ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

NEW RANGE ROVER EVOQUE

The dramatic, confident and sophisticated design of the New Range Rover Evoque is in complete harmony with the simplicity of its intuitive technologies and high levels of functionality. Sophistication and space are abundantly apparent in its beautifully appointed interior, while impressive off-road capability adds greatly to the composure of your drive. New Range Rover Evoque. Time to make a statement.

INTRODUCTION

INTRODUCING THE NEW RANGE ROVER EVOQUE

"When Range Rover Evoque made its debut back in 2011, it transformed the world of compact SUVs. New Range Rover Evoque is set to continue that remarkable journey. Its confident pared-back exterior and modern clean interior effortlessly unite to create a truly outstanding vehicle. One that will always get admiring looks."

Gerry McGovern
Chief Design Officer, Land Rover

DESIGN

The new Range Rover Evoque embraces the continuation of our modernist design philosophy, creating a bold evolution. With its distinctive coupe-like silhouette, characterful rising beltline and unique personality, Range Rover Evoque is a compelling successor to the vehicle that captured hearts all over the world. Detail design highlights include flush deployable door handles and optional 21" wheels¹. See page 8 for details.

REFINEMENT

Exemplary levels of refinement help to create new Range Rover Evoque. Optional Adaptive and Configurable Dynamics¹ can help improve handling. A broad range of powertrain options and a 9-speed Automatic Transmission provide an efficient delivery of power on various terrains and weather conditions. The perfect balance between effortless capability and on-road refinement make Range Rover Evoque a joy to drive. See pages 12 and 20 for details.

CAPABILITY

The vehicle's on and off-road handling, combined with capability in various weather conditions, make your drive more enjoyable. Impressive departure angle and wading depth, Terrain Response[®] 2^{*}, optional ClearSight Ground View² and the Sports Command Driving position enhance those capabilities. The vehicle's All Wheel Drive (AWD) system, along with the improved Active Driveline³ feature, help to improve traction and off-road capability*. See page 14 for details.

INTERIOR ENVIRONMENT

Our modernist design philosophy continues throughout this roomy, luxurious interior. Uncluttered surfaces, reductive line work and carefully curated premium materials come together to create a sophisticated and highly desirable cabin. Improved interior packaging achieves optimum ergonomics to give greater comfort and control, while optional Touch Pro Duo^{™**} and capacitive switches help enhance this environment. Range Rover Evoque features innovative technology, such as Smart Settings, which recalls your personal vehicle preferences and automatically configures your Range Rover Evoque as you left it. Other features include optional Cabin Air Ionization to help cleanse the air. See page 11 for details.

TECHNOLOGY

The new Range Rover Evoque uses some of our most intuitive and innovative technologies to date. Optional features such as Land Rover InControl[®] Touch Pro Duo^{™**}, a 12.3" Interactive Driver Display, Head-up Display^{*}, a Meridian[™] Surround Sound System, Click and Go integrated Rear Seat Entertainment and the standard Smartphone Pack all add greatly to your enjoyment of the vehicle. The optional ClearSight interior rear view mirror⁴ provides an unobstructed rear view regardless of objects that would normally disrupt it. Just one in a suite of driver assistance features making every journey more relaxing. See page 23 for details.

^{*}These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. ^{**}Do not use Land Rover InControl[®] features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Only available with Adaptive Dynamics. ²Available as part of the 360° Surround Camera. ³P300 engine only. ⁴Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror's digital mode. The normal mirror mode, however, can be used at any time. This feature is not a substitute for safe and attentive driving, and driver should not assume that it will correct errors of judgment in driving. Consult the owner's manual for more details.

Features and their availability may differ by vehicle specification. For full feature and option availability please refer to the accompanying Specification Guide or visit your local Land Rover Retailer.

DESIGN

EXTERIOR

The Range Rover Evoque offers a new level of refinement in a vehicle that is so instantly recognizable. Outstanding proportions deliver a dramatic silhouette and stance, truly conveying the distinctive appearance of the Range Rover Evoque. The characterful roofline and rising waist are amplified by a strong dynamic attitude, combined with a pronounced shoulder and powerful wheel arches.

Fewer lines, cleaner surfaces and a high level of precision heighten the modernity and sophistication of this emotionally engaging design. Precise details in the front and rear graphics, with slimmer signature LED headlights, add to a sleek and contemporary appearance. New Range Rover Evoque: bold, compelling and emotionally engaging, redefines the compact luxury SUV.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

INTERIOR

A dynamic interpretation of Range Rover DNA creates a sporting, cossetting interior. Our philosophy of reduction is amplified to remove visual clutter and embrace the latest technology. The next generation Range Rover Evoque interior pays homage to the original while firmly looking forward; simple, elegant lines and sophisticated surfaces work in harmony with contemporary materials to ensure a tailored and compelling environment.

Windsor leather. Kvadrat premium wool blends. Eucalyptus fiber textiles. These are just some of the materials that now furnish our interiors. Sustainable, breathable and responsibly sourced, they help create the most comfortable and sophisticated of spaces. Details including precise stitching on the fascia add to the sophisticated surfaces, while intuitive technologies ensure the interior is clutter and fuss free.

