

≡ 2016 Golf GTI

Golf GTI

The Golf GTI goes big on going big. Especially when it comes to performance, design, versatility, and innovation. Just like it's done since the Golf GTI hit the streets over 30 years ago. Now with a new touchscreen system that's compatible with nearly every smartphone, more available Driver Assistance features than before, and thrilling turbocharged power,* this hot hatch keeps getting hotter.

*Always obey local speed and traffic laws.

Hot hot hatch.

For the Golf GTI, performance is everything. It looks powerful because it is. The low and wide stance makes going, turning, and stopping feel and look better than ever. Its rigid chassis and high-strength steel, which is both stronger and lighter than conventional steel, also contributes to improving overall performance. But how could we talk about performance without calling out our most powerful Golf GTI engine to date? The 210-horsepower* engine has power that's sure to get your heart racing too.**

Autobahn shown in Carbon Steel Metallic with Lighting Package

STANDARD FEATURES

Sport suspension. This autobahn-tuned suspension separates the Golf GTI from the rest of the pack. With firm control, the Golf GTI can stay level in corners and help maintain grip, while still managing to provide a smooth ride.

Driving Mode Selection. Using the touchscreen, choose between three selectable driving profiles — Normal, Sport, and Individual — and change the way your car performs. In other words, you can adjust the steering, engine response, and feeling of your Golf GTI the way you like it.

Progressive power steering with variable assistance. The variable-ratio steering system provides quick response to driver input at higher speeds, while making driving easier at lower speeds. Now the only variable you have to think about is which route you want to take home.

18" alloy wheels. Race-inspired and eye-catching, these two-tone black and silver 18" alloy wheels will keep you rolling in style while you catch admiring glances along the way.

Cross Differential System (XDS+®). Brakes are great for stopping and now for turning. That's why the Golf GTI features the XDS+ Cross Differential System, which uses the brakes to help maintain power to the outside wheel and to improve cornering.

AVAILABLE FEATURES

Bi-Xenon headlights with Adaptive Front-lighting System (AFS). These headlights create bright beams of light to help improve visibility, lasting longer and using less energy than halogen bulbs. AFS allows the headlights to turn slightly with the direction of your steering at certain speeds. Lighting takes a brilliant turn.

Performance package. Some of us are harder to please. That's why we're pleased to offer this Performance Package, which adds an additional 10 horsepower (total output of 220 hp*), a torque-sensing limited-slip differential, and high-performance front and rear brakes with the GTI logo on front calipers.

DCC® Dynamic Chassis Control. This is all about getting the suspension to feel just right. With three modes to choose from — Normal, Sport, and Comfort — you can adjust the firmness of the car's suspension.

210
HORSEPOWER*

258
LB-FT OF TORQUE

2.0L TSI® engine

This turbo and direct injection engine is powerful and efficient! The turbo technology forces cooled air straight into the engine, giving you increased performance, 210 hp,* and 258 lb-ft of torque. Direct injection runs fuel right into each cylinder, helping to maximize fuel use. But you don't have to pop the hood to understand why. A simple step on the gas will do.

Autobahn shown in Pure White with Driver Assistance Package and 18" Rotary wheels

*Achieved with premium fuel. **Always obey local speed and traffic laws. †25 city/34 highway mpg (2016 Golf GTI 2.0T, manual transmission). EPA estimates. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition.

The beauty within the beast.

Versatile, sophisticated, and sporty. Or as we call it, the interior of the Golf GTI. As soon as you sit in the track-inspired driver's seat, you'll get a good sense that this Golf GTI mixes business with power. The iconic thin red accent that runs throughout the cockpit, along with red stitching on the sporty steering wheel, pays homage to inherent Golf GTI design elements. Another integral part of the Golf GTI is that it's a hatch, which means its 60/40-split folding rear seat is accommodating by nature. Its practicality really is a beautiful thing.

Autobahn shown in Titan Black leather

STANDARD FEATURES

Leather-wrapped, multi-function sport steering wheel. Grab the leather-wrapped, multi-function sport steering wheel, with its flat-bottomed design and red stitching, and you'll rule the road, your tunes, and more in true style.

Clark Plaid seating surfaces. Complete with red accents and a nod to the heritage of the Golf GTI, the cloth seating surfaces come in Clark Plaid.

Interior ambient lighting. These interior lights help set the mood. Even the door panels have ambient door-trim accent lighting that casts a luminous red.

Top Sport seats. Bucket-style, race-inspired front seats. The large and bolstered design really lets you sink into the action, whether you're behind the wheel or you're the copilot.

