Editorial

A SEQUEL THAT'S EVEN BETTER THAN THE ORIGINAL.

BMW blazed its own trail when it created the first X5 Sports Activity Vehicle.® Now comes the third-generation X5. Its sculpted steel and aluminum body weighs less, while its list of luxuries has expanded.

The new X5 puts you in touch with the road as only a BMW can, with advanced suspension options to tame the curves and quell the bumps. In an X5 first, the X5 sDrive35i offers rear-wheel drive, while the other models continue to draw on BMW's xDrive intelligent all-wheel-drive system to conquer any road in any weather. The BMW driving spirit comes alive with your choice of three efficient TwinPower Turbo engines: a gasoline-powered 300-hp inline six and a V-8 newly boosted to 445 horsepower; and a six-cylinder diesel that boasts the highest fuel efficiency of all gasoline and diesel-powered models in its class. Teamed to an 8-speed automatic transmission, each displays the dynamic virtues of BMW Efficient Performance technology.

There are also more ways to express your personal style inside and out, via three Design Lines – Luxury Line, xLine and M Sport – as well as the elegant Mocha Interior Design Package and Ivory White Interior Design Package. A wider array of infotainment and connectivity possibilities, meanwhile, will keep you in touch with your world wherever you go.

More than ever, the all-new BMW X5 is the best way to go anywhere.

PINNACLE
PERFORMANCE
AND LUXURY,
WITH A VIEW.

TAKE IT ALL WITH YOU WHEN GETTING AWAY FROM IT ALL.

When the destination is the middle of nowhere, the BMW X5 will get you there confidently and luxuriously, and with a grand view of the cosmos through the Panoramic moonroof. Take up to six others along, with the available third row that seats two. The split power tailgate opens wide, with the lower section supporting up to 550 pounds. It's ideal for tailgating or for loading heavy cargo.

The new X5 offers even more room for your gear, thanks to a five-percent increase in cargo space over the previous model. Versatile second-row seatbacks split 40/20/40, letting you increase cargo capacity in stages from 23 to 66 cu. ft.

To venture farther into the scenery, consider another kind of BMW: the new R1200GS motorcycle. Its legendary BMW flat-twin engine keeps it going when the road turns to trail.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

The X5 cuts through the night with Adaptive LED Headlights that meld with the kidney grille for a bolder presence. Meanwhile, BMW's signature LED taillights let others know who they are following. New technologies, including Active Blind Spot Detection can help you avoid hazards you don't see. And you can benefit from the safety engineering of Active Driving Assistant technology, which outfits the X5 with Lane Departure Warning,¹ Frontal Collision Warning, Pedestrian Warning and City Collision Mitigation.

¹ Requires clearly definable lane markings that are not obscured by rain, snow, etc. The feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

LOOKS GREAT IN THE LIGHT.
SEES GREAT IN THE DARK.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

THROW IT SOME CURVES.

The difference between a BMW Sports Activity Vehicle® and an ordinary luxury SUV becomes clear in the first curve. Sophisticated suspension design combines with advanced chassis technology to give the X5 remarkable agility while also keeping the ride-quality composed. With the Driving Dynamics Control switch on the center console, you can select from COMFORT, SPORT, SPORT+ and ECO PRO modes to tailor vehicle responses to your liking. Dynamic Damper Control, Dynamic Performance Control, Active Roll Stabilization and Adaptive M Suspension also turn the X5 into a back-road star.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

The X5 puts more control at your fingertips and at your voice's command. The iDrive Navigation system's 10.2-inch Display and touchpad interface work in a familiar and intuitive way. The screen also displays the Surround View system's 360-degree view around the X5, making parking a snap. Combining the BMW iDrive Controller, screen and your iPhone®, you can access the connectivity of BMW Apps. Use the BMW Connected App to receive and make Twitter® and Facebook® updates, listen to internet radio with Web radio, check your calendar and call your appointments. Enjoy the peace of mind that comes with BMW Assist eCall™ and the on-the-go convenience of Concierge Services.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

MORE CONTROL
IN YOUR HANDS.

THE WIND AT YOUR BACK,
NOT IN YOUR WAY.

The X5, with a choice of 300-hp and 445-hp gasoline TwinPower Turbo engines, is bound to move you. The new Advanced Diesel, with 413 lb-ft of torque, achieves an amazing 31 mpg highway and a combined city/highway rating of 26 mpg – the same as BMW's smallest SAV® the X1 xDrive28i.¹ And you won't get any argument from the wind. As part of its BMW EfficientDynamics pedigree, an impressive aerodynamic design cuts drag to increase fuel efficiency, reduce noise and enhance stability. From Air Curtains in the front bumper cover to vertical Aero Blades at the rear window, the air barely gets a grip.

¹ Preliminary figures. EPA-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage may be lower.

About the only thing that could make you give up the driver's seat in a BMW X5 would be the rear-seat luxury that rivals high-end sedans. The rear Comfort seats live up to their billing with enhanced foam-padded seat surfaces and added flexibility. The seat offers up to three inches fore/aft adjustment to maximize legroom for both second and available third rows. The backrests offer up to 10 degrees of adjustment. Comfortably ensconced in the supple leather seat, the rear passengers can take full advantage of available entertainment options, including a Rear-seat entertainment system with DVD drive and dual LCD screens. An available Harman Kardon® Surround Sound System will delight audiophiles' ears, while the added choice of a Bang & Olufsen® High-End Surround Sound System with 1,200-watt amplifier and 16 speakers will stun them.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

LUXURY SEATING. PRIVATE SCREENING.

STANDS ABOVE THE LUXURY SUV FRAY.

Make the X5 your own by choosing the xLine, Luxury Line or M Sport. The xLine imbues the design with the rugged elegance of underbody protection elements rendered in brushed stainless steel, accented by matte silver for the kidney grille bars, air intake bars and rear trim strip. The designer's touch also shows in high-gloss black mirror bases and pillar trim and Satin Aluminum side-window surrounds. The Luxury Line plays up the X5's sophisticated side with underbody protection elements and wheel arch surrounds in body color. High-gloss chrome trims the front of the black grille bars, and Chrome-line trims the side windows. You'll know the M Sport by its exclusive M Aerodynamic kit, Shadowline window trim, high-gloss roof rails and M Double Spoke wheels. You'll also feel the M Sport difference on the road, thanks to the 8-speed Sport Automatic transmission with shift paddles and Launch Control. The optional Adaptive M Suspension offers firmer settings in the Driving Dynamics Control's SPORT and SPORT+ modes.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

BMW ConnectedDrive So connected, you're free.

Every day, our world is becoming increasingly networked. Many BMW drivers, however, are better connected than the rest, obtaining information on the road, communicating by phone or email, and always being updated on the latest events. BMW ConnectedDrive encompasses all these services, including traffic features that allow BMW vehicles and their occupants to network with the outside world.

BMW ConnectedDrive services and apps provide versatile connections between the driver, vehicle and the outside world. BMW ConnectedDrive driver assistance systems enhance your convenience, active safety and peace of mind. BMW ConnectedDrive infotainment features make every mile even more enjoyable. And most are easily accessed and controlled through the on-board iDrive system with touchpad Controller, literally putting the world at your fingertips.

For more information, please see:

➔ bmwusa.com/connecteddrive

BMW CONNECTED DRIVE®: CONVENIENCE, INFOTAINMENT AND SAFETY TECHNOLOGIES MEET IN ONE SUITE.

With BMW ConnectedDrive you stay in touch, no matter where you go. Its advanced communications and entertainment features create a network between driver, vehicle and environment, at any time and wherever you are. The following pages present special highlights in the areas of convenience, infotainment and safety. For a comprehensive overview, see bmwusa.com/connecteddrive.

