the car.

### MULTIMEDIA THAT TRAVELS

An available multimedia entertainment system is standard on the Super V8 and optional on the Vanden Plas and XJR. It includes a DVD player, twin 6.5-inch display screens incorporated into the front-seat head restraints, and a multimedia switch-pack that connects to digital and analog media, including CDs, DVDs and video games.

## WARM TO THE TOUCH

Nowhere is an XJ more artful than in the execution of its wood trim. The wood wrapped around the available heated steering wheel<sup>1</sup> is especially notable: Both the leather-wrapped section of the wheel and the portion wrapped in wood are heated.

## HEADLAMPS THAT ADJUST THEMSELVES

The XJ's standard Xenon headlamps know precisely when daylight turns to dusk. A light sensor mounted within the car monitors exterior light levels. As light falls, the parking lights and low beam headlamps turn on automatically when activated, to help other drivers see you.

<sup>1</sup> Standard in Canada.

# THE JAGUAR EXPERIENCE

## JAGUAR WARRANTY

This comprehensive 4-year or 50,000-mile (80,000-km) New-Vehicle Limited Warranty<sup>1</sup> includes corrosion coverage for 6 years/unlimited mileage, and parts and service adjustments for 1 year or 12,500 miles (20,000 km).

## JAGUAR ASSISTANCE<sup>2</sup>

Available 24 hours a day, 7 days a week, to all Jaguar owners to provide you with towing service, jump starts, lockout assistance, gasoline delivery, tire changes, and our complimentary trip-routing service. For Jaguar Assistance, please call 1-800-4-JAGUAR.

## JAGUAR SERVICE

Complimentary maintenance further enhances your Jaguar driving experience. Simply bring your Jaguar to an authorized Jaguar Dealer, and required maintenance will be performed at no charge throughout your first year of ownership or 12,000 miles, whichever comes first. See vehicle's scheduled maintenance program for details.

## JAGUAR CLUBS

With over 60 affiliated chapters and 6,000 members across the U.S., Canada and Mexico, Jaguar Clubs represent the nerve center for Jaguar enthusiasts.

Members can participate in breathtaking driving tours and exclusive social events. For the race-inspired, competitive drive events are also available. To join a club in your area, visit [jcna.com](http://jcna.com) or call 1-888-CLUBJAG.

## MYJAGUAR.COM

Exclusive for Jaguar owners.<sup>1</sup> At myJaguar.com, owners can peruse owner guides and handbooks, review warranty information, take advantage of private offers, receive courtesy reminders for upcoming complimentary scheduled maintenance and much more. To register, owners are invited to visit [myJaguar.com](http://myJaguar.com).

## JAGUAR MAGAZINE

Throughout the year, Jaguar owners receive a subscription to this elegant publication that includes coverage of the people, places and cars that make up the world of Jaguar.

## JAGUAR AFFILIATIONS

**Hertz #1 Club Gold<sup>®</sup>**

Complimentary membership with Hertz #1 Club Gold.<sup>®</sup>

  
**EXECUTIVE CLUB**  
**BRITISH AIRWAYS**

Complimentary membership in British Airways Executive Club Silver Tier program.<sup>3</sup>

## JAGUAR CREDIT

Acquiring a new Jaguar is easier than you may think. Whether you're leasing or financing, let Jaguar Credit, known throughout the industry for its customer satisfaction and quality service, help put you behind the wheel of a legendary Jaguar. Discover leasing and financing designed to suit all your vehicle financing needs. For more details, contact your local authorized Jaguar Dealer, or log on to [Jaguarcredit.com](http://Jaguarcredit.com).

