

SIMPLY CLEVER

ŠKODA

# ŠKODA OCTAVIA RS

"In order of priority, for me power comes first, second and third. After that comes the rest."

Michael Bellpepper

The Octavia RS model can be easily identified by the **RS badge** on the front grille as well as the ferocious sports expression lent by the **Bi-Xenon headlamps with LED daytime running lights and black backfill**, in combination with a **cellular grid in the front bumper**, which is split into three vertical sections. However, the sports styling and strong sense of attraction do not rule each other out. Those seeking to underline the elegance of the model and balance the expression of dynamics and competitiveness will be enticed by the **front grille frame in the standard chrome design**. The frame perfectly complements the characteristic **robust front bumper**.

The **RS logo** on the rear forms another distinctive detail of this sports model. The liftback version features a **5th door spoiler**, which increases the stability of the vehicle at faster speeds.

The **black backfill of the Bi-Xenon headlamps** is an unmistakable detail of all RS models. The **fog lamps in the RS design**, which perfectly fit the dynamic concept of the model's front, are located at the edges of the lower part of the front bumper.

The **glossy black roof railings** of the combi version are available as part of the optional black package. The combi version can feature the **electrically-controlled 5th door**.

The **rear lights**, illumination of which creates a double C letter, are equipped with energy efficient **LED diodes**. (The photo shows the liftback version.)

The 5th door bears the Octavia model name badge as well as the **RS logo**. (The photo shows the combi version.)

"What is the point of having a powerful car if it doesn't feel spacious?"  
Julia Bellpepper

The **3-spoke sports multifunction steering wheel**, wrapped in perforated leather with grey or red stitching and adorned with an original RS plaque, enables control of the radio, phone and automatic DSG (Direct Shift Gearbox). The **electromechanical power steering with variable transmission**, allowing for sporty driving as well as comfortable control in city traffic or while parking, demonstrates **advanced technology**. The XDS system, available exclusively for the RS model with ESC (Electronic Stability Control), enables better acceleration in turns.

The **instrument panel in the RS design** has a clearly legible white interface. The attractive **Maxi DOT colour display with a LapTimer** comes as part of the Challenge package.

If you prefer all-leather upholstery, you can opt for the **interior** in a combination of leather/artificial leather, which is available with red or grey double stitching.

The **interior** in a combination of fabric/leather/artificial leather with red or grey stitching comes as standard. All RS models further come with sports front seats and integrated headrests.

The red stitching is also part of the Challenge package.

The **decorative door sill strips** with an RS inscription accentuate the character of the model as well as increase its practicality. The Challenge package contains strips with a specific design.

The **noble steel foot pedal covers** are yet another stylish detail of the Octavia RS model.

The **leather details**, such as the gear stick knob with an RS logo and the handbrake handle, are very pleasant to touch. The sleeve features grey or red stitching.

The **Performance Mode Selection** in the RS model, also available as part of the Challenge package, includes the **Performance Sound Generator** function, which allows the setting of sound, in accordance with the selected engine mode (normal/eco/sport), enabling the driver to enjoy a sports engine expression during dynamic driving or, at the other end of the spectrum, a calm sound in the eco mode.

**VR6**  
**MODE**

7.5J x 17" **Dorado** alloy wheels for 225/45 R17 tyres

7.5J x 18" **Pictoris** alloy wheels for 225/40 R18 tyres

7.5J x 18" **Gemini** alloy wheels for 225/40 R18 tyres

7.5J x 18" **Gemini** alloy wheels for 225/40 R18 tyres; in anthracite design

7.5J x 18" **Gemini** alloy wheels for 225/40 R18 tyres; in black design\*

7.5J x 19" **Xtreme** alloy wheels for 225/35 R19 tyres; in anthracite design

All RS models feature red callipers as standard.  
\* Available only as part of the Challenge package.

"And it should be a combination of power and sportiness. It must look sporty."

Michael

"Sounds to me like you're trying to compensate for something."

Julia

The rear of the RS model is dominated by **chrome exhaust pipe end pieces**, which are very effective and further accentuate the sporty look of the car. A pronounced **taillight**, improving the car's visibility, sits above the **massive diffuser**.

The **sports styling** of your car can be further emphasised with the **black package**, containing external mirror covers, front grille frame and, for the combi version, roof railings in glossy black colour.

With the exclusive **Challenge package** you can stress the uniqueness of your car as well as look forward to equipment that will make driving even more enjoyable. The package contains Performance Mode Selection including Performance Sound Generator, multifunctional steering wheel with radio and phone controls,

Maxi DOT colour display with a LapTimer (controlled via the steering wheel), interior leather elements featuring red stitching, such as the steering wheel, gear stick and handbrake, door sill strips with a Challenge inscription, 18" Gemini alloy wheels in black design and a complete black package (see the previous page).