The choice of an optional Touch Pro Duo* system with its upper and lower Touchscreens enhances the cabin's clean look. The sliding panoramic roof¹ enables you to fill the cabin with light and fresh air at the touch of a button. Configurable Ambient Interior Lighting enhances the ambience, added to which, the interior space has been optimized for the storage of small items such as a smartphone, tablet or water bottle.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Selecting sliding panoramic roof option will reduce front and rear headroom.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

Interiors shown are First Edition and R-Dynamic HSE with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.

PERFORMANCE AND CAPABILITY

ENGINES

From power and sheer driving pleasure to fuel economy and refinement, there is a range of Ingenium engines available for the Range Rover Evoque, and each has been optimized for specific attributes to cater to all needs. All engines are equipped with Stop/Start technology and smart regenerative charging; this feature harvests kinetic energy from deceleration to charge the battery for improved economy, especially during urban driving.

TRANSMISSION

To ensure that you are always in the optimum gear, improving acceleration, the Range Rover Evoque 9-speed Automatic Transmission has nine closely spaced ratios. Gear changes are almost imperceptible and shift schedules intelligently adapt to your driving style.

MILD HYBRID ELECTRIC VEHICLE (MHEV)

MHEV* is a mild hybrid system that harvests and stores energy normally lost during vehicle deceleration and intelligently redeploys it to assist the engine. It incorporates an enhanced Stop/Start system that enables the engine to shut down while the vehicle decelerates.

*P300 engine only.

EVERYDAY CAPABILITY

There are times when the inherent capability of a Range Rover Evoque truly comes into its own. Like now. Driving downtown, a thick blanket of snow has brought the city to a standstill. In challenging conditions you select All Terrain Progress Control (ATPC). This makes the journey to your favorite breakfast spot easier*. The coffee alone is worth the trip.

A pop-up restaurant has just opened on the outskirts of the city. It's about an hour's drive away but you've heard that the food is outstanding. The landscape gets wild, but Terrain Response® 2* means that you barely notice. The meal is a memory in itself.

EXTRAORDINARY CAPABILITY

From Lone Pine, California, to the Ice Academy in Sweden, the capability of the Range Rover Evoque will take you almost anywhere. Technologies such as ClearSight Ground View¹ and All Wheel Drive (AWD) help you tackle off-road conditions with the utmost confidence*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

General Driving

Mud & Ruts

Grass, Gravel, Snow

Sand

ALL WHEEL DRIVE

The Range Rover Evoque features All Wheel Drive (AWD) to help you enjoy a confident drive both on and off-road. The system intelligently controls torque distribution between the front and rear axle via an electronically controlled multi-plate clutch. Drive torque is distributed across the front and rear axle to fully utilize the available traction from all four tires. On slippery surfaces, such as grass and snow, torque can be balanced between the front and rear wheels to improve traction. In extreme conditions where only the front or rear wheels have traction, up to 100 percent of engine torque can be distributed to the necessary axle for improved grip. The AWD system combines with Electronic Traction Control (ETC) to help deliver a sure-footed driving experience in challenging situations.

TERRAIN RESPONSE® 2*

Terrain Response® 2 takes the capabilities of the award-winning system to a new level. This features an automatic setting which monitors the current driving conditions and systematically selects the most suitable terrain setting. You can manually override the system should you wish.

CLEAR SIGHT GROUND VIEW¹

Optional ClearSight Ground View allows even greater levels of confidence when driving off-road or even in challenging urban situations. This feature displays a camera view of the front underside of the vehicle onto the large central Touchscreen** - in normal circumstances this area would be invisible to the driver, but ClearSight Ground View allows drivers to virtually 'see through' the hood. This helps you to be aware of any obstructions such as rocks or curbs and maneuver around them. ClearSight Ground View is offered in conjunction with 360° Surround Camera* and makes driving Range Rover Evoque on or off-road even more satisfying.

**Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

¹Available as part of the 360° Surround Camera. This feature is not a substitute for safe and attentive driving, and driver should not assume that it will correct errors of judgment in driving. Consult the owner's manual for more details

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

WADE SENSING^{1*}

Optional Wade Sensing uses ultrasonic sensors in the door mirrors to visually and audibly alert the driver if the water approaches the vehicle's wading depth of up to 23.6". It does so by providing real-time pictorial information via the Touchscreen about its depth in relation to the vehicle and its maximum wading capability.

ALL TERRAIN PROGRESS CONTROL (ATPC)^{**}

All Terrain Progress Control (ATPC) is a system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including mud, wet grass, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1 mph and 18 mph, enabling you to maintain full concentration on the road ahead.

HILL DESCENT CONTROL (HDC[®])^{**}

The Land Rover patented Hill Descent Control (HDC[®]) assists the driver with the controlled descents of difficult slopes. It does so by maintaining a constant speed and applying braking separately to each wheel. Only when engaged, and when there are no limits or parameters to when it can engage, will the Hill Launch Assist help to prevent the vehicle from rolling backwards as it pulls away on an incline. The vehicle also utilizes Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

LOW TRACTION LAUNCH^{**}

Providing you with optimum torque control when you move off from a standstill, Low Traction Launch enhances capability in slippery conditions like wet grass and snow. The system remains active until the car reaches 18 mph - then Range Rover Evoque seamlessly blends back into the selected driver mode.

¹Driving in floodwaters or moving water should be avoided. Driving through water can be extremely dangerous. The Wade Sensing feature only detects depth of water the vehicle is in at the present time and not of water ahead or around the vehicle. Therefore, Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

^{**}These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

¹Only available with 360° Surround Camera and Drive Pack.

