360°

Empower your life.

No compromise.

We're not one for compromise and neither are you. So when you need a car that can carry up to seven people in space and comfort, yet still be a great-looking driving machine, there's only one choice to make. The Ford S-MAX has room for everything, except compromise. So get out there and enjoy life to the fullest.

Connects with your voice, responds to your touch.

Ford SYNC 3

Ford SYNC 3* integrates seamlessly with your compatible smartphone, letting you control everything from phone calls and text messaging to music and satellite navigation® – all via the 8" touchscreen or through remarkably simple voice commands.

SYNC 3 features

Manage your phone, music, apps and navigation with simple voice commands.

- Hear your text messages read aloud for you
- Receive clear turn-by-turn directions to any destination
- Customise navigation display with full, split-screen or 3D map views
- Emergency Assistance† helps occupants place an emergency call to provide emergency services with the vehicle location in their respective language

FordPass App

Access additional features with the FordPass smartphone App.

- Select points of interest around your current location or en route to your destination. FordPass automatically sends these locations to your SYNC 3 navigation when you connect through AppLink
- Receive up-to-the-minute traffic data for the best-calculated journey times possible with Live Traffic**
- Search for refuelling points by brand or fuel grade
- Search available parking spaces, check their costs, opening hours and ratings

"Call John"

"Listen to message"

"I need fuel!"

"Find town centre"

"I need to park"

"I'm hungry"

* SYNC 3 is standard across the range. †Satellite navigation is standard on Titanium, ST-Line & Vignale. Optional on Zetec.

**Live Traffic is free for 2 years from the date of registration and only available through SYNC 3 with navigation.

†Ford Emergency Assistance operates in over 40 European countries. This feature works when paired with a compatible connected mobile phone that is with you and switched on when an airbag is deployed or a sensor that registers a crash deactivates the fuel pump. SYNC AppLink and Emergency Assistance are not supported by all European languages. See your local Ford website for latest information. Please note: Full SYNC 3 smartphone integration only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 3 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available, please check official Apple CarPlay and Android Auto websites for the latest information. Some touchscreen functions should not be used by the driver, whilst driving.

Impressive diesel line-up

All Ford S-MAX diesel models impress with their refined power, responsiveness and fuel economy. The acclaimed engine line-up, starts with the competitive 2.0L Ford EcoBlue 120 PS, and ranges up to the high-powered 240 PS unit, which employs our **bi-turbo technology** for an even more spirited performance.

Glare-free high beam

Glare-free high beam is designed for you to drive on high beam without dazzling other road users. Sensors identify traffic ahead of your car and adjust the high beam pattern to help protect other road users from glare, while illuminating the remainder of the road for greater visibility (available with the optional LED Adaptive headlights on Titanium & ST-Line, standard on Vignale).

Intelligent All-Wheel Drive

Ford S-MAX's **Intelligent All-Wheel Drive** system continually monitors where power is needed, and is designed to automatically apply the required torque to each individual wheel for added confidence, in various road conditions (optional across the series excluding Zetec).

Active Park Assist

Simply push the **Active Park Assist** button and the sensors of this innovative system locate a suitable space as you drive past. Then it can automatically steer you in, while all you do is operate the accelerator, gears and brake (following on-screen instructions and audible signals (available across all series)).

Panorama roof

Enjoy the beauty of the outdoors from the comfort of your Ford S-MAX. A full-length glass panorama roof lets the sun shine in, while a Solar Reflect coating and powered sunblind provide shade and privacy when required (available as an option across all series).

Pre-Collision Assist

Using radar and a camera, **Pre-Collision Assist** keeps a watchful eye on the road ahead for cars and pedestrians. The system is designed to read the road conditions and can alert you to a potential collision. If you don't respond to the system's warning signals, the car is designed to automatically apply the brakes to help avoid or reduce the effect of any impact (optional as part of Active City Stop or Adaptive Cruise Control).

