Honda ▶ Accord Sedan/Hybrid

Why Accord.

Life is all about trade-offs, right? It seems that this is a rule made even more hard and fast when you're shopping for a new sedan. But at Honda, we live to rewrite rules. Look at the 2005 Accord Sedan: It has luxury, performance, safety and efficiency—all in one package. Plus, it has a reputation that's nothing less than legendary. Add the powerful new Accord Hybrid to the mix, and now even social responsibility is a guilty pleasure. So forget about the rules. For once, you can have it all.

attraction ▶ exterior styling

3

When you're driving a car that performs as well as the Accord Sedan, you might not even think twice about how good it looks on the outside. For 2005, sporty wheels and a new taillight design give admirers more to admire. And its **crisp, clean lines** do a lot more than just distinguish it from other sedans. That handsome shape also improves aerodynamics to reduce wind noise at higher speeds. Step on it and you get the idea: Beauty can also be in the right foot of the beholder.

Accord EX V-6 Sedan shown in Satin Silver Metallic.

Accord EX V-6 Sedan shown in Redondo Red Pearl.

luxury ▶ interior

5

Even if you already know exactly what you want in a sedan, the Accord offers so much, it just may raise your standards. From the moment you first settle into the supportive bucket seats, your senses luxuriate in the feel of an available **leather-trimmed** interior. And with roomy accommodations for the rear passengers too, those good feelings can be shared comfortably by five adults. Every detail reinforces a sense of

solidity, quality and **smart design**—from the fold-down rear armrest and pass-through trunk¹ on most models, to the well-placed beverage holders and storage bins. The ergonomics are typically Honda in their excellence. LED instrumentation communicates essential information, controls fall easily to hand, and switches and knobs deliver positively satisfying clicks and turns. Consider all your expectations exceeded.

Room for five adults

Fold-down rear seatback with lock

Supportive front bucket seats

Tilt and telescope steering column

Accord EX V-6 Sedan interior shown in Black Leather with available Honda Satellite-Linked Navigation System.™

Accord EX V-6 Sedan interior shown in Black Leather with available Honda Satellite-Linked Navigation System.

6

A warm embrace.

Models with leather-trimmed seating also feature 2-level heating for the front seats.

Jewel-like brilliance.

Self-illuminating gauges greet you, brighten when you insert the key and reach full glow when the engine starts.

Points for neatness.

The 2-level armrest console provides CD storage below and an upper level with access to a 12-volt power outlet.

the goods ▶ interior features

Your connection begins the moment you have the integrated key fob in hand. And once inside, many **driver-focused** features strengthen the bond. The remote entry system on many models will also lower the four power windows.

The supportive seats, **ergonomic controls**, new illuminated steering-wheel switches on LX and EX models and the available automatic dual-zone climate control system make you feel welcome, then put you in charge. And available voice-recognition navigation, climate and audio controls make a wish as good as a command.

In tune with you.

A 120-watt AM/FM/CD audio system is standard. Select models have XM® Satellite Radio² – over 120 digital channels including traffic and weather in big cities. And all music channels are commercial-free.

Accord EX V-6 Sedan shown in Satin Silver Metallic.

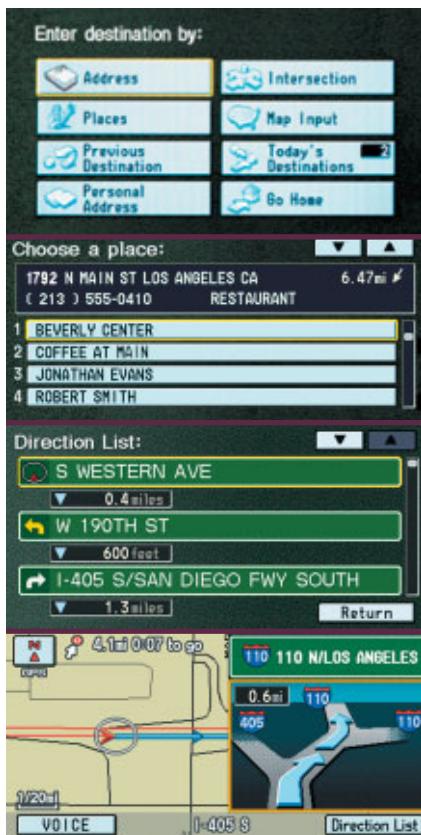

direction ▶ navigation system

Voice your desires.

