

**ŠKODA**  
SIMPLY CLEVER

THE ALL-NEW ŠKODA  
**KAMIQ**

# WHEN YOU KNOW WHAT FITS YOU

Once you've come to the point in life where you know what you want, you might want this car. With its compact dimensions paired with a bold design language, the ŠKODA KAMIQ combines understatement with a lot of self-confidence. A perfect car that fits all your needs in the city – and into most parking spaces.

That's Simply Clever. That's ŠKODA.

# DESIGN THAT LEADS, NOT FOLLOWS

He's got the look: The KAMIQ is the perfect mix of robustness and dynamic shapes defined by the ŠKODA design language. It is the first ŠKODA crossover.

**FULL LED REAR LIGHTS**  
The KAMIQ features horizontally designed rear lights where the C-shaped illumination, typical of the ŠKODA family, has been updated with a modern twist. This original light signature is accompanied by perfect functionality. The top-end option comes with full LED rear lights, which include animated turn indicators.

**EXTERIOR DESIGN AND FULL LED HEADLAMPS**  
The car comes with the split headlamps, which give the front a unique appearance. The top-end option is all about LED technology including corner function, fog lamps and animated turn indicators adding dynamism to the car. While the headlamp design highlights the KAMIQ's individuality, the higher chassis and expressive body accessories, such as a front add-on part in platin grey, emphasise the car's crossover character.

**ŠKODA CROSSOVER**

The KAMIQ is easily identifiable when viewed from behind. With the unmistakable ŠKODA inscription in the back, the car proudly declares its family. The rear add-on part with integrated diffuser in platin grey give the car rear an exceptionally robust appearance.

## INNER CONFIDENCE

The interior, which matches the design of the exterior with its self-confidence and total functionality, offers exceptional spaciousness, quality materials including attractive décor and cutting-edge digital technology. The KAMIQ comes with the Virtual Cockpit and new generation of infotainment: the Amundsen system with 9.2" display that's positioned high up on the dashboard, in the driver's immediate field of view.

**VIRTUAL COCKPIT**  
The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation, for example. You can choose from five layouts (modern view shown) controlled via the 'View' button on the steering wheel. KAMIQ's Virtual Cockpit features a 10.25" display.

**STYLE AND FUNCTIONALITY**

Thanks to the beautifully shaped and comfortable seats, you will feel fresh even after a long drive. The electrically-adjustable driver seat is optional. Your sense of comfort will be enhanced with foot area illumination. Two USB-C slots located in a centre console allow you to easily connect your external devices.

**COMFORT AND PRACTICALITY**

The KAMIQ also offers superior comfort for rear passengers. The knee and head room in the rear is exceptional. Air outlets, which increase the thermal comfort of passengers in the rear, are positioned on the rear side of the front armrest. Here you can also find a separate control for the heated rear seats. Two USB-C slots enable universal mobile phone charging.

#### HEATING FUNCTIONS

The heating function of the front windscreen, which quickly clears frost or steam, and heating of the multifunctional steering wheel are controlled via the infotainment system.

#### UMBRELLA STORAGE COMPARTMENT

An ingenious compartment with original ŠKODA umbrella is located inside the driver's door. It is designed to let water drain away from the car, keeping the interior dry.

#### LED FLASHLIGHT

A practical removable LED flashlight can be found on the left side of the luggage compartment. It recharges automatically while the engine is running.

#### DOOR EDGE PROTECTION

When opening all side doors, plastic strips eject and cover the edges. In this way, the KAMIQ protects itself against damage as well as being considerate to other cars. Perfect for tight parking spaces, for instance.

#### ADAPTIVE CRUISE CONTROL

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system, operating up to speeds of 210 km/h, maintains a safe distance from vehicles in front of you.

A red ŠKODA KAMIQ SUV is parked on a paved plaza next to a brick building. The building has a large glass window and an outdoor cafe area with several tables and chairs. The car is positioned in the foreground, angled towards the left. The license plate reads "4SK 1899".

## BECAUSE YOU DON'T FOLLOW OTHERS

There's a leader in all of them: With its clear design, self-confident attitude and compact size, the ŠKODA KAMIQ is breaking new ground. Perfect for those who create their own trends instead of chasing after them.

# ŠKODA CONNECT: TAKE THE ONLINE WORLD WITH YOU

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment and useful information. It also offers 24/7 assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

## PARKING POSITION

See the exact location of your car from anywhere. ŠKODA Connect shows the address, time and date of parking on your phone.

## LOCK & UNLOCK

This feature allows you to comfortably Lock and Unlock your vehicle via ŠKODA Connect App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

## ŠKODA CONNECT

This offer includes two types of service. Infotainment Online delivers real-time information about traffic and more, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers assistance for any situation that needs it.

## EMERGENCY CALL

An SOS call is made automatically during an emergency on the road. The system can also be activated manually by pressing the red button on the roof console.

## SMARTLINK+

With the SmartLink+ system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay, Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. Plus, all installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto. The SmartLink+ system also enables you to send car data to your smartphone which gives you access to interesting information about your drive, like driving economy, driving dynamics or service information. (Visit our website for usage terms and compatibility information for SmartLink+.)

## SHOP

Thanks to the shop accessible via the infotainment system, you can purchase data plans, download Infotainment Apps (such as Weather or News) and extend your ŠKODA Connect licence directly from your car.

## ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

## INFOTAINMENT APPS

Infotainment apps enhance the in-car connectivity experience. These apps are available to download in the shop via the infotainment system. For example, you can get a detailed weather report for your current location or anywhere else with the Weather app. Infotainment apps are regularly updated and more apps will be added over time.