Quality assured.

Ford Vignale gives you our highest level of quality whilst the vehicles shine with craftsmanship and attention to detail.

(Model shown: S-MAX Vignale with optional extras at additional cost).

Refinement redefined.

The Ford S-MAX Vignale radiates with refinement, combining the finest traditions of craftsmanship and a host of forward-thinking technologies. Exclusively sourced Ford Vignale leather offers a natural, glove-soft touch for an extra-sumptuous feel across the facia, door inserts, and elegantly quilted seats.

Choose the right
S-MAX for you.

Zetec

Titanium

Vignale

ST-Line

Engine choices

- Petrol:
- 1.5 Ford EcoBoost 165 PS
- Diesel:
- 2.0 Ford EcoBlue 120 PS

- Power Tailgate

Standard interior features

- Premium leather trim
- Leather-wrapped instrument panel
- 10-way power-adjustable driver's seat with memory function
- Variable heated front seats
- Heated steering wheel
- Ford SYNC 3 with 8" Touchscreen, SONY DAB Satellite Navigation, enhanced voice control and Emergency Assistance
- Ford Vignale welcome screen
- Enhanced ambient lighting

More of what you deserve.

Front Wide-View Camera

Provides an extensive view from the very front of your car to the left- and right-hand sides. Particularly useful at junctions and when driving forwards out of parking spaces where your lateral view is impaired.

(Optional on Titanium & Vignale. Only available with the optional Sony DAB Navigation system on Titanium)

Ford ClearView Wipers System

Improves visibility and reduces costs by using less fluid than ordinary screen washer systems. Unlike conventional spray nozzles, multiple holes along the ClearView wipers deliver the washer fluid directly into the path of each wiper blade as it moves across the windscreen (standard across the range).

Hands-free liftgate

Opening or closing S-MAX's tailgate is easy, even when your hands are full. With the keys in your pocket or bag, simply use a gentle kicking motion under the centre of the rear bumper and the tailgate will operate without you having to touch a thing. (Available as an option across the range)

Adaptive Lighting with Ford Dynamic LED headlights

Detects different road conditions and selects the appropriate beam pattern. While the **dynamic curve light** throws the beam inside the curve to let you see further and sooner. The headlights also incorporate **daytime running lights** with three LED strips that also function as turn indicators, flashing sequentially towards the direction of turn (standard on Vignale, available as an individual option, or as part of a pack on Titanium & ST-Line).

Adaptive Steering

Adaptive Steering enables effortless driving at all times, in all conditions – even when parking.

At lower speeds, such as manoeuvring in a car park, reduced wheel turning is required. At higher speeds, it automatically moves to a more conventional steering ratio to provide comfortable, reassuring feedback (available as an option on Titanium (not on 1.5 EcoBoost models) and Vignale (not with Power Steering Column)).

Adaptive Cruise Control with Stop & Go

Adaptive Cruise Control with Stop & Go* helps to keep you an appropriate distance from the vehicle in front, even if it slows to a stop. And when the traffic starts moving again, your car will pull away too, making driving easier in slow-moving or stop/start traffic (optional across the range excluding Zetec).

*Stop & Go feature is available for models with automatic transmission only. Adaptive Cruise Control is available for manual vehicles.

We chose Diffused Silver.
What will you choose?

Ford S-MAX owes its beautiful and durable exterior to a special multi-stage painting process. From the wax-injected steel body sections to the protective top coat, new materials and application processes ensure your S-MAX will retain its good looks for many years to come.

Made to measure.

You and your family will travel in style and luxury inside the Ford S-MAX. Sound absorption materials create a hushed interior, a place of harmony and control, complemented by a range of high-quality leather and fabric seat trims.