With the voice-recognition feature, one button is all you need. Press it and issue voice commands to select a destination, choose a different CD track or even adjust the climate controls. And as you call all the shots, each menu function is clearly shown on the system's bright 7-inch LCD display.

If you ever travel unfamiliar territory, you want a guide as knowledgeable as the Accord's available Honda Satellite-Linked Navigation System.³ Like all Honda electronics, it's sophisticated and feature-rich but with an interface that's simple to learn and **easy to use**. With signals from Global Positioning System (GPS) satellites and an onboard internal guidance system, the navigation system will keep track of your location anywhere in the 48 contiguous U.S. states.* The system pulls double duty, in fact, and will also inform the dual-zone climate control system of the sun's position. An 8.0-gigabyte DVD holds all the maps you'll ever need, as well as a database of over **7 million points of interest**. Simply select a destination, and then follow the directions from a moving map display and turn-by-turn voice prompts.

choices ▶ trim levels

Accord DX Sedan ▼

- 160-hp, 2.4-liter i-VTEC® 4-cylinder engine
- 5-speed manual transmission
- Available 5-speed automatic transmission
- 4-wheel double wishbone suspension
- Dual-stage, dual-threshold front airbags (SRS)
- Front side airbags
- Side curtain airbags
- Anti-lock braking system (ABS)
- AM/FM/CD audio system
- Tilt and telescopic steering column
- Power windows

Accord LX Sedan ▼

All DX features plus:

- Air conditioning with air-filtration system
- Power mirrors and door locks
- Cruise control
- Remote entry system with power window control
- Sunglasses holder
- Map lights
- Variable intermittent windshield wipers
- Illuminated steering wheel-mounted controls

It's hard to argue against getting an Accord. There's its 18-year record on the *Car and Driver* 10Best list, and now the Accord is also rated as having the highest resale value in its class by the *Automotive Lease Guide*.⁴ So all that's left to debate is which Accord is best for you.

Accord EX Sedan ▼

Adds to or replaces LX features:

- 4-wheel disc brakes
- Electronic Brake Distribution (EBD)
- 6-disc in-dash CD changer
- Power moonroof with tilt feature
- Ambient console lighting
- 16-inch alloy wheels
- Available leather-trimmed interior with heated front seats, 8-way power driver's seat, dual-zone automatic climate control system and XM Satellite Radio²
- Available Honda Satellite-Linked Navigation System³ with voice recognition

Accord LX V-6 Sedan ▼

- 240-hp, 3.0-liter VTEC® V-6 engine
- Drive-by-Wire Throttle System™
- 5-speed automatic transmission
- Dual-stage, dual-threshold front airbags (SRS)
- Front side airbags
- Side curtain airbags
- Anti-lock braking system (ABS)
- Electronic Brake Distribution (EBD)
- Traction Control System (TCS)
- 6-disc in-dash CD changer
- Driver's seat with 8-way power adjustment
- 16-inch wheels with full wheel covers

Accord EX V-6 Sedan ▼

Adds to or replaces LX V-6 features:

- Leather-trimmed interior
- Heated front seats
- Power moonroof with tilt feature
- Dual-zone automatic climate control system
- XM Satellite Radio²
- 16-inch alloy wheels
- HomeLink® remote system⁵
- Available Honda Satellite-Linked Navigation System³ with voice recognition

Accord Hybrid ▼

Adds to or replaces LX V-6 features:

- 255-hp, 3.0-liter i-VTEC V-6 engine with Integrated Motor Assist (IMA™)
- Variable Cylinder Management (VCM)
- Compact 5-speed automatic transmission
- Dual-zone hybrid automatic climate control system
- Leather-trimmed interior
- Heated front seats
- XM Satellite Radio²
- Exclusive rear spoiler
- Aerodynamic 16-inch alloy wheels
- HomeLink® remote system⁵
- Exclusive IMA charge/assist display
- Available Honda Satellite-Linked Navigation System³ with voice recognition

Accord EX V-6 Sedan shown in Desert Mist Metallic.

