Prepare yourself for a surprise. The next-generation Envoy not only provides you with the capabilities you demand in an SUV, it offers unexpected — and extraordinary — comfort. Its remarkably smooth ride, expansive passenger and cargo room, accommodating amenities, quiet interior and smooth engine performance work in concert to cradle you in comfort. For those familiar with GMC, Envoy's remarkable qualities are not unanticipated. It's what happens when people put nearly 100 years of imagination and experience into the next generation of SUVs.

For 360-degree views of Envoy's exterior and interior, information on pricing, color selection, competitive comparisons and more, visit GMC's easy-to-use website.

SE

Every shown in Medium. Best. Best.

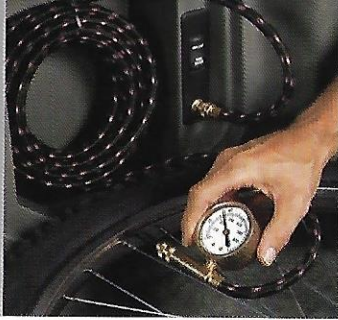

Envoy shown in Medium Pewter leather

with available equipment.

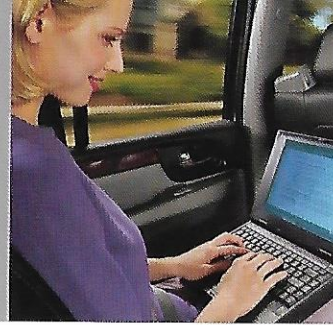

Rear Air Compressor An available air compressor in the rear cargo area lets you inflate anything from a bicycle tire to a beach ball.

Accessory Power Outlets Five conveniently located accessory power outlets allow operation of portable electronic equipment from any seating position.

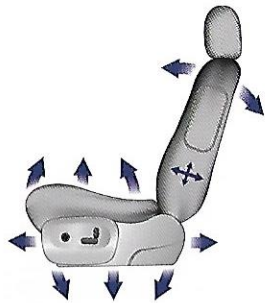

Second-Row Controls Rear passengers have easy access to available dual audio controls and headphone jacks[®] so everyone can listen to their own music.

ENGINEERED FOR COMFORT FROM THE INSIDE OUT.

True comfort is the result of a combination of qualities. The Envoy is exceptionally spacious to allow everyone to relax in their own space. It has an expansive seating area for both front and rear passengers, and it offers more head- and legroom for the driver and front passenger than any other vehicle in its class¹. It has longer and wider seat cushions² with available heated leather seating surfaces. The Envoy is also engineered for a remarkably quiet ride, sheltering you from road and wind noise. And that allows you to enjoy conversation, music—or peace and quiet.

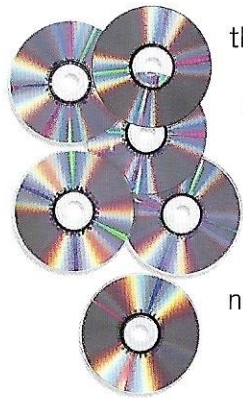

Seats Adjust to You Relax. Both the driver and front passenger seats are eight-way power adjustable, with power-adjustable lumbar support so you'll travel in comfort mile after mile.

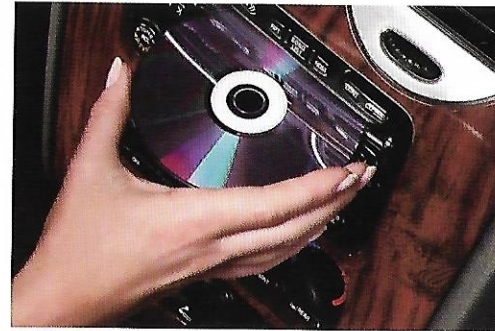

Rigorous long-term testing of the seats resulted in a design that helps ensure your comfort. Integrated, built-in safety belts eliminate binding and provide maximum comfort, while SLT models offer soft leather seating surfaces. Available heated driver and front passenger seats allow you to adjust the heat of the cushion or just the seat back.