REFINED PERFORMANCE

TORQUE VECTORING BY BRAKING*

Torque Vectoring by Braking helps deliver controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels.

- UNDERSTEER DETECTED
- FULL TORQUE TO OUTER WHEELS
- BRAKE APPLIED TO INNER WHEELS
- FULL TORQUE TO OUTER WHEELS

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

DRIVELINE DISCONNECT

The All Wheel Drive (AWD) system has Driveline Disconnect technology. This allows the driveline to operate in Front Wheel Drive mode when cruising at a steady speed to reduce drag losses. The driveline reconnects with an impressive response time when AWD is required to ensure the traction and handling of the Range Rover Evoque are not compromised.

ACTIVE DRIVELINE¹

In addition to Driveline Disconnect, the P300 engine comes as standard with Active Driveline technology, which helps to deliver even greater levels of traction stability and composure in challenging conditions. There is also increased vehicle agility under on-road conditions due to the vectoring capability that the Active Driveline system is able to provide. Where driving conditions require it, both rear clutches are fully locked to provide the same effect as a traditional locking rear differential - improving the car's stability to increase capability.

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics system delivers both precise dynamics and a supple ride by monitoring wheel position and body movements. To do this, the system constantly analyzes acceleration, steering, throttle and brake pedal activity. The electronically controlled dampers adjust 100 times a second to optimize the suspension settings and provide the optimum balance between comfort, refinement and agility.

CONFIGURABLE DYNAMICS^{2*}

As an addition to Adaptive Dynamics, Configurable Dynamics is available to enhance either refinement and comfort or the vehicle's performance. Configurable Dynamics allows you to configure the throttle mapping of the Range Rover Evoque, gearbox shift points, steering settings and suspension to suit your driving needs.

¹P300 engine only. ²Only available with Adaptive Dynamics.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

TECHNOLOGY

INFOTAINMENT

Delivering a wealth of information and entertainment, every Range Rover Evoque is equipped with our Land Rover InControl® infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey. Technologies such as the Voice Recognition System understand clearly spoken instructions, so you can concentrate on the road ahead without any distractions.

TOUCH PRO

The standard 10" Touchscreen at the heart of the center console supports tap, swipe and pinch-to-zoom gestures and delivers our richest ever audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customizable homescreens and fast response times as well as voice control. Multi-tasking is also made easy thanks to the Interactive Side Panel.

TOUCH PRO DUO

The optional 10" dual high-definition Touchscreens allow the user to view required information while simultaneously being able to interact with additional features, for increased flexibility and efficiency of use. For instance, you can use the navigation system in the upper screen while playing media on the lower screen*. Direct access to cabin and seat temperature controls are also available via the multi-function dynamic dials.

INTERACTIVE DRIVER DISPLAY*

The Range Rover Evoque ensures you're always entertained, informed and connected. It features an optional 12.3" high-definition Interactive Driver Display that can receive and project a vast amount of driving information, entertainment and data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin-sharp graphics.

HEAD-UP DISPLAY

To help reduce distraction or the need for you to take your eyes off the road, Head-up Display** is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windshield. It features crystal clear full-color graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touchscreen including phone information. The feature can be turned on and off dependent on driver preference†.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. **For optimal performance, solar attenuating glass may be required. Please consult your Land Rover Retailer for further information. †These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

Interior shown is R-Dynamic HSE with optional Cloud Kvadrat Premium textile and Dinamica® suedecloth seats with Cloud/Ebony interior.

CONNECTIVITY

Land Rover InControl® is a suite of standard and optional connectivity features that ensure you and your vehicle are linked seamlessly to the outside world. The standard Remote App enables you to interact with the vehicle remotely. Navigation Pro* and Connect Pro** make sure the Land Rover experience is more enjoyable than ever.

*Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. **Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control.

STANDARD FEATURES

REMOTE APP¹

The InControl Remote App provides information on your vehicle and enables you to interact with it even when you are not with your vehicle. Compatible with most smartphones and smartwatches, this service includes:

Remote Lock/Unlock - Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Remote smartphone app to single lock the doors, arm the alarm, fold in the door mirrors (if power fold door mirrors are fitted) and close the windows. Press the 'unlock' button to unfold the door mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate - Prepare your Range Rover Evoque in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash - This feature turns on your Land Rover hazard lights and dipped headlights, and sounds an audible alert to help you locate your vehicle in a crowded car park.

Journey Tracking - This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be exported to a spreadsheet.

Vehicle Status Check - Check current fuel level and range, and the status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

¹Remote contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. InControl features, options and their availability may vary - check with your Land Rover Retailer for local availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations.

InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Android™ is a trademark of Google Inc. Apple Watch® and Apple CarPlay® are registered trademarks of Apple Inc., registered in the US and other countries.

STANDARD FEATURES

SMARTPHONE PACK

By screen sharing with the Land Rover InControl® infotainment system, the Smartphone Pack helps you stay connected to your smartphone even while in the car. Featuring Land Rover InControl® Apps™ technology, this Pack allows vehicle-optimized apps on your Android™ or Apple® smartphone to be controlled through the Touchscreen, including your contacts, calendar and music player, via a USB cable.