1. Manhattan in Ebony for Zetec
2. Axis in Ebony for Titanium and ST-Line
3. Salerno leather in Ebony for Titanium (only available with optional Titanium X pack)
4. Axis in Ebony with red stitching for ST-Line
5. Salerno leather in Ebony with red stitching for ST-Line (only available with optional ST-Line Lux pack)
6. Premium leather in Ebony for Vignale
7. Premium leather in Cashmere for Vignale

Enjoy easier entry and exit with seat and steering memory. The **memory function** recalls your most comfortable driving position for the **10-way power-operated driver's seat** (standard on Vignale, option on Titanium and ST-Line as part of the Titanium X & ST-Line Lux Packs) and **powered steering column** (option on Titanium and ST-Line in conjunction with the Titanium X & ST-Line Lux Packs, stand alone option on Vignale without adaptive front steering). The steering column even moves automatically out of your way, for extra room when getting in and out.

Roof racks

Sturdy and lockable roof racks allow you to transport loads safely and easily. Base carriers are available, as well as cross bars for vehicles fitted with roof rails. They form the basis for various available roof attachments (accessory only).

Thule®* roof attachments

A range of roof attachments is available, including roof boxes, bike carriers and roof ski/snowboard carriers (accessory only).

Tow bars

Ford's power-operated retractable tow bar automatically stows itself out of sight below the rear bumper when not in use, retaining the car's sleek looks (accessory only).

Also available as a detachable tow bar (option and accessory) and a fixed tow bar (accessory only). While towing, the standard Electronic Stability Control (ESC) ensures that trailer sway is counteracted.

Uebler® rear bike carrier

High-quality tow bar-mounted bike carrier. Features practical tilting mechanism for easy access to the load compartment (accessory only).

Load floor net

Elasticated net attaches to tie-down hooks in the load compartment. Helps to secure smaller items (accessory only).

Load retention systems*

Robust retention systems meeting European ECE-R17/ISO27955 safety requirements keep items of luggage safely in the load compartment. A net can be ordered for fitment behind the second row of seats, while a guard is available for fitment behind either first or second row (accessory only, not available in conjunction with Tri-zone Electronic Automatic Temperature Control).

Load compartment protection

A durable tray style boot liner with Ford S-MAX logo is available, ideal for transporting wet or dirty items (accessory only), as well as a reversible load compartment mat (that can be extended over the rear seats, together with fold-out bumper protection) and carpet with Ford S-MAX logo on one side and a durable rubber surface on the reverse side (accessory only).

Rubber floor mats

Rubber floor mats are tailor-made to fit perfectly and protect against dirt and damp. Securely fixed directly onto the vehicle's floor, the rubberised mats cannot slip and interfere with the pedals (accessory only).

Mud flaps

Contoured mud flaps help to keep your Ford S-MAX clean by reducing road spray and stone chips. Available as sets for front and rear (accessory only, not in combination with body styling kit).

*Meets European ECE-R17.08/ISO 27955 safety requirements.

◆Item covered by third party supplier's warranty, please see back cover for details.

Less drag, less fuel*

Active Grille Shutter

To reduce wind resistance, the Active Grille Shutter automatically opens and closes to control the amount of cooling air entering the engine compartment. The result? Faster engine warm-up times and a reduction in aerodynamic drag for better fuel economy compared to those vehicles without the Active Grille Shutter.

*When compared to vehicles without Active Grille Shutter.

Versatile seating

S-MAX's amazingly adaptable interior is ready for almost anything. The three full-size seats in the second row can each fold flat, slide, recline or tip forward, individually or together, in a simple one-handed operation. The two third row seats can each fold flat for added versatility.

Low speed

Active Front Steering

Ford S-MAX's optional Active Front Steering increases or decreases the steering lock in relation to the car's speed. This makes S-MAX even more agile at lower speeds – perfect for parking or manoeuvring (available as an option on Titanium (not on 1.5 EcoBoost models) and Vignale (not with power tilt and telescoping steering column))

At higher speeds, the reduced turning provides a more relaxed and enjoyable driving experience.