Color multi-function trip computer. Its smart, graphic, and colorful interface shows your media, phone, and vehicle info and settings in plain sight. And it's conveniently placed in the center of the gauge cluster.

Adjustable cargo floor. You seek many adventures. And with 52.7 cubic feet of space with the rear seat folded, and the adjustable cargo floor lowered, the Golf GTI has plenty of room in store. Just fold down the 60/40-split folding rear seat and you're good to go.

AVAILABLE FEATURES

Keyless access with push-button start. The key fob does the job. Leave it in your pocket. You can automatically unlock the door of your Golf GTI as you grip the door handle. Then, once you're inside, with the push of the start button your engine starts and you're ready to go.

12-way power driver's seat including power-adjustable lumbar support. Get the comfiest seat in the car by adjusting it to your liking. With just one finger, you can adjust your seat in not one, not two, but 12 possible ways.

Leather seating surfaces. Discover what sitting in the lap of luxury is all about — with supple leather seating surfaces that offer premium feel and high-end aesthetics.

Climatronic® dual-zone automatic climate control. Some like it hot. Some like it cold. Thankfully, with dual-zone automatic climate control, you and your passenger can sit in your own comfort zone.

Paddle Shifters. These track-inspired paddle shifters, located near your fingers on the steering wheel, let you quickly shift without taking your hands off the wheel. Take the wheel, and take control.*

Power tilting/sliding panoramic sunroof. It tilts to help give you maximum exposure. You're one touch away from letting the sun shine on your drive.

*Always obey local speed and traffic laws.

Ahead of the crowd
in more ways than one.

The Golf GTI is just as street smart as it is powerful. The available Volkswagen Car-Net[®] connected car suite brings you many ways to connect to your Golf GTI. Take, for instance, VW Car-Net App-Connect, which can display select apps from your compatible smartphone onto your touchscreen.* Once you plug your smartphone into the USB port, App-Connect lets you use your apps on the dash, using either Apple CarPlay™, Android Auto™, or MirrorLink[®]. Staying in touch has never been this easy.

STANDARD FEATURES

Rearview Camera System. Hindsight is now foresight. The rearview camera helps you see and avoid obstacles when backing up, and it can make parallel parking easier.

Volkswagen Car-Net App-Connect. VW Car-Net App-Connect lets you link your compatible smartphone with Apple CarPlay, Android Auto, or MirrorLink to use select apps on the touchscreen display of your Volkswagen.* From streaming music and mobile maps, it can be accessed on the touchscreen.

androidauto

MirrorLink

Composition Media touchscreen sound system. The Golf GTI is now in touch. Literally. With its advanced touchscreen sound system, you can control your media, settings, and the Volkswagen Car-Net App-Connect* feature, which can sync up compatible smartphones and display content on the dash. Be in command with one fingertip.

Volkswagen Car-Net Security & Service. Provides a seamless link from your compatible devices—your smartphone, computer, or tablet—to your Volkswagen. VW Car-Net Security & Service can call for help in an emergency, monitor speed and boundary alerts, check the status of your VW when you're away, and much more.**

AVAILABLE FEATURES

Fender[®] Premium Audio System. Want clear, concert-quality sound? With 400 watts of power, eight speakers, and a subwoofer, every beat that pumps out of the Fender Premium Audio System will make sure you can rock while you roll.

Volkswagen Car-Net Guide & Inform. With easy access to gas prices, weather, sports scores, and more through SiriusXM Travel Link™ services with 3-month trial subscription, and a 4-year trial subscription to SiriusXM Traffic which offers real-time traffic information, you get your info front and center.†

*Always pay careful attention to the road, and do not drive while distracted. App-Connect features require compatible device, operating system, and mobile app. Standard text and data usage rates apply. See mobile app provider for terms and privacy. Apple CarPlay is a trademark of Apple Inc. Android Auto is a trademark of Google Inc. **Verizon Telematics, Inc., is the service provider for VW Car-Net Security & Service. Available on select trims. Trial or paid subscription required. These services require vehicle cellular connectivity and availability of vehicle GPS signal; certain services may collect location information. See Terms of Service, Privacy Policy, and other details at www.vw.com/carnet. Always pay careful attention to the road, and do not drive while distracted. †Vehicle includes 3-month no-charge SiriusXM Travel Link trial subscription, which has separate terms and conditions. See www.siriusxm.com/infotainment for details; 4-year trial subscription for SiriusXM Traffic applies to original owner only.

