

2020

DODGE CHARGER

“Irreverent” might be the best word to sum up Dodge vehicles. For a 100+-year-old Brand, we act anything but. We believe attitude is neither constrained nor defined by a number of years. It’s defined by something much less tangible. It’s defined by geniuses of engineering. By being different. By offering the unexpected. By pushing boundaries for no other reason than because we can. By being led to build from our hearts and not by a committee of suits in a back office. We are a Brand that could not care

less about convention. And it shows in our formidable SRT Hellcat® models and in our six-passenger SUV that holds a certified quarter-mile time by the National Hot Rod Association (NHRA). Each 2020 Dodge vehicle pays homage to its iconic bloodline with snarling engines and sleek exteriors that beg to be taken out on the open road. **THIS IS WHAT IT MEANS TO BE DOMESTIC. NOT DOMESTICATED.**

////// Challenger SRT Hellcat shown in TorRed with available Satin Black-Painted Graphics Package, Durango SRT® shown in DB Black and Charger Scat Pack shown in White Knuckle with available Satin Black-Painted Graphics Package.

SRT HELLCAT®

This is the famed Dodge Charger SRT Hellcat. Its performance is haloed by a 707-horsepower, 650 lb-ft of torque Supercharged 6.2L HEMI® SRT Hellcat V8 engine. Its dominance shows in 0 - 60 runs in 3.6 seconds and its impressive 10.96 quarter-mile elapsed time – even on street tires.

A new Charger SRT Hellcat Widebody rides on robust 20-inch by 11-inch Carbon Black forged wheels and wider, stickier Pirelli® 305/35ZR20 tires. This combination teams with a new competition suspension tuning with Bilstein® three-mode adaptive damping to produce even more grip, delivering next-level performance on the street, strip and road course. SRT Hellcat Widebody also runs 2.1 seconds faster on a 2.1-mile road course, equal to 13 car lengths after one lap.

All Charger SRT Hellcat models include the SRT® tuned Bilstein Three-Mode Adaptive Damping Suspension system that provides driver-selectable settings to include: Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modes, which are accessed via the 8.4-inch Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track. There is also a custom setting that allows drivers the ability to tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages bring critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

////// Charger Scat Pack Widebody shown in White Knuckle with available Satin Black-Painted Graphics Package and Charger SRT Hellcat® Widebody shown in Frostbite.

//// **MEAN MUG** // Charger SRT Hellcat®

is nothing short of a sinister, track-inspired beauty. The iconic, inspired design showcases scalloped bodysides, an imposing grille and an all-out aggressive look. The new SRT Hellcat Widebody flares out an additional 3.5 inches from the overall width of Charger for a more dominating presence. SRT Hellcat Widebody also receives a newly designed front fascia and includes a new mail-slot grille, providing the most direct route for cool air to travel into the radiator and maintain ideal operating temperatures even in the hottest conditions. New side

sills connect the new front and rear fascias to help amplify the integrated design. All SRT Hellcat hoods supply more than savage style – the functional hood scoop, along with dual air extractors, provides effective removal of heat in the engine compartment. In the rear, a standard one-piece, body-color performance spoiler details the back design while adding downforce to help bring high-speed balance to the vehicle. The hood on the Dodge Charger GT, R/T and Scat Pack looks as menacing as

the powerful engine it covers. The power bulge with a functional scoop works to help keep the engine at its optimal operating temperature. A seamless LED racetrack taillamp is a fitting nod to the vehicle's heritage.

HIGH-PERFORMANCE PROWL.

////// Charger SRT Hellcat Widebody shown in Pitch Black. Professional driver. Closed course.

////// Charger Scat Pack Widebody shown in White Knuckle with available Satin Black-Painted Graphics Package.

////// Charger R/T interior in Black, shown with available Real Carbon Fiber bezels.

The interior is a striking balance of throwback style and must-have technology. The one-piece-construction, instrument-panel bezel houses the 7-inch reconfigurable digital gauge cluster. Buttons on the steering wheel let you scan through hundreds of different vehicle configurations and customize what information you see and how you see it.