InControl Apps presents a vehicle-optimized, interactive set of apps that enable media streaming, cloud and location-based services and more, via the USB port*.

Android Auto™** was designed with safety in mind. With a simple and intuitive interface, it is designed to minimize distraction so that you can stay focused on the road. Simply connect your Android smartphone via a USB and control compatible apps on the in-car Touchscreen.

Apple CarPlay®** is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. **Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. The Apple CarPlay and Android Auto user interfaces are products of Apple or Google and their terms and privacy statements apply. The interfaces require compatible iPhone or Android smartphone and message and data usage rates apply. Apple CarPlay is a registered trademark of Apple Inc. Android and Android Auto are trademarks of Google Inc.

InControl features, options and their availability may vary - check with your Land Rover Retailer for local availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

STANDARD FEATURES

NAVIGATION PRO¹

The navigation system, Navigation Pro*, allows you to save your favorite places, use tap, swipe and pinch-to-zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics. You can also keep maps up-to-date with the latest release of Map Care. Included with Navigation Pro, Traffic Sign Recognition keeps you informed and aware on the road by displaying speed limits and 'no overtaking' signs in the instrument cluster, where they can easily be seen. Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly by using the cruise control system.

CONNECT PRO*

Connect Pro consists of 4G Wi-Fi Hotspot**, Pro Services and Smart Settings. It's designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world.

4G Wi-Fi Hotspot

Provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle's wireless network to surf, work, update social media and stay entertained throughout the journey**.

Pro Services¹

- **Real Time Traffic Information***: Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **One-box Search**: Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area*.
- **Online Routing***: While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Planning Routes and Door-to-Door Routing***: Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. When arriving at a car park, it isn't always clear how to get to your final destination. As you exit the vehicle, the Navigation Pro system will automatically hand over to the Route Planner app on your smartphone. You can then access directions on how to get there via public transport or on foot. You are always connected - every step of the way, right to the door.
- **Commute Mode***: Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.

- **Parking Service***: As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.
- **Online Media**: Allows for the aggregation of numerous content providers and their personalized content - such as Deezer and TuneIn - that gives access to more than 40 million music tracks and four million on-demand programs and podcasts. For the first time, these can be directly streamed from the vehicle without the need for a smartphone - providing a seamless and integrated experience*.

Smart Settings

Designed to deliver a truly personalized experience and reduce driver distraction, Smart Settings combines a number of features.

- **Profile**: The system automatically identifies each driver using their key and phone, and can remember a number of settings saved to their profile. It can select your preferred seat and mirror positions, as well as which media to play at the start of your journey.
- **Learning**: With the 'Learning' function, Smart Settings can also learn and automate your preferences, based on your habits, past routines and the current temperature - including whether you like a warm steering wheel or heated seats on a morning commute.

*Do not use Land Rover InControl® features under conditions that will affect your safety or the safety of others. Driving while distracted can result in loss of vehicle control. **The Wi-Fi Hotspot is intended for passenger use only. InControl features may require an additional subscription with separate terms and conditions.

†Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with suitable data contract. 4G Wi-Fi Hotspot and Pro Services contain subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability may vary - check with your Land Rover Retailer for local availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and the Range Rover Evoque has three different audio systems to bring your music to life:

 14 SPEAKERS

 SUBWOOFER

Audio system shown above is the Meridian™ Surround Sound System

SOUND SYSTEM

Outstanding acoustic range through six speakers.

MERIDIAN™ SOUND SYSTEM

Great definition, crystal clear highs and full, deep bass - delivered through the careful arrangement of 10 door-mounted speakers and a dual channel subwoofer.

MERIDIAN™ SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of 14 front, side and rear speakers and a dual channel subwoofer - seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the center and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger.

SIRIUSXM® SATELLITE RADIO* AND HD RADIO™

The option of SIRIUSXM® satellite radio & HD radio™ technology offers improved sound quality, and a wide choice of stations and entertainment.

*A 3-month trial subscription to the Sirius All Access Pack is included with the vehicle, which gives you access to 150+ channels of premium programming. Plus you can stream SiriusXM on your computer, smartphone or tablet - it's included in your trial. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See the 22 SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming are subject to change. SiriusXM satellite radio is not available in Alaska or Hawaii.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover's audio partner Meridian™ has pioneered many firsts including active speakers and the world's first digital surround sound processor. Meridian's audio technology input has helped ensure that Range Rover Evoque is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilized to analyze cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian's Cabin Correction tailors the sound experience to the precise acoustics of Range Rover Evoque's interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD™

Exclusive to Meridian, Trifield™ blends the center and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

	UNIQUE MERIDIAN TECHNOLOGY	SPEAKERS	SUBWOOFER	WATTS
Sound System	N/A	6	N/A	180

Features and their availability may differ by vehicle specification.

DRIVER ASSISTANCE

MAKING DRIVING EASIER

From negotiating city traffic or the highway, to providing additional assistance for you and your passengers, there's a wealth of innovative technologies available – either as standard, optional or as part of an optional pack. Whichever you choose, you'll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking can detect an imminent forward collision with other vehicles or pedestrians and can assist to mitigate the potential for a collision. If a potential frontal collision is detected, a warning is displayed to alert you to take action. A camera at the front of the vehicle monitors at speeds from 3 to 50 mph for frontal collisions and 3 to 37 mph** for pedestrians. If a collision is still anticipated and you have taken no action†, this system will apply the brakes to help reduce the severity of the possible impact*.

