

SIMPLY CLEVER

ŠKODA

# ŠKODA OCTAVIA RS

The ŠKODA OCTAVIA RS uniquely combines a dynamic driving experience with all the characteristics of a practical family vehicle. The car has a modern design backed up with a sporty chassis and an engine to match. It's remarkably spacious while being packed with a range of Simply Clever details. So, why choose between a sports car and a family vehicle when you can have both?

This car is yet another example of our rich history of forward thinking. It means being passionate about making beautifully designed cars that are as much a joy to drive now as they were back when we started. Because looking back on our enduring legacy inspires us to look ahead.

That's Simply Clever. That's ŠKODA.

# EXTERIOR

The impressive design is dominated by sporty genes. At the same time, as any OCTAVIA, the RS version displays timeless elegance and functionality. And, of course, it features all the typical exterior elements that announce its belonging to the ŠKODA family.

The RS version can be easily identified by the RS badge on the front grille as well as the ferocious sports expression lent by the Bi-Xenon headlamps with LED daytime running lights and black backfill. The front grille frame comes in the standard chrome design or the black variation.

The black backfill of the Bi-Xenon headlamps is an unmistakable detail of the RS version. The fog lamps in the RS design perfectly fit the dynamic concept of the vehicle's front.

The rear lights, illumination of which creates a double C letter, are equipped with energy efficient LED diodes. The 5th door bears the OCTAVIA model name badge as well as the RS logo.

The rear is dominated by chrome exhaust pipe end pieces, which are very effective and further accentuate the sporty look of the car. A pronounced taillight, improving the car's visibility, sits above the massive diffuser. The liftback version features a 5th door spoiler, which increases stability of the vehicle at faster speeds.

# INTERIOR

The exceptional spaciousness of the OCTAVIA model meets the sporty style of the RS. The interior comes in an exclusive black design. While the driver enjoys the atmosphere of the sports cockpit, passengers indulge in maximum comfort.

The 3-spoke sports multifunction steering wheel in perforated leather enables control of the radio, phone and automatic DSG (Direct Shift Gearbox). The electromechanical power steering with variable transmission allows for sporty driving as well as comfortable control in city traffic or while parking.

The original RS logo can also be found on the outer rear seat backrests. All headrests are height adjustable.

The noble steel foot pedal covers are yet another stylish detail of the OCTAVIA RS version.

The decorative door sill strips with an RS inscription accentuate the character of the car as well as increase its practicality.

The interior in a combination of fabric/leather/artificial leather with red or grey stitching comes as standard. The sports front seats feature integrated headrests, which are decorated with the RS logo.

If you prefer all-leather upholstery, you can opt for the interior in a combination of leather/artificial leather, which is available with red or grey double stitching.

# INTERIOR STORAGE

Storage compartments significantly increase the practicality of the car. Namely, they simply multiply its transport options, help keep the car tidy, and make travelling more pleasant for all passengers.

When you need to display a parking ticket in a visible place under the windscreen, the solution is simple. The car is equipped with a parking ticket holder.

External appliances can be transported safely in the multimedia bracket located in the dual drinks holder on the centre console.

You will find a 1.5-l bottle holder in a spacious compartment in the front door. This is also where you can place a removable waste basket.

Special pockets for reflective safety vests are located under both front seats, ensuring the vests are immediately within reach if you need it.

The green ice scraper is kind of inside, yet outside. It's mounted on the fuel cap and it's not a problem to replace it there when wet. Here you will also find protection against incorrect fuel filling, designated for cars with a diesel engine.

# LUGGAGE COMPARTMENT

The luggage compartment capacity makes the OCTAVIA RS a convenient car for a large family. Space can be further maximised by increasing practicality. To do this, we offer a range of Simply Clever details and solutions, which you can choose according to your needs.

The net programme consists of one horizontal and two double-sided vertical nets. In addition, we also offer you a net under the luggage compartment cover for the liftback version.