240-hp, 3.0-liter VTEC V-6 engine

Transmissions > 5-speed automatic with Grade Logic Control/5-speed manual

10

acceleration ▶ engine/transmission

Build an engine that combines power, efficiency and dependability, and the good news travels fast. Keep innovating as long as Honda has, and you're not just a newsmaker, you're a legend. An example is our variable valve timing and lift electronic control (VTEC) technology that maximizes low-end torque as well as high-end horsepower. In V-6 models, it helps pump out up to **240 hp**. In 4-cylinder models, i-VTEC further refines power delivery with a variable timing control (VTC) system. And **high-tech** transmissions turn power to motion. A 5-speed automatic transmission makes the most of the V-6's torque and power, and 4-cylinder models get either a crisp-shifting, 5-speed manual or an available 5-speed automatic transmission.

precision ▶ handling

If it's not fun to drive, it just can't be called a Honda. It's true for the Accord, too, which offers more driving satisfaction than many might expect from a sedan. It begins with rigid unit-body construction that enhances **responsiveness**. To this athletic platform we add a double wishbone suspension with a five-link rear setup and front and rear stabilizer bars for quick cornering (front only on DX). Sharply

honed power rack-and-pinion steering puts you in control, and on most models, 4-wheel disc brakes help ensure confident stops. While the suspension will delight with its agility, it also provides a smooth ride on the highway. You get poise. You get comfort. You get the notion that you're experiencing the **best of all worlds**. But when you drive an Accord, not compromising is a feeling that becomes quite familiar.

4-wheel double wishbone suspension

Variable-assist power rack-and-pinion steering

Rigid unit-body construction

Traction Control System (TCS) on V-6 models

Accord EX V-6 Sedan shown in Satin Silver Metallic.

confidence ▶ safety for everyone

12

Honda's **safety for everyone** philosophy means we're committed to implementing advanced safety technologies. All Accord Sedan models have a standard anti-lock braking system (ABS) and standard front airbags as well as front side and side curtain airbags. On V-6 models, we added a Traction Control System (TCS) too. And our efforts are getting results. The Insurance Institute for Highway Safety (IIHS) named the Accord Sedan a "Best Pick" after it got top ratings across the

board in its frontal crash tests.⁶ No other car tested in its class could match that feat. And the National Highway Traffic Safety Administration (NHTSA) gave the Accord Sedan a **5-star top crash-test rating** in its frontal-impact tests.^{*} In fact, Honda has become the most prominent name among vehicles receiving the NHTSA's top ratings. Five 2004 Honda models received 5-star ratings in both frontal- and side-impact crash testing. That's more models than any other brand tested.

*National Highway Traffic Safety Administration frontal crash test: December 2002; side crash test: February 2003.

1

Designed to take it.

The Accord Sedan's energy-absorbing front and rear crush zones are the key to protecting the passenger compartment. They deform in a controlled, progressive manner to dissipate impact energy.

Crash test conducted by Honda.

2

Family comes first.

The left and right rear seats have the LATCH (Lower Anchors and Tethers for Children) child-seat restraint system. The system makes it easier for you to install LATCH-compatible child seats.

3

Centralized strength.

The Accord's passenger cabin is protected by a strong safety cell formed by sturdy steel beams to resist the intrusion of impact forces in the event of collision.

4

Advanced airbag technology.

Standard dual-stage, dual-threshold front airbags† inflate at one of two rates and thresholds, based on the severity of impact and seat-belt use. And the front side airbags have a passenger-side occupant-position sensor that can detect if a child or smaller adult is in the airbag's deployment path, and prevent airbag deployment if needed.

Front airbags inflate and deflate in a fraction of a second.

5

Safety on your side.

For 2005, front side airbags and side curtain airbags are standard equipment on all Accord Sedan models. The rapidly deploying side curtain airbags can help prevent head and neck injuries in a sufficient side impact.

6

Brake even better.

The standard anti-lock braking system (ABS) works by detecting the loss of traction under hard braking, and will modulate the braking force to help the driver maintain the intended path of travel. Accord EX 4-cylinder models and all V-6 models also feature Electronic Brake Distribution (EBD), which will account for passenger and cargo weight distribution to further enhance braking stability.

7

Always buckle up.

All five passengers get 3-point seat belts. The front seat belts are equipped with pretensioners that automatically tighten the seat belts in the event of a moderate-to-severe impact.

†Honda reminds you and your passengers to always buckle up.

pure power ▶ hybrid

14

The new Accord Hybrid boldly redefines a hybrid's purpose. Yes, it's about ultra-low emissions, long range,* and an **extraordinary 38 mpg.**⁷ But check under the hood, and witness this hybrid's other mission in life. Packing the latest in Honda

technologies, its V-6 engine joins with Honda's Integrated Motor Assist (IMA) system to make 255 peak hp for **exhilarating performance.** It's the latest in a long line of Honda innovations—one that's sure to set a faster pace for smarter vehicles.