High speed

Arrive refreshed and invigorated

Multi-contour front seats

Built into the front seats are 11 pneumatic cushions, arranged to provide extra support, comfort and, when required, give you a massage. Operated via the 8" colour touchscreen, they can massage your upper back, lower back, bottom and thighs to help prevent muscle fatigue on long journeys. Both front seats are covered in perforated leather and include a cooling and heating function and 8-way power adjustment (available as an option on Vignale).

Heated steering wheel

Warms up at the touch of a button to add another layer of comfort between you and the cold outside (standard on Vignale and as a stand alone option on Titanium & ST-Line or as part of the Titanium X & ST-Line Lux packs).

*Ford Emergency Assistance operates in over 40 European countries. This feature works when paired with a compatible connected mobile phone that is with you when an airbag is deployed (excludes knee airbags) or a sensor that registers a crash deactivates the fuel pump. Text function and Emergency Assistance not supported by all European languages. Compatible mobile phone required. Please visit www.ford.co.uk for latest information.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under licence. Other trademarks and trade names are those of their respective owners.

Smart technology

The all-new Ford S-MAX comes with an impressive list of technologies designed to make life easier for you and those around you.

1. Front Wide-View Camera

Provides a 180-degree view from the very front of your car to the left- and right-hand sides. Particularly useful at junctions and when driving forwards out of parking spaces where your lateral view is impaired (available as an option on Titanium in conjunction with Sony DAB Navigation and Vignale).

2. Traffic Sign Recognition^o

Designed to automatically read standard format road-speed signs and display the posted speed limit in the instrument cluster (standard across the range excluding Zetec).

3. Blind Spot Information System with Cross Traffic Alert^{o†}

As another vehicle – a car, van or lorry – enters your blind spot, it is designed to alert you with a warning light built into the driver's and passenger's door mirrors (optional across the range).

4. Active Park Assist^o

Ultrasonic sensors confirm whether the gap is large enough to park in and the steering is then automatically controlled while you operate the pedals (optional across the range).

5. Pre-Collision Assist^o

Uses the forward-facing camera and radar to identify potential front collisions. Provides an audible and visual warning, pre-charges the braking system and can automatically apply the brakes if you fail to react (optional as part of Active City Stop or Adaptive Cruise Control).

6. Lane Keeping Alert and Lane Keeping Aid^{o††}

Designed to recognise when you approach lane markings without using the indicator, and alerts you with vibrations through the steering wheel. If the system detects that an unintentional lane change is likely to occur, it is designed to apply a steering torque back towards the lane you were in (optional on Zetec, standard across the rest of the range).

7. Intelligent Speed Limiter^o

When activated, the system automatically restricts the vehicle speed to the speed limit detected by the Traffic Sign Recognition system. The driver can also select a top speed tolerance in addition to the detected speed limit (optional on Zetec, standard across the rest of the range).

8. Ford MyKey

Lets you tailor and limit car settings – like top speed and audio volume – to suit individual users. This can help prevent the car being used in a manner that could detract from good and safe driving (standard across the range).

9. Rear-view camera

Select reverse gear and the rear-view camera comes on automatically, allowing you to see objects behind your car. Special guidance graphics indicate the width and centre line of the car to help you manoeuvre more easily and safely (standard on Vignale, optional on Titanium & ST-Line).

10. Adaptive Steering

Designed to adjust the steering ratio to match the car's speed. At lower speeds, a small turn of the steering wheel translates into a big turn of the front wheels, making parallel parking a breeze. At higher speeds, the steering wheel must be turned further for the same effect, enhancing directional stability and ride comfort (optional on Titanium & Vignale (not with 1.5 EcoBoost engines or power steering column)).

11. Ford ClearView Wiper System

Helps improve visibility and reduce costs by using less fluid than ordinary screen washer systems. Unlike conventional spray nozzles, multiple holes along the ClearView wipers deliver the washer fluid directly into the path of each wiper blade as it moves across the windscreen (standard across the range).