Rear Camera provides improved visibility when reversing. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible*. This valuable parking aid also helps when hitching a trailer.

Cruise Control and Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, making driving easier and more enjoyable. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired*.

Driver Condition Monitor is designed to detect if you're starting to feel drowsy and to give you an early warning when you need to take a break*.

Lane Keep Assist is designed to detect when your vehicle is unintentionally drifting out of your lane, and to gently steer you back*.

Front and Rear Parking Aid helps make maneuvering even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Always follow local speed limits. †Please note that if any action is taken, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

Lane Keep Assist

Front and Rear Parking Aid

OPTIONAL FEATURES

CLEAR SIGHT INTERIOR REAR VIEW MIRROR

A first for Land Rover, this innovative new technology provides an unobstructed view of the road behind you regardless of objects that would normally disrupt it through the standard rear view mirror - say, for instance, passengers or large rear loads. Featuring an additional camera placed in the antenna roof pod at the rear of the vehicle, a video feed is displayed on an embedded digital display¹ in the mirror, providing a much wider and therefore improved field of view. You can use this feature in normal or display mode, the latter showing the video feed*. A switch located under the mirror unit makes changing between modes simple.

ClearSight interior rear view mirror deactivated (above) and activated (below)

360° SURROUND CAMERA*

360° Surround Camera uses four digital cameras discretely placed around the vehicle, providing a 360° bird's-eye view on the Touchscreen. With the capacity to display several different views at the same time, this is designed to help with various maneuvers from parking by a curb, to getting in and out of tight spaces and intersections. Also includes ClearSight Ground View (see page 17)*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

OPTIONAL PACKS

Optional packs are available, featuring a variety of technologies to enhance the driving experience. **Park Pack** assists you to park and maneuver more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles, and **Drive Pack** helps to make every journey more relaxing.

Park Assist

Rear Traffic Monitor

PARK PACK¹

Park Assist makes parallel and perpendicular parking easier by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed, while graphics and notifications guide you through the maneuvers. Park Assist can also steer you out of a parallel parking space, taking the stress out of parking.

Rear Traffic Monitor is particularly useful when reversing out of a parking spot. The system warns you of vehicles, pedestrians or other hazards approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed*.

360° Parking Aid gives you assistance when maneuvering in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen indicating potential obstacles on all sides of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles*.

Clear Exit Monitor is designed to help rear passengers exit the vehicle by providing a warning of approaching hazards, such as passing vehicles and cyclists. When a passenger begins to unlatch their door, a small warning light will illuminate if an oncoming hazard is detected.

¹Not available with Driver Assist Pack.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

Adaptive Cruise Control

DRIVE PACK¹

Adaptive Cruise Control is designed to keep your vehicle a set distance from the one in front should it slow or stop when you're cruising on the highway or travelling in slow-moving traffic. Should the vehicle in front stop completely, the system will help your vehicle come to a smooth halt. In brief stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front*.

High-speed Emergency Braking can detect an imminent forward collision with other vehicles or pedestrians and can assist to mitigate the potential for a collision. If a potential frontal collision is detected, a warning is displayed to alert you to take action. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact**. High-speed Emergency Braking is ready and active from 6-99 mph[†].

**Please note that if any action is taken, even minimal steering, the High-speed Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage.

[†]Always follow local speed limits.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

Blind Spot Assist

Blind Spot Assist is designed to mitigate the potential for a collision. If your vehicle detects another car in your blind spot when you begin to change lanes, this system illuminates a warning light in the corresponding door mirror and provides precisely calculated steering torque - guiding your vehicle away from the approaching vehicle*.

OPTIONAL PACKS

DRIVER ASSIST PACK*¹

The Driver Assist Pack contains the most comprehensive suite of drive and park technologies. Building on both the Drive and Park Packs, the Driver Assist Pack offers additional Adaptive Cruise Control with Steering Assist and 360° Surround Camera.

FRONT CAMERA

FRONT RADAR

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

¹Only available with Auto-dimming, power fold, heated door mirrors with approach lights. Not available with Drive Pack or Park Pack.

Features and their availability may differ by vehicle specification and market. Please refer to the accompanying Specification and Price Guide for details or contact your local Land Rover Retailer for more information.

Adaptive Cruise Control with Steering Assist works with you, assisting with steering, braking and acceleration as you keep your hands on the wheel and anticipate the road ahead. A camera and radar then work together to maintain a central position for your vehicle, and moderate its speed according to the behavior of the traffic in front of you.

If the vehicle ahead slows, even to a standstill – the feature automatically slows your vehicle, bringing it to a stop where necessary to maintain a relaxed and composed drive. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated, but the Adaptive Cruise Control will remain active.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover is committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainability excellence. The Range Rover Evoque development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle's life.

ADVANCED AERODYNAMICS

The streamlined design of our latest vehicle has been carefully optimized to make Range Rover Evoque the most aerodynamic Range Rover ever.

ENGINE MANUFACTURING CENTER

The Land Rover Engine Manufacturing Center, where our engines are developed, features the largest rooftop solar panel installation in the UK. Comprising of no fewer than 22,600 individual panels, which are capable of providing up to 6.2MW (enough energy to power up to 1,600 homes), the panels generate more than 30 percent of the site's energy, reducing the plant's CO₂ footprint by over 2,400 tons per year.