BMW ASSIST eCALL™

Enjoy peace of mind knowing that a friendly response specialist is there to help you 24/7, at the touch of a button. BMW Assist eCall includes Automatic Collision Notification, Emergency Request (SOS button) and Customer Relations.

BMW TELESERVICE.

As you're driving, the intelligent maintenance system, Condition Based Service, constantly monitors your vehicle's service needs. BMW Teleservice checks your vehicle's operating fluids and wear items. When any need replacing, it automatically transmits this data and upcoming service needs to your preferred BMW center. Your BMW Service Advisor then contacts you to set up a convenient appointment, and orders parts beforehand, reducing your service and wait time.

BMW ONLINE.

BMW Online gives you a personalized internet portal, delivered on the Control Display. Get up-to-date fuel prices and gas station locations; the latest weather forecasts, advisories and warnings; Dow Jones, S&P and NASDAQ indices; and the powerful reach of the Google® data-base. Read or hear news headlines aloud via text-to-speech technology. "Send to Mail" pinpoints your current location and planned destination, and allows you to send the information to any email account. Split-screen functionality lets you use BMW Online in tandem with Navigation maps and instructions, entertainment details and other on-board content.

BMW APPS.

Access Social Networks, on-demand music and location sharing through your iPhone®, and see them on the Display screen.¹ Tune in to Web radio and search for stations from around the globe by name, location or genre. You can also store your favorite stations, find similar stations, display station information, and change the quality of the audio. Your favorite entries are on your iPhone, so you can take them from one vehicle to another.

¹ Requires BMW Apps option and a compatible phone. Please note:

- A broadband data link is required. The costs for this (e.g., data roaming) are regulated by the customer agreement with the mobile phone service provider.
- Not all features available while vehicle is in motion; see dealer for details.
- Web radio audio quality depends on the bit rate of the station, and data reception depends on your cell service. Data transfer comes over the mobile device.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

BMW CONNECTED DRIVE® SERVICES AND APPS: EVERYTHING YOU NEED, INTELLIGENTLY NETWORKED.

Want to find the quickest route around a traffic jam? Not a problem – if you have the BMW Navigation system with Advanced Real Time Traffic Information. Need to send a note to your client? Message Dictation lets you compose and send an email or text message while you concentrate on the road. Tired of the same old playlist? Let the AUPEO! Personal Radio app introduce you to a new world of music. How about finding a French restaurant in a strange city? Let Concierge Services locate it, make a reservation for you, and send the address and phone number directly to your BMW's Navigation system. **BMW ConnectedDrive** services and apps bring a whole new level of convenience and pleasure to your drive wherever you are.

REMOTE SERVICES.

You're never far from your BMW when you have Remote Services. Locked out? Simply call the BMW Assist™ Response Center and provide your name and password, and they will unlock your driver-side door. If your BMW is stolen, file a police report, then call the BMW Assist Response Center; they will help the police locate your vehicle. (Check with your insurance company to see if this feature qualifies for a premium discount.) With the My BMW Remote app you can control your BMW from your smartphone. Lock your doors remotely; if you can't find your BMW in a parking lot, your screen will pinpoint it on a map – and on some models, even flash its lights.

ADVANCED REAL TIME TRAFFIC INFORMATION (ARTTI).

This feature, included in the iDrive 4.2 Navigation system for Model Year 2014, makes you aware of traffic congestion in most large cities before you encounter it. This feature displays and describes current local traffic information on your Control Display; in case of delays greater than five minutes, it suggests alternate routes. The latest-generation Navigation system offers numerous upgrades, such as presenting menus in virtual, 3-D spaces; added functions in the split-screen Display; switching quickly from top view to perspective view; using superimposed layers for Advanced Real Time Traffic Information and weather icons; displaying points of interest, and more.

MOBILE OFFICE.

Use the time you spend in your vehicle even more effectively with BMW's Mobile Office feature.¹ For example, text messages and emails can be transferred from your Bluetooth® paired phone directly to the vehicle's Control Display and can be read back to you aloud using text-to-speech functionality and the vehicle's audio system.

¹ Not all mobile phones are compatible with Mobile Office, and some compatible phones support a limited number of Mobile Office functions. For the complete list of compatible mobile phones and the details regarding which Mobile Office functions are supported by each phone, please visit bmwusa.com/bluetooth.

CONCIERGE SERVICES.

Wherever you travel, friendly Concierge Services representatives assist you with local restaurant and hotel recommendations, movie times and ticket information, flight arrival and departure gates and times, fuel prices and availability, and much more. You can also get the "Points of Interest" (POI) download, which allows the representative to send addresses and phone numbers to your vehicle. This information can also be transferred to your BMW Navigation system for route guidance. Then use your Bluetooth linked mobile phone to make a call.

DRIVER ASSISTANCE FEATURES: DESIGNED TO ENHANCE YOUR BMW DRIVING EXPERIENCE.

Driving a BMW isn't always the thrill of taking tight corners and accelerating onto a highway. There are the more mundane tasks of, say, finding and maneuvering into a parking space, or exiting an indoor garage onto a busy street and avoiding pedestrians you cannot see. For those times, innovative **BMW ConnectedDrive** driver assistance features make every moment behind the wheel as effortless and enjoyable as possible.

HEAD-UP DISPLAY.

The BMW Head-up Display uses a multi-color TFT to project the image toward the windshield more in your line of vision, so you can easily keep your eyes on the road while checking important travel information, such as your current speed, Check Control data and Navigation system directional arrows.

PARKING ASSISTANT.

This driver assistance system searches for suitable parking spots and then steers your vehicle into them. Simply press the "Park Assistant" button, then drive along potential parking spaces on either side of the road, staying below 22 mph and no more than five feet away. Using ultrasonic sensors integrated into the side indicators, the system searches for and measures parking spaces. When a space at least four feet longer than your vehicle is spotted, it is shown on your Control Display. Shift into reverse and Parking Assistant takes control of steering your vehicle into the selected space; you operate the accelerator and brake pedals. The acoustic and visual warnings of Park Distance Control provide assistance.

DRIVING ASSISTANCE FEATURES.

Numerous BMW ConnectedDrive features help enhance active safety. For example, when your vehicle crosses over lane markings without signaling, **Lane Departure Warning**, a component of Active Driving Assistant, warns you by sending a mild vibration through the steering wheel. **Active Blind Spot Detection**, activated when you use the turn-signal indicator before changing lanes, warns if a vehicle is in your blind spot or approaching at a high speed in the passing lane.

BMW NIGHT VISION WITH PEDESTRIAN DETECTION.

This feature can scan up to 900 feet ahead using an infrared camera in the front bumper. It can detect people, as well as the direction of their movement, up to approximately 300 feet away and displays their presence on the iDrive screen and Head-up Display. The system gives a visual warning when pedestrians move toward the road, alerting you to potential dangers significantly earlier so you can react more quickly.

Note: Illumination of pedestrians not available in the US.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

BMW EfficientDynamics

Less emissions. More driving pleasure.

BMW EFFICIENT DYNAMICS: MAKING A LITTLE GO A LONG WAY.

BMW was one of the first automotive manufacturers to pursue efficient driving technologies – one part of our award-winning sustainability strategy. BMW EfficientDynamics represents the most comprehensive package of innovative technologies currently in production for reducing fuel consumption and emissions. Our commitment to EfficientDynamics means we are continuously developing innovative systems that bring us closer to our long-term goal of emissions-free mobility. Since 1995 BMW has been able to reduce the CO₂ emissions of its entire fleet by approximately 30 percent, and intends to achieve a further 25 percent reduction by 2020. However, we remain committed to driving pleasure, which is being pursued in different ways.

Eco-friendly technology. The development of more efficient vehicles powered by conventional gasoline and diesel engines are continuing challenges. A comprehensive technology directive enables the reduction of fuel consumption and emissions, while at the same time increasing power output and driving enjoyment. These advances are based on innovations such as BMW TwinPower Turbo technology, Brake Energy Regeneration, Air Curtain front apron design, and many others.