SIX SPEAKERS, TWO CLIMATE ZONES, NO DISAPPOINTMENTS.

An impressive array of amenities makes the Envoy remarkably accommodating. The heating and air conditioning system has the power to warm up and cool down the interior with maximum efficiency. Rear-seat passengers enjoy the benefits of two air conditioning outlets with four-way directional adjustments mounted high on

the rear of the center console. And optional steering wheel controls allow you to operate the audio system or Driver Information Center with your hands confidently on the wheel, which — you will note — is leather-wrapped for a soft, supple grip.

Six CDs at Your Command An available in-dash, six-disc CD player with a front-loading design makes loading and unloading CDs easy and convenient.

Renowned Bose Quality The available Bose® music system features AudioPilot™ digital technology and six high-quality speakers to provide clear high frequencies and rich bass for lifelike sound.

Two Individual Climate Zones The driver and front passenger can select their own individual heating and air conditioning settings up to 25 degrees apart. That not only enhances comfort — it helps keep the peace.

Driver Information Center An available 22-character message display provides information at the touch of a button. You can access information on literally dozens of vehicle systems and conditions — everything from current miles per gallon to the engine oil level.

Service Plan provides concierge and route support services. And now OnStar also offers hands-free Personal Calling and Virtual Advisor for stock quotes, e-mail or weather.

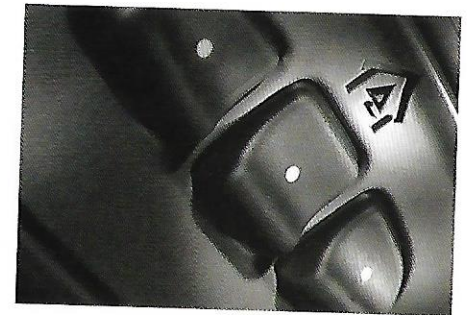

PUSH ALL THE RIGHT BUTTONS.

Envoy offers an array of standard and optional features to enhance your comfort, many of which you may easily customize to your individual preferences. You may adjust the driver's seat and rearview mirrors, for example, and program their settings in memory.² The standard power door locks are programmable to lock automatically when the vehicle begins moving. The Driver Information Center² provides instant access to a variety of information—everything from remaining fuel range to a history of the vehicle's usage over the previous fifteen days—and it performs over ten trip computer functions.

Overhead Console For maximum convenience, the overhead console features a storage compartment for sunglasses and other small items.

HomeLink³ The standard HomeLink system allows you to operate a variety of electronic devices—from your garage door to your home's interior lights—from the safety and comfort of your vehicle.

Rearview Mirror The inside rearview mirror is light-sensitive to reduce glare, and it features a digital compass and outside temperature readout.⁴

¹One-year OnStar Safety & Security Plan Agreement included as standard on Envoy. For more information, call 1-800-ONSTAR-7. ²Standard on SLT; not available on SLE. ³Operation of some HomeLink universal transmitter features may require the purchase of a receiver from HomeLink. ⁴Outside temperature readout is on mirror on SLE; on SLT, readout is on heating/air conditioning control.

MORE CARGO SPACE THAN MOST SUVs IN ITS CLASS!

Envoy shown in Medium Pewter leather

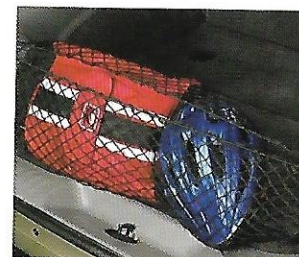

Easy-to-Use Second-Row Seats The split second-row seats are easy to fold down for carrying extra-large loads of cargo.

SEATS FIVE. CARRIES THE DAY.