*Preliminary driving range determined by Honda. Based on preliminary highway mileage estimates and usable fuel tank capacity. The range of your vehicle may vary.

Accord Hybrid shown in Graphite Pearl.

FAQs ▶ hybrid technology

What exactly is a hybrid powertrain? Hybrid technology simply teams a gasoline engine with the added boost of an integrated electric motor. We call it the Integrated Motor Assist (IMA) system. In the new Accord Hybrid, IMA gives the highly efficient and powerful V-6 gas engine even more fuel efficiency⁸ and get-up-and-go when needed. And it drives just like a regular Accord.

I never have to plug it in, right? Nope. Never. Just drive it like you would any car. The electric part of the IMA system is completely self-contained and self-sufficient. The powertrain and braking systems recharge the batteries by recapturing kinetic energy when slowing down or braking.

Is there anything special I have to do? Yes—since driving the Accord Hybrid is definitely a special experience. You'll have to stop for gas a whole lot less. You'll have to accept that an Ultra-Low Emission Vehicle (ULEV-2) rating means you're helping to keep the environment cleaner. And you'll have to live with the fact that you're going to have more fun at the wheel than a socially responsible person is used to. Beyond that, there are few obligations. For any service or repairs, just remember to take your Accord Hybrid to your Honda dealer for expert hybrid-vehicle service.

1 The Accord Hybrid takes a leap beyond what most people understand about hybrid power. We started with an already muscular yet efficient engine, and then added **Integrated Motor Assist (IMA)** for even bigger doses of acceleration. The hybrid IMA system increases fuel economy,⁸ too, but it's just one ingredient in this modern powertrain's efficiency arsenal. It also features Honda's new **Variable Cylinder Management (VCM)** technology. When cruising, VCM deactivates three of the engine's six cylinders by pausing the fuel-injection system and by keeping intake and exhaust valves closed. The reduced displacement helps deliver unprecedented mileage and range. Accelerate, and VCM re-engages the cylinders in an instant, getting you up to speed in a hurry.

2 Electricity to go. Mated to the V-6 gasoline engine is an ultra-thin brushless DC electric motor. It's this electric motor that puts the "hybrid" in Accord Hybrid, providing additional horsepower and torque to assist the gasoline engine. And 90% of peak torque is available at a low 1,000 rpm for impressive acceleration. In fact, the Accord Hybrid has tested quicker from 0 to 60 than the non-hybrid Accord Sedan with a V-6 engine alone.

3 The transfer of power. The Accord Hybrid comes equipped with a specially designed, compact 5-speed automatic transmission. It offers smooth delivery of the IMA system's abundant power, with a wide range of gear ratios that optimize both efficiency and performance. The electronically controlled transmission is also programmed to downshift early when slowing, so the higher engine rpms enhance regenerative braking.

4 Charging forward. Behind the rear seat of the Accord Hybrid resides its high-efficiency battery pack. Its nickel-metal hydride (Ni-MH) composition is designed for the rigorous duties of a hybrid vehicle. And thanks to its thin profile, there's still plenty of cargo room in the trunk. The battery system even incorporates air cooling to enhance its longevity – further assured by an 8-year/80,000-mile limited battery warranty.⁹

Accord Hybrid shown in Graphite Pearl.

Starting	Acceleration	Cruising	Braking	At a stop
<p>The Accord Hybrid gets a brisk start with V-6 power and electric power from the Integrated Motor Assist system. IMA is normally used to start the gas engine, but there's also a 12-volt battery and starter if the IMA batteries are low.</p>	<p>When you need to get up to speed or pass with authority, you have all the power of the Accord Hybrid's V-6 engine, plus the added boost of the electric motor. It's a powerful combination with a total of 255 hp underfoot to pick up the pace.</p>	<p>When you maintain a steady speed at light engine loads, the Variable Cylinder Management (VCM) system is silently activated. While IMA boosts efficiency around town, VCM helps extend your fuel mileage and range on the highway.</p>	<p>Slow down, and the IMA system's electric motor is now a generator. It recharges the Hybrid's batteries by recapturing kinetic energy with the help of an electronically controlled transmission, which is tuned to maximize recharging capability.</p>	<p>Come to a stop, and the idle-stop feature shuts down the gasoline engine to reduce fuel consumption and emissions. Step on the accelerator, and both gas and electric power are immediately available for a brisk restart.</p>
 	 	 	 	 

