

TT TTS

**One glance is all the
affirmation you'll need.**

It starts with the broad contours and the distinctive front grille. And once the unmistakable shape takes hold, it becomes even more apparent: The Audi TT is an engineering marvel. Iconic design and unbridled performance find a new home in the Audi TT. From a powerful, wide and low stance to its award-winning engine, the TT not only delivers on its looks, it surpasses.

**An interior crafted
with passion, for passion.**

Appointed with a spirit for performance, the Audi TT boasts an impeccably crafted interior. Stylish trim with Brushed Aluminum inlays accent an affinity for elegance and distinction. And a race-inspired, leather-wrapped, multifunction steering wheel brings easy access to shift paddles as well as music and voice control systems. The TT also features sport seats with available Fine Nappa leather, bringing performance and luxury full circle.

**Looks that stand out on any road,
performance that stands out in any situation.**

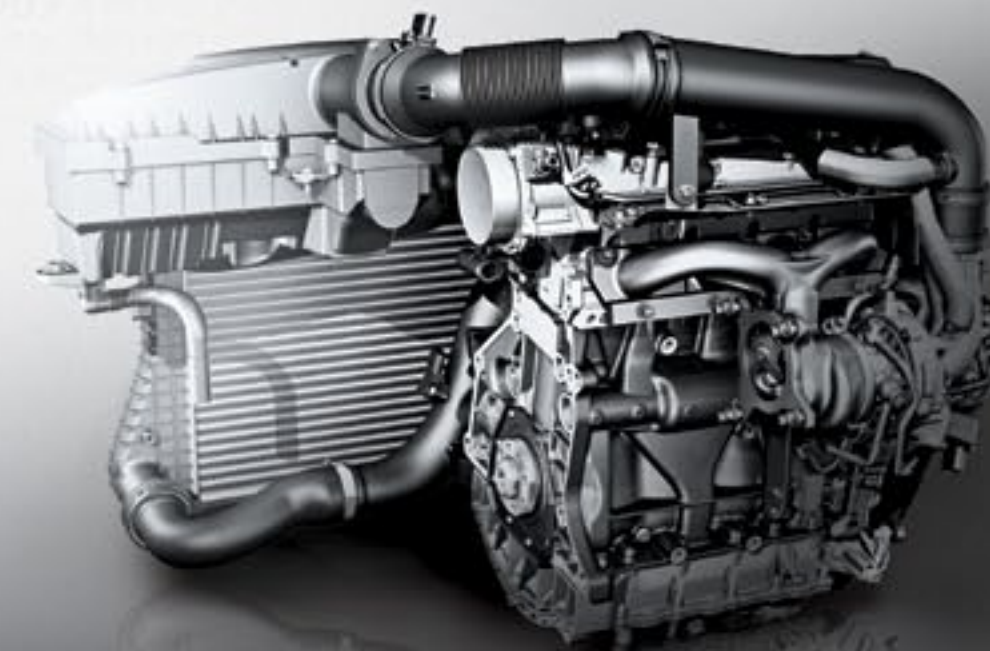

The Audi TT is the only exclusive all-wheel drive sportscar in its class, calling on a proven motorsports heritage and quattro® all-wheel drive to help deliver exceptional traction and performance in virtually any situation. And in true Audi fashion, advanced technology enables the most responsive handling possible through the available Audi magnetic ride suspension. In short, it adapts instantaneously to prevailing road conditions to optimize handling performance.

The silhouette of power.

Simply put, the Audi TT is made for motion. Take the award-winning turbo direct injected 2.0 liter TFSI® engine, for instance. Delivering an astounding 29 MPG* and a 0-60 time of just 5.9 seconds*, efficiency and power hold equal importance. An S tronic® transmission, capable of 0.2-second gear changes, and Audi launch control optimize acceleration while enhancing the overall driving experience.

* EPA fuel economy estimates for automatic transmission city/highway: 21/29 MPG. Your mileage will vary. * TT Coupe.

Audi TT Coupe 2.0T Prestige

Power meets possibility.

Like any Audi, innovative safety features abound. In addition to the peace of mind quattro® all-wheel drive offers, dual-stage airbags, knee airbags and head and thorax side airbags* are standard. Plus, the Audi TT features ESP®, which helps provide maximum control in adverse conditions by employing a number of safety systems, including anti-lock braking, Electronic Brake-pressure Distribution [EBD] and traction control. After all, power is meaningless if it can't be used safely and effectively.

* Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age. This is a dramatization and does not depict what will happen in an accident. All bags will not inflate in real world accidents and if multiple bags deploy they will be in various stages of inflating/deflating and will never all be inflated at the same time.

Good luck finding a synonym.

Power, innovation and design come together so perfectly, the result defies description. Built with a passion for driving, the Audi TTS delivers performance like only an Audi can. The ultra-efficient 2.0 liter turbo direct injection TFSI® engine delivers an incredible 29 MPG*. And with 265 hp and an S tronic® transmission that delivers lightning-fast shifting, the TTS achieves 60 MPH in 4.9 seconds†, leaving the competition in its wake.

* EPA fuel economy estimates for automatic transmission city/highway: 21/29 MPG. Your mileage will vary. † TTS Coupe.

**Is it possible to be both
exclusive and inclusive?**

Function meets distinction throughout the finely crafted interior of the Audi TTS. Brushed Aluminum inlays, Aluminum Optic S tronic® shift paddles, a unique Audi TTS instrument cluster, available Silk Nappa leather sport seats and a number of other specific S model elements create an environment with a proclivity for performance. Combined with a race-inspired multifunction steering wheel and contrast stitching throughout, the Audi TTS interior is the perfect setting for a rewarding driving experience.

The face of performance.