BMW ActiveHybrid. With the BMW ActiveHybrid 7, BMW ActiveHybrid 5 and BMW ActiveHybrid 3, BMW has impressive hybrid production models in its line. All combine outstanding efficiency with superlative dynamic ability.

BMW i. The all-new BMW i brand is launching two completely new vehicle concepts for sustainable mobility in an urban environment; both are an important part of BMW EfficientDynamics technologies. Key features of the BMW i3 and BMW i8 include the use of lightweight materials such as carbon-fiber-reinforced plastic (CFRP), electric drive systems, powerful battery technology and eco-friendly production methods.

bmwusa.com/i
bmwusa.com/EfficientDynamics

THE BMW EFFICIENT DYNAMICS FEATURES IN THE NEW BMW X5 AT A GLANCE.

Aerodynamics.

Carefully optimized aerodynamics ensure a low drag coefficient – and, therefore, a positive effect on overall efficiency. The new X5 features a host of aerodynamic features, like drag-reducing Air Curtains in front and, in back, Aero Blades – air-channeling elements that work in concert with the roof spoiler – as well as the flat underbody paneling, and optimized design of the front air dam and air intakes.

Auto Start-Stop function.

Even when idling, such as at a stop sign, an engine burns fuel. The BMW Auto Start-Stop function enhances fuel efficiency by switching off the engine. (The intelligent electronics system first checks the battery charge level and calculates if other electric systems, like the rear-window defroster, need more energy.) Once the brake pedal is released, the engine starts up again almost instantly. A Start-Stop signal in the Display indicates the function is active.

BMW Advanced Diesel with BluePerformance Technology.

BMW vehicles with this technology, like the BMW X5 xDrive35d, emit 20 percent less CO₂ than conventional vehicles, and reduce nitric oxide (NOx) to a minimum. It has no impact on the actual combustion process – in fact, BMW diesel-powered vehicles post powerful 0-60 mph numbers.

BMW TwinPower Turbo technology.

This innovative turbocharging technology efficiently reclaims the energy contained in exhaust gases by using a twin-scroll charger.

Brake Energy Regeneration.

In Brake Energy Regeneration, the alternator generates electricity only when the driver takes his or her foot off the accelerator. Kinetic energy that was previously unharnessed is transformed into electrical energy, then fed into the battery. In this way, electricity is generated without consuming fuel.

ECO PRO mode.

Fuel-consumption-friendly ECO PRO mode adapts accelerator pedal and gearbox responses while also moderating the heating/air conditioning systems to maximize efficiency. The new ECO PRO Route function takes traffic density, individual driving style and local conditions into account, then offers directions optimized for efficiency while adding minimal travel time. The displayed fuel consumption benefit lets you decide whether or not to follow this recommendation.

Electric Power Steering.

Unlike conventional, hydraulic steering systems, electric power steering draws power only during actual steering movements. When the steering wheel position is constant, the electric motor is inactive.

8-speed STEPTRONIC automatic transmission.

The close spacing of gear ratios in this 8-speed automatic transmission makes maximum use of the optimum rev range, reducing fuel consumption and allowing smoother shifts.

Not all BMW EfficientDynamics features are available on all models. Please see your authorized BMW center for details.

BMW ENGINE TECHNOLOGY: A HERITAGE OF INNOVATION. A FUTURE OF SUSTAINABLE EXHILARATION.

From its inception almost a century ago as a manufacturer of aircraft engines, Bavarian Motor Works has been a world leader in engine design. In fact, the innovations shown below were so ahead of their time, BMW engineers still incorporate this technology into today's award-winning powerplants. Over the decades, BMW engines have led to countless wins at the racetrack. Even more important, their smooth, powerful and efficient performance has won over generations of driving enthusiasts. Today, adhering to the EfficientDynamics philosophy, BMW engineers are setting even higher goals: creating an engine template that can be scaled in size and adapted to new fuel sources – all while maintaining legendary BMW performance and efficiency. It's a revolutionary concept that is now becoming reality. Welcome to the exciting future of BMW power.

1936

SEMI-HEMISPHERICAL VALVE DESIGN.

A design so advanced it helped the BMW 328 Mille Miglia win races in 1936 – and it's still in use today.

1955

ALL-ALUMINUM V-8 ENGINE.

The BMW 502 applied what is now called "intelligent lightweight engineering" to its then-awesome 160-hp V-8 engine.

1972

FUEL INJECTION.

The BMW 2002tii featured fuel injection, a technology that would become a crucial building block in BMW EfficientDynamics advances.

DIGITAL MOTOR ELECTRONICS (DME).

Computerized engine monitoring and control revolutionize the performance, efficiency and reliability of BMW's World Championship-winning Formula 1® racecar.

1981

1992

MULTI-VALVE TECHNOLOGY.

In every BMW, four valves per cylinder let in more air for greater power, and push out exhaust more easily for greater efficiency.

2006

ALUMINUM/MAGNESIUM COMPOSITE ENGINE BLOCK.

Technology from 1970s BMW racecar engines, this combines the strength to withstand high-revving performance with efficiency-enhancing light weight.

2007

TWIN POWER TURBO ENGINES.

BMW twin-scroll turbocharging calls on high-precision direct injection and a host of other innovations for increased power and efficiency – without turbo lag.

2008

BMW ADVANCED DIESEL WITH BLUE PERFORMANCE TECHNOLOGY.

BMW introduces America to a new form of diesel with amazing torque and power, quiet running, lower emissions and greater efficiency than ever before.

TODAY: THE BMW TWIN POWER TURBO ENGINE.

Introduced in 2007, TwinPower Turbo technology is incorporated into every new BMW engine, whether gasoline-, diesel- or hybrid-powered. Utilizing BMW high-precision direct injection, Double-VANOS continuously variable camshaft timing, and Valvetronic individual intake valve control, TwinPower Turbo technology delivers vastly increased power, torque and efficiency when compared to normally aspirated engines of the same size.

BMW GASOLINE-POWERED ENGINES.

Whether configured with four, six, eight or 12 cylinders, the latest BMW gasoline-combustion engines are designed to generate the highest ratio of power and thrilling performance to fuel consumption and emissions.

BMW ADVANCED DIESEL.

Powerful, fast, quiet and fuel-efficient: these are the traits of BMW Advanced Diesel engines. Thanks to BluePerformance Technology, BMW diesel engines meet emissions standards in all 50 states. Managed by a high-performance electronic engine control unit, the turbocharger develops boost and extra power in immediate response to the smallest tap of the accelerator pedal, and stays strong throughout the rev range where you do most of your driving.

BMW ACTIVE HYBRID.

BMW ActiveHybrid vehicles blend a TwinPower Turbo engine with an electric motor and high-performance lithium-ion battery. When compared to non-hybrid versions, BMW ActiveHybrid vehicles deliver greater fuel efficiency, fewer emissions and breathtaking acceleration.

BMW i: BORN ELECTRIC.

BMW i makes its debut with the i3. Powered by an electric motor combined with an innovative lithium-ion battery, the i3 accelerates from 0–60 in approximately 7 seconds. The BMW i8, a plug-in hybrid electric vehicle, races from 0–60 mph in 4.4 seconds. Its 131-hp electric motor powers the front wheels, while a 231-hp three-cylinder gasoline engine turns the rear wheels. Capable of 22 miles of all-electric driving using its lithium-ion battery, it achieves a total average fuel consumption of 94 mpg and a top speed of 75 mph.

445-hp BMW TwinPower Turbo V-8 engine.

THE EVOLUTION OF BMW EFFICIENT DYNAMICS TECHNOLOGY.

Smaller engines that generate greater power using less fuel.

