TT

Audi TT Coupe | TT Roadster

Not so much a double take as a double want.

We know how it is. The longer you gaze upon the Audi TT Coupe and Roadster the more likely you'll end up wanting them both. That's just par for the course. With their iconic design, they captivate an audience from first sight, but there's more here to ponder than just irresistible good looks. Like the way your TT intimately connects you to the road or the way it makes your pulse race every time you carve your way up and down a mountain road.¹ And when you consider the attention to detail and luxurious touches found throughout this vehicle, it all becomes even more enticing. Add to all of that a collection of available innovative technologies designed to keep you on top of your game, and you'll quickly realize that what you want is more than met by what the TT delivers.

.01 - Perfect Proportions

Cast with an ideal set of proportions, one third of its shape being above the beltline and two thirds below, the TT conveys balance and strength throughout its magnificent silhouette.

Doesn't ask for looks. Steals them.

Stir the senses. Go beyond ordinary and find soul. That's what your Audi TT was born to do. And nothing is more electrifying than one look at the TT. Every line comes at you with purpose. The dramatic profile is unmistakable, and the Audi Singleframe® grille, air inlets and pronounced wheel arches work in concert to highlight the assertive design. And with distinctive LED daytime running light technology announcing your arrival, there will be no doubt about who is showing up.

- fig. 02

.02 - Xenon Plus Headlights with LED Daytime Running Light Technology

Look sharp, with standard xenon plus headlights complemented by 24 LED clusters, one for each hour of Audi domination at the 24 Hours of Le Mans.

.03 - Audi Singleframe Grille

Perhaps its most dramatic element, the signature Audi Singleframe grille makes the TT instantly recognizable. Its lines perfectly meld with the front fascia and combine for a thrilling effect.

Exudes character as well as control.

The first thing you'll notice is an interior design that has few peers—or predecessors. As you look around, a unique expression of our design sensibilities for the TT will be apparent, but you'll also see the unmistakable fit and finish that says nothing but "Audi." A driver-oriented cockpit welcomes you as you enter. Luxurious leather/Alcantara® seating surfaces offer support in all the right places, brushed aluminum inlays give it a modern, clean feel, and a flat-bottom three-spoke multifunction sport steering wheel helps keep you in full command. This is luxury with more than enough character.

.04 – Aluminum Trim Accents
Adding to the overall sophistication of the interior are aluminum trim accents and Brushed Aluminum decorative inlays.

.05 – Aluminum-trimmed Pedals
A solid look, and grippy to the touch, aluminum-trimmed pedals call attention to the vehicle's performance roots while adding a little more style for your feet to appreciate.

.06 – Flat-bottom, Aluminum-trimmed Steering Wheel
Further expressing its sports car DNA is a steering wheel designed for spirited driving.

2013 Audi TT Coupe Prestige shown in Black Fine Nappa leather and optional Audi magnetic ride with Sport button program.

A compelling story, down to the last stitch.

Just as arresting as the exterior styling, the TT interior is sophisticated, and offers more than a dollop of sports car panache and luxury. Available high-touch Madras Brown Baseball Optic leather seating surfaces offer superior support, and elevate the cabin's distinctiveness. The thick, woven stitching adorning the seat bolsters is visually arresting and pays tribute to an iconic American game. But the details are not limited to just the seating surfaces. A beautifully wrapped center console and sport steering wheel also boast premium leather treatments, and contrast stitching in the sport steering wheel adds a racetrack-inspired accent.

.07 - Baseball Optic Leather Seating

As if the interior of the TT doesn't already make a powerful enough statement, available Baseball Optic leather seating surfaces add a decidedly unique interior treatment that will command attention, even among those oblivious to the sport.

Remove obstacles to your happiness.

Sometimes you want to think in terms of SPF as much as RPM. Top down, with the sun flooding the cabin, you find the easy charms of the Audi TT Roadster with the touch of a button. Better yet, you don't have to worry about the RPMs, either, because the sports car heritage of the TT Roadster delivers them too. Take on the open road with joyful abandon. Because in here, you can always act on your impulses. Rain or shine.

.08 - Retractable Acoustic Soft Top

Designed with special noise-dampening properties, the TT Roadster offers a top constructed of canvas, lightweight aluminum, and steel. It opens and closes with a simple push of a button and can be operated at speeds under 31 mph.