Driving the Audi TTS with its race-bred heritage, it's easy to trace its inspiration. It begins with the 265 hp 2.0 liter TFSI® engine, which has been exclusively re-engineered to suit the TTS. An enhanced air intake and exhaust system, coupled with a performance-optimized turbocharger allows the TTS to tap the full potential of turbo FSI® technology. The result is an astonishing 258 lb.-ft. of torque from 2500-5000 rpm. The TTS also utilizes Audi launch control, which adds to its instinct of speed by optimizing acceleration from a standstill. Just more proof that the Audi TTS delivers on its promise of performance.

265 ^{hp}
258 ^{lb.-ft.}

Power is just the beginning.

Audi TTS performance extends far beyond the drivetrain. After all, the Audi TTS is the only sportscar in its class to offer the latest generation of quattro® all-wheel drive and ASF®, the exclusive Audi Space Frame. On top of those systems, Audi magnetic ride further enhances handling by continuously adjusting suspension components for ideal damping in any driving situation. Plus, with Audi magnetic ride, drivers have the option to control the driving experience with the push of a button by selecting between “Normal” and “Sport” modes.

**It's so rewarding because
we're so demanding.**

Innovation isn't taken lightly on any Audi, especially the Audi TTS. Starting with the lightweight aluminum and steel Audi Space Frame [ASF®], the TTS boasts improved load distribution, added strength and safety. The Electronic Stabilization Program, also known as ESP®, bolsters confidence and handling control by integrating a number of systems, including anti-lock brakes, Electronic Differential Lock [EDL] and traction control. When adverse driving conditions are encountered, these systems automatically activate in a fraction of a second, helping you avoid many dangerous driving scenarios.

- 1 Leather/Alcantara® sport seats** | The superior quality of leather and impeccable craftsmanship of the seat design are complemented by Black stitching and race-bred Alcantara® inserts, which were developed to provide a high level of grip for drivers and passengers.
- 2 Leather-wrapped, flat-bottom, multifunction sport steering wheel with shift paddles** | The race-inspired, lightweight, magnesium, three-spoke, leather-wrapped design has a performance look and feel, and features shift paddles for quick gear changes. The multifunction steering wheel provides easy access to MMI®-inspired control logic for CD, radio, navigation and voice control functions.
- 3 Audi concert radio with SIRIUS® Satellite Radio** | Audi concert radio features the Audi Sound System with 140 watts of power with MP3 CD capability. It also offers a CD player and auxiliary input for easy access to a variety of music devices. The Radio Data System [RDS] on the screen displays several types of FM radio information, as well as SIRIUS® Satellite Radio information.
- 4 Storage Package with load-through** | The Storage Package adds a number of convenient features to the TT interior, including compartments under the driver's and front passenger's seats, a net in the front passenger's footwell, nets on the back of the driver's and front passenger's seats and load-securing net in the luggage compartment. The Roadster also includes a load-through facility with ski bag.
- + Audi hill hold assist** | Audi hill hold assist combines convenience and safety by helping to prevent the car from briefly rolling back when performing a hill start.
- + HomeLink® and Bluetooth®** | HomeLink® is integrated into the overhead controls and uses a simple three-button system that can control garage doors, gates and even lights in the home. The Bluetooth® hands-free phone interface allows you to pair a Bluetooth®-enabled mobile phone with your Audi and access your phonebook within the driver information display in your instrument panel. For specific compatibility and operation, refer to audiusa.com/bluetooth or contact your local Audi dealer for the latest listing of compatible phones.
- + Power-folding top** | The power-folding soft top is constructed of lightweight aluminum and steel. The top opens and closes in twelve seconds at speeds under 31 MPH for added convenience. [Roadster only]
- + Retractable rear spoiler** | The retractable rear spoiler automatically extends at 75 MPH and retracts at 50 MPH. This performance and aerodynamics-enhancing feature can also be operated manually.

TT Premium Plus

- 5 **Audi xenon plus headlights with daytime running lights** | The high-intensity discharge headlights produce about twice as much light as comparable halogen headlights. They help make night driving, particularly in poor weather, safer and easier for the driver's eyes.
- 6 **Ten-way power heated seats** | The power heated seats allow the driver and passenger to electronically adjust the seat's forward/backward position, seat height, lumbar support, and angle of seat cushion and seatback. The multilevel seat-heating system is designed to heat the entire surface of the seat; warming is initiated with a convenient button.
- + **Auto-dimming interior mirror** | The rearview mirror with automatic dimming recognizes glaringly bright beams behind the car and darkens the mirror automatically. An electronic control unit varies the darkening effect quickly and continuously according to actual ambient light conditions. Vehicle direction is displayed through a digital compass in the corner of the mirror.

TT Prestige

- 7 **BOSE® sound system with AudioPilot®** | The twelve speakers include a center speaker and subwoofer matched with an eight-channel DSP amplifier with a total output of 255 watts. A microphone measures noise level and adjusts radio volume accordingly, resulting in balanced sound, despite background noise.
- 8 **Audi Navigationplus** | The DVD-based Audi Navigation plus features a full-color, six-and-one-quarter-inch LCD screen and MMI®-inspired control logic for AM/FM radio functions. Also included are two SD® card slots for your MP3 music and the option of a six-CD changer or iPod® interface.
- + **Interior LED Lighting Package** | The Interior LED Lighting Package features permanent vertical ambient illumination of select interior areas for a driving environment that exudes distinction and innovation.