EUCALYPTUS TEXTILE AND ULTRAFABRICS™ SEATS

Eucalyptus textile is made from Forest Stewardship Council (FSC) certified Tencel material, and is complemented by a sustainable, breathable, performance Ultrafabrics™ material which is manufactured using processes that conserve raw materials.

KVADRAT PREMIUM TEXTILE AND DINAMICA® SUEDECLOTH SEATS

Kvadrat premium textile is a highly durable wool-blend fabric. Exhibiting the natural characteristics of wool, it is hard wearing and comfortable for all climates, by staying cool in the heat and warm in the cold. Dinamica® suedecloth is produced from recycled polyester fibers and plastics in a process which uses no harmful chemical substances.

ISOFIX POINTS

AIRBAGS

DRIVER ASSISTANCE

DRIVER ASSISTANCE

Designed for optimum assurance, Range Rover Evoque has been engineered to include a wealth of standard features.

The elevated Sports Command Driving Position of the Range Rover Evoque provides enhanced visibility in various conditions. You can see more of the road and be easily seen by other road users, providing an enhanced feeling of confidence. All Wheel Drive (AWD) helps you stay planted on the road in various weather or environmental conditions.

The Range Rover Evoque is further enhanced by the latest technologies included as standard:

Dynamic Stability Control (DSC) monitors the dynamic behavior of the Range Rover Evoque, intervening to enhance vehicle stability. DSC reduces engine torque and applies braking to the appropriate wheels to correct the vehicle's direction of travel by counteracting understeer or oversteer*.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface while braking and prevents wheels from locking - thereby retaining the vehicle's ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to minimize stopping distance, while still maintaining stability and the vehicle's ability to steer*.

Electronic Traction Control (ETC) enhances traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required*.

Cornering Brake Control (CBC) automatically varies the braking force to each wheel when the vehicle's brakes are applied around a corner and the limit of grip is reached. The system is designed to prevent the vehicle's wheels from locking up and skidding in this event through varying the braking force applied to each wheel*.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover*.

Emergency Brake Assist understands when you apply the brakes quickly but without the necessary force to maximize stopping performance. It boosts the brake pressure through the ABS pump to help reduce the stopping distance*.

Emergency Braking can detect an imminent forward collision with other vehicles or pedestrians and can assist to mitigate the potential for a collision. See page 32 for details**.

LATCH and Airbags[†] - for easier installation, three LATCH points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of eight airbags - including driver, passenger, side curtain, knee and thorax airbags - are fitted as standard to protect occupants.

LAND ROVER OPTIMIZED ASSISTANCE¹

You can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

SOS EMERGENCY CALL¹

In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location. For peace of mind, this service is provided for the first ten years from date of purchase.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage. [†]Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat.

¹Land Rover Optimized Assistance and SOS Emergency Call are subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability may vary - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

BRIGHTER LIGHTS, IMPROVED NIGHT-TIME DRIVING

The Range Rover Evoque features all-round exterior LED lighting as standard. LED lights are more fuel-efficient as they use less energy. The quality of light produced is closer to daylight conditions, so driving at night becomes less tiring.

The optional Premium LED headlights* feature the distinct exterior graphic of the signature Daytime Running Lights (DRL).

	LED HEADLIGHTS	PREMIUM LED HEADLIGHTS

*Only available with Automatic Headlight Leveling.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

VERSATILITY

TRULY FLEXIBLE

Range Rover Evoque has been created, engineered and built to tackle modern life in all its guises. For instance, optional powered gesture tailgate¹ enables you to open and close the tailgate from the curb without using your key fob or touching the vehicle. So whether you're loading the weekly shop, or large and awkward objects, you can always do so with the absolute minimum fuss. Sensors on either side of the vehicle, rather than in the center, ensure you can deploy the system from the curb: you simply deliver a smooth upward kick movement beneath the sensor for the system to operate.

¹Only available with Keyless Entry.

Vehicle shown: Range Rover Evoque R-Dynamic HSE in Seoul Pearl Silver with optional equipment. Image above features a Land Rover Leather weekender bag. Visit shop.landroverusa.com or contact your local Land Rover Retailer for more information.

5 SEATS
21.54 CU.FT.

4 SEATS
33.12 CU.FT.

3 SEATS
38.92 CU.FT.

2 SEATS
50.50 CU.FT.

Passengers can now take advantage of up to 50.50 cu.ft. of luggage space which – with a 40:20:40 rear bench as standard – makes every millimeter of Range Rover Evoque a versatile and highly functional vehicle. When the seats are fully down, it can readily accommodate several suitcases so when you're heading off for the perfect weekend getaway, you never have to compromise on space.

CABIN STORAGE

Both driver and passenger can make use of the many storage options in the Range Rover Evoque. With an impressive amount of thoughtful storage space for small items, it can be adapted to suit all of your needs. The door bins have a total of 0.48 cu.ft. of capacity to handily store water bottles, the console box some 0.16 cu.ft. There's even additional room beneath the Touchscreen which is an ideal place to keep your smartphone.