When creating the new Accord Hybrid, our goals were simple: more performance, more economy and **no compromises**. So besides its remarkably sophisticated powertrain, we found other ways to enhance its best qualities. The engine's magnesium head covers and intake manifold—plus the aluminum hood—**reduce weight**. The Electric Power Steering (EPS) system **increases efficiency**, while enhancing steering response. There's also a unique hybrid air-conditioning system that uses an electric compressor when the engine's idle-stop feature is engaged, to always keep occupants comfortable. Even the alloy wheels are specially designed for optimized aerodynamics and fuel economy.

Accord Hybrid interior shown in Ivory Leather with available Honda Satellite-Linked Navigation System.

Radio goes 21st century.

Standard XM Satellite Radio² delivers over 120 channels of digital-quality sound, including traffic and weather channels in major cities. And all music channels are commercial-free.

Digits on display.

The Hybrid's bright and sporty instrumentation offers vital information at a glance, giving you visual confirmation of its inspirational performance.

Still roomy.

The Accord Hybrid's slim battery pack leaves plenty of trunk space—11 cubic feet.

abundance ▶ hybrid interior features

You can let people think you're making a statement. But in an Accord Hybrid, it won't be one of self-sacrifice. Because you'll be enjoying all the **comforts and conveniences** a typically well-equipped Accord provides: Leather seating embraces you. An automatic climate control system keeps you comfortable. A remote entry system eases your access. And an 8-way power driver's seat adjusts to fit your form. You can even opt for the Honda Satellite-Linked Navigation System,³ and map a route that'll do the Hybrid's 649-mile range* justice.

*Preliminary driving range determined by Honda. Based on preliminary highway mileage estimates and usable fuel-tank capacity. The range of your vehicle may vary.

It's a Honda ▶ a success story

Soichiro Honda founded the Honda Motor Company in 1948 to provide people with affordable, dependable transportation. Within a few short years, Honda was one of the world's preeminent motorcycle manufacturers. At Honda, we believe that the first step in making a good product is to listen to people and understand their needs. This core value is reflected in almost everything we do, like designing and building our products in the markets where they're used. In the importance we place on safety engineering and on being friendlier to the environment. And in our belief that the power of ingenious thinking can make great things possible.

Plenty of red, white and blue. ▶

Honda has been assembling cars in the U.S. since 1982. Today, we benefit from the efforts of almost 25,000 American associates. Close to 4 out of 5 Honda vehicles sold in the U.S. are assembled in North America. And our network of almost 600 U.S. suppliers makes more than 90% of the content that goes into those North American Honda vehicles.

◀ Imagination unbound.

Honda innovation is reestablishing the boundaries in aerospace technology with the HondaJet – a highly fuel-efficient, low-emission experimental aircraft with exceptional cabin space. And Honda's ASIMO is the world's most advanced and capable humanoid robot.

“A company is most clearly defined neither by its people nor by its history, but by its products. Our products will speak the truth about Honda.”

Soichiro Honda, Founder, ►
Honda Motor Co., Ltd.

▼ **We have a clear edge.**

Since our pioneering CVCC engines of the '70s, Honda has led the way in Earth-friendlier cars. Today, every Honda is a Low-Emission Vehicle (LEV) or better. Our natural-gas Civic GX is the cleanest internal-combustion vehicle the EPA has ever tested.⁵ Only Honda offers three hybrid vehicles.⁶ And now, our advanced zero-emission FCX fuel-cell car is the first certified for commercial use in the U.S.

Making safety for everyone.

Honda has long been a leader in developing and applying sophisticated safety technology. Our new research facility in Ohio features the world's most advanced high-resolution crash barrier. And our Tochigi, Japan, laboratory is the world's first indoor all-directional crash-test facility. Activities at these centers are playing a critical role in the ongoing evolution of our "safety for everyone" initiative. Through a comprehensive approach to vehicle safety, Honda seeks to provide top-level occupant protection within all of our cars and trucks—regardless of size or price—as well as reduced aggressiveness toward other vehicles and improved safety for pedestrians.