TT Options

TT Options

- 1 18" five-arm Dynamic Design alloy wheels with 245/40 summer performance tires*** | This option gives the TT a sport-inspired look and feel, and comes equipped with summer performance tires, which help to improve handling and driving dynamics.
- 2 Baseball Optic Leather Package** | The superior quality of Fine Nappa leather seating surfaces adds to a sophisticated yet performance-oriented driving experience. The Baseball Optic woven stitching evokes the original heritage of the TT while adding an exclusive touch of distinction. [Premium Plus and Prestige only; Black is available for Coupe, Madras Brown is available for Roadster]
- 3 Audi magnetic ride** | Instead of conventional damper oil, the shocks are filled with a special fluid where viscosity can be controlled by an electromagnetic field. The TT continuously adjusts the fluid's electromagnetic properties to deliver the appropriate damping forces in every driving situation. The driver can manually select "Normal" or "Sport" mode in milliseconds with the touch of a button.
- + Fine Nappa leather** | The use of high-quality Fine Nappa leather in the interior of the TT adds to the elegant, dynamic and sporty driving experience. [Premium Plus and Prestige only]

* See page 28 for important safety information regarding summer performance tires.

TT S line Package

- 4 **S line, multifunction, sport steering wheel** | The race-inspired, perforated S line, multifunction steering wheel provides easy access to MMI®-inspired control logic for CD, radio, navigation and voice control functions.
- 5 **Leather/Alcantara® S line sport seats*** | The superior quality of leather and impeccable craftsmanship of the seat design are complemented by Silver contrast stitching and race-bred Alcantara® inserts, which are developed to provide a high level of grip for drivers and passengers.
- 6 **S line doorsill inserts** | The interior S line features of the TT include Brushed Aluminum doorsills with S line badging.
- 7 **19" seven-twin-spoke wheels with 255/35 summer performance tires*** | This striking wheel option makes a bold, race-inspired statement and is equipped with summer performance tires for superior performance in warm climates.
- 8 **S line front and rear bumpers** | One of the most distinguishing features of the TT model is its unique exterior elements. The S line bumpers add a stylish and sporty quality, complementing the powerful lines and stance of the vehicle.
- + **Silver contrast stitching** | Silver accent-colored stitching is featured on the vehicle's seats and headrest, shift skirt, steering wheel, armrest and emergency brake lever – enhancing the interior's luxury, detail and distinction.

* Image may not represent actual S line seat. See your dealer for details.
* See page 28 for important safety information regarding summer performance tires.

+ FEATURE NOT SHOWN

TT S line Package

- 1 Driver information system** | The driver information system features a new, high-resolution white display, which concentrates important information into one, easy-to-read interface. It also includes a timer function that is able to record lap times on racetracks.
- 2 Performance exhaust with quad S exhaust pipes** | Two sets of twin tailpipes protruding from the left and right inject the vehicle's tail with a character all its own, and add an unmistakable hint of what is under the hood.
- 3 Audi xenon plus headlights with LED daytime running lights** | The high-intensity discharge headlights produce about twice as much light as comparable halogen headlights. They make night driving, particularly in poor weather, safer and easier for the driver's eyes. The 24 daytime running lights are striking and pay homage to multiple Audi victories at the 24 Hours of Le Mans.
- 4 18" five-parallel-spoke S design wheels with 245/40 summer performance tires*** | The 18" five-parallel-spoke wheels are impressive in their stance and design. The wheels come equipped with summer performance tires, which help to improve handling and driving dynamics.
- + S Audi magnetic ride with 10 mm lowered chassis** | Instead of conventional damper oil, the shocks are filled with a special fluid where viscosity can be controlled by an electromagnetic field. The TTS continuously adjusts the fluid's electromagnetic properties to deliver the appropriate damping forces in every driving situation. The driver can manually select "Normal" or "Sport" mode in milliseconds with the touch of a button.
- + Audi concert radio with SIRIUS® Satellite Radio** | Audi concert radio features the Audi Sound System with 140 watts of power with MP3 capability. It also offers a CD player and auxiliary input for easy access to a variety of music devices. The Radio Data System [RDS] on the screen displays several types of FM radio information, as well as SIRIUS® Satellite Radio information.
- + Retractable rear spoiler** | The retractable rear spoiler automatically extends at 75 MPH and retracts at 50 MPH. This performance and aerodynamics-enhancing feature of the TTS can also be operated manually.
- + Audi hill hold assist** | Audi hill hold assist combines convenience and safety by helping to prevent the car from briefly rolling back when performing a hill start.

* See page 28 for important safety information regarding summer performance tires.

5 Leather-wrapped, flat-bottom, multifunction sport steering wheel with shift paddles | The race-inspired, lightweight, magnesium, three-spoke, leather-wrapped design has a performance look and feel. The multifunction steering wheel provides easy access to MMI®-inspired control logic for CD, radio, navigation and voice control functions.

6 S tronic® with launch control | The S tronic® automatic transmission in the TTS enables rapid-fire shifts, thanks to a dual-clutch system. Shifts can be engaged either through the shift lever on the console or by Aluminum Optic shift paddles located behind the steering wheel at the nine and three o'clock positions. Additionally, there are two automatic driving mode options, "Normal" and "Sport", which allows the driver to further customize their drive. Audi launch control optimizes acceleration from a standstill.

7 Power-adjustable, heated S exterior mirrors with integrated LED turn signals | The distinctive, Aluminum Optic S model exterior mirrors are power adjustable, heated to prevent fogging and house integrated LED turn signals.