You can use the double-sided carpet with the textile side up if you are not carrying anything that could dirty the car. When needed, simply turn it over with the washable rubber side up (on the photo).

The double floor provides you with a hidden storage compartment. Simultaneously, it facilitates handling luggage by bringing the floor of the luggage compartment closer to the loading edge.

The practical pocket under the roll cover of the luggage compartment of the combi version can serve as a safe storage place for items that you would like to transport separately from other objects.

The rear seats can be folded using a remote release button located in the luggage compartment, which will make loading the car even more effortless.

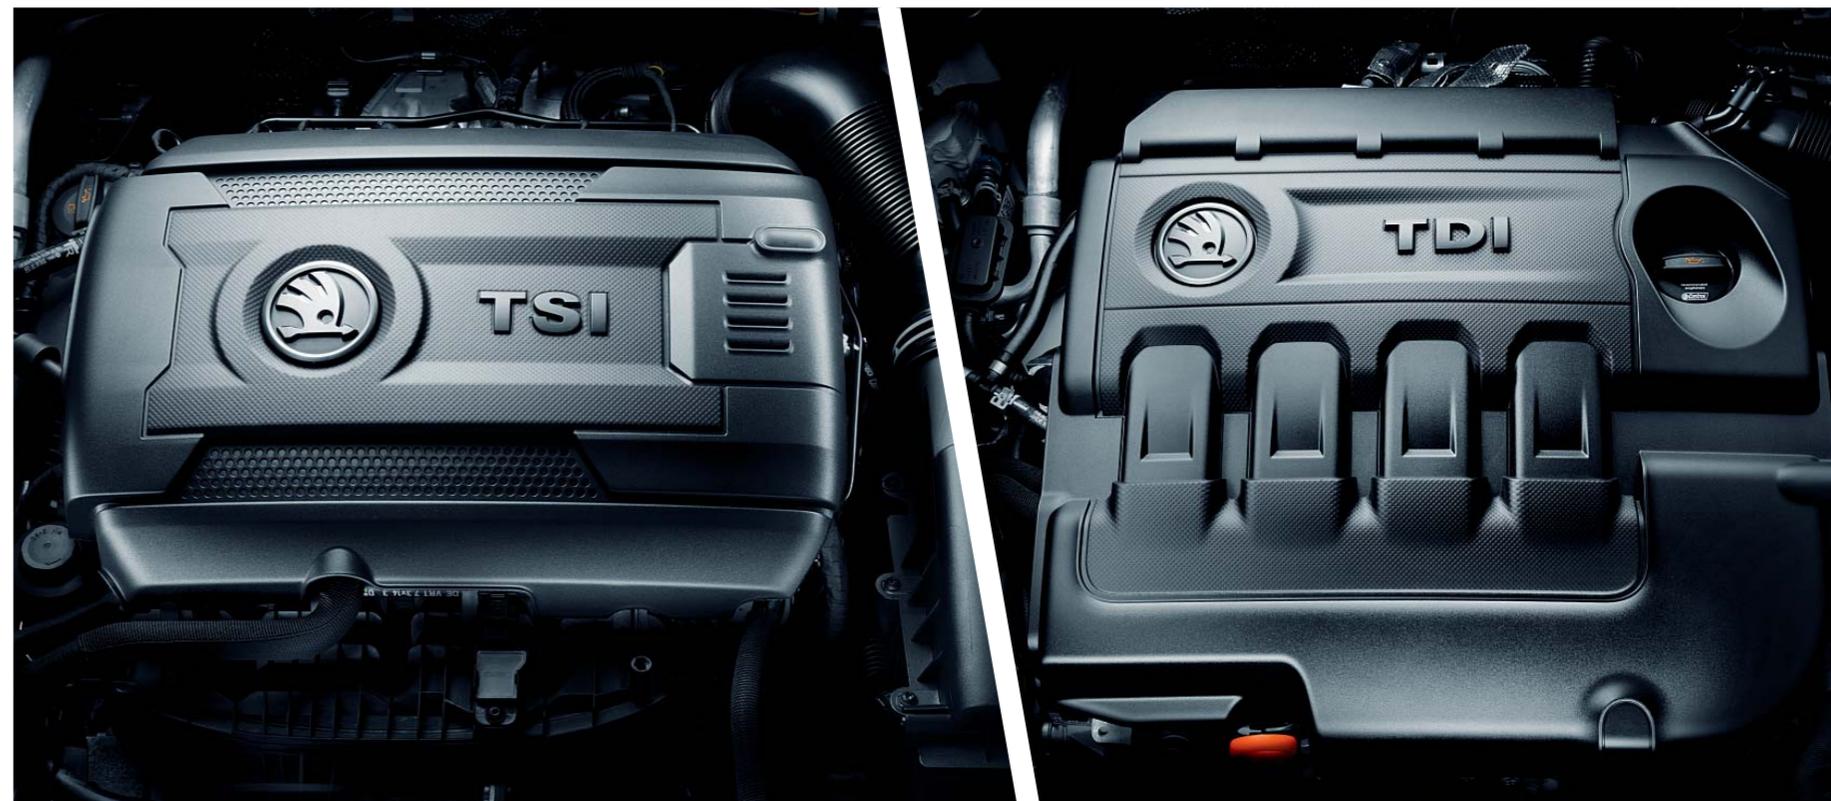

# ENGINES AND TRANSMISSIONS

The high performance petrol and diesel engines give the car great agility. Each OCTAVIA RS has a sporty heart, no matter which engine you choose. And thanks to the excellent driving characteristics of the car, you can fully yet safely use the whole potential of the engine.

The Start-Stop system, which is a standard equipment of all engines for the RS version, saves fuel by automatically switching off the engine when idle. It can be deactivated with a button in front of the gear stick. Energy recovery functionality further reduces engine load and increases fuel efficiency by utilising the car's kinetic energy for battery recharging.

While the front-wheel drive is combined with an automatic 6-speed DSG (Direct Shift Gearbox) or a manual 6-speed transmission, the 4x4 drive is always accompanied by an automatic 6-speed DSG.

You can enjoy maximum performance and agility with the petrol engine, which promises an exciting experience with low fuel consumption.