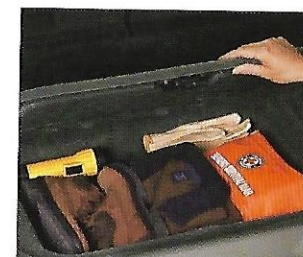

While the Envoy comfortably carries five adults, it also features more cargo space than most SUVs in its class.¹ You can easily fold down the split second-row seat to carry extra-large items, and keep everything secure with five standard cargo tie-downs. To carry even more gear, use the standard roof rack. It features an exclusive¹ design that lets you adjust the rack forward or backward from either side of the vehicle. The Envoy also offers an available load-leveling system² that keeps the vehicle level, even with a maximum load.

For added security, a retractable cover conceals any cargo you have in the back of the vehicle.

A standard heavy-duty cargo net will keep everything, from groceries to sports equipment, securely in place.

A hidden storage well beneath the floor of the rear cargo area provides yet more room for securely storing valuables.

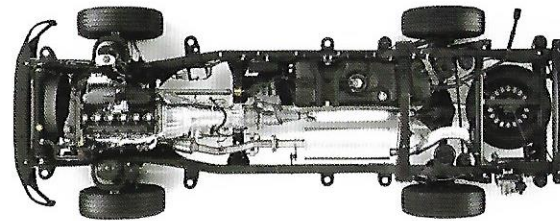

PREMIUM SUSPENSION FOR A REFINED RIDE.

COMFORT AND CONTROL COMBINED.

Wherever you drive and in almost any road condition, the Envoy rewards you with a smooth ride and stress-free driving experience. Its Double-A arm front suspension, five-link rear suspension and premium-grade Bilstein® shocks provide controlled handling and shield you from rough patches and potholes. Engine mounts filled with hydraulic fluid isolate the engine from the frame, providing smooth performance. And its standard four-wheel drive with Autotrac® or optional two-wheel drive with available traction control, help the Envoy offer sure footing as well as unsurpassed comfort.

Full-Length Steel Frame A full-length steel frame is the Envoy's backbone. It is manufactured using hydroforming technology for outstanding strength and rigidity. That translates into a smooth, comfortable and quiet ride.

Michelin Tires and the Largest Standard Wheels in Its Class* Large 17-inch cast aluminum wheels and standard Michelin® tires provide a smooth ride and help instill confidence while cornering.

Standard 4WD with Autotrac For traction, 4WD with Autotrac is standard. Two-wheel drive with traction control is available.

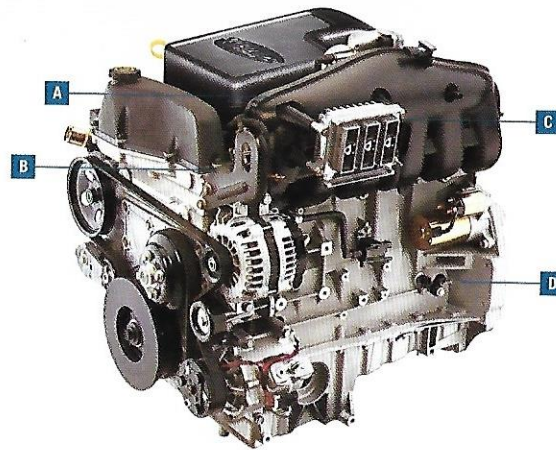

Envoy shown in Monterey Maroon Metallic

with available equipment.

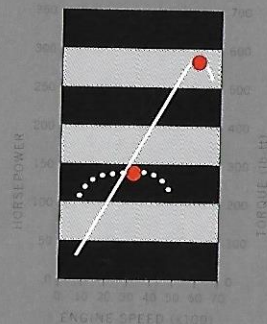

270 HORSEPOWER. 275 LB-FT OF TORQUE. NO COMPROMISES.

In a stunning demonstration of advanced technology, the all-new Vortec™ 4200 inline six provides you with more horsepower than most competitors' V8s, yet maintains fuel efficiency comparable to their V6s! That power gives the Envoy impressive towing and hauling capabilities, including a towing capacity of up to 6,300 lbs.² Perhaps most impressive, the Vortec 4200 combines that power with exceptionally smooth and quiet operation, enhancing your comfort around town and on the open highway.