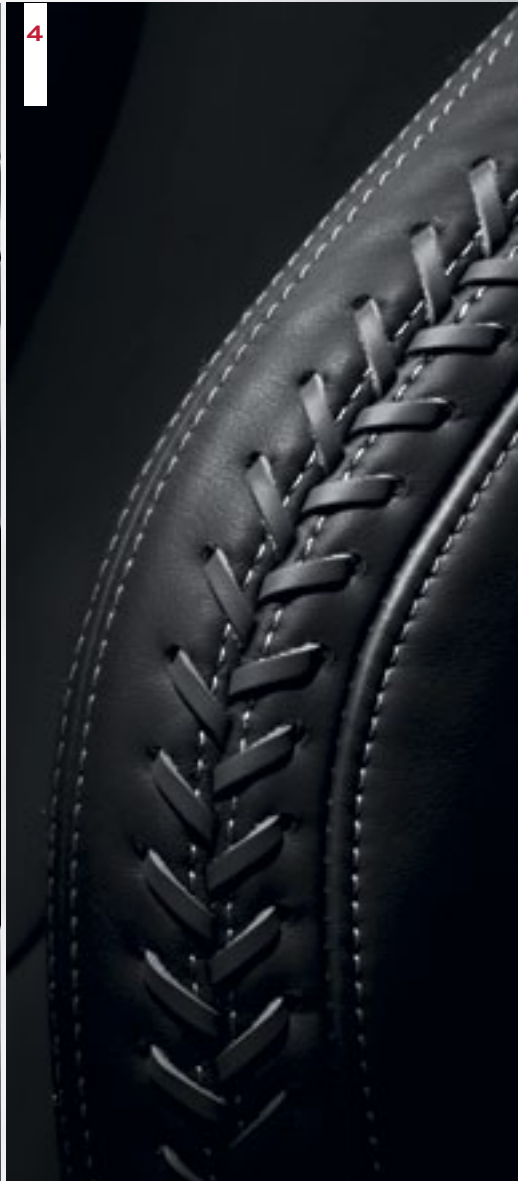

8 Power-folding top | The power-folding soft top is constructed of lightweight aluminum and steel. The top opens and closes in twelve seconds at speeds under 31 MPH for added convenience. [Roadster only]

+ Storage Package with load-through | The Storage Package adds a number of convenient features to the TTS interior, including compartments under the driver's and front passenger's seats, a net in the front passenger's footwell, nets on the back of the driver's and front passenger's seats and load-securing net in the luggage compartment. The Roadster also includes a load-through facility with ski bag.

+ Leather/Alcantara® sport seats | The superior quality of leather and impeccable craftsmanship of the seat design are complemented by the race-bred Alcantara® inserts, developed to provide a high level of grip for drivers and passengers.

+ HomeLink® and Bluetooth® | HomeLink® is integrated into the overhead controls and uses a simple three-button system that controls garage doors, gates and even lights in the home. The Bluetooth® hands-free phone interface allows you to pair a Bluetooth®-enabled mobile phone with your Audi and access your phonebook within the driver information display in your instrument panel. For specific compatibility and operation, refer to audiusa.com/bluetooth or contact your local Audi dealer for the latest listing of compatible phones.

TTS Prestige

1 Audi Navigation plus | The DVD-based Audi Navigation plus features a full-color, six-and-one-quarter-inch LCD screen and MMI[®]-inspired control logic for AM/FM radio and SIRIUS[®] Satellite Radio functions. Also included are two SD[®] card slots for your MP3 music and the option of a six-CD changer or iPod[®] interface.

2 BOSE[®] sound system with AudioPilot[®] | The twelve speakers include a center speaker and subwoofer matched with an eight-channel DSP amplifier with a total output of 255 watts. A microphone measures noise level and adjusts radio volume accordingly, resulting in balanced sound, despite background noise.

3 19" five-tri-spoke wheels with summer performance tires* | The 19" wheels enhance the purposeful stance of the TTS. The dynamic design is optimized with summer performance tires, which help to improve handling and driving dynamics.

+ Silk Nappa Leather Package | The high-quality Silk Nappa leather and contrast stitching enhance the sophisticated yet sport-oriented driving experience of the TTS. Available in Black and bicolor leather.

+ Ten-way power heated seats | The power heated seats allow the driver and passenger to electronically adjust the seat's forward/backward position, seat height, lumbar support, and angle of seat cushion and seatback. The multilevel seat-heating system is designed to heat the entire surface of the seat; warming is initiated with a convenient button.

+ Auto-dimming interior mirror with compass | The rearview mirror with automatic dimming recognizes glaringly bright beams behind the car and darkens the mirror automatically. Vehicle direction is displayed through a digital compass in the corner of the mirror.

TTS Options

4 Baseball Optic Leather Package | The superior quality of Fine Nappa leather seating surfaces adds to a sophisticated yet performance-oriented driving experience. The Baseball Optic woven stitching evokes the original heritage of the TTS while adding an exclusive touch of distinction. [Prestige only; Black is available for Coupe, Madras Brown is available for Roadster]

* See page 28 for important safety information regarding summer performance tires.

+ FEATURE NOT SHOWN

- 5 **Chrome Optic grille strips** | Highlight the distinctive Audi grille design with these Chrome Optic strips. Strips attach to your grille with OEM-grade adhesive for durability.
- 6 **19" five-arm Turbo wheels** | These alloy wheels are designed exclusively for the TT. They are specially engineered to meet the strict dimensional tolerances of our original equipment wheels. Available in Silver [shown], Gloss Black and Gloss White. [TT only]
- 7 **Rear spoiler** | Make a personal statement with a fixed aerodynamic rear-deck spoiler. Made of hard integral foam.
- 8 **Polished Stainless Steel exhaust tips** | Add a stylish detail to your TT with these tailpipe embellishers. Tips feature rolled edges and are angle cut. [TT only]
- 9 **Ski and snowboard racks** | These racks are held securely in place by rubber-cushioned aluminum bars. Our smaller, standard attachment holds up to two snowboards or four skis. A larger deluxe attachment holds up to four snowboards or six skis. [Must be used in combination with the base carrier bars which are sold separately]
- + **Embossed all-weather rubber floor mats** | Trim profile, embossed rubber mats extend the life of your carpet. Sold in sets of two for the front footwells.
- + **Carpeted floor mats** | These precision-fit mats, made of long-life fabric, protect the interior of your TT/TTS. Skid resistant. Set of two front mats. Available in Black.
- + **Splash guards** | Protect the finish of your TT with custom-fit front and rear splash guards. Made of long-life, crack-resistant rubber. [TT only]
- + **All-weather car cover** | Protect your Audi from the elements with this lightweight, easy-to-use cover. The Stormshield® material is custom designed for your model. The cover features a plastic window so the rear license plate is visible. Includes a storage bag.