PERFORMANCE:PRIDE.

SCAT PACK ////

The feeling is nostalgia. The performance is modern-day technology. The bragging rights are yours. Charger Scat Pack and new Scat Pack Widebody are fed by the 485-horsepower, 475 lb-ft of torque 392 HEMI® V8 engine. Scat Pack models feature big Brembo® brakes, 3-Mode Electronic Stability Control (ESC)¹* with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20-inch by 9-inch aluminum wheels, and available cold-air induction to help you use that power responsibly.

Scat Pack Widebody features its own upgraded, specially tuned suspension with three-mode (Auto, Sport and Track) Bilstein adaptive damping and 20-inch by 11-inch wheels. The result is unthinkable levels of lateral grip, acceleration and braking, delivering the premium handling. Massive 15.4-inch Brembo two-piece brake rotors with 6-piston front calipers deliver tremendous stopping power, heat management and longevity, producing 60 - 0 stops in 107 feet. The numbers Scat Pack Widebody yields tell an impressive

//// Charger Scat Pack Widebody shown in Pitch Black.

*About this brochure: all disclosures can be found on the last page.

story: 0 - 60 mph in 4.3 seconds, quarter-mile in 12.4 seconds ET and 0.98g lateral grip on the skid pad.

Charger Scat Pack interior boasts standard race-inspired seats complete with embroidered Scat Pack Bee logo (standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts). Every Scat Pack model includes Dodge SRT® Performance Pages that feature everything from Launch Control to a g-force meter to drag-race timers. This real-time data can also be accessed on either the standard 7-inch reconfigurable digital display housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive Modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC¹ tuning and suspension firmness (if equipped with Adaptive Damping Suspension).

SUPERCHARGED

HEMI[®] V8 ENGINE

707-HP

A close-up, low-angle shot of a supercharged HEMI V8 engine. The image is dominated by the metallic, ribbed surface of the supercharger cover, which is illuminated from the side, creating strong highlights and deep shadows. Below the cover, various engine components like hoses and a red bracket are visible in a dark, moody environment. The overall aesthetic is industrial and high-performance.

////// Charger Scat Pack shown in TorRed with available Daytona Edition and Charger Scat Pack Widebody shown in Frostbite with available Satin Black-painted hood.

////// TRACK-PROVEN TUNED CHASSIS High-demanding track conditions require tightly engineered hardware. This is why Charger Scat Pack boasts a high-performance tuned chassis.

////// SHOCK ABSORBERS Available Bilstein® high-performance shock absorbers are precision-damped to help provide a confident, smooth ride for the typical commute while still being capable for weekend track duty.

////// SUSPENSION Options range from sport-tuned to high-performance to the top-of-the-line competition suspension featuring adaptive damping. A bold combination of movement and staying power comes from a sophisticated suspension geometry and Rear-Wheel Drive (RWD). Whether it's the everyday motoring or more challenging driving situations, the independent 5-link rear suspension is finely tuned to help provide exceptional handling and a comfortable ride. When the rubber meets the road, a lower unsprung mass helps maintain optimal tire contact with the ground and minimizing road noise. The potent Scat Pack Widebody combines excellent balance, tight cornering ability and responsive steering to achieve 0.98g on the skid pad. The Bilstein Three-Mode Adaptive Damping Suspension (standard on all SRT Hellcat® models; available on Scat Pack) offers different suspension firmness settings from Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest max handling).

////// AGGRESSIVE FRONT- AND REAR-CAMBER GEOMETRY Performance handling requires maximum road-holding grip, and Charger Scat Pack models deliver with aggressive front- and rear-camber geometry.

///// Charger SRT Hellcat® Widebody shown in White Knuckle with available dual stripes in Carbon.

HERE'S WHAT YOU CAN DO:

REMAIN FOCUSED ON THE ROAD WITH YOUR HANDS ON THE WHEEL WHILE YOU COMMUNICATE, NAVIGATE AND STAY ENTERTAINED.