ACTIVITY KEY

With the optional Activity Key you can enjoy your favorite activities and keep your vehicle key securely in the vehicle. For extra convenience, you can strap the Activity Key to your wrist. The wristband is robust and fully waterproof, allowing you to take part in a variety of activities from horse riding to swimming. Simply touch your Activity Key on the tailgate (to the first 'R' within 'Rover') to lock or unlock the car and deactivate or reactivate the conventional key fob.

POWER SOCKETS

There are two USB ports and a 12-volt socket located inside the console box. For second row occupants, a 12-volt power socket is fitted to the rear center console and there's a further 12-volt power socket located in the rear cargo space area. The option to add another two USB ports means that multiple electronic devices can be charged or connected on the go.

CLICK AND GO INTEGRATED BASE UNIT

With the optional Click and Go integrated base unit, rear seat passengers will be able to use their tablet devices throughout any journey. With a mounting mechanism and USB charger, everyone can stay connected, everywhere in the vehicle.

CABIN AIR IONIZATION

This optional Nanoe™ technology ionizes particles in the air, making them attract to surfaces and thus helping to cleanse the air. It can be switched on or off.

TOWING*

TOW HITCH ASSIST

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualize the hitching process**. It displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen†.

ADVANCED TOW ASSIST¹

Optional Advanced Tow Assist allows you to control the direction of your trailer when reversing. Using the rotary dial, the system controls the vehicle's steering to help achieve the desired trailer trajectory**. The Touchscreen will display both the current and desired trailer trajectory†.

*Before towing, please consult the owner's manual or your local authorized Land Rover Retailer for more details.

**These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. †Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

¹Only available with Touch Pro Duo, 360° Surround Camera and Towing Receiver.

Features and their availability may differ by vehicle specification. Please refer to the accompanying Specification Guide for details or contact your local Land Rover Retailer for more information.

SPECIFICATIONS

LAND ROVER GEAR – ACCESSORIES

A wealth of line-fit options are available to select from at the point of ordering your new vehicle to help you express your individuality and appoint your Range Rover Evoque with the premium features you require. Features and their availability may differ by vehicle specification. For full feature and option availability please refer to the accompanying Specification Guide or visit your local Land Rover Retailer.

¹Only available with leather steering wheel. ²Only available with grained leather seats or Eucalyptus textile and Ultrafabrics™ seats. ³Only available with auto-dimming, power fold, heated door mirrors with memory and approach lights. ⁴Only available with Windsor leather seats or Kvadrat Premium textile and Dinamica® suedecloth seats and auto-dimming, power fold, heated door mirrors with memory and approach lights. ⁵Only available with 16-way seats.

SELECT YOUR LAND ROVER GEAR – ACCESSORIES

A range of stylish, tough and practical accessories are available, bringing you the opportunity to personalize your Range Rover Evoque even further. These accessories can be purchased through your local Land Rover Retailer and added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

For more information and a complete list of options and Land Rover Gear, configure your Range Rover Evoque at landroverusa.com and gear.landrover.com/us

TOURING

Cross Bars (without roof rails)

Aerodynamic profile minimizes drag and wind noise. The incremental height when fitted is 3.7 inches.

Luggage Roof Box^{1,2}

Power-click quick mounting system with integrated torque indicator for easy and secure fixation with a single-handed grip. Opens from both sides with handles on the lid and inside the box, for convenient fitting, loading and unloading. Integrated base mat for extra secure loading. Load capacity eight skis/five-six snowboards, max length of skis 80.7 in. Volume 15.1 cu.ft. Maximum payload 165 lbs³.

Seatback Storage - Premium Leather

Manufactured from the same Premium leather offered on the vehicle, complemented with soft-touch interior lining and magnetic button clasps. Provides a convenient storage solution for the rear of the front seats with multiple compartments for storing small items.

Click and Go - Range

The Click and Go range is a multi-purpose seat-back system for second row passengers. The versatile Click and Go base⁴ fixes between the headrest mountings and further attachments can be added to hold tablets, bags and shirts or jackets. Each attachment is sold separately. The base can be easily removed when not in use.

Click and Go System - including Base and Click and Hang

Cross Bars (without roof rails)

¹Cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. ²Not available with sliding panoramic roof. ³Maximum payload equals the load capacity of the roof mounted accessory. ⁴Base not required for vehicles with Click and Go Integrated Base Unit.

DESIGN

Stainless Steel Undershield - Front

The off-road inspired undershield, manufactured from stainless steel, features a premium Bright Polished finish for the front of the vehicle.

Center Cap - Silver Finish

Enhances and adds style to alloy wheels. Features Land Rover logo.

Cargo Space Treadplate Finisher - Illuminated

Manufactured from stainless steel with a Bright finish, the trunk finisher provides protection to the cargo space trim when loading or unloading and provides a premium finish to the cargo space with subtle illumination.

Side Vents - Narvik Black

Narvik Black side vents provide a subtle exterior design enhancement.

Mirror Covers - Carbon Fiber

Stunning high-grade Carbon Fiber mirror covers, with a High Gloss finish, provide a performance-inspired premium styling update.

Sport Pedal Covers

Stainless steel Bright finish sport pedal covers are easy to fit and feature hidden fixings for a clean finish.

Gearshift Paddles - Aluminum

Complete the look and feel of your steering wheel with premium aluminum paddles. Gearshift paddles are machine polished, anodized and hand brushed to provide exceptional wear resistance with a premium finish.