The diesel engine offers a perfect mix of dynamics, power and driving economy. If you want to drive even more safely in extreme conditions, you can choose a version with a 4x4 drive.

# BLACK PACKAGE

The sports styling of your car can be further emphasised with the OCTAVIA RS Black package. It offers black exterior elements, adding even more dynamism and ferocity to the car's expression. It will perfectly complement your self-confident personality and active lifestyle.

The glossy black roof railings come as part of the Black package exclusively for the combi version.

The Black package always includes external side-view mirror covers and front grille frame.

# CHALLENGE PACKAGE

For those who want to go a step further, we have a unique solution. The OCTAVIA RS Challenge package not only reinforces the sporty character of the car, but it increases comfort as well. Besides the black exterior elements (see the Black package), you can also look forward to the 18" Gemini black alloy wheels, door sill strips in a special design, Maxi DOT colour display and Performance Mode Select.

The attractive Maxi DOT colour display also offers a LapTimer function, which further adds to the feel of a sports drive experience.

The Performance Mode Select includes the Performance Sound Generator function allowing the sound of the engine in the cabin to be set to the normal, eco or sport mode.

# OCTAVIA RS 230

This RS version represents the highest level of achievement. Its exclusive set of equipment includes, among others, the Black and Challenge packages, 19" Xtreme alloy wheels in glossy black colour and the interior in combination of leather/artificial leather. However, what makes the vehicle absolutely exceptional, is the 230hp engine enabling the vehicle to accelerate from 0-100 km/h in just 6.7 seconds.