1994 BMW 530i

- 3.0-liter V-8 engine with 5-speed automatic transmission
- 215 horsepower
- 16 city/25 highway mpg¹
- 0–60 mph: 8.8 seconds²

2014 BMW 528i

- 2.0-liter inline four-cylinder TwinPower Turbo engine with 8-speed automatic transmission
- 240 horsepower
- 23 city/34 highway mpg¹
- 0–60 mph: 6.1 seconds²

¹ EPA-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage may be lower.

² BMW AG test results. BMW urges you to obey all posted speed laws and always wear safety belts.

THE BEST FOUNDATION FOR DYNAMIC PERFORMANCE: A SUPERIOR CHASSIS.

The BMW X5 can be equipped with a whole host of innovative technologies to help you get the most out of each drive. Many of these systems are intelligently networked with each other, maximizing your active safety quotient – and your driving pleasure.

xDrive intelligent all-wheel-drive system in the BMW X5 xDrive35i, X5 xDrive35d and X5 xDrive50i provides maximum traction, even in the most slippery conditions. The system monitors data such as engine speed, steering angle, wheel speeds and acceleration. On smooth, dry roads, more power is normally sent to the rear axle, giving vehicles with xDrive the feel of their rear-wheel-drive counterparts. But hit a wet uphill curve, for instance, and even before wheelspin can occur, the system immediately recognizes any need for a change in power distribution. Using a controlled clutch, it sends more torque to the front axle to enhance stability and achieve greater traction.

8-speed Sport Automatic transmission adjusts to your style – from comfortable cruising to very dynamic driving. To change gears, you can use the selector lever or steering wheel-mounted gear shift paddles. In Sport mode, modified clutch settings allow very quick adjustments in engine speed, for minimal shift times. The close spacing of the eight gears optimizes acceleration, while also maximizing efficiency and comfortable shifting.

Active steering. This system adjusts both steering ratio and steering force in relation to driving speed. At low to medium speeds, a small turn of the steering wheel translates into a big turn of the front wheels. You enjoy more agility in city driving, quicker turns on twisting roads, and easier parking maneuvers. At higher speeds, a larger turn of the steering wheel is needed to turn the front wheels, resulting in greater straight-line stability.

Servotronic adjusts the power steering to suit your current speed, and ensures a direct, precise steering response at high speeds. It minimizes the physical effort required when steering, and increases the X5's agility when navigating narrow or twisting roads.

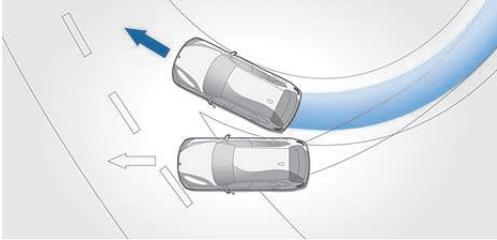

Adaptive M Suspension incorporates electronically controlled dampers that adapt to your driving style and road conditions. Settings can be designated via the Driving Dynamics Control button. The Adaptive M Suspension also lowers the X5 approximately 0.4 inch without sacrificing ride comfort. Stiffer, more dynamic system settings can be selected by activating the SPORT or SPORT+ mode.

Dynamic Handling Package combines the most innovative BMW suspension-modifying systems. **Rear-axle air suspension** ensures the most comfortable ride possible under all road conditions. **Dynamic Damper Control** instantly adjusts shock absorbers from the softest to the firmest settings. The result is exceptional ride comfort and fluid handling at all times – during changes in vehicle speed, load or road and driving conditions. **Active Roll Stabilization** helps keep the X5 body level when cornering, while providing maximum stability and agility. As opposed to xDrive, which can send available power from the rear to the front, **Dynamic Performance Control** smoothly apportions available power between the rear wheels. When cornering, Dynamic Performance Control sends more power to the outside rear wheel, enabling the vehicle to “turn in” with less understeer, letting you make tight turns and corner with confidence.

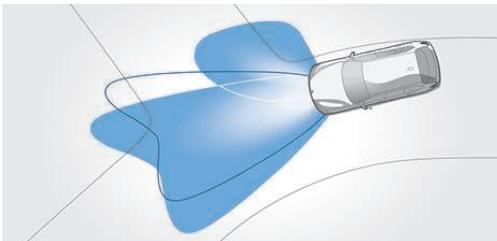

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on “Features & Specs.”

HIGH-TECH BODYGUARDS: ACTIVE AND PASSIVE SAFETY.

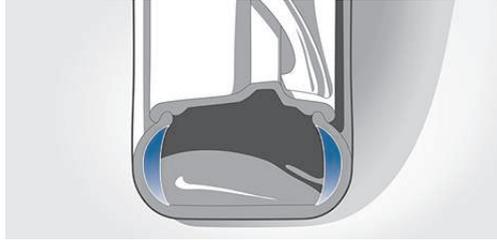

The X5 is designed with BMW's full range of standard state-of-the-art active and passive safety technologies. Active safety features, such as Xenon Adaptive Headlights, powerful engines and large brakes, help you see and respond to potentially dangerous situations. Should an accident prove unavoidable, passive safety features, such as airbags and reinforcing bars that hook the doors to the body, are designed to help protect you and your passengers. After a severe impact, a host of features spring into action: the doors automatically unlock, headlights and taillights flash, the starter cable is disconnected from the battery and the fuel supply is cut off. Should any airbags deploy, BMW Assist eCall™ response specialists are automatically alerted and notified of your location – along with the type of assistance you and any passengers will probably need, based on sensor readings.

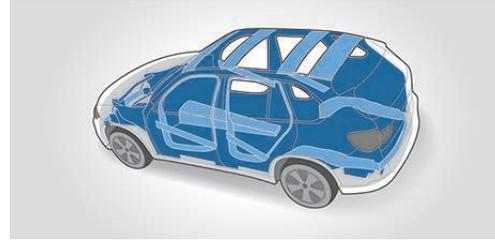

Dynamic Stability Control (DSC). This system provides remarkable tenacity on slippery road surfaces. If it senses over- or understeer, it modulates engine power and can apply brakes individually to help keep the vehicle under control and going in the intended direction. Start-off Assistant, a feature of DSC, prevents the vehicle from rolling backward on a hill for 1.5 seconds after you take your foot off the brake. The system also includes Brake Fade Compensation, which lets you use the same amount of pedal force, even when the brakes are heated; Brake Stand-by, which pre-tenses the brakes for quicker action if you suddenly remove your foot from the accelerator pedal; and Brake Drying, which periodically brings the brake pads into contact with the rotors to eliminate accumulated moisture when it rains.

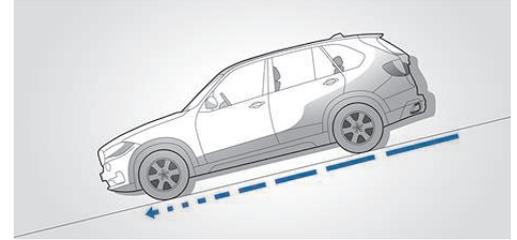

Xenon Adaptive Headlights for low- and high-beams enhance illumination of the road ahead at night or in poor visibility. Four LED Corona headlight-rings, which can be used as Daytime Running Lights, also serve as parking lights. Adaptive Headlights provide optimum illumination of the road ahead when the car enters a turn. Light distribution is automatically adapted to the road speed and steering angle. Cornering Lights, positioned in the two inner headlights, are automatically activated by using the turn indicator or changing the steering wheel angle, even when the vehicle is at rest.

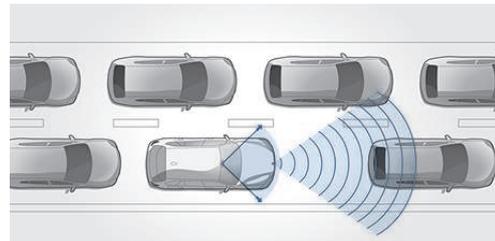

Run-flat tires. Thanks to reinforced sidewalls, run-flat tires maintain their shape and rim position even after suffering a complete loss of tire pressure. They allow you to continue driving at a reduced speed until you reach a safe area to change a tire or wait for Roadside Assistance.