◀ **Winning is good. Learning is better.**

Honda began racing motorcycles in the 1950s and cars in the '60s. Over the years, we've done quite a bit of winning, too—including the top seven places in the 2004 Indy 500,[®] led by Buddy Rice of Rahal-Lettermann Racing. And all of our vehicles certainly reflect the advancements of our hard-won technology. But we believe the greatest benefit of racing is how it prepares our engineers to think creatively under pressure. So they're always ready for the next big challenge.

accord hybrid ▶ specifications and features

Engineering	Hybrid
Engine Type	V-6
Engine Block/Cylinder Head	Aluminum-Alloy
Displacement (cc)	2997
Horsepower @ rpm (SAE net / with IMA)	240 @ 6250 / 255 @ 6000
Torque (lb.-ft. @ rpm / with IMA)	212 @ 5000 / 232 @ 5000
Bore and Stroke (mm)	86.0 x 86.0
Compression Ratio	10.0 : 1
Valve Train	24-Valve SOHC i-VTEC*
Multi-Point Fuel Injection	•
Drive-by-Wire Throttle System™	•
Idle-Stop Feature	•
Variable Cylinder Management™ (VCM)	•
Active Control Engine Mount System (ACM)	•
Active Noise Cancellation (ANC)	•
CARB Emissions Rating	ULEV-2
Direct Ignition System with Immobilizer	•
Tune-Up Interval*	105,000 Miles
Transmission	
Compact 5-Speed Automatic Transmission	
Gear Ratios: 1st:TBD, 2nd:TBD, 3rd:TBD, 4th:TBD, 5th:TBD, Reverse:TBD, Final Drive Ratio: TBD	•
Electric Motor/Generator	
Permanent Magnet Motor	•
Power Output	16hp @ TBDRPM
Motor Width (mm)	68
Electric Power Storage	
Nickel-Metal Hydride (Ni-MH) Battery	•
Output	144v (TBD cells @ TBD v)
Rated Capacity	6.0Ah
Body/Suspension/Chassis	
Unit-Body Construction	•
Double Wishbone Front Suspension	•
Five-Link Double Wishbone Rear Suspension	•
Stabilizer Bar (mm, front/rear)	25.4 / 13.0
Electric Power-Assisted Rack-and-Pinion Steering (EPS)	•
Steering Wheel Turns, Lock-to-Lock	2.93
Steering Ratio	14.96
Turning Diameter, Curb-to-Curb (ft.)	36.1
Power-Assisted Ventilated Front Disc/Solid Rear Disc Brakes	•
Wheels	16" Lightweight Alloy
All-Season Tires	P215/60 R16
Interior Measurements	
Headroom (in., front/rear)	40.4 / 38.5
Legroom (in., front/rear)	42.6 / 36.8
Shoulder Room (in., front/rear)	56.9 / 56.1
Hiproom (in., front/rear)	54.6 / 53.5
Cargo Volume (cu. ft.)	11.0
Passenger Volume (cu. ft.)	102.7
Seating Capacity	5
Exterior Measurements	
Wheelbase (in.)	107.9
Length (in.)	189.5
Height (in.)	57.1
Width (in.)	71.5
Track (in., front/rear)	61.1 / 61.2
Curb Weight (lbs.)	TBD
Coefficient of Drag (Cd)	0.30
EPA Mileage Estimates ⁹ /Capacities	
5-Speed Automatic Transmission (City/Highway)	TBD
Crankcase (qt.)	5.3
Coolant System (qt.)	8.4
Fuel (gal.)	17.1
Required Fuel	Regular Unleaded

*Does not apply to fluid and filter changes. See your owner's manual for details.

Safety	Hybrid
3-Point Seat Belts at All Seating Positions	•
Front 3-Point Seat Belts with Automatic Tensioning System	•
Adjustable Front Seat Belt Anchors	•
Dual-Stage, Dual-Threshold Front Airbags (SRS)	•
Front Side Airbags with Passenger-Side Occupant Position Detection System (OPDS)	•
Side Curtain Airbags	•
Anti-Lock Braking System (ABS)	•
Electronic Brake Distribution System (EBD)	•
Traction Control System (TCS)	•
Side-Impact Door Beams	•
Lower Anchors and Tethers for Children (LATCH) (rear)	Outboard
Rear-Center Child-Seat Tether Anchor	•
Child-Proof Rear Door Locks	•
Immobilizer Theft-Deterrent System	•