See your local Audi dealer for the complete selection of Genuine Audi Accessories.

TT Wheel Options

- 1. 18" ten-spoke bicolor wheels with 245/40 summer performance* or all-season tires** | The 18" ten-spoke is a refined design that complements the sport-inspired style of the TT. Summer performance tires help to improve handling and driving dynamics, while all-season tires offer responsive handling on a variety of surfaces. [Standard on TT]
- 2. 18" seven-arm Dynamic Design wheels with 245/40 all-season tires** | The 18" seven-arm aluminum wheels deliver unique and unmistakable style, which serves as a perfect complement to the responsive handling of the all-season tires. [Optional on TT, not available with S line]
- 3. 18" five-arm Dynamic Design wheels with 245/40 summer performance tires*** | This option elevates the aggressive look and feel of the TT to a new level. The wheels are equipped with summer performance tires, which help to improve handling and driving dynamics. [Optional on TT, not available with S line]
- 4. 18" ten-spoke chrome wheels with 245/40 summer performance tires*** | The 18" ten-spoke design is a distinguished choice that matches the bold design of the TT. The wheels are equipped with summer performance tires, which help to improve handling and driving dynamics. [Optional on TT Prestige]
- 5. 19" seven-twin-spoke wheels with 255/35 summer performance tires*** | This aggressive, sport-inspired wheel option complements the exterior of the TT from top to bottom. The wheels are equipped with summer performance tires, which help to improve handling and driving dynamics. [TT S line only]

* Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car or their equivalent. These summer performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

6 18" five-parallel-spoke S design wheels with 245/40 summer performance tires* | The bold yet classic style of the 18" five-parallel-spoke S design wheels is standard on the TTS. The wheels come equipped with summer performance tires, which help to improve handling and driving dynamics. [Standard on TTS Premium]

7 19" five-tri-spoke wheels with 255/35 summer performance tires* | The 19" five-tri-spoke wheel is aggressive in its stance and bold in design. The wheels come equipped with summer performance tires, which help to improve handling and driving dynamics. [Optional on TTS Premium, standard on TTS Prestige]

Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

* Your Audi vehicle is equipped with a phone preparation utilizing Bluetooth® interface to enable hands-free functionality [compatible mobile phones sold separately]. You will need a Bluetooth®enabled mobile phone in order to utilize this function. Not all Bluetooth®enabled mobile phone models are compatible with Audi phone preparation. Visit audiusa.com/bluetooth, or contact your local Audi dealer for the latest listing of compatible phones. Audi recommends use of the Audi phone cradle [sold separately] with your mobile phone while operating this vehicle.

* Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destination and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. Periodically, the mapping is updated, and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

TT Model Configuration

2.0 TFSI® 200 hp with six-speed S tronic® transmission and quattro® all-wheel drive

Power and Performance

- + 2.0 liter turbocharged, in-line four-cylinder, spark-ignition engine with TFSI® direct injection, four valves per cylinder, DOHC, turbocharger with intercooler
- + Displacement: 2.0 liters [1984 cc]
- + Bore: 3.25 in. Stroke: 3.65 in. Compression ratio: 9.6:1
- + Horsepower: 200 hp @ 5100-6000 rpm Torque: 207 lb-ft. @ 1800-5000 rpm
- + 0-60 MPH in seconds – Coupe: 5.9, Roadster: 6.2
- + Top track speed*: 130 MPH [governed]
- + Fuel economy estimate, city/highway*: 21/29 MPG