.09 - Adaptive Rear Spoiler

In order to improve vehicle downforce, the adaptive rear spoiler deploys automatically at 75 mph and retracts at 50 mph.¹

quattro

Center differential

During normal driving conditions, the center differential transfers more power to the front wheels, but in extreme circumstances it can transfer all the torque to one of the two axles, helping to give you optimal traction.

Sport button program

Engage the optional Sport mode, and what you thought was the pinnacle of performance becomes even more impressive. The throttle becomes more responsive, the steering characteristics more direct, the suspension more firm, and the sound emanating from the exhaust outlets even meatier.

It's a bond between your car and the road.

It's true that while the Audi quattro® all-wheel drive may have been engineered to help drive through inclement weather and in low-traction situations, the real magic of this advanced system is how it performs in the dry. Power is distributed to all four wheels working in concert to help grip every corner while giving you the optimal amount of power delivery where and when it's needed. In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance when the road isn't at its best. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a sure bond between you, your Audi TT and the road.¹

.10 - Audi Magnetic Ride

Take control of the handling characteristics with a push of a button. This optional system's struts are filled with a special fluid that can change its viscosity instantly by introducing an electromagnetic charge, helping give you the right dampening forces for nearly every situation.

~ fig. 03
magnetorheological fluid in non-magnetic state

~ fig. 04
magnetorheological fluid in magnetic state

¹ When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter-weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

Perfect equilibrium from zero to forever.

2013 Audi TT Coupe Prestige shown in Ice Silver metallic.

.11 - Audi S tronic Dual-clutch Transmission

The concept behind one of the world's most advanced transmissions is simple: provide near-constant power. This is accomplished by having two clutches, two input shafts and two independent gear clusters, giving you confidence that you'll be in the gear you select the instant you select it. And that translates into big performance numbers.

.12 - Launch Control

Get off the line even quicker with the help of Audi launch control. Working in concert with the S tronic dual-clutch transmission, it optimizes launch rev speed and tire slippage, so you can expect faster off-the-line acceleration.¹

Just as in nature, the balance of power in your Audi TT is in constant flux. Good thing the engine and transmission find perfect harmony, adding up to an altogether exhilarating experience. The perfectly tuned TFSI® engine helps provide a flawless yin to the advanced Audi S tronic® dual-clutch transmission's yang, achieving a remarkable level of performance, almost indefinitely.

.13 - 2.0 TFSI Engine

Light, agile and powerful, the 2.0-liter TFSI engine puts out 211 hp and combines Audi valvelift system, variable valve timing, TFSI direct injection and turbocharging to prove performance doesn't have to lack efficiency.³

211 hp / 258 lb-ft torque

.14 - Turbocharger

Using the energy from the spent exhaust to drive a compressor wheel, the turbocharger compresses the intake air and forces it into the cylinder. The result. Increased power, torque and efficiency.²

1 Obey all speed and traffic laws. 2 0-60-mph times will differ from model to model. 3 22 city/31 highway mpg (2013 Audi TT 2.0 TFSI, with Audi S tronic dual-clutch transmission and Audi quattro® all-wheel drive). EPA estimates. Your mileage will vary.

Your world, right where it should be.

In today's world of constant connectivity, you expect to be able to maintain it anywhere. That's why we integrated the available highly advanced Audi Navigation plus system.¹ It not only helps find the best route to your destination, but also helps you skirt traffic and find a place to eat along the way. And when you need to make a call, you can count on the BLUETOOTH® mobile phone connectivity to make it happen with ease.² Of course, you need to be entertained along the way, so we've included SiriusXM Satellite Radio to get you from coast to coast without skipping a beat.¹

.15 - BOSE® Sound System

Satisfying sound requires a premium delivery system. And no company is more synonymous with high-quality sound than BOSE®. Tailored to work with the interior space of the Audi TT, the available BOSE® sound system lets you experience music the way it was intended.

+ +

38° 57' 8.1" N
77° 23' 41.1" W

33° 46' 03.09" N
118° 11' 26.52" W

.16 - Audi Navigation Plus

The intuitive Audi Navigation plus is available to help ensure you'll be able to quickly input your next destination. And with the Audi traffic information feature, you can bet you'll get there without the gridlock!

.17 - BLUETOOTH® Technology

Staying connected has never been more important. That's why your TT features BLUETOOTH® mobile phone connectivity for simple, hands-free functionality. With a simple push of a button on the steering wheel you can make and receive calls!

.18 - SiriusXM Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 130 channels of music, talk and news!

