

BOLT EV 2020

CHEVROLET 

Bolt EV Premier in Cajun Red Tintcoat
(extra-cost color) with available features.

A GREAT VEHICLE THAT JUST HAPPENS TO BE ELECTRIC.

Bolt EV is the award-winning vehicle that does everything well. It offers up to 259 miles of pure electric range on a full charge.¹ It can accelerate from 0 to 60 mph in 6.5 seconds.² And with a low center of gravity, Bolt EV is just plain fun to drive. There's plenty of room for five and up to 56.6 cu. ft. of maximum cargo room with the rear seats folded down.³ So go ahead. Simplify your life. After all, charging the battery can be as easy as plugging in a cell phone.

FIND NEW ROADS™

¹ EPA-estimated 259-mile EV range. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. ² Based on initial vehicle movement. ³ Cargo and load capacity limited by weight and distribution.

Bolt EV Premier in Silver Ice Metallic with available features.

PERFORMANCE

259 EPA-ESTIMATED MILES OF RANGE ON A FULL CHARGE¹

6.5 SECONDS 0 TO 60 MPH²

266 LB.-FT. OF TORQUE

Bolt EV offers an EPA-estimated 259 miles of range on a full charge¹, which can mean six times the amount needed for an average daily commute of 40 miles – enough for a full work week and a few stops in between.

With smooth handling and plenty of get-up-and-go, Bolt EV is fun to drive

and requires less maintenance than a gas vehicle. Features like Regen on Demand™ and One Pedal Driving are engineered to help improve efficiency.

Regen on Demand allows you to convert kinetic energy into energy stored within the battery for future use. A simple pull and hold of the Regen on Demand

paddle can decelerate your Bolt EV and store energy³

While driving in Low mode at any speed, **One Pedal Driving** lets you efficiently speed up and slow down by using only the accelerator pedal.³ When you want to speed up, press your foot down like you normally would. And when you want

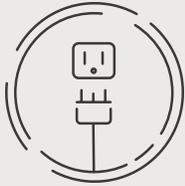

to slow down, just lift your foot off the accelerator. One Pedal Driving helps you capture some of the energy from the moving vehicle and turns it back into electrical energy, which is then stored in the battery. Of course, you should always use your brake pedal if you need to stop quickly.

¹ EPA-estimated 259-mile EV range. Your actual range will vary based on several factors, including temperature, terrain, battery age and how you use and maintain your vehicle. ² Based on initial vehicle movement. ³ Regenerative braking performance may be limited when the battery is cold or near full charge. See chevrolet.com for details.

BASIC

120-VOLT

Home & Public Stations

About

4 MILES

of range per hour of charge¹

CHARGE

120-volt charging capability comes standard.

120-volt portable charge cord comes standard with the vehicle.

BENEFITS

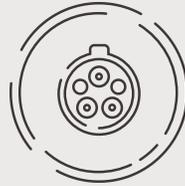

Gives owners the opportunity to top off their charge.

Charge anywhere there's a 120-volt 3-prong outlet.

FAST

240-VOLT

Home & Public Stations

Up to

25 MILES

of range per hour of charge¹

CHARGE

240-volt charging capability comes standard.

240-volt charging is available at most public charging stations.

The recommended 240-volt charging unit (professional installation required) is available for purchase through your Chevrolet dealer or GM Accessories.

BENEFITS

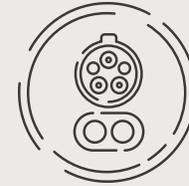

If you drive an average daily commute of 40 miles, you could fully replenish the battery in less than 2 hours.

From empty, fully replenish the battery in about 10 hours¹ with the recommended 32-amp Level 2 charging unit.

SUPER FAST

DC FAST CHARGE

Public Stations Only

Up to

100 MILES

of range in about 30 minutes of charge¹

CHARGE

DC Fast Charge capability is available to Bolt EV owners for an additional cost.

Requires available DC Fast Charge port.

Available at participating locations.

BENEFITS

Accelerated charging times.

Convenient for those who are out and about and need to add to their charge while parked.