^oUses sensors.

[†]Designed to operate at speeds above 6 mph.

^{††}Operates at speeds over 65 km/h on multi-lane roads with clearly visible lane markings.

Intelligent Protection System (IPS)^①

Ford S-MAX's advanced Intelligent Protection System (IPS)^① uses a range of sophisticated technologies that are designed to help keep you protected, including an ultra-high strength steel safety cage^①, Electronic Stability Control (ESC) and front and curtain airbags^{②*}.

The Ford S-MAX's IPS^① includes:

1. Driver's and front passenger's airbags^{②*}
2. Driver's, front passenger's side impact airbags^①
3. Driver's inflatable knee airbag^①
4. Side curtain airbags for front and rear seats^①

^①Uses sensors.

^①Safety feature.

*Includes front passenger's airbag deactivation switch.

^②Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained on the second-row seats.

E = Exceeds security requirement. Insurance ratings are issued by the Association of British Insurers and are shown above on the 1-50 rating scales. Auto-Start-Stop is a standard feature across all series.

Helps you find a space. And get in. And get out again.

Active Park Assist

Can help you either parallel park or park perpendicular to the road. Once activated, the enhanced system can help locate a suitable space as you drive past. It automatically steers you in, while you operate the pedals (following on-screen and audible signals)(optional across the series).

Park-Out Assist

Designed to help you get out of a parallel parking space in the same way.

Improved response

High power bi-turbo diesel engine

Efficient, refined and powerful, the high-power 240 PS (177 kW) EcoBlue diesel engine delivers significantly higher outputs and lower fuel consumption than a single turbo diesel. The electronically-controlled bi-turbo design helps ensure optimum efficiency, with both smooth and strong acceleration across the speed range and excellent performance feel.

All our engines – petrol and diesel – are equipped with Auto-Start-Stop that automatically cuts off the engine when the car comes to a stop, further reducing exhaust emissions and fuel consumption.

Fuel, performance and emissions

The test used to establish fuel consumption and CO₂ figures has changed to deliver results that are more representative of real life driving. The Worldwide Harmonised Light Vehicle Test Procedure (WLTP) has replaced the old NEDC test. The Fuel Consumption figures shown are derived from the new WLTP test. However, until 6th April 2020, the CO₂ figure shown will be the NEDC equivalent and this will be used to calculate Vehicle Excise Duty.

Understanding fuel data

The table below shows the fuel consumption (WLTP) and CO₂ emissions (NEDC equivalent) for each available engine when fitted on a standard specification Ford S-MAX (with no options or accessories). Adding options or accessories to your chosen vehicle can impact WLTP fuel consumption and CO₂ emissions. Please speak to your Ford dealer for more information.

The fuel consumption you achieve in real life conditions and CO₂ produced will depend upon a number of factors including any options and accessories fitted, variations in weather, driving styles and vehicle load

*In 4th gear. **This engine and wheel combination is not orderable and therefore there is no CO₂ data to display. ⁰⁰Ford test figures. ⁰⁰The declared Fuel/Energy Consumptions, CO₂-Emissions and Electric range are determined according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EU) 2017/1151 as last amended. Light Duty Vehicles type-approved using the World Harmonised Light Vehicle Test Procedure (WLTP) have Fuel/Energy Consumptions and CO₂-Emission information for both New European Drive Cycle (NEDC) and WLTP. WLTP is a new, more realistic test procedure for measuring fuel consumption and CO₂ emissions and will fully replace the NEDC latest by end of the year 2020. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel/energy consumption, CO₂ emissions and electric range. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contain data for all new passenger car models is available at any point of sale free of charge or can be downloaded under <http://carfueldata.dft.gov.uk>.