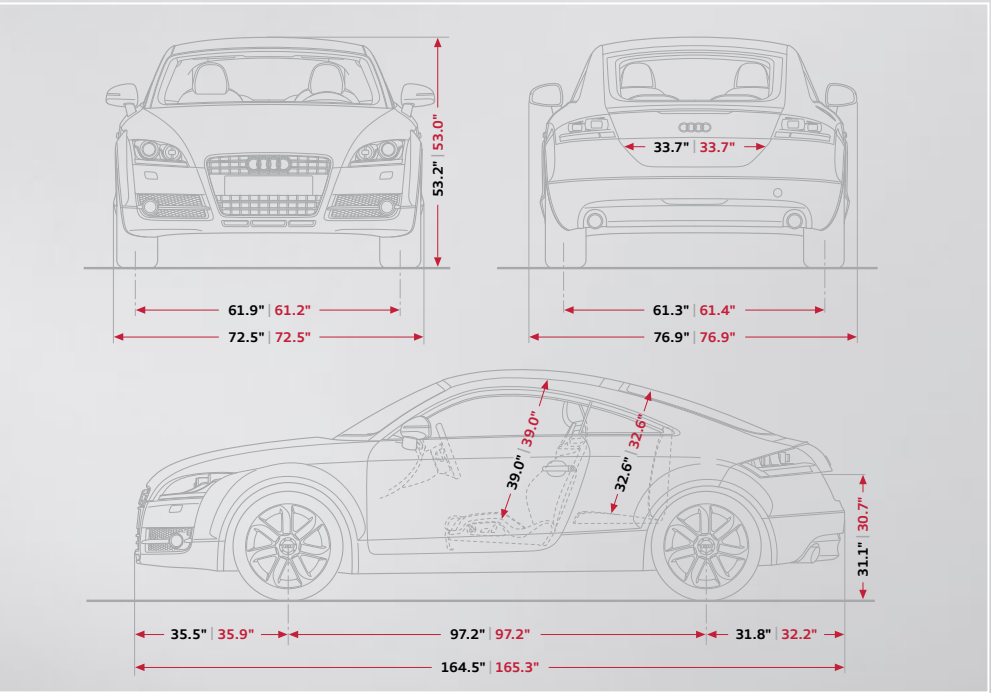

TTS Model Configuration

2.0 TFSI® 265 hp with six-speed S tronic® transmission and quattro® all-wheel drive

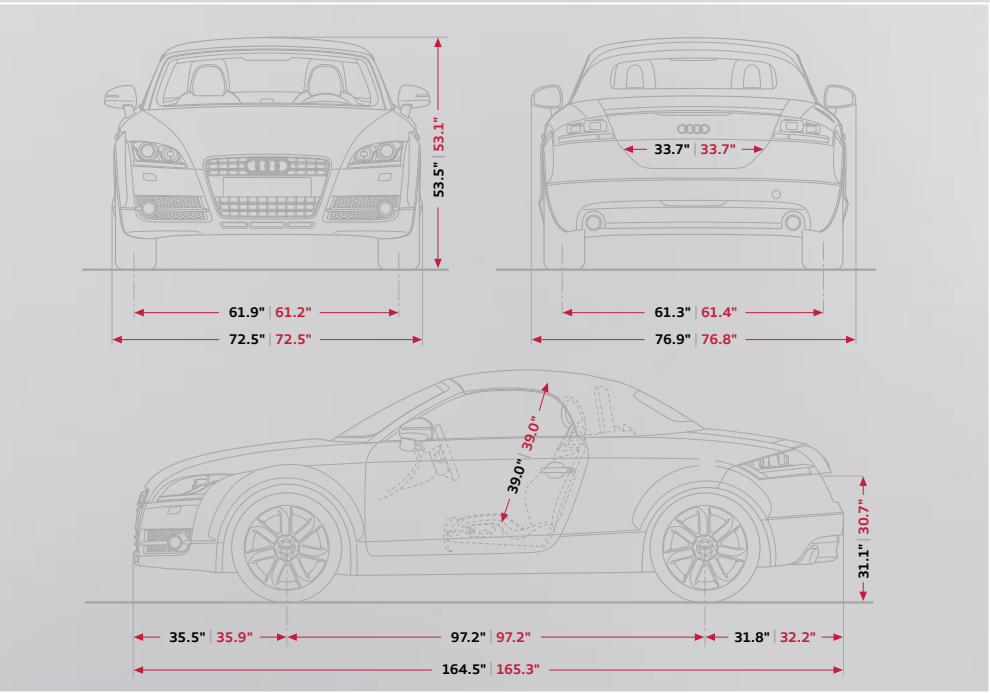

Power and Performance

- + 2.0 liter turbocharged, in-line four-cylinder, spark-ignition engine with TFSI® direct injection, four valves per cylinder, DOHC, S model specific turbocharger with increased efficiency all-metal charged air cooler; main-bearing pedestal, main-bearing cap, connecting rods, ring carrier pistons, piston pins and ring assembly specially reinforced
- + Displacement: 2.0 liters [1984 cc]
- + Bore: 3.25 in. Stroke: 3.65 in. Compression ratio: 9.6:1
- + Horsepower: 265 hp @ 6000 rpm Torque: 258 lb-ft. @ 2500-5000 rpm
- + 0-60 MPH in seconds – Coupe: 4.9, Roadster: 5.1
- + Top track speed*: 155 MPH [governed]
- + Fuel economy estimate, city/highway*: 21/29 MPG

TT | TTS Coupe[§]

TT | TTS Roadster[§]

* Top track speed electronically limited to 130 MPH in the U.S. Obey all local speed and traffic laws. * EPA estimate; your mileage will vary. * Top track speed electronically limited to 155 MPH in the U.S. Obey all local speed and traffic laws.
§ TT schematic shown. Black measurements represent TT. Red measurements represent TTS.

**With so much to offer, there is only one place
where you can experience it all.**

To fully interact with Audi, visit us online at any number of our special sites.
From configuring your next Audi, to learning about the latest technology,
to experiencing our passion for performance and racing, we invite you to
explore the rich, stimulating world that is uniquely Audi.

Audi Collection

Beautifully made. Beautifully designed. Faultlessly functional. All the qualities that distinguish our cars can also be found in our Audi collection. From performance wheels to products designed specifically with you and your particular Audi in mind to enhance the pleasure of driving and owning an Audi.