¹ Charging rate varies based on output of the charge unit, vehicle settings and outside temperature.

CHARGING

GOODBYE, GAS STATION.

Charging your Bolt EV is simple. The vehicle comes standard with 240-volt charging capability, and with the available 240-volt charging unit (professional installation required), you can charge your Bolt EV up to five times faster than with the 120-volt portable charge cord¹

The 8-inch diagonal Driver Information Center and **10.2-inch diagonal color touch-screen** show range information. You can also find range information on the available myChevrolet Mobile App²

For equipped vehicles, **DC Fast Charging** is available at conveniently located public charging stations and provides up to 100 miles of range in about 30 minutes of charge¹. Use the myChevrolet Mobile App² with the Energy Assist feature to easily plan trips and find available charging stations in your area.

Every Bolt EV comes standard with an 8-year/100,000-mile battery warranty³. Plus the Bolt EV battery is engineered with an active thermal management system, which helps regulate and protect the battery regardless of the outside temperature.

¹ Charging rate varies based on output of the charge unit, vehicle settings and outside temperature. ² Available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. User terms apply. Device data connection required. See onstar.com for details and limitations. ³ Whichever comes first. See dealer for details.

Bolt EV Premier
in Summit White.

DESIGN

- Daytime running lamps with LED signature.
- Michelin® Energy™ Saver All-Season tires with Selfseal® technology.
- Enclosed underbody to streamline airflow.
- Electronic Precision Shift.
- Spacious comfort for five passengers.

Rear seats fold down to offer
56.6 cu. ft. of cargo space!

The rear cargo area features a deep well with
an available false floor for additional storage.

myChevrolet Mobile App¹ with Energy Assist feature.

Confidence Gauge continuously analyzes available range.

Range Impacts Screen.

¹ Available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. User terms apply. Device data connection required. Visit onstar.com for details and limitations.

TECHNOLOGY

- Chevrolet Infotainment System¹ with 10.2-inch diagonal color touch-screen.
- Available 4G LTE Wi-Fi² provides a fast and reliable connection for up to seven devices.
- Apple CarPlay³ compatibility.
- Android Auto⁴ compatibility.
- myChevrolet Mobile App⁵ with Energy Assist feature to easily plan trips and find charging stations on the go.

¹ Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ² Service varies with conditions and location. Requires active service plan and paid AT&T data plan. Visit onstar.com for details and limitations. ³ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ⁴ Vehicle user interface is a product of Google and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android 5.0 Lollipop or higher. Data plan rates apply. ⁵ Available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and the plan you are enrolled in. User terms apply. Device data connection required. Visit onstar.com for details and limitations.

SAFETY AND DRIVER ASSISTANCE

READY AND VIGILANT.

Front Pedestrian Braking. At speeds below 50 mph, if an imminent collision with a pedestrian directly ahead is detected, the feature can alert you and can even apply last-second emergency braking. Performance is limited at night. Available on LT and Premier.

Automatic Emergency Braking. At speeds below 50 mph, if an imminent front-end collision is detected with a vehicle you are following, the feature can alert you and can automatically apply hard emergency braking or enhance driver hard braking. Available on LT and Premier.

Forward Collision Alert. This feature monitors how close your vehicle is to the detected vehicle in front of you and can alert you to a potential crash. Available on LT and Premier.

Lane Keep Assist with Lane Departure Warning. At speeds above 37 mph, this feature monitors road lines and can gently turn the steering wheel to help keep the vehicle in its lane or provide an alert if a lane marker is unintentionally crossed. Available on LT and Premier.

Lane Change Alert with Side Blind Zone Alert. This feature can provide side mirror alerts when it detects fast-approaching vehicles in adjacent lanes as well as moving vehicles in the side mirror blind zones. Standard on Premier. Available on LT.

HD Rear Vision Camera. When traveling in Reverse at low speeds, this feature helps provide a view of the area immediately behind your Bolt EV.

Rear Park Assist. When traveling in Reverse at low speeds, this feature can provide distance alerts when it detects certain stationary objects in close proximity behind the vehicle. Standard on Premier. Available on LT.