The exhaust pipe end pieces in glossy black finish have been specially tuned to produce the engine's characteristic sporty sound.

The two hundred and thirty horses under the bonnet of your new OCTAVIA RS 230 must be kept on a tight leash in all circumstances. This is why the car is equipped with the active Electronic Differential Lock of the front axle. It maximises traction, reduces understeering and adds agility.

# WHEELS

17" Dorado alloy wheels

18" Pictoris alloy wheels

18" Gemini alloy wheels

18" Gemini black alloy wheels

18" Gemini anthracite alloy wheels

19" Xtreme anthracite alloy wheels

# COLOURS

Corrida Red uni

Quartz Grey metallic

Candy White uni

Laser White uni

Brilliant Silver metallic

Rally Green metallic

Rio Red metallic

Steel Grey uni

Race Blue metallic

Moon White metallic

Black Magic pearl effect

All RS models feature red callipers as standard.

## OCTAVIA RS

## OCTAVIA COMBI RS

## General information

### ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

#### We offer you first-class quality

Your car requires advanced technology. All the authorised ŠKODA service partners have special tools and quality diagnostic systems at their disposal to ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in our cars requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the authorised ŠKODA service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is just as important to us as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control.

#### Comprehensive range of services:

**Service inspections**  
The authorised ŠKODA service partner guarantees the performance of regular service inspections in accordance with the manufacturer's instructions and ensures the long-term functionality of your car. The service schedule informs you when the service inspection must be done.

#### Body and paintwork service

Damage to the body and painted areas will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with the manufacturer's instructions, using ŠKODA Genuine Parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

#### Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

#### Pick up and delivery service

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will arrange a date with you to pick up the car. The car will be delivered back to you after the service work has been completed.

The listed services represent only part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details.

### ŠKODA Applications

#### ŠKODA Service App - ŠKODA Service in your pocket

The ŠKODA Service application is designed for smartphones operating on iOS and Android systems and its purpose is to help ŠKODA customers in any difficult situation they may encounter on their travels.

#### ŠKODA Manual App - know your vehicle

The ŠKODA Manual application is aimed at users of tablet PCs who are interested in ŠKODA

vehicles or already own one. The application contains a full featured digital version of the owner's manual for all current ŠKODA models.

### ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you a wide assortment oriented to five main product groups (sport and design, music and communication, comfort and utility, transport and safety) and bicycle products. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

### ŠKODA Genuine Parts

#### Safety

ŠKODA Genuine Parts are identical to those used in the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free motoring.

#### Availability

ŠKODA AUTO offers a complete range of parts and equipment items used in the vehicle's series production and does not merely focus on high-turnover parts. ŠKODA Genuine Parts needed for vehicle operation continue to be supplied for up to 15 years after production of the relevant model ends. The availability of other groups of parts depends on their importance.

#### Long service life

ŠKODA Genuine Parts are provided with a minimum two-year guarantee. The use of first-rate materials and manufacturing technologies applied in the production of our products ensure

their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

#### Environment protection

The ŠKODA Genuine Parts range includes exchange parts, which are manufactured with a low environmental impact in terms of waste, excess heat and water contamination.

### Information on the internet

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models. Visit [www.facebook.com/skoda](http://www.facebook.com/skoda) and become a fan of ŠKODA to receive the latest updates and get in touch with our community.

### ŠKODA Financial Services

ŠKODA Financial Services offer solutions for both individuals and businesses. Purchase your car with favourable conditions without additional costs. You can learn about the current credit or lease offer through any authorised ŠKODA partner.

### Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and as a result excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

Some models in this catalogue are shown fitted with optional or extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes without prior notice. The information included in this catalogue is for guidance only. Due to printing technology limitations, the colours of paints or other materials shown in this catalogue may differ from reality. For up-to-date information and further details on standard and optional equipment, current prices and delivery terms and conditions contact your authorised ŠKODA partner. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