Body stiffness. The intelligent use of high-strength multi-phase steel and aluminum provides a high degree of body stiffness and crash resistance. Components, such as the A-pillars and windshield frame, include special reinforcements to provide optimum occupant protection.

Hill Descent Control (HDC) in the xDrive models helps the X5 drive down steep hills without having to "ride the brake." By pressing the HDC button, the system keeps the BMW X5's speed under control automatically.

Active Driving Assistant combines the camera-based Lane Departure Warning¹ and Frontal Collision Warning systems. At speeds above approximately 45 mph, the system warns you via a light vibration in the steering wheel if your X5 unintentionally leaves its lane. Frontal Collision Warning monitors the vehicle up ahead and issues a warning if there is a risk of collision. The Pedestrian Warning system even detects pedestrians and, if there is a risk of collision, City Collision Mitigation warns you and initiates braking, if necessary.

¹ Requires clearly definable lane markings that are not obscured by rain, snow, etc. The feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

BMW X5 WITH MOCHA INTERIOR DESIGN PACKAGE.

Interior equipment features:

- Choice of:
 - Finition Pure Wood interior trim
 - Poplar Wood interior trim
 - Finition Oak Wood interior trim
 - Aluminum interior trim
 - Aluminum Hexagon interior trim
- Mocha Nappa Leather upholstery with contrast stitching
- Black Nappa Leather dashboard with contrast stitching

Leather upholstery: Leather on all seating surfaces; other components may be Leather or SensaTec.

Mocha Interior Design Package requires Premium Package. Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Enjoy the beauty of Multi-contour seats upholstered in rich Mocha Nappa Leather, complemented by sophisticated Finition Pure Wood trim and elegant contrast stitching.

The dashboard is upholstered in Black Nappa Leather with contrast stitching for an even more sophisticated look.

The new BMW X5 xDrive50i with the Mocha Interior Design Package and Imperial Blue Metallic paint.

BMW X5 WITH IVORY WHITE INTERIOR DESIGN PACKAGE.

Interior equipment features:

- Choice of:
 - Finition Oak Wood interior trim
 - Poplar Wood interior trim
 - Finition Pure Wood interior trim
 - Aluminum interior trim
 - Aluminum Hexagon interior trim
- Ivory White Nappa Leather upholstery with contrast stitching
- Atlas Gray Leather dashboard with contrast stitching

Leather upholstery: Leather on all seating surfaces; other components may be Leather or SensaTec.

Ivory White Interior Design Package requires Premium Package. Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

The instrument panel, upholstered in Atlas Gray Leather with contrast stitching, enhances the exclusive interior ambiance.

Exquisite Ivory White Nappa Leather is lavished throughout the X5 interior, shown here with the Finition Oak Wood trim. Contrast stitching embellishes the seats.

Note: shown with Luxury Line steering wheel.

The new BMW X5 with the Ivory White Interior Design Package shown in Dark Graphite Metallic paint.

BMW X5 WITH M SPORT.

Exterior equipment features:

- Choice of:
 - Double Spoke (Style 467M) 19 x 9.0 M light alloy wheels with 255/50 run-flat¹ all-season tires²
 - Double Spoke (Style 469M) 20 x 10.0 front, 20 x 11.0 rear light alloy wheels and 275/40 front, 315/35 rear run-flat¹ performance tires^{2,3} (includes increased top-speed limiter)
- M Aerodynamic kit: Front apron with enlarged air vents, side skirts with additional character line
- Choice of:
 - Satin Aluminum roof rails
 - High-gloss Shadowline roof rails
- Exterior trim:
 - Satin Aluminum
 - High-gloss Shadowline
- Choice of:
 - Standard suspension
 - Adaptive M suspension
- Available Carbon Black Metallic paint

Interior equipment features:

- Sport Automatic transmission with gear shift paddles and Launch Control
- Choice of:
 - Sport seats for driver and front passenger
 - Multi-contour seats for driver and front passenger (standard on xDrive50i)
- Aluminum Hexagon interior trim
- Three-spoke leather-wrapped M multi-function sport steering wheel
- Anthraccite headliner
- M footrest
- M door-sill finishers in aluminum with "M" logo
- Signature "M" key fob

¹ Run-flat tires do not come equipped with a spare tire and wheel.

² Due to low-profile tires, please note: Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

³ Performance tires are not recommended for driving in snow and ice conditions.

Wheel and tire specifications are subject to change. For details on the availability of standard and optional wheels and tires, features, packages and technical specifications, please visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Designed for the performance-oriented driver, M Sport offers a choice of highly supportive front sport seats or Multi-contour seats. The M sport steering wheel, Anthraccite headliner, Aluminum Hexagon trim and other M signature touches add to the interior's sporty feel.

Door-sill finishers featuring "M" design.

The sleek new design gives the signature M Sport key fob a distinctive look and feel.

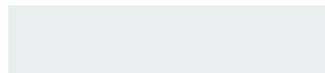

Double Spoke (Style 467M) 19 x 9.0 M light alloy wheels and 255/50 run-flat¹ all-season tires.²

Double Spoke (Style 469M) 20 x 10.0 front, 20 x 11.0 rear light alloy wheels and 275/40 front, 315/35 rear run-flat¹ performance tires.^{2,3} (Includes increased top-speed limiter.)

The pages in this section of the brochure show available colors and materials for the BMW X5. Use these samples to compare paint, upholstery, trim colors and combinations. Please note that these samples are representations; they are not exact reproductions. To see the actual colors, visit your local BMW center. They will be happy to show you original samples and assist you with special requests.

For details on the availability of standard and optional exterior paints and upholstery materials and colors, please visit bmwusa.com/byo.

Equipment features and options.

Adaptive LED Headlights for both high and low beams project an intense white light that simulates daylight for excellent visibility. Convenient features that improve visibility include Automatic headlights, Adaptive turning, Cornering Lights, four Corona headlight-rings, and Automatic high beams.

Xenon Adaptive low- and high-beam headlights illuminate the road ahead and to the side with brilliant clarity. An auto-leveling feature adjusts for varying passenger and cargo loads.

LED Corona headlight-rings that circle both headlights and high beams also act separately as Daytime Running Lights and parking lights.

Taillight cluster with taillight, brakelights and turn-signal indicators incorporate LED technology for greater visibility. **Adaptive Brakelights** warn following vehicles by increasing in brightness when the intensity of your braking action is increased.

The **headlight washing system** maximizes illumination of the road ahead in all weather. When the windshield washer function is activated, headlights are also automatically cleaned.

LED foglights match the color of the LED or Xenon headlights. Their bright white light helps when visibility is low.

Rain sensor monitors the intensity of the rain and automatically regulates the windshield wiper interval. It also automatically turns on the low beams when needed.

Automatic high beams continuously monitor the ambient light, turning the high beams on when needed, and off when there is oncoming traffic, for optimum illumination.

Air Breathers, located in the front wheel arches, channels the airflow at the front wheels. This decreases air turbulence at the front wheels, thereby reducing fuel consumption.

Black roof rails, cleanly integrated into the BMW X5 design, provide the foundation for BMW's accessory modular roof rack system, which allows the convenient, secure transport of luggage, bicycles, surfboards, etc.

Satin Aluminum roof rails give the X5 an elegant appearance – especially when equipped with the xLine.

High-gloss roof rails underscore the dynamic look of Shadowline trim.

Shadowline trim adds the sporting look of black high-gloss finish to the front and rear side-window frames, side-view mirror frames and base, B-pillar trim, and rear-door window guides.

Satin Aluminum trim adds a sophisticated shine to window side frames and recess covers.