IntelliBeam® headlamps. When oncoming headlamps are sensed or when taillamps are detected, this feature intuitively adjusts between low and high beams. Available on LT and Premier.

HD Surround Vision. When your Bolt EV is stationary or traveling at low speeds, this feature provides you with a bird's-eye view of the area around the vehicle on the infotainment display. Standard on Premier.

Rear Camera Mirror. This feature allows you to use either a traditional inside mirror or a rearview camera mirror display that provides a wide, less obstructed field of view to check for traffic. Standard on Premier.

Rear Cross Traffic Alert. This feature can alert you to detected vehicles crossing behind your Bolt EV when backing up. Standard on Premier. Available on LT.

Safety starts with you. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

Experience Chevrolet Complete Care, a comprehensive coverage, warranty and protection program that comes standard with every new 2020 Chevrolet Bolt EV lease and purchase. Simply, it is designed around you, to make it easy to keep your Chevrolet like new – and give you the confidence you deserve when you need it most.

NEW VEHICLE LIMITED WARRANTY

3-year/36,000-mile Bumper-to-Bumper Limited Warranty. Chevrolet will warrant each 2020 Bolt EV from bumper to bumper for 3 years/36,000 miles (whichever comes first; see dealer for details), with no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. Cosmetic corrosion resulting from defects is also covered under the Bumper-to-Bumper Limited Warranty. In addition, rust-through corrosion will be covered for 6 years/100,000 miles (whichever comes first). See dealer for details.

5-year/60,000-mile transferable Powertrain Limited Warranty. Every 2020 Bolt EV comes with a 5-year/60,000-mile (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 5 years/60,000 miles (whichever comes first) of the 24/7 Roadside Assistance Program and 8 years/100,000 miles of the Courtesy Transportation Program, and much more. See dealer for details.

IMPORTANT INFORMATION

Chevrolet Owner Center (my.chevrolet.com). Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

Engines. Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

Assembly. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

Chevrolet Connected Services and OnStar. Connected vehicle services vary by vehicle model and require an active service plan, working vehicle electrical system (including battery), cell reception and GPS signal to function properly. Visit onstar.com for details and limitations.

A note on child safety. Always use seat belts and the correct child restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner's Manual and the child safety seat instructions for more safety information.

Important words about this catalog. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based on design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to

lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Small Car segment and latest available competitive information. Excludes other GM vehicles.

Fleet orders. Some standard content may be deleted on fleet orders. See dealer for details.

Spare tire information. There is no standard jack or spare tire in the 2020 Chevrolet Bolt EV. Your vehicle may have a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a one-quarter-inch puncture in the tread area of the tire. After using the tire inflator kit, it is recommended that you take the tire to an authorized retailer for inspection and repair as soon as possible, but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than one-quarter inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire and for one time before its expiration date.

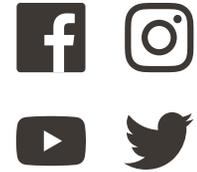

Chevrolet ownership experience. Chevrolet is committed to enhancing the vehicle shopping and ownership experience through a wide array of programs. Visit chevrolet.com to build and price, find a vehicle, request a quote, compare vehicles, find financial tools or track your vehicle order. You'll also find information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance, GM Mobility, safety and current incentives.

Chevrolet.com/safety. Chevrolet is committed to keeping you and your family safe – from the start of your journey to your destination. That's why every Chevrolet is designed with a comprehensive list of safety and security features to help give you peace of mind.

GMmobility.com (1-800-323-9935). GM MobilitySM offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

The BuyPower Card. The Chevrolet BuyPower Card – Every purchase you make with the BuyPower Card from Capital One* helps you earn toward an eligible new Chevrolet, Buick, GMC or Cadillac vehicle. There's no limit on the amount you can earn or redeem, and your Earnings don't expire. Visit chevroletbuypowercard.com/catalogs.

* Capital One, N.A. is the issuer of the BuyPower Card. General Motors ("GM") is responsible for the operation and administration of the Earnings program.