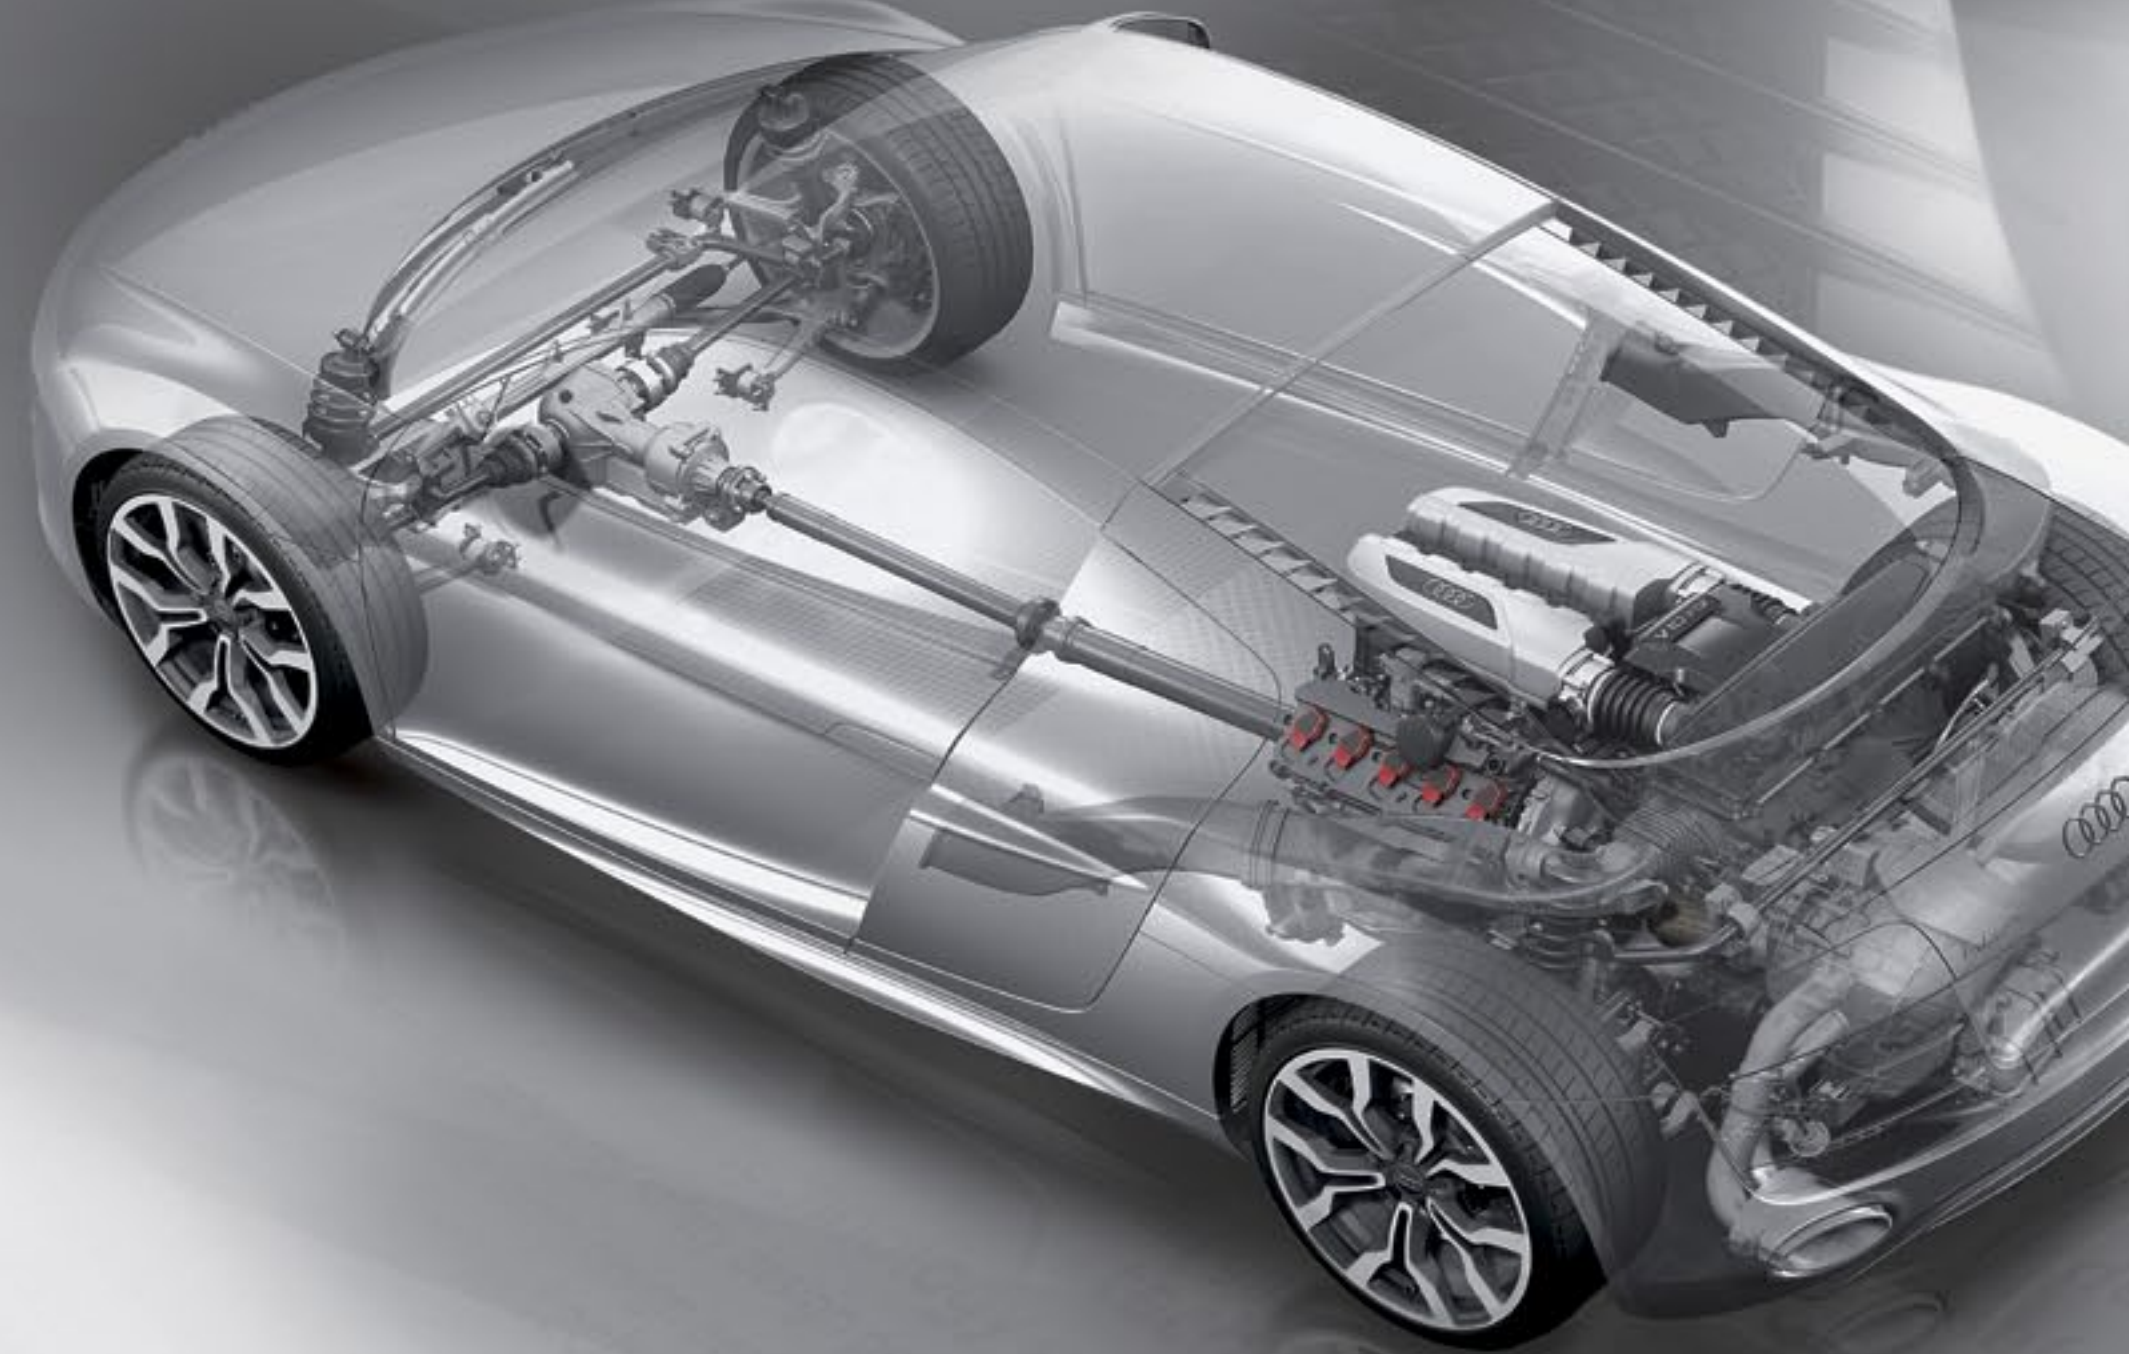

Four driven wheels are a part of what drives our progress.

Nearly 30 years ago, the notion of a car with permanent four-wheel drive was revolutionary. Audi called it quattro® and its benefits, we discovered, would set a new benchmark for driver confidence and performance. The simple, yet profound result of sending power to all wheels means that snow-covered mountain passes, rain-slicked highways and gravel-strewn rural roads are no longer encountered with apprehension. While on smooth dry roads, quattro® offers a level of performance unachievable by two-wheel drive cars.

The advantage of all-wheel drive was most apparent when Audi introduced quattro® to the World Rally Championship. quattro® seemed to defy physics with startling acceleration and remarkable traction. The result was an astounding 24 wins and a number of World Championships. If that wasn't enough of an endorsement for quattro®, it was later deemed an "unfair advantage" and banned from road racing altogether after repeatedly dominating the field.

Today, in that same competitive spirit, quattro® all-wheel drive continues to be refined. In Audi vehicles with a transverse engine configuration quattro® is a hydraulic system with an electronically controlled multi-plate clutch. Utilizing an advanced control module that monitors road speed, cornering and traction, quattro® can anticipate wheel slip and quickly respond to any driving situation. quattro® can dynamically send power to the wheels with the most grip, providing sportscar-like performance and handling with uncompromised all-wheel drive traction.

The power of quattro® is its ability to inspire driver confidence,
giving you traction when you need it, where you need it, regardless of road conditions.

Together the future is ours.

August Horch founded this company on one word: **Progress**. Back in 1909.