Vortec 4200 inline six

- A Natural balance of the inline six-cylinder design results in exceptionally smooth operation
- B Four valves per cylinder for maximum performance
- C Variable Exhaust Valve Timing not only reduces emissions but enhances fuel efficiency
- D Aluminum block contributes to the engine's overall light weight

More Standard Horsepower than Any SUV in Its Class With advanced designs such as double overhead cams and four valves per cylinder, the 4.2L inline six delivers 270 hp and 275 lb-ft of torque.

Based on GM EPA ratings. (EPA ratings not finalized.) Maximum trailer ratings are calculated assuming a standard-equipped base vehicle plus driver. See the GMC *Trailer Guide* for details. Excludes other GM vehicles. All class claims are based on GM segmentation. Comparisons based on anticipated model year 2001 competitor vehicles.

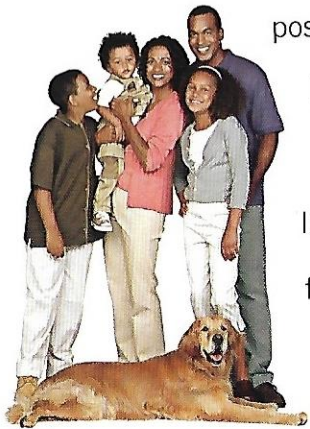

A TOTAL SYSTEM OF SAFETY FEATURES.

State-of-the-Art Safety Protection
Front and side air bags are standard for driver and front passenger. Envoy is also the only SUV in its class² with three-point safety belts in all occupant positions.

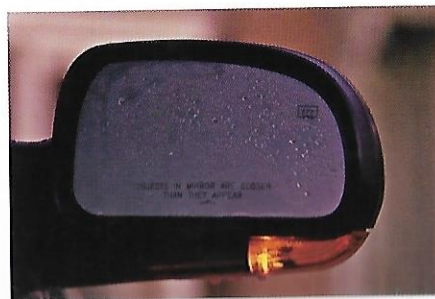

BE PREPARED.

As long as “the other guy” is out there, engineering Envoy for safety will be a top priority. It features standard lap and shoulder belts for all occupant positions, including a three-point rear center belt. It has high-output halogen headlamps, standard cornering lights, puddle lights and fog lamps to help make it ready for virtually any driving condition. A standard neon Center High-Mounted Stop Lamp lets drivers behind you recognize more quickly that you’re braking. And optional rain-sensing wipers can automatically help keep your vision clear.

Four-Wheel Disc Brakes with ABS
Standard ABS helps maintain steering control during hard braking, while four vented discs—the largest discs in their class²—offer impressive braking power.

OnStar[®] Activated with the push of a button or automatically in the event of air bag deployment, OnStar[®] pinpoints your location using global positioning satellite technology and can send help to wherever you are.

Heated Outside Mirrors Engineered for Safety Available mirror-mounted turn signals increase safety awareness, while standard heated outside rearview mirrors eliminate ice, snow or condensation.

TONGUE WEIGHT	10% – 15% of trailer weight up to 750 lbs

TAKE A MOMENT

A Note On Child Safety Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle *Owner's Manual* and child safety seat instructions for more safety information.

Trailer With Your Envoy Envoy is built strong and durable to handle the demands of towing. Certain equipment that prepares Envoy for trailering is standard: trailer hitch platform, power steering, power brakes, 7-wire trailer plug, a large fuel tank, transmission and engine oil coolers and a 150-amp alternator. For other available trailering-related equipment, talk to your dealer. You'll need a hitch ball, mounting head, and equalizing and antisway assemblies; these are available through aftermarket sources.