⁰⁰Represents the lightest kerbweight assuming driver at 75 kg, full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, etc, fitted. The performance and economy of all models will be reduced when used for towing. Roof load weight limit is a maximum of 75 kg on all models.

Making ownership easy and affordable.

Take advantage of a range of invaluable services and make the most of your car.

FORD SERVICE

Allows you to relax knowing we're always by your side.

With Ford, the service doesn't end when you leave the showroom. Ford Service is designed to keep your Ford in great condition and help you make the most of your car – throughout its life.

- **Comprehensive service and maintenance plans**
- **Use of quality Ford parts for added peace of mind**
- **Ford trained technicians using the latest diagnostic equipment and tools**
- **Ford Online Service Booking**
- **One Call for everything Ford 0203 564 4444**
- **Ford Accident Management, service free to all drivers**

Also, every Ford vehicle comes with 12 months UK & European Roadside Assistance from the date of registration. This can be extended for a further 12 months when your vehicle has a Scheduled service at a participating Ford Dealer.

FORD INSURE

At Ford Insure we provide insurance designed specifically for Ford owners. We have comprehensive cover which includes features and benefits that really matter to you, along with first class service.

- **Repairs carried out by Ford-trained technicians at Ford Accident Repair Centres**
- **Genuine Ford parts with a 5 year guarantee**
- **Small replacement car for the duration of your repairs**
- **Ford Insure experts at UK call centres**
- **24 hour accident recovery**
- **Unlimited cover for standard fit in-car entertainment equipment**
- **Up to 90 days European cover**
- **Replacement child seats in the event of an accident**

Terms and conditions apply.

Ford Insure is sold and administered by Europa Group Limited which is authorised and regulated by the Financial Conduct Authority. Registration number 309794. Registered in England with company number 3279177. Registered office: Europa House, Midland Way, Thornbury, Bristol, BS35 2JX.

FORD PROTECT

Extend your warranty up to 5 years/100,000 miles with Ford Protect.

Extend your standard 3-year/60,000 miles warranty and enjoy worry-free motoring for many years to come. Ford Protect provides a range of key benefits including:

- **High flexibility in duration and mileage**
- **Cover against unexpected electrical and mechanical repair costs in the UK and Europe**
- **With Ford Protect, the price of parts and labour are guaranteed for the length of your plan**
- **Help prolong the lifespan of your Ford vehicle**
- **Help protect your vehicle resale value**

To help increase potential resale value, Ford Protect New Vehicle Warranties are transferable to the new owner should you decide to sell your vehicle.

Ford Protect terms and conditions apply see ford.co.uk/extended-warranties for more information.

FORD Protect Extended Warranty for New Vehicles

	Total Mileage (mls)
4 Year Protection	80,000 mls
5 Year Protection	100,000 mls

own

When you drive away in your new car, we're with you all the way. Ford has a large authorised service network to help you keep your car in the best condition.

And should your new Ford ever require accident repair, a Ford Accident Repair Centre is the best place to get your car back to its pre-accident condition and on the road as quickly as possible.

The new FordPass app lets you access a range of Ford services designed to help make journeys easier and more enjoyable. These include:

- Live Traffic** – delivers up-to-the-minute traffic data for the best-calculated journey times possible
- Find fuel – lets you search for refuelling points, refine your search by brand or fuel grade
- Parking – search for available parking spaces, and check their costs, opening hours and ratings

**Live Traffic requires SYNC3 with navigation and comes free for the first 2 years from the date of registration, thereafter there is an annual licence fee

contact

Ford Credit Account Services: 0345 712 5490
Ford Lease Customer Services: 0344 600 1405

Calls to 0344 and 0345 numbers are charged at the same rate as a standard 01 or 02 geographic number, even when calling from a mobile.

All S-MAX models

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and recommended prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of products from our suppliers. Fitment of accessories may have an impact on your vehicle's fuel consumption. ♦ The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. **Note.** Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Ford and BP – working together to reduce fuel consumption and emissions.
