

BMW 2005 3 Series
Coupe

The Ultimate
Driving Machine®

325Ci
330Ci

The performance leader
wears a bold face.

The 3 Series Coupe for 2005:
proving Paradise has two doors.

A thrilling land sport:
driving the 3 Series Coupe.

Behind the wheel,
ahead of the times.

Equipment | Interior – Standard

The close shift pattern of the **six-speed manual transmission**, standard in the 330Ci, delivers a precise, athletic feel for a more dynamic driving experience. (330Ci only)

A **three-spoke leather-wrapped multi-function sport steering wheel** lets you keep both hands on the wheel while adjusting audio settings, cruise control and the accessory phone.

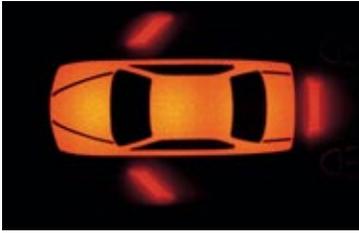

BMW anti-theft AM/FM stereo/CD audio system produces full, rich sound through 10 speakers. Includes Radio Data System (RDS), Auto-Store; pre-wired for a BMW six-disc CD player/changer¹ and compatible with auxiliary audio input adapter¹ for audio connection of portable music players, standard. (325Ci; Harman Kardon stereo system standard in 330Ci)

¹ Available as an accessory.

Both the driver's and front passenger's sun visors include a **vanity mirror** that automatically lights when the sliding cover is opened.

Interior—Standard I Equipment

Check Control monitors important data, such as brake fluid and oil levels, whether lights are functioning properly, and all vehicle systems. Any problems are clearly indicated on the pictogram or beside it, in order of importance.

An **on-board computer** offers valuable travel information, with readouts on expected travel range on remaining fuel, average mpg and average speed. An external thermometer sounds a warning when the temperature falls below 38°F – indicating that the road may ice up.

1/3 and 2/3 split-fold rear seats allow you to load long objects in the trunk by folding down one or both rear seats, as needed.

Eight-way adjustable seats (including 2-way headrests) firmly support the driver and front passenger over long distances. Front seat bolsters help eliminate “submarining” during sudden stops. (325Ci; 330Ci has eight-way power seats)

Myrtle Wood trim curves around doors, dashboard and center console, adding a luxurious touch to the interior.

The **instrument panel** presents all important information at a glance through analog gauges and LCD readouts. When parking lights or headlights are on, the gauges are lit in an easy-to-read red.

Titanium-finish ringed gauges distinguish the interior of the 330Ci from the 325Ci, while adding a high-tech look. (330Ci only)

Eight-way power front seats includes **driver’s seat and mirror memory system**, which lets up to three drivers set their preferred seat and exterior mirror positions. Plus, the passenger’s-side mirror tilts down when vehicle is shifted into reverse gear. (330Ci; optional and included in 325Ci Premium Package. Lumbar support [shown] is included in 330Ci and 325Ci Premium Packages)

A **front center armrest** makes travel more comfortable. It includes an integrated storage compartment, which can be accessed when the armrest is down.

330Ci Performance Package

The Performance Package, a product of BMW Individual – the division responsible for creating unique, limited-edition BMWs, includes a more muscular engine that boasts 235 hp at 5900 rpm, and 222 lb-ft of torque at just 3500 rpm. The increased redline has been increased to 6800 rpm from 6500 rpm. Additional features include 18" M Double Spoke alloy wheels and performance tires – 225/40 front, 255/35 rear; Alcantara/cloth upholstery, complemented with a choice of two new interior “cube trim” choices; and the M Sport multi-function steering wheel. The Performance Package models are also easily identified by the elegantly aggressive Aerodynamic Bodystyling II exterior and the matte stainless steel, 35mm dual exhaust pipes.

Front air dam that is unique to the Performance Package displays a face that's all business.

Rear apron: The rear apron, with its integrated diffuser, upgrades the car's aerodynamics.

Thanks to modifications by driving enthusiast engineers at BMW, the **330Ci Performance Package** brings track-inspired excitement to your daily drive. The suspension is even lower, stiffer and firmer than in the standard 330Ci Coupe. For greater adhesion, wheel camber is set at -0.5° , which results in a larger tire contact patch when cornering quickly. The bold look of the 18" M Double Spoke alloy wheels and performance tires – 225/40 front, 255/35 rear – emphasize the feeling that these wheels can deliver higher cornering speeds with cool assurance and confidence.

330Ci Performance Package

M three-spoke multi-function steering wheel rim is covered in Alcantara – a handsome, suede-like material that helps the driver maintain a firm grip.

Sportseats: The sport seats provide optimum lateral support while the cloth/Alcantara upholstery adds a dynamic touch. Montana leather is also available for those who prefer the look and feel of all-leather upholstery.

Aluminium Black Cube interior trim: The black aluminium cube interior trim makes for a more sporty, high-tech interior. Optional Silver Cube trim is also available.

Clean lines, throaty sound. The exhaust has been specially tuned to emit a distinctly more assertive sound than the standard 330Ci Coupe. This lusty growl is conducted through two handsome matte stainless steel, 35mm exhaust tips, which are set into a sleek, new rear apron.

A product of engineering passion. A vehicle like the 330Ci Performance Package could only be conceived and built by the driving enthusiasts at BMW. The elegant, purposeful look; the motorsport-inspired handling; the intimate link between driver, car and road – all essential BMW traits. And in the BMW 330Ci Performance Package, all are brought to their highest form and concentrated in one truly unforgettable Coupe. ■

¹¹ For more information go to ipodyourbmw.com.

¹² Full Maintenance Program covers all factory-recommended maintenance, as determined by the Service Interval Indicator for 4 years or 50,000 miles, whichever comes first. Full Maintenance Program includes items that need replacement due to normal wear and tear, provided wear and tear exceeds BMW specifications. This includes items such as brake pads, brake rotors and wiper blades that are not covered by the original New Vehicle Limited Warranty. Any adjustments required due to normal operating conditions are also included. For exclusions and limitations, refer to the Service and Warranty Information booklet that came with your new BMW, or see your authorized BMW center for details.