S 4-Door shown in Reflex Silver Metallic with Lighting and Performance Packages

Think fast. Drive clever.

The technology in a Golf GTI can be as thoughtful as it is entertaining. Especially with available Driver Assistance features. Features like Blind Spot Monitor and Autonomous Emergency Braking (Front Assist) are on the lookout to help alert you if vehicles or objects might be in your way.* While you're in tune with your car, your Volkswagen can also help be in tune with your surroundings.

AVAILABLE DRIVER ASSISTANCE FEATURES

Park Distance Control (Park Pilot). This feature displays a graphic on the touchscreen system, helping display how close you may get to another object or vehicle when you're parking or leaving a spot.

Parking Steering Assistant (Park Assist). Let your VW take the wheel when parking with Parking Steering Assistant (Park Assist). You control the gas and brake pedals, and Park Assist automatically steers into a parking spot. It can even automatically steer you out of parking spots.*

Adaptive Cruise Control (ACC). Keep things under control with ACC, which is designed to help keep your car at a preset distance from the vehicle in front of you.*

Blind Spot Monitor. Proximity sensors help detect if another vehicle is coming up from behind or alongside you.* So when you're trekking forward, your VW can alert you if a car is in your blind spot.*

Forward Collision Warning and Autonomous Emergency Braking (Front Assist). Sensors in the front of your Golf GTI help alert if you are approaching another vehicle too quickly. If you fail to brake enough, the system can boost the braking pressure. And if you don't brake at all, Front Assist automatically steps in and applies the brakes to help reduce the severity of a potential impact.*

Lane Departure Warning (Lane Assist). This system helps warn you in certain conditions, if it detects that you're driving outside of your lane without use of a turn signal. If you happen to move outside of your lane, the corrective steering feature can automatically adjust your steering to help keep you in the proper lane.*

Depiction of Lane Departure Warning (Lane Assist)

Dramatization!

Great power comes with great responsibility. And safety features.

A performance car wouldn't be complete if it didn't perform well when it comes to safety. That's why the Golf GTI helps prepare you for those unpredictable moments. With features like a safety cage and our Intelligent Crash Response System (ICRS),* you might get a little extra confidence boost. As well as a 2015 IIHS Top Safety Pick+** for 4-door models, equipped with the optional Forward Collision Warning and Autonomous Emergency Braking (Front Assist) system.†

2015 IIHS TOP SAFETY PICK+

SAFETY FEATURES

Safety cage. The safety cage for the Golf GTI has been designed to help protect you during front, rear, or side impacts. In addition, advanced thermoformed steel B-pillars offer strong reinforcements on top.

Intelligent Crash Response System (ICRS). In the event of a collision that activates the vehicle's airbags,† the Intelligent Crash Response System can automatically disable the fuel pump, unlock all the doors, and turn on the hazard lights.*

Adaptive airbags. Our airbags have been engineered to adapt to crash severity, and special door sensors will deploy Side Curtain Protection® airbags in the event of a side impact!†

Seven stability-enhancing systems. From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which adjusts engine throttle and applies corrective forces to the wheels that need them most, there are seven systems in total to help you stay in control.

Tire Pressure Monitoring System (TPMS). The right amount of tire pressure is needed to help maximize your riding comfort. Thanks to this feature, you'll be alerted when your tire pressure is low and air needs to be added.

Automatic Post-Collision Braking System. Not every collision brings a car to an immediate stop. That's why we engineered the Automatic Post-Collision Braking System. By automatically slowing down your Golf GTI after a collision, you have a better opportunity to take control and help reduce the chance of any additional impacts.

*The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners activate. Not all collisions cause airbags to deploy or safety belt pretensioners to activate. **Top Safety Pick+ based on good ratings in the moderate overlap front, side, roof strength, head restraint tests; no less than an acceptable rating in the small overlap front tests; and no less than an advanced rating for front crash prevention. For details, visit www.iihs.org. †Driver Assistance features are not a substitute for attentive driving. See Owner's Manual for further details and important limitations. ‡Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. ††This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions and if multiple bags do deploy they will be in various stages of inflating/deflating and will never be inflated at the same time.

^{*}Achieved with premium fuel. ^{**}Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climate. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specification for your car, or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim, or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. [†]SiriusXM Satellite Radio, SiriusXM Traffic, and SiriusXM Travel Link subscriptions are sold separately or as a package after trial period and are continuous until you call SiriusXM at 1-866-635-2349 to cancel.