Privacy glass in the rear and rear side windows enhances passenger privacy, while it reduces sun glare and interior heat.

Tailgate opens in two sections. Lower the bottom section to create a platform that holds up to 550 lbs. The top section can be raised separately for quick removal of small items.

Automatic tailgate opens and closes at a touch of a button. Opening height can be adjusted through the iDrive Controller.

Aluminum running boards are designed to add to the X5's overall visual appeal, while making it easier for passengers to enter and exit. Rubber inserts add a sporty touch to the 4-inch-wide running boards.

Automatic soft-close doors use small electric motors to gently pull all four doors shut the last few inches.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

¹ Run-flat tires do not come equipped with a spare tire and wheel.

² Due to low-profile tires, please note: Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires.

³ Performance tires are not recommended for driving in snow and ice.

Three-spoke leather-wrapped multi-function sport steering wheel features chrome inlay and power tilt/telescoping adjustments.

Servotronic adapts the steering power to suit the speed.

Active steering adjusts both steering ratio and steering force in relation to driving speed, for more agility when parking and in city driving, quicker turns on twisting roads, and greater straight-line stability at highway speeds.

Heated steering wheel warms up the rim in seconds at the touch of a button.

Three-spoke leather-wrapped M multi-function sport steering wheel includes larger thumb rests and a thicker rim for better grip and a more sporty look.

Three-spoke leather-wrapped multi-function steering wheel provides buttons on the left for cruise control functions, and buttons on the right for adjusting all audio-related functions, including a BMW-tested mobile phone.

8-speed Sport Automatic transmission with Adaptive Transmission Control (ATC) provides extremely fast synchronized shifting in either the Sport or Manual shift mode; racing-inspired steering wheel-mounted paddles are also included. When the light turns green, the new Launch Control function expertly transfers engine power into quick acceleration.

Smartphone Integration, which provides connectivity for iPhone® and similar devices, is included with Enhanced USB and Bluetooth®. This allows access to stored music, can improve signal reception, and recharges the phone battery. (Visit bmwusa.com/bluetooth or visit your authorized BMW center for compatible phone models.) (Shown with Snap-in Adapter accessory.)

Electromechanical parking brake with Automatic Hold is activated via a button in the center console. This feature helps prevent the vehicle from rolling forwards or backwards when at a standstill, and keeps the vehicle stationary whenever it comes to a stop, such as in slow-moving traffic. The brake is released when you step on the accelerator.

Wheel and tire specifications are subject to change. For details on the availability of standard and optional wheels and tires, features, packages and technical specifications, please visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Equipment features and options.

Head-up Display projects important travel information, such as current speed and Check Control data, on the windshield directly in your line of vision in full color. Also displayed are directional arrows from the Navigation system, Speed Limit Info, and other driving warnings, as well as radio stations, music and phone lists.

BMW Night Vision with Pedestrian Detection can scan up to 900 feet ahead using an infrared camera in the front bumper.¹ It can detect people and animals, as well as the direction of their movement, up to approximately 300 feet away, and displays their presence on the iDrive screen and Head-up Display. The system gives a visual warning as soon as pedestrians or animals move toward the road, alerting you to potential dangers significantly earlier, so you can react more quickly.

Active Cruise Control with Stop & Go² lets you preset desired speed and following distance. When it recognizes slower vehicles ahead, it reduces your speed to maintain the preset distance, and can even bring you to a complete stop if traffic calls for it. Active Cruise Control also includes the Active Driving Assistant features.

Surround View makes it easier to park and maneuver in tight spaces. The area behind and on either side of the vehicle is shown on the Control Display from a bird's-eye perspective (Top View). This is combined with Side View, which assists you when approaching areas with limited visibility (such as when exiting driveways or parking garages).

BMW Parking Assistant makes parallel parking a breeze. Suitable parking spaces can be shown and selected via the Control Display. Hold down the button and the system actively takes over parking, selecting the right gear, steering, accelerating and braking, as needed.

Lane Departure Warning³ one of the features of Active Driving Assistant, senses when your vehicle is crossing over roadway lane markings or is changing lanes without signaling, and warns you by sending a mild vibration through the steering wheel. The system can be turned on and off via a button near the steering wheel.

Rear-view Camera shows on the Control Display the area behind your vehicle. Guidelines indicate if your vehicle can fit in a parking space, and display parking turn angles. The Rear-view Camera is activated by engaging reverse gear.

Automatic Park Distance Control engages when the system detects a parking maneuver. This helps you judge distance to other vehicles and unseen objects when parking. The warning beeps come faster as the bumper approaches the object, turning into a constant tone at less than 12 inches.

iDrive touchpad Controller allows intuitive, convenient operation of the iDrive system. Using the Controller-integrated touchpad, you can enter destination addresses for the Navigation system by using your own handwriting, while the input is conveniently shown in the Control Display.

Ceramic controls present a deep black glazed finish to various controls, such as the iDrive Controller bezel, front and rear ventilation controls, and audio controls. The black ceramic provides a rich, custom look and unique feel to the interior.

Driving Dynamics Control including ECO PRO mode. At the push of a button you can switch from the standard engine and transmission settings of COMFORT mode to the extra-efficient ECO PRO mode. Or select SPORT mode for an even more dynamic driving experience.

¹ Under optimal road conditions. Night Vision performance is also limited by rain, fog, humidity and other weather conditions.

² Cruise control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating the road, traffic and visibility conditions, the driver must decide whether and how the system is used.

Advanced Real Time Traffic Information (ARTTI) makes you aware of traffic congestion in most large cities before you encounter it. This feature displays and describes current local traffic information on your Control Display; in case of delays greater than five minutes, it suggests alternate routes.

³ Requires clearly definable lane markings that are not obscured by rain, snow, etc. The feature is not a substitute for the driver's own responsibility in maintaining safe control of the vehicle.

iDrive Status shows, in the Control Display, 3-D real-time information about the vehicle's body roll and pitch. A compass display is also shown in the instrument cluster.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Equipment features and options.

Rear-seat entertainment includes two freestanding, tablet-style 9.2-inch color screens integrated into the back of the front seats. The system includes a remote Controller and headphone jacks.

Anthracite headliner adds a more distinctive and sporty look to the X5 interior. The A-, B-, and C-pillars, as well as the sunshades and roof handles, are also finished in this refined black.

Harman Kardon® Surround Sound system is a 16-speaker system with 600-watt digital amplifier and Dirac signal processing that outputs reproduction of the surround information contained in the stereo signal in a nine-channel format, as well as 5.1 surround sound from a DVD source.

Storage compartments are found throughout the cabin. There are even bottle holders for storing 1.5-liter bottles in the front side pockets and 1-liter bottles in the rear side pockets.

8 programmable memory buttons offer convenient storage of your most frequently accessed iDrive settings, such as favorite radio stations, phone numbers and Navigation system addresses.

2-zone automatic climate control allows driver and front passenger to select individual temperatures and choice of fan speeds, as well as choose automatic or manual airflow and recirculation. The automatic recirculation control activates whenever certain air pollutants are detected. The system also offers a mist-up sensor, solar sensor and residual heat use.

4-zone automatic air conditioning builds on the 2-zone system with air vents in the B-pillar and at the rear of the center console, to ensure virtually draftless ventilation for rear-seat passengers. Additionally, the temperature in both the left and right rear cabin can be tailored via two control dials with displays.

Manual rear side sunshades keep the sun's heat and glare away from the rear cabin while maintaining your privacy. They conveniently disappear into the side doors when not in use.

Four cupholders include two in the center console with a sliding cover, and two in the rear center armrest.

Ambiance lighting includes a "welcome" mode as well as numerous additional light sources positioned throughout the interior. Choose white, orange or blue illumination to create a relaxing atmosphere, based on your mood. Vicinity lighting and exit lights in the outside door handles are a welcome convenience during entry and exit at night.