"Design is more than just looks, dear.  
I love a car with Simply Clever details!"

Julia

"With the emphasis more on 'simply'  
and less on 'clever'. Right, honey?"

Michael

When you need to display a parking ticket in a visible place under the windscreen, the solution is simple. The car is equipped with a **parking ticket holder**.

You will find a **1.5-l bottle holder** in a spacious compartment in the front door. This is also where you can place a **removable waste basket** that will help you keep the interior clean.

A **USB / Aux-in connection** is located on the centre panel and enables you to connect an external appliance and control it with the radio, navigation system or multifunctional steering wheel buttons.

Another Simply Clever detail is located under the driver's seat where you can find a special **pocket for a reflective vest**, ensuring the vest is immediately within reach if you need it.

"The emissions should be low,  
without compromising performance."

Michael

"Funny, you and I always seem to be  
talking about 'compromised performance.'"

Julia

All engines are exclusively available in **Green tec version**. When driving economically, you can achieve **combined consumption of 6.2 l/100 km** with the 2.0 TSI/162kW petrol engine with a manual transmission and **4.6 l/100 km** with the 2.0 TDI/135kW diesel engine with a manual transmission.

The **CO<sub>2</sub> emission levels** are also very positive. The most ecological version is represented by the 2.0 diesel engine with a manual transmission producing only **119 g/km CO<sub>2</sub>**.

"And don't forget, it has to feel spacious inside."

Julia

"Because we're carrying an extra load. Aren't we, darling?"

Michael

The Octavia RS offers an exceptionally large **luggage compartment**. Inside, you'll find a practical **double foldable hook**, which you can use to keep full shopping bags upright. Another useful accessory is the **cargo element\***, which prevents any undesired movement of luggage. It's a plastic part with a Velcro fastener, located in the compartment behind the rear wheel arch when you don't need it.

The practical **pocket under the roll cover** of the luggage compartment of the combi version can serve as a safe storage place for items that you would like to transport separately from other objects in the luggage compartment.

The rear seats can be folded using a **remote release button** located in the luggage compartment of both the liftback and the combi versions, which will make loading the car even more effortless.

The **mid-level luggage compartment floor** of the combi version facilitates easier luggage handling by placing the bottom of the compartment on the level of the loading edge. In addition, it provides a special storage space for transporting the roll cover or roof rack when it's not needed or in the way. Alternatively, it can serve as a discreet storage area.

