# AUTOMOTIVE ELECTRONICS

Available on: Astro, Astro Passenger Van, S Pickup, S Blazer, V Blazer, Chevy Van, Chevy Sport Van, R/V Suburban and other R/V Trucks

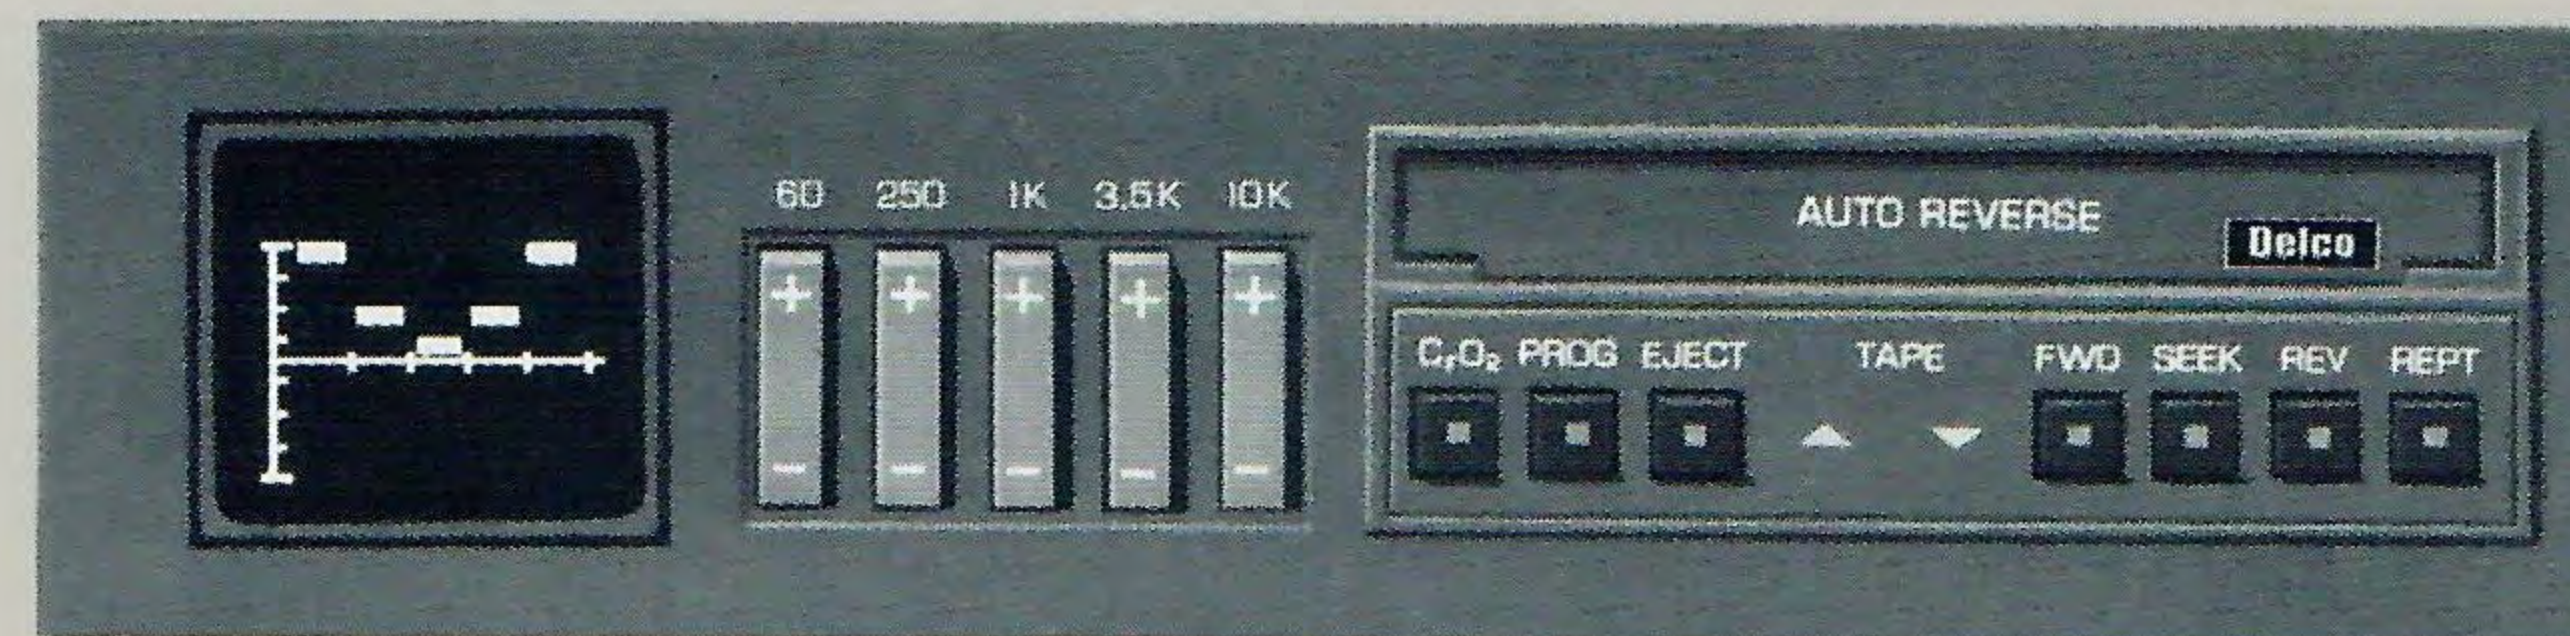

### ETR® Premium Cassette Receiver†

(Option Code UX1 shown)

Delco Electronics' ETR® Premium Cassette Music system is well adapted to your vehicle's interior. The five-band graphic equalizer feature allows you to tailor the designed-in sound to your own liking and Music Search helps you to find your favorite selections faster.

Other features of this receiver include:

- Cassette music search:** Locates the next music selection or repeats the previous selection
- CrO2 tape equalization:** Allows the play of chromium dioxide cassette tapes
- Loudness control:** Boosts bass at low volumes
- DNR® noise reduction:** Reduces high-frequency noise on AM and FM radio signals and cassette tapes

Available on: C/K Cheyenne, Scottsdale, Silverado

### Instrument Clusters

Delco Electronics applies high technology to design and manufacture a variety of instrument clusters for General Motors' vehicles. The three major categories of these instrument clusters are:

- **Electronic:** Microprocessor controlled speedometer and gauges  
Speed and odometer readings displayed in miles or kilometers
- **Electromechanical** Quartz electric speedometer and analog gauges
- **Hybrid** Combination of electronic and electromechanical instrumentation in one instrument cluster

(S/T Truck electronic instrument cluster shown)

Refer to Data Book for specific options for each vehicle. Available on select models only. Not available on all models, Value Packages and E-Z Specs.

### ETR® Cassette Receiver

(Option Code UM6 shown)

Delco Electronics' ETR® Cassette Receiver fills your demand for a popular alternative to AM/FM stereo listening. Major features include:

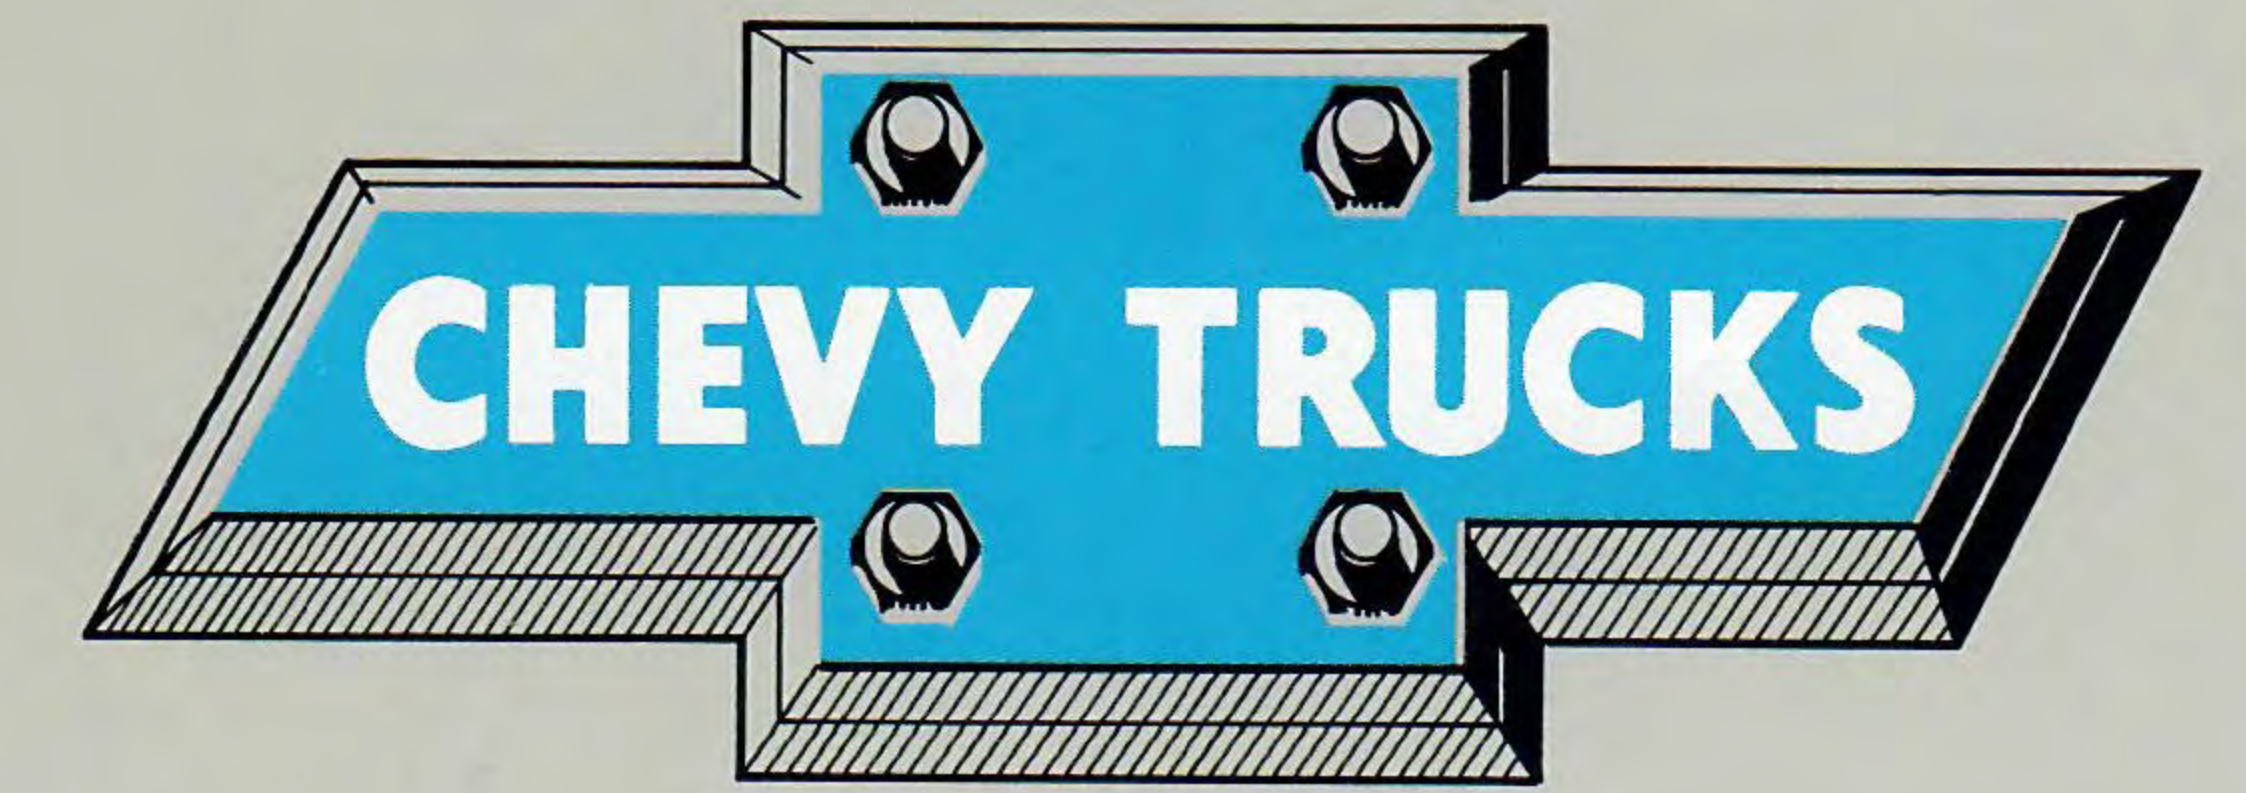

- DNR® noise reduction:** Reduces high-frequency noise on AM and FM radio signals and cassette tapes
- Convenient tape play controls:** Allows easy operation of tape functions
- Auto-reverse:** Plays both sides of cassette without having to turn cassette over

### Climate Controls

Delco Electronics designs heater and air controls for comfort, convenience and style. Our heater and air controls provide:

- Mode control selection**
    - Air conditioning
    - Heat
    - Location of air delivery
  - Temperature control**
    - Varies air temperature from cold to hot
  - Fan speed control**
    - High Medium Low
- AND distinctive styling that coordinates with the vehicle's interior.

## AUTOMOTIVE ELECTRONICS

Available on: Astro, Astro Passenger Van, S Pickup, S Blazer, V Blazer, Chevy Van, Chevy Sport Van, R/V Suburban and other R/V Trucks

Available on: C/K Cheyenne, Scottsdale, Silverado

(Climate control for C/K Silverado, shown)

DNR® is a registered trademark of National Semiconductors Corporation  
 ETR® is a registered trademark of General Motors Corporation  
 † Receives C-QUAM® AM stereo broadcasts. Most AM stereo stations broadcast in C-QUAM®, but some do not. If you have questions, check with your local stations for compatibility in your area. C-QUAM® is a registered trademark of Motorola, Incorporated.

**Delco Electronics**  
Subsidiary of GM Hughes Electronics