Bang & Olufsen® High-End Surround Sound System offers superior acoustics, thanks to innovative Dirac Dimensions™ signal processing and 16 speakers with a total output of 1,200 watts, including a retractable center speaker. This houses the midrange speaker and the Acoustic Lens Technology that ensures consistent sound quality at all seats. You have the choice between two sound settings: "Studio" for particularly crisp sound and "Expanded" for a more open sound space. The speakers' lighting completes this audiovisual experience.

Panoramic moonroof is designed with generous dimensions to offer a stunning view, day or night. Easy-to-use features include a power slide and lift control, a comfort opening/closing function, a speed-sensitive wind deflector, and a power sunshade to shield passengers from excessive glare and heat. Both glass panels tilt up electronically at the touch of a button; the front panel also features a sliding function.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Equipment features and options.

Multi-contour seats for driver and front passenger can be adjusted in various ways to provide personalized support and comfort. The top part of the backrest, the backrest width, thigh support and headrest height can be individually adjusted. Both front seats also feature Active Head Restraints, lumbar support and a memory function.

Rear comfort seats are specially upholstered for outstanding comfort. Both seats can be individually adjusted in numerous ways. The two outer seatbacks can recline 10 degrees in six stages. In a 60/40 split, they can also be moved 3.1 inches fore and aft, providing greater legroom or increasing the cargo space, as needed.

Third-row seating allows greater flexibility in transporting up to seven people. In addition to the two fold-down seats with inertia-reel safety belts, a center console includes two cupholders, and there is heating for the third-row footwells. The second row of seats can be folded down using the Easy Entry Function; there is also a grip plate by the C-pillar. When not in use, each third-row seat can be lowered individually into the floor for increased cargo space.

40/20/40 split-folding rear-seat backrests can be completely folded down for more flexibility in maximizing the number of passengers and cargo. With the seatbacks up, there is 23 cu. ft. of storage; with seatbacks folded down, cargo capacity increases to 66 cu. ft. (European measurements.)

Ventilated front seats gently blow warm or cool air through the micro-perforations in the seat surfaces and backrests to keep the driver and front passenger comfortably dry in hot weather, and warm in colder weather.

Storage includes two 12V sockets, a sunglasses compartment on the interior mirror and inserts in the side pockets. The cargo area comes with two cargo rails, four fastening points, tensioning straps left/right, a flexible net with hooks on both sides, multi-purpose hooks and a net on the side wall.

10-way power front sport seats with driver's-seat memory system include power-adjustable seat height, seat angle, backrest angle and lumbar support, and two-way manual thigh support. Contoured side bolsters cradle you comfortably over long distances, while holding you firmly in place during sporty driving maneuvers.

10-way power front seats include adjustable backrest angle, headrest height and seat height. These newly designed seats ensure a high level of long-distance comfort and lateral support. The driver's-side seat includes a memory system for the seat, steering wheel and outside mirrors.

Heated front seats are a welcome feature in cooler weather. At the touch of a button, driver and front passenger can individually select from three heat settings.

Power seat adjustment allows the driver to save and retrieve desired settings for the seat, steering wheel column and exterior mirror.

Additional storage is in the front and rear doors, a compartment with a fold-down lid to the left of the steering wheel, the glovebox, a compartment for storing keys, a compartment with a two-part lid under the front center armrest, and a storage tray under the floor of the cargo area.

Comfort Access lets you open all the doors and the cargo area without pressing a button. It also includes vicinity lighting in the front and rear exterior door handles.

Get the latest information on BMW standard and optional features, packages and technical specifications. Visit bmwusa.com, select the BMW model of your choice, and click on "Features & Specs."

Original BMW Accessories.

Double Spoke (Style 215) 21-inch Ferric Gray light alloy wheels; BMW Roof Box 460 in White.

BMW iPad® holder rotates 360° – perfect for watching films, etc. Easily attaches to front headrest bars. (Note: not for vehicles with optional rear-seat entertainment.)

Luxury all-weather floor mats, precisely fitted, dirt-repellent and water-resistant. With a sophisticated metal inlay featuring the BMW logo.

Snap-in Adapter with USB interface plays stored music through your vehicle speakers, charges the phone and accesses the car antenna for better reception.

Star Spoke (Style 128) 21-inch Liquid Black light alloy wheels.

Luggage compartment mat, made from heavy duty plastic, is precisely fitted with an anti-slip pattern.

Driving a BMW is always a special experience, which can be enhanced even further with Original BMW Accessories. Benefit from innovative solutions combining unique ideas, stunning design and supreme functionality. Discover the wide range of Original BMW Accessories available to you, enhancing such vehicle aspects as the exterior, interior, technology, transporters, protection and other details to customize your vehicle. We believe that a premium ownership experience should feature performance and luxury, as well as safety and convenience. We believe you should be able to drive a BMW to its potential, while enjoying peace of mind and reduced cost of ownership. That's the idea behind **BMW Ultimate Service**[®]: a suite of comprehensive programs and services that are included in every new BMW vehicle. It starts with the **New Vehicle/SAV Limited Warranty**,¹ providing you with coverage for the first four years or 50,000 miles, whichever comes first. Additionally, you enjoy

12-year, unlimited-mileage warranty protection against corrosion and rust performance.¹ BMW Ultimate Service continues with **BMW Maintenance Program** for the first four years or 50,000 miles,² **BMW Roadside Assistance**, and more. The BMW X5 also comes with a broad range of BMW ConnectedDrive[®] services as standard, including **BMW Assist eCall**,³ **BMW TeleService**,³ **BMW Online**,⁴ **Remote Services**,³ and as optional, **Concierge Services with Critical Calling**.⁵

GOING BEYOND ENGINEERING: THE HIGH-PERFORMANCE BMW OWNERSHIP EXPERIENCE.

BMW Maintenance Program is one of the most comprehensive maintenance programs in its class. We cover all factory-recommended maintenance during the New Vehicle/SAV Limited Warranty coverage period. This includes scheduled oil services and inspections. Also covered is the replacement of items that are subject to normal wear and tear, such as brake pads, wiper blade inserts and engine drive belts.² And, thanks to BMW's advanced engineering, most owners enjoy a well-balanced maintenance schedule, with flexible routine service intervals that can save you time. When your vehicle requires attention, your authorized BMW center ensures that it receives only genuine BMW parts – your assurance of exacting quality standards.

For more details on BMW Ultimate Service and the BMW Maintenance Program, visit your authorized BMW center or log on to bmwusa.com/ultimateservice.

BMW Assist eCall,³ a safety feature of BMW ConnectedDrive, lets you enjoy peace of mind knowing that a friendly response specialist is there to help you, 24/7, at just the push of a button. This includes Emergency Request (SOS button), Automatic Collision Notification, and Customer Relations. **BMW TeleService**³ continually monitors specific vehicle parts that are subject to wear and tear, as well as services that require attention at regular intervals, such as vehicle service inspections. This data is automatically transmitted to your authorized BMW center, which informs a BMW Service Advisor to call and schedule a convenient service appointment. You don't have to keep track of when your vehicle requires routine maintenance. An added benefit: any needed maintenance service parts will already be on hand, so your BMW is serviced and returned to you as quickly as possible. And because they use only Original BMW Parts, you can rely on expert fit and long-lasting BMW quality.

BMW Roadside Assistance is provided free of charge for the first four years – with no mileage limit. Call **1-800-332-4BMW (4269)** for friendly on-the-road help, 24/7, anywhere in the United States, Canada and Puerto Rico. This includes Covered everything from flat-tire changes, emergency gasoline and lock-out service, to towing, alternative transportation and even trip-interruption benefits. This service also provides valuable trip-routing advice.

BMW Online⁴ provides up-to-date web information: business and stock reports, as well as weather updates. BMW Online also includes **MyInfo**, which allows you to send business locations and street addresses with their associated phone numbers from the Google Maps™ website directly to your BMW. The destination can be sent to your Navigation system for turn-by-turn directions.