.19 - Audi Audio

Now you're in control. The available Audi music interface helps give you seamless iPod® integration. Your iPod® can be controlled through the audio system and steering controls, and with two available SD card slots for your MP3 music, your entertainment options just keep getting better.

¹ See Infotainment/Technology section of the Featured Content page for important information regarding Audi Navigation plus and required SiriusXM subscriptions.

² Requires compatible phone.

Your safety isn't just another selling point.

It's our highest priority. And to prove it, we went ahead and included some of the most advanced safety features available, starting with strategically placed crumple zones designed to absorb impact in the event of a collision. Then there are our sophisticated driver control systems that help you avoid trouble before it can start. And of course we provide a comprehensive airbag system¹ to help protect you if the unthinkable becomes inevitable. All this, so you can enjoy your TT in total confidence.

.20 - ASF® Aluminum Space Frame

Lightweight yet unyielding, revolutionary ASF technology offers an innovative approach to weight-savings—a benefit you will notice in the overall efficiency,² enhanced performance and remarkable handling of the Audi TT. These unique characteristics also help to absorb the normal bumps of the road, delivering a smoother ride.

.21 - Crumple Zones

Strategically placed in the front and rear, these crumple zones are designed to compress and deform during a collision and help absorb impact energy as it passes through the frame.

.22 - ESC and ABS

Computerized technology that works in perfect sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize any loss of stability, applying brake pressure to individual wheels and reducing throttle input to counter oversteer or understeer when the vehicle needs it.

.23 - Six Standard Airbags

Helping protect you from almost all angles are six standard airbags, front-impact airbags for driver and passenger, driver and front-passenger knee airbags, and seat-mounted, side-impact head and thorax airbags.¹

Dramatization³

.24 - Rollover Protection System

Built into the TT Roadster are heavily reinforced rollover protection devices, designed to help protect you and your passenger in the unlikely event of a rollover. In addition to helping provide another level of safety, they also add to the overall visual muscle of the Roadster.

¹ Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. ² 22 city/31 highway mpg (2013 Audi TT 2.0 TFSI®, with Audi S tronic® dual-clutch transmission and Audi quattro® all-wheel drive). EPA estimates. Your mileage will vary. ³ This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions, and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time.

TTS

2013 Audi TTS Roadster shown in Ibis White. 2013 Audi TTS Coupe shown in Misano Red pearl.

- ENGINE // 2.0-liter turbocharged Audi TFSI four-cylinder engine developing 265 hp and 258 lb-ft of torque

- DRIVETRAIN // Audi quattro® all-wheel drive, six-speed Audi S tronic® dual-clutch transmission

- CHASSIS // TTS tuned sport suspension, Audi magnetic ride

- BRAKES // 13.4" ventilated front disc brakes with TTS logo, 12.2" ventilated rear disc brakes

- PERFORMANCE // Top track speed of 155 mph,¹ acceleration 0–60 mph in 4.9 seconds (Coupe) and 5.1 seconds (Roadster).

¹ Top track speed is electronically limited in the U.S. Obey all speed and traffic laws. ² 0–60-mph times will differ from model to model.

Like putting an exclamation point on every sentence.

You didn't get a TTS in order to parade around quietly. So make sure you're heard, with a potent 265-horsepower 2.0-liter Audi TFSI® engine with S quad exhaust outlets, as well as seen, with the strong stance and dramatic curves that showcase a performance profile that backs down to no one. Add a bold S model Audi Singleframe® grille with aluminum optic double-blade crossbars, and a rapid-fire Audi S tronic® dual-clutch transmission with launch control to define its muscularity. The final exclamation point comes when you make the run from 0 to 60 mph in a blistering 4.9 seconds.² Just to rub it in.

.25 – Audi Exclusive Bicolor Interior

A car this brash deserves an equally provocative cockpit. The available Audi exclusive bicolor interior gives you just that, with contrasting Black/Crimson Red or Black/Titanium Gray leather lining the seats, door panels, center console and floor mats. It also includes contrasting stitching on the shifter and instrument cover.

² Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.

NV Audi Navigation plus package

SL Audi S line® package

SC Audi S line® Competition package

¹ Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. Periodically mapping updates will be available for purchase at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details. ² SiriusXM Satellite Radio subscriptions sold separately or as a package after trial expires. Subscriptions are governed by SiriusXM Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM to cancel. Sirius U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C and Puerto Rico (with coverage limitations).

Dress code: aggressive attire only.