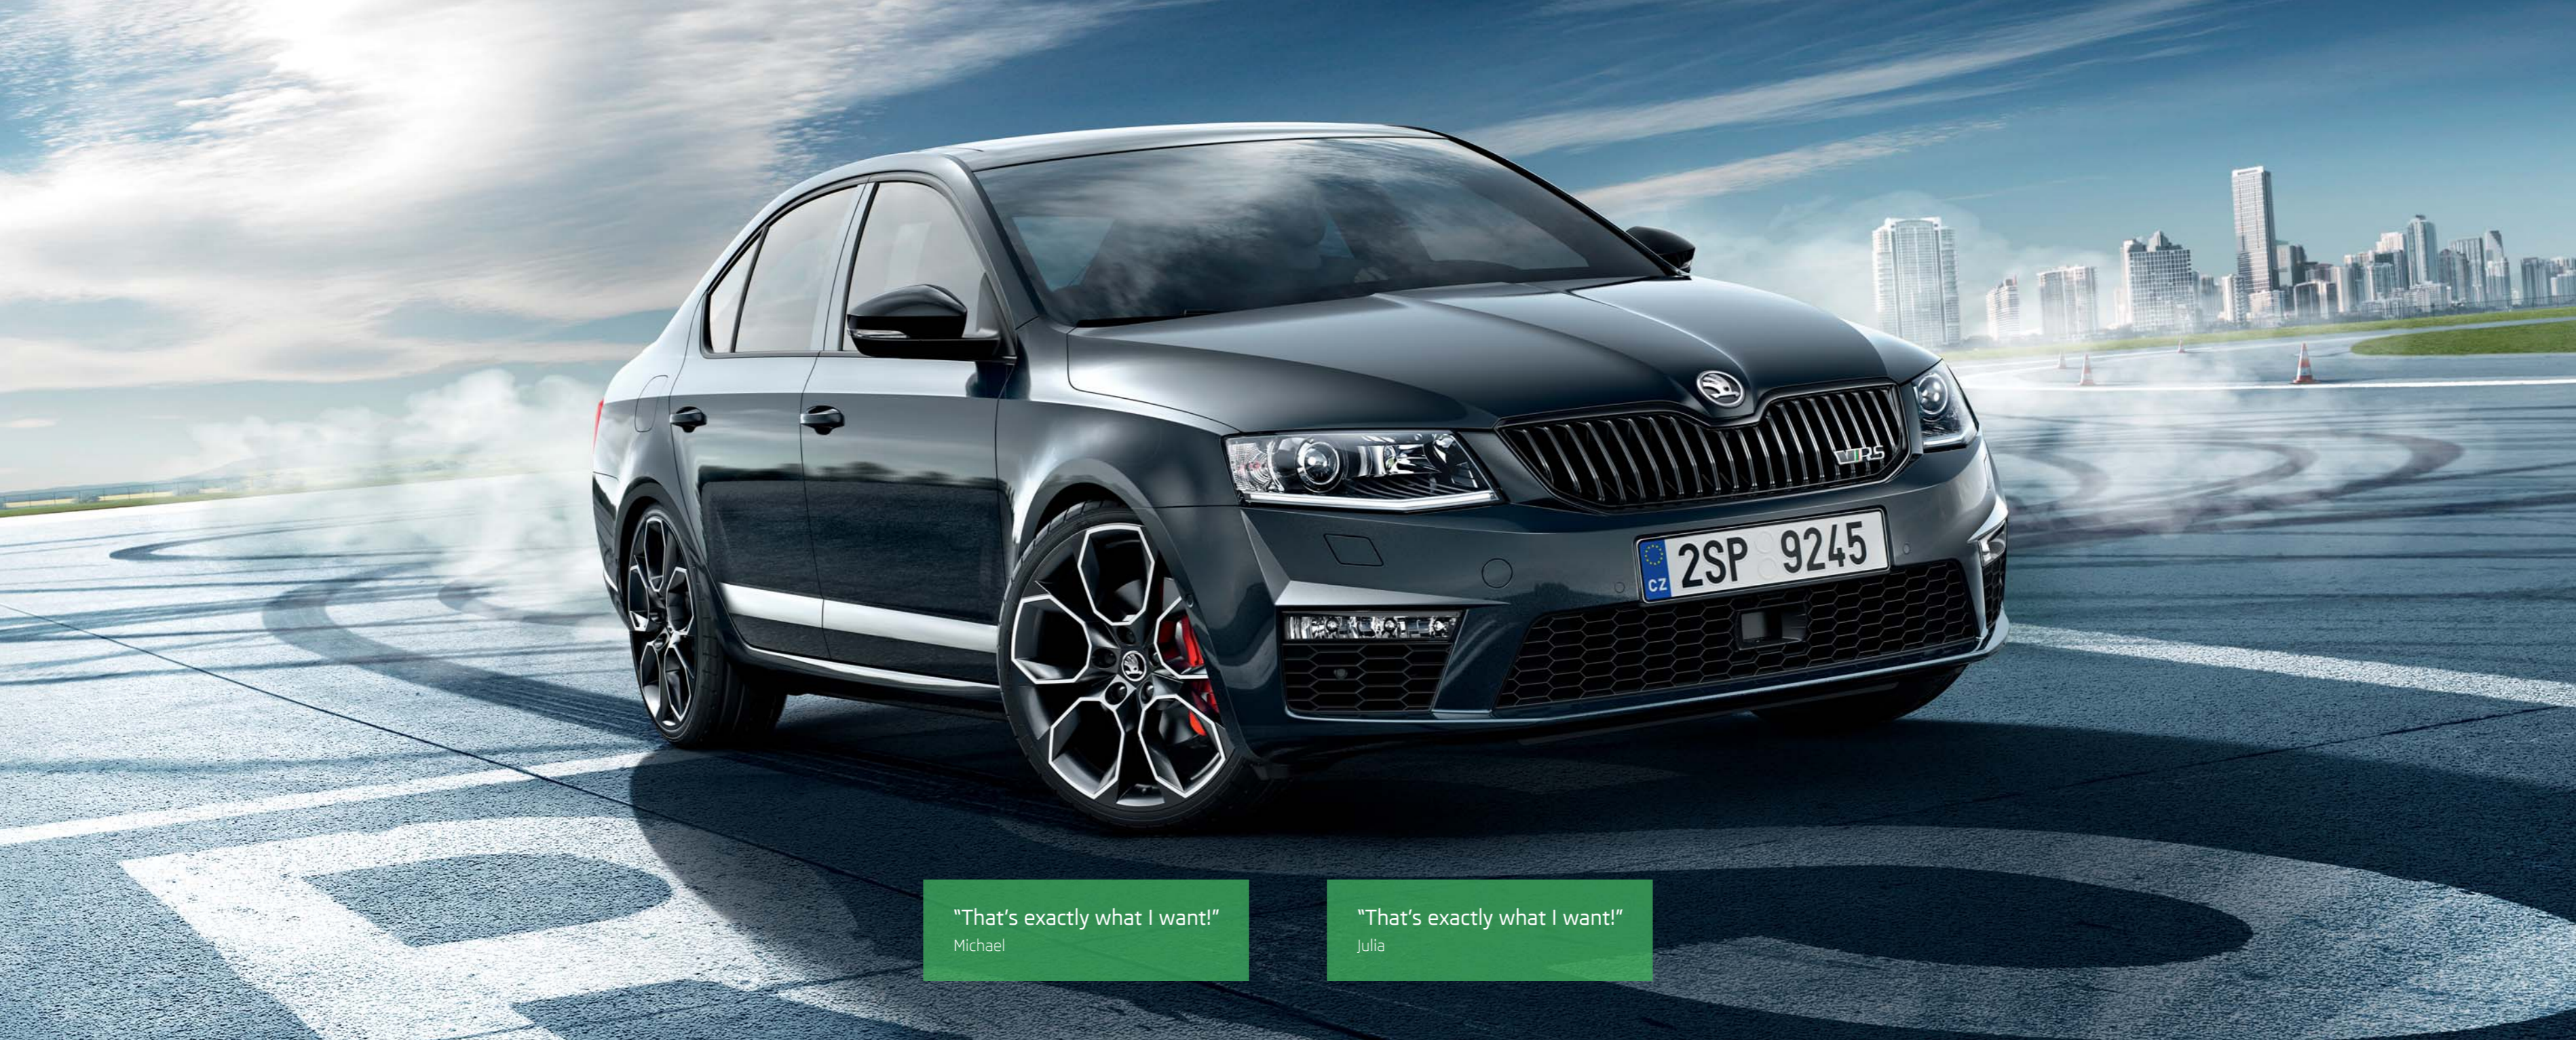

The green **ice scraper**, mounted on the fuel cap, is within reach if you need it and it's not a problem to replace it there when wet. Another Simply Clever solution is **protection against incorrect fuel filling**, designated for cars with a diesel engine.

The **net programme** consists of one horizontal and two vertical nets, which improves the variability of your luggage compartment. Both vertical nets are double-sided and can hold various small articles. In addition, we also offer you a **net under the luggage compartment cover** for the liftback version.

Probably everyone has the occasional need to load dirty luggage. The **double-sided carpet** in the luggage compartment is determined for such cases. You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

\* A second cargo element, as pictured, will be available later.

"That's exactly what I want!"

Michael

"That's exactly what I want!"

Julia

# The ŠKODA Octavia RS. A car you can agree on. Almost.

The **ŠKODA Octavia RS** uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle.

Perfect for him. And for her.

The Octavia RS has a modern design backed up with a sporty chassis and an engine to match. The high performance 2.0 TSI/162kW petrol and 2.0 TDI CR DPF/135kW diesel engines give the RS highly agile characteristics. Advanced technologies put the driver in complete control, even during the most demanding of driving conditions.

And in order to please everyone, the Octavia RS comes with unbeatable spaciousness. It is packed with a range of Simply Clever details, too. Combined they make the RS a perfect match for an active lifestyle.

So, why choose between a sports car and a family vehicle when you can have both? The ŠKODA Octavia RS fits both roles perfectly.

Who could disagree with that?

As a part of the GreenFuture programme, the ŠKODA Octavia RS brings you a range of features that result in lower fuel consumption and CO<sub>2</sub> emissions without compromising overall performance.

"In black!"

Michael

"In white!"