Sill Treadplates - Illuminated, Front

Driver and passenger's front door sill treadplates add style to the vehicle and protect the sill trim from scuffs and scrapes. Co-ordinates with your vehicle's interior and subtly illuminates Range Rover script when the front doors are open.

Stainless Steel Undershield - Front

PET PRODUCTS

Cargo Space Liner Tray and Luggage Partition - Full Height

Combines the cargo space rubber mat with the full height partition, to protect both your vehicle and your pet. The rubber mat is waterproof, protecting the vehicle's cargo space floor carpet. The full height partition prevents access to the passenger compartment, while containing and protecting your pet.

Spill Resistant Water Bowl

Provides a convenient solution for use in transit or outside of the vehicle. With an anti-slip rubber base and a retention strap for securing to the cargo space 'D' loop, the spill resistant bowl has a capacity of 11.7oz.

Portable Rinse System

Designed to be used outside the vehicle, the portable rinse system provides a convenient solution for washing pets before loading or rinsing other equipment from bikes to wetsuits. Depending on the setting selected, this portable rinse system will deliver a minimum of two minutes of continuous water flow through a shower hose style attachment. Without the need for batteries or external power, the system utilizes pressure captured when filling from a tap, and an integrated hand pump allows the user to pressurise if filling the water tank away from home. Featuring a Land Rover branded cover and handle, with an additional storage bag it can be secured to the cargo space 'D' loops during transit.

Foldable Pet Carrier

The foldable pet carrier provides a comfortable environment for the transportation of pets. Manufactured from a durable 600D nylon, the foldable pet carrier has a lightweight metal frame and includes a quilted fabric cushion, net windows and a spring loaded locking mechanism which snaps into place when required. Windsor leather carry handles and corner pieces provide a premium finish, with a side pocket providing a convenient storage option for other pet accessories or small items.

Quilted Cargo Space Liner

This tailored liner protects all the carpeted areas of the cargo space area including the floor, second row seat backs and side walls. Manufactured from a soft quilted fabric with an integral rubber mat and detachable bumper protector, it is easy to wipe clean, making it ideal for owners who regularly carry pets in the cargo space of their vehicle.

Foldable Pet Carrier

OUTDOOR

Mudflaps

- Front

- Rear

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Designed to complement the vehicle's exterior styling.

Cargo Space Protection Rubber Mat

Black, waterproof cargo space rubber mat with retaining lip. Offers protection of the cargo space floor.

Protective Rear Seat Cover

Protects both the rear seat bench and door linings from wet and dirt.

Rubber Floor Mats

Land Rover branded waterproof rubber mat, with retaining lip, helps to protect the rear cargo space carpet from general dirt. This waterproof mat extension covers the back of the rear seats when they are folded down.

Cargo Space Retention Kit

The cargo space retention kit consists of a pack of attachments that fix into the cargo space rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the cargo space. The Attachment Pack includes a retractable strap with inertia reel and telescopic rod.

Mudflaps - Front

LIFESTYLE

iPhone Connect and Charge Dock (Fits iPhones up to 2.48 inches in width)

The iPhone Connect and Charge Dock has been designed to allow visibility of the phone while charging, utilizing the cup holder space in the central console. When connected, the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use.

Rear Bumper Protection Cover

Provides protection for the rear bumper from scuffs and scratches and helps to prevent clothing from collecting dirt when loading and unloading.

Central Armrest Cooler/Warmer

Food and drinks chiller and warmer that acts as a rear center armrest. With a leather-covered top, it is held in place by the center seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Windshield Sun Shield

UV windshield sun shield reflects the sun's rays and helps to keep the vehicle's interior cool in hot weather.

Electric Cool Bag

This cool bag is thermostatically temperature controlled, is powered by the 12-volt auxiliary socket and has an easy to clean interior surface. Height 15 inches, length 15 inches, width 8.7 inches. Volume 0.5 cu.ft.

iPhone Connect and Charge Dock

THE WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can't reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we've put together a range of experiences, publications and the Land Rover Lifestyle Collection. There's a world to explore. Get out there and enjoy it.

EXPERIENCE DRIVES

Professional driver on closed course. Do not attempt.

Bring out your adventurous side and experience Land Rover's legendary capability for yourself. Under the expert guidance of a world-class instructor, head to the most exciting and challenging off-road terrains and take the vehicle to its limits.

YOUR PEACE OF MIND

CUSTOMER SERVICE

When you bring your Land Rover vehicle to us, we use proprietary Land Rover diagnostic equipment to assess all your vehicle's mechanical and electronic systems. Our factory-trained Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and accessories. A choice of service plans are available which, together with Roadside Assistance, ensures complete peace of mind.

For further details contact your local Land Rover Retailer or search 'Land Rover Ownership'.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in motoring emergencies, from immobilization due to mechanical breakdown to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, anywhere in North America during the vehicle warranty period.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Center or search 'Land Rover Roadside Assistance'.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually. While every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications or availability, nor does it constitute an offer for the sale of any particular vehicle, part or accessory.

The colors reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any color finish without notice. Some of these colors may not be obtainable in your country. Please check availability of colors and current specifications with your Land Rover Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

TECHNICAL SPECIFICATION

If not enclosed, please contact your local Land Rover Retailer.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search 'Land Rover Finance'.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service and low maintenance and repair costs.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search 'Land Rover Fleet and Business' for full details.