Not that the Audi TT Coupe isn't already dressed to kill, but when you opt for the Audi S line® Competition package, you make a bold statement even bolder. The S line exterior features striking black optic elements, including a grille surround, side mirror housings, a fixed rear wing spoiler and a lower front spoiler splitter. Setting it apart even further are a black diffuser, black exhaust tips, and 19" 5-arm-rotor design wheels in matte black finish. Plenty to ensure you'll never have to wait at the door again.

2013 Audi TT Coupe Prestige shown in Samoa Orange metallic with available Audi S line® Competition package.

Accessories

Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your TT in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries

who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you'd expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty, or the accessory's 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.¹

19" Turbo Twist Wheels—White

Add a "twist" to turn heads at every turn. Audi Genuine Alloy Wheels are designed with style and longevity in mind. Shown in white. Also available in black or silver.

Rear Deck Spoiler

Add sporty flair to the TT or TTS. Primed for painting, or available pre-painted for a perfect color match and added convenience. Consult your authorized Audi dealer for available colors.

Side Sills

These sculptured accents provide the TT profile with a ground-effects flair. Not available for TTS and TTRS.

All-weather Trunk Liner

Custom fit for the TT. Textured material helps control load-shifting. Raised lip helps contain spills and protect cargo-area carpeting from stains. (Coupe only.)

Textile Floor Mats

These precision-fit mats are made of long-life fabric to help protect the vehicle's interior from the elements. Skid-resistant. Available in black with silver piping. Set of two front mats.

All-weather Floor Mats

Deep-ribbed, channeled design helps protect the floor and carpeting from water, mud, sand and snow. Rubber mats come in black and feature vehicle logo. Set of two front mats.

Fork-mount Bike Rack^{2,3}

This secure mount is an excellent bike transfer option. Lock included.

Ski and Snowboard Racks

Push-button, keyed locks open and close easily. Rubber-cushioned aluminum bars hold securely. Standard attachment holds up to four skis or two snowboards. Deluxe attachment holds up to six skis or four snowboards.^{2,3}

Valve Stem Covers

These handsome covers are made of polished stainless steel with a composite center cap. Emblazoned with the iconic Audi rings.

Other accessories not shown

Audi Genuine Sport and Design Accessories

Your Audi vehicle features a bold, aggressive stance with strong, stunning lines. Enhance it by adding Audi Genuine Sport and Design Accessories. All are carefully scrutinized in the design and development process. So while they're striking in appearance, they've also passed rigorous quality assessments, including corrosion testing. If you're looking for a bolder appearance or a finishing touch, there is a solution designed by Audi that makes every mile more enjoyable—and more yours.

Audi Genuine Alloy Wheels

Strike the perfect balance between breathtaking design and awe-inspiring performance with Audi Genuine Alloy Wheels. Audi experts have meticulously designed these wheels especially for each Audi model. They're engineered to the highest standards and endure rigorous testing to help ensure long-term quality. Experience eye-catching style that is yours and yours alone. Nothing enhances the bold, dynamic look of your Audi vehicle faster.

Audi TravelSpace Transport Accessories

You go almost everywhere. Give your Audi the proper invitation to be part of your adventures. Never leave the necessary gear behind. Bring it with Audi TravelSpace Transport Accessories. The list includes bike racks, ski racks, a variety of watersports equipment carriers and various sizes of cargo carriers. Wherever you go, make sure almost everything fits with a variety of intelligent and innovative solutions. Accessories designed for your life—the passionate, active part.

Audi Genuine Electronics Accessories

The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronics Accessories. Similarly, all of these accessories are impressively advanced and inspiring. Our audio options let you enhance your listening pleasure. Other accessory options help promote safer, more convenient travel. All are designed and tested to ensure compatibility with the vehicle's electrical systems, allowing you to enjoy every aspect of Audi technology with almost all your senses. Demand the best and drive with added confidence.

Audi Guard Comfort and Protection Accessories

Protect what you love. Audi Guard Comfort and Protection Accessories offer functional, practical items that help keep your Audi in pristine condition. Choose from such useful items as trunk liners that help make clean-up quick and easy, or an easy-to-use storage cover that helps shield the vehicle. Use them all to help reduce wear and tear and keep the vehicle looking like new—inside and out. All are engineered to stringent Audi standards, so you can be assured of their quality and durability.

¹ See dealer for details. ² All roof-rack system attachments require the base carrier bars. All attachments sold separately. ³ Recreational equipment, sporting equipment and luggage not included.