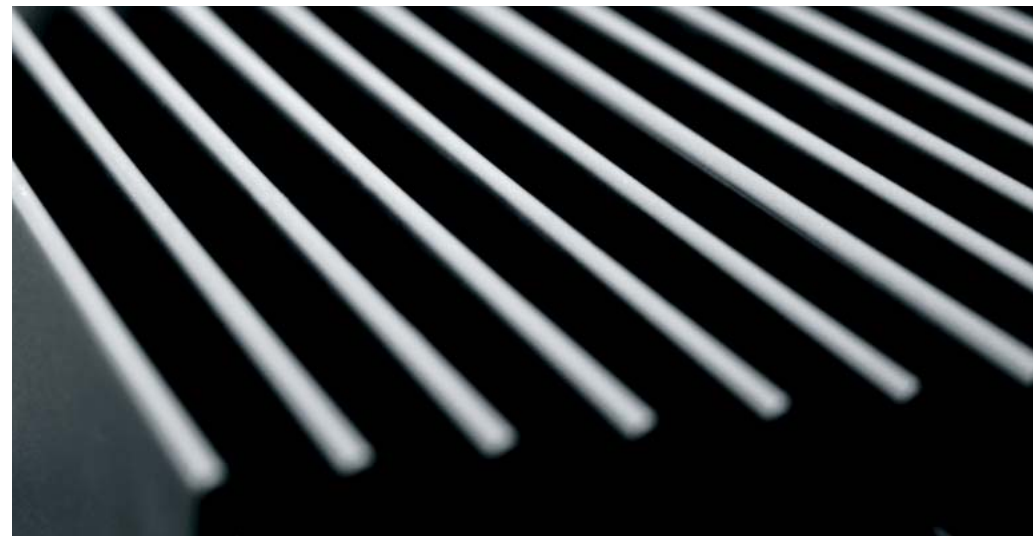

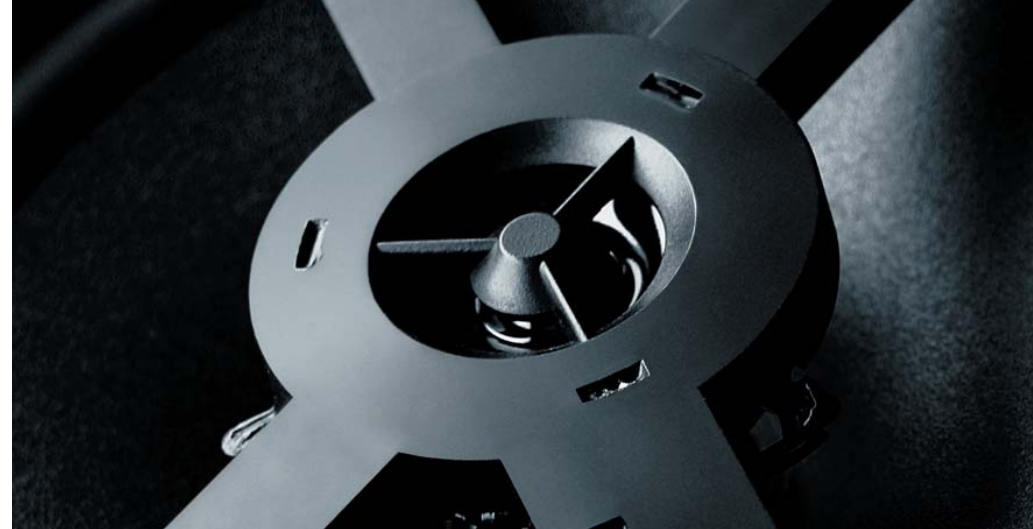

<sup>1</sup> Please see dealer for complete details. For Canadian details, please contact your Canadian Dealer. <sup>2</sup> All elements of Jaguar Assistance are available only while your Jaguar Warranty is in effect. <sup>3</sup> This is subject to change; please visit [myJaguar.com](http://myJaguar.com) for the latest information.

# ALPINE® PREMIUM SOUND

The XJ is available with a 320-watt sound system with AM/FM radio, in dash CD player and 6-disc CD changer designed in conjunction with Alpine. A world leader in car audio, Alpine has been especially innovative in its application of digital sound technology.

The Alpine amplifier in the XJ uses Digital Signal Processing (DSP) to help recreate sound exactly as the recording artists intended: EQ settings let you make adjustments so that wherever you are seated, you'll experience faithful reproduction of sound. DSP modifies the signal using a 4-band graphic equalizer to compensate for the car's own acoustics, and also creates exact crossover points to optimize signals for individual speakers.

With the Alpine Premium Sound System, the XJ is fitted with 12 Alpine DDDrive™ speakers, each strategically placed throughout the passenger cabin to reproduce the entire spectrum of sounds as if you were listening to a live performance by your favorite band, ensemble or orchestra. The recipient of more than 40 patents worldwide, DDDrive technology is a radical improvement upon conventional speaker performance. DDDrive's lighter magnets allow up to 80 percent more of the magnetic force created by the Alpine amp to be used on actual acoustic reproduction. Mid- to high-range sound is smooth and clear with minimal distortion, while the large subwoofers create deep, tight bass response. The result is audio exactly as you would expect it to sound in a Jaguar: beautiful.