To us, it is taking what seems undoable and then doing it. It is discovering what no one else has bothered to discover. It is turning skeptics into believers, and it is taking the thinking that wins on the racetrack and putting it on the road. Relentlessly designing, innovating, engineering and racing for the past 100 years have yielded amazing progress in our quest for the Truth. And although the Truth is absolute, it's in a constant state of motion always revealing new limits and opportunities. For instance, what seemed improbable has become the standard as we have created a diesel engine so quiet, so clean, so efficient and so powerful we put it to the ultimate test competing in the 24 Hours of Le Mans... winning three years in a row. But aside from walking away with trophies, we walked away with a deeper understanding of what to engineer into our cars for the street. The remarkable capabilities of TDI® clean diesel power, the all-wheel drive confidence of quattro®, and the increased power and efficiency of FSI® are but a few of those strands of DNA that have brought us that much closer to the Truth.

And it is that quest for the Truth that is behind every pencil line we draw, every calculation we make and every idea we deem not good enough. And although they may prove to be remarkable achievements in their own right, they represent a greater commitment to what is most important: **Truth in Engineering**.

Note: A word about this brochure. Audi of America, Inc. believes the specifications in this brochure to be correct at the time of printing. However, specifications, standard equipment, options and colors are subject to change without notice. Some equipment may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of standard and optional equipment and your dealer will verify that your vehicle includes the equipment you ordered. Vehicles in this brochure are shown with optional equipment. See your dealer for complete details on the new-vehicle limited warranty, twelve-year limited warranty against corrosion perforation and Audi 24/7 Roadside Assistance.