Enhanced USB and Bluetooth[®] with **Smartphone Integration** offers an array of Mobile Office⁶ functions. With the BMW Navigation system and your mobile phone linked via Bluetooth technology, Mobile

Office transfers text messages and emails to your Drive Display screen and then reads them aloud to you. While en route, a calendar and to-do list can also appear on your Display screen. Running late? Click on the phone number in the calendar to call your appointment. For a list of tested mobile phones, visit bmwusa.com/bluetooth.

Remote Services³ includes Remote Door Unlock, Stolen Vehicle Recovery, and access to the My BMW Remote app, which allows you to control your BMW from your mobile device.

For the ultimate in coverage, add the optional **Concierge Services**.⁵ You'll enjoy unlimited access to personalized Directions and services for restaurant and hotel recommendations, with the destination address and phone number not only sent right to your BMW, but also transferred to your Navigation system for route guidance. Another useful Concierge feature: **Critical Calling**. This lets you make up to four operator-assisted calls per year, up to five minutes per call, if your mobile phone is not available, or if its battery is discharged.

EXPERIENCE MORE WITH BMW.

BMW Financial Services. Arranging to buy or lease a BMW is easier than you may think. Your authorized BMW center offers leasing and financing to suit your personal needs through BMW Financial Services.⁷ Start the process at our website, where you can build your "dream vehicle," get an estimate on a monthly lease or financing payment, submit a credit application to BMW Financial Services – and get approval – all online!⁷ To find out how BMW Financial Services can help put you behind the wheel of your favorite BMW model, log on to bmwusa.com/fs or call, toll-free, **1-800-578-5000**.

BMW Virtual Center. If you get the sudden urge to shop for a BMW but your authorized BMW center is closed, there's good news – the BMW Virtual Center is open 24 hours a day! Log on to bmwusa.com/byo, and choose the model that interests you. Configure the BMW of your dreams, and see what the monthly payments would be. You can even send the specifications to your authorized BMW center, apply for financing, or request a test drive – all online!

BMW Magazine. A fascinating view of the latest events and products in the world of BMW, including travel reviews, personality profiles and the latest BMW technologies. **BMW Magazine** is sent to new owners and lessees twice a year.

BMW Performance Driving School. Take your driving skills to the next level. Behind the wheel of new BMWs and under the guidance of professional instructors, you'll hone your driving skills on a 1.7-mile driving course that can be configured in a multitude of ways. In One- and Two-Day Schools you can tackle the skid pad, slalom course and water walls. The BMW Performance Driving School is about control and pushing a BMW to its limits – and yours. Visit bmwusa.com/pds.

Performance Center Delivery. You'll always remember the fun of taking delivery of your new BMW – especially with BMW Performance Center Delivery in Spartanburg, SC. After enjoying dinner and an overnight stay at a first-class hotel, we'll take you and your companion to the Performance Center where a Product Specialist will give you an in-depth introduction to your new BMW. Then at the Performance Driving School, you'll get tips from a professional driving instructor as you explore the dynamic capabilities of a similar model. It's exciting, it's enlightening – and it's all compliments of BMW with your new vehicle. To learn

more about the BMW Performance Center, call **1-888-345-4269** or visit bmwusa.com/pdsdelivery.

The **BMW Welt** ("BMW World") delivery and brand-experience center in Munich is bold proof of BMW's passion for design. When you take advantage of the BMW European Delivery Program,⁸ this is where you will meet your new BMW – in a personalized process that is highly dramatic and totally unforgettable. (You might also realize substantial savings that just may pay for your trip.) While you're there, marvel at the historic BMWs in the Museum; learn about our engineers' newest innovations in the Technology and Design Atelier; and take a tour of the plant to experience firsthand the state-of-the-art methods used to create a BMW. Then comes the unique experience of driving your new BMW on the roads it was designed for. To learn more, visit bmwusa.com/europeandelivery.

ON-BOARD SERVICE ALERTS.

We monitor your BMW's needs – so you don't have to.

Tackling mountain switchbacks, the last thing you should be thinking about is the state of your brake pads. Thanks to BMW's integrated on-board diagnostics system, you'll always know exactly when the next service is due, and what work will be required. Condition Based Service (CBS) measures the condition of key parts that are subject to wear and tear. It also tracks fluid levels and monitors your BMW's time- and mileage-dependent service requirements. Using this data, the Info Display in the cockpit automatically alerts you in advance whenever any part of your vehicle will require servicing – so there are no surprises ahead.

¹ See your authorized BMW center for details on these limited warranties.

² The BMW Maintenance Program covers factory-recommended maintenance services as determined by the Service Interval Indicator for all new eligible MY 2004 and later BMW vehicles. Specific additional items that need replacement due to normal wear and tear are also covered. Every new BMW is covered by a limited warranty for defects in materials or workmanship for the first four years or 50,000 miles, whichever comes first. The warranty period begins either on the date of first retail sale, or the date the vehicle is first placed in service as a demonstrator, service loaner or company vehicle, whichever is earlier. And from that moment on, your BMW is protected during the coverage period, regardless of whether you're the first or a subsequent owner. Exclusions from coverage include: gasoline, gasoline additives, windshield washer fluid and additives, battery, tires, wheels, wheel alignment and tire balancing. All work must be performed by an authorized BMW center. See the Service and Warranty Information booklet for specific terms, conditions and limitations. Further information can also be obtained from your authorized BMW center.

³ On 2014 and later BMW X5 models, BMW Assist eCall, BMW TeleService and Remote Services are standard and include 10 years of service. In order to receive these services, a subscriber agreement must be completed and transferred to the BMW Assist™ Response Center. GPS and underlying wireless services must be available and functioning, vehicle ignition must be turned on (except for Remote Services), battery must be charged and connected, and vehicle's electrical system operational. Due to wireless carrier coverage, services may be limited in certain geographic areas. Call toll-free **1-888-333-6118**, go to bmwassist.com, or visit your authorized BMW center for additional program details. Services are subject to the terms and conditions of your subscriber agreement.

⁴ BMW Online comes standard and includes a 3-year subscription. Subject to the terms and conditions of your subscriber agreement. Please go to bmwusa.com/connecteddrive for additional details.

⁵ Optional Concierge Services includes a 3-year subscription. Subject to the terms and conditions of your subscriber agreement. Visit bmwusa.com/connecteddrive for details.

⁶ Not all mobile phones are compatible with Mobile Office, and some compatible phones support a limited number of Mobile Office functions. For the complete list of compatible mobile phones and the details regarding which Mobile Office functions are supported by each phone, please visit bmwusa.com/bluetooth.

⁷ Subject to credit approval and other terms and conditions.

⁸ Not all models are available for BMW European Delivery Program. Please go to bmwusa.com/europeandelivery or visit your authorized BMW center for details.

The Ultimate
Driving Machine®

BMW and the environment.

BMW is a strong proponent of the environment and social responsibility. We launched BMW EfficientDynamics back in 2000 – the philosophy of providing greater power with increased efficiency and fewer emissions. This has resulted in significant benefits today – for our customers, the climate and the environment.

That year, ecological sustainability was also declared one of BMW's core strategic principles; it is now firmly anchored in our entire production chain. It starts with the development of fuel-saving and alternative vehicle concepts, continues with environmentally friendly production processes, and ends with innovative recycling methods. This effort has been recognized worldwide; in 1999, BMW AG – the parent company of BMW of North America and BMW Manufacturing Co. in Spartanburg, SC – was the first automotive company to be represented on the Dow Jones Sustainability Group Index. It has remained on the Index ever since; moreover, since 2005, BMW has been voted the world's most sustainable automobile manufacturer. At BMW, we strive for and achieve high performance in all we do.