Off-Road With Your Envoy When you go off-road, you should take care to make sure your driving is appropriate to the vehicle and the environment. Avoid sharp turns and abrupt maneuvers. Failure to operate vehicles correctly off-road could result in loss of vehicle control or vehicle rollover. When you are off-road, make sure that all cargo is properly loaded and secured. Use boxes to organize cargo and use nets and tie-downs to secure it. Wherever possible, use established trails, roads and other areas that have been set aside for public off-road recreational driving. And obey posted regulations. Don't drive on private property without the permission of the owner; in some states, you must have it in writing. Avoid any driving practice that could harm the environment or hurt wildlife, like wheel-spinning, breaking down trees, driving through streams or driving over soft ground. And never park your vehicle over dry grass or other materials that could catch fire from the heat of the vehicle's exhaust system.

A Word About This Brochure We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time and without notice, in prices, colors, materials, equipment, specifications, models and availability. Information may have been updated since the time of printing. Please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

Assembly GMC models and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to General Motors worldwide. We sometimes find it necessary to produce GMC models with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered, or, if there are changes, that they are acceptable to you. GMC regularly sends its dealers useful GMC product service bulletins. To obtain these bulletins, ask your dealer or call 1-800-GMC-8782.

Engines GMC vehicles are equipped with engines produced by different operating units of General Motors, its subsidiaries or suppliers to General Motors worldwide.

Tire Chains Tire chains should not be used because they could cause damage to your SUV.

GMC supports the National SAFE KIDS Campaign,[®] a grassroots program dedicated to promoting child passenger safety.

GMC recognizes the importance of mobility to everyone's life and, therefore, offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1,000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers, when installed or reinstalled on any eligible purchased or leased new GM vehicle. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).

GMC is proud to be a partner in conservation with The Nature Conservancy, an organization dedicated to protecting the diversity of life on Earth. GMC contributes both money and trucks to support this worthwhile organization.

Qualified approved customers can conveniently arrange GMAC[®] leasing and financing right at your GMC dealership. For more information, see your dealer or call 1-800-32-SMART.

The GM Card[®]—What are you charging toward?[™] The GM Card rewards you 5% on every credit card purchase, making it the fastest way to save toward the GM car or truck of your dreams. For information or to apply for The GM Card, call 1-800-8GM-CARD or visit our website at www.gmcard.com.

Information and Pricing See more of Envoy on our website at gmc.com/envoy or call 1-800-GMC-8782 (1-800-462-8782).

GMC backs your new vehicle with its no-deductible, Bumper to Bumper limited warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct problems in materials or workmanship, for three years or 36,000 miles, whichever comes first (except normal maintenance). The warranty covers towing to the nearest GMC dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period. GMCs are designed and built to resist corrosion. All body sheet-metal components are warranted against rust-through corrosion for six years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required, and none is recommended. See your GMC dealer for terms and conditions of these limited warranties.

GM Segmentation All class claims are based on GM segmentation. All competitive claims compared 2002 Envoy to anticipated model year 2001 competitors.

Envoy comes with a one-year safety and security package subscription for the remarkable OnStar¹ service. OnStar combines a unique blend of cutting-edge technology with attentive personal service to provide you with an unparalleled level of safety, security and information services. At the touch of a button, an OnStar Advisor is available to contact emergency service providers or roadside assistance. In an accident in which your air bags deploy, the OnStar system in your vehicle will automatically contact the OnStar Center.

There, trained Advisors will immediately contact emergency assistance if needed and provide them with your Envoy's exact location. With OnStar MED-NET, your important medical history can be given to the emergency service providers and hospital. In the event of theft, OnStar can track your Envoy and help guide authorities to its location. If you lock your keys in your Envoy, an OnStar Advisor can send a signal to unlock your doors, even from thousands of miles away.

MORE THAN A COMMITMENT.

From the owner orientation — and full tank of gas — you receive when you take possession of your Envoy to the **24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits, Commitment Plus** is a portfolio of owner privileges that lasts throughout your warranty.