Julia

## Technical specifications - Octavia RS

Engine	2.0 TSI/162 kW Green tec	2.0 TDI CR DPF/135 kW Green tec
	Turbocharged petrol engine	Turbocharged diesel engine, high-pressure direct injection common rail system
Cylinders/Cubic capacity (cc)	4/1,984	4/1,968
Max. performance/Revs (kW/min <sup>-1</sup> )	162/4,500–6,200	135/3,500–4,000
Max. torque/Revs (Nm/min <sup>-1</sup> )	350/1,500–4,400	380/1,750–3,000
Air pollution regulation/Fuel	EU6/Unleaded petrol, min. RON 95	EU5/Diesel
<b>Performance</b>		
Maximum speed (km/h)	248 (245)	232 (230)
Acceleration 0–100 km/h (s)	6.8 (6.9)	8.1 (8.2)
Fuel consumption 99/100		
– urban (l/100 km)	7.7 (8.1)	5.7 (5.9)
– extra-urban (l/100 km)	5.3 (5.4)	3.9 (4.3)
– combined (l/100 km)	6.2 (6.4)	4.6 (5.0)
CO <sub>2</sub> emissions (g/km)	142 (149)	119 (129)
Turning circle diameter (m)	11.13	11.13
<b>Power transmission</b>		
Type	Front-wheel drive	Front-wheel drive
Clutch	Hydraulic single dry clutch disc (twin coaxial wet multiple-disc clutch, electro-hydraulically operated)	Hydraulic single dry clutch disc (twin coaxial wet multiple-disc clutch, electro-hydraulically operated)
Transmission	Manual 6-speed (automatic 6-speed DSG)	Manual 6-speed (automatic 6-speed DSG)
<b>Weight</b>		
Kerb weight – in standard version with a 75kg driver (kg)	1,425 (1,445)	1,460 (1,480)
Payload – incl. a driver and extra equipment (kg)	542	542
Total weight (kg)	1,892 (1,912)	1,937 (1,957)
Trailer load without brakes (max. kg)	710 (720)	730 (740)
Trailer load with brakes – 12% (max. kg)	1,600	1,600

<b>Body</b>	5-seater, 5-door, 2-compartment
Drag coefficient C <sub>w</sub>	2.0 TSI: 0.298; 2.0 TDI: 0.294
<b>Chassis</b>	Sports design
Front axle	McPherson suspension with lower triangular links and torsion stabiliser
Rear axle	Multi-link axle suspension with one longitudinal and three transverse links and torsion stabiliser
Braking system	Hydraulic dual-diagonal circuit braking system Dual Rate vacuum assisted
– front brakes	Disc brakes with inner cooling and with single-piston floating calliper
– rear brakes	Disc brakes
Steering	Direct rack-and-pinion steering with electro-mechanic power steering
Wheels	7.5J x 17"
Tyres	225/45 R17
<b>Tank capacity (l)</b>	50

(l) Applies to versions with automatic transmission.

## General information

### ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

#### We offer you first-class quality

Your car requires advanced technology. All the authorised ŠKODA service partners have special tools and quality diagnostic systems at their disposal to ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in our cars requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the authorised ŠKODA service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is just as important to us as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control.

#### Comprehensive range of services:

##### › Service inspections

The authorised ŠKODA service partner guarantees the performance of regular service inspections in accordance with the manufacturer's instructions and ensures the long-term functionality of your car. The service schedule informs you when the service inspection must be done.

##### › Body and paintwork service

Damage to the body and painted areas will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with the manufacturer's instructions, using ŠKODA Genuine Parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

##### › Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

##### › Pick up and delivery service

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will

arrange a date with you to pick up the car. The car will be delivered back to you after the service work has been completed.

The listed services represent only part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details.

### ŠKODA Applications

#### ŠKODA Service App – ŠKODA Service in your pocket

The ŠKODA Service application is designed for smartphones operating on iOS and Android systems and its purpose is to help ŠKODA customers in any difficult situation they may encounter on their travels.

#### ŠKODA Manual App – know your vehicle

The ŠKODA Manual application is aimed at users of tablet PCs who are interested in ŠKODA vehicles or already own one. The application contains a full featured digital version of the owner's manual for all current ŠKODA models.

### ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you a wide assortment oriented to five main product groups (sport and design, music and communication, comfort and utility, transport and safety) and bicycle products. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

### ŠKODA Genuine Parts

#### Safety

ŠKODA Genuine Parts are identical to those used in the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free motoring.

#### Availability

ŠKODA AUTO offers a complete range of parts and equipment items used in the vehicle's series production

and does not merely focus on high-turnover parts. Our objective is to secure ŠKODA Genuine Parts supplies essential for the operation of the vehicle for a period of 15 years after the end of the model run.

#### Long service life

The use of first-rate materials and manufacturing technologies applied in the production of ŠKODA Genuine Parts ensure their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

#### Environment protection

The ŠKODA Genuine Parts range includes exchange parts, which are manufactured with a low environmental impact in terms of waste, excess heat and water contamination.

### Information on the internet

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models. Visit [www.facebook.com/skoda](http://www.facebook.com/skoda) and become a fan of ŠKODA to receive the latest updates and get in touch with our community.

### ŠKODA Finance

ŠKODA Finance provided by ŠkoFIN offers solutions for both individuals and businesses. Purchase your car with favorable conditions without additional costs. You can learn about the current credit or lease offer through any authorised ŠKODA partner.

### Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and as a result excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathaphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