// **LISTEN** to music, talk shows and sports. Access all genres, favorite artists, winning teams – all the time – with available SiriusXM[®] Radio² // **CONNECT** you and your passengers with available built-in 4G LTE Wi-Fi Hotspot³ connectivity // **SPEAK UP** and be heard, send and receive calls and texts⁴ (not compatible with iPhone[®] mobile devices) while driving safely with hands-free phone capability⁵ // **NAVIGATE** to every adventure with this available system, get turn-by-turn directions so you don't get lost on the way (unless you want to) // **START**⁶ your car from afar, or lock your doors from almost anywhere using your smartphone – thanks to Uconnect[®] plus SiriusXM Guardian^{TM7} services // **SEE** into the future, hear weather and traffic reports with a five-year trial subscription to SiriusXM Travel Link² and SiriusXM Traffic Plus.²

APPLE CARPLAY^{®8} COMPATIBILITY

This is smart iPhone[®] integration, so you'll experience your favorite features through your dashboard. With Siri,⁹ all you have to do is ask – catch up on calls and messages, get directions from Apple Maps, or request a song through Apple Music. The system lets you browse music or discover nearby gas stations, parking, restaurants and more. Plus, Maps helps predict where you're headed.

ANDROID AUTO^{TM10} INTEGRATION

For those who know and love Android,TM Android Auto¹⁰ brings your favorite smartphone apps into one place, making it easy for drivers to access their favorite navigation, media and communication apps on the road while minimizing the distractions. Stay focused on the road while you plan your day with the Google Assistant, get voice-guided navigation with Google Maps and listen to your favorite songs on Google Play Music.

androidauto¹⁰

Apple CarPlay[®] integration shown above.

WARNING: WILL
INDUCE ENVY.

////// Charger Scat Pack shown in Pitch Black.

YEAR-ROUND //

ACTION

ADVANCED ALL-WHEEL DRIVE // Charger doesn't hide out in the garage just because Mother Nature is in a mood. Available All-Wheel Drive (AWD) delivers prompt control when and where it's needed. The advanced automatic Active AWD System intuitively and seamlessly transitions between Rear-Wheel Drive (RWD) and AWD without driver intervention. Under normal driving conditions, power to the front wheels is disengaged and 100 percent of the engine's torque is directed to the rear wheels. When sensors indicate more traction is needed, the system automatically engages the front wheels and instantly transitions to AWD mode. These systems work with the vehicle's Electronic Stability Control (ESC)¹ system to deliver precise front-to-rear torque control while preserving unrelenting drive.

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA¹¹ // This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

PARKSENSE® REAR PARK ASSIST¹² // When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Standard.

BLIND SPOT MONITORING (BSM)¹³ **WITH REAR CROSS-PATH DETECTION**¹¹ // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons in the sideview mirrors and by audible chime. The system includes Rear Cross-Path Detection,¹¹ which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of parking spots or driveways. Available.

ADAPTIVE CRUISE CONTROL (ACC)¹⁴ // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead, and can bring the vehicle to a full stop without driver intervention. Available.

FULL-SPEED FORWARD COLLISION WARNING WITH ACTIVE BRAKING (FSFCW)¹⁵ // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will automatically engage the brakes with the ability to bring the vehicle to a complete stop. Available.

LANESENSE® LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST¹⁶ // This system measures your position within lane boundaries. If it detects an unintentional lane drift, it will alert you and correct the vehicle back into the lane. Available.

ELECTRONIC STABILITY CONTROL (ESC)¹ // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC¹ senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC¹ pump to precharge the brake system in order to decrease the time required for full brake application. Standard.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

[1] Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. [2] SiriusXM Satellite Radio, SiriusXM Traffic and SiriusXM Travel Link each require a subscription, sold separately or as a package, by SiriusXM Radio Inc. **If you decide to continue service after your 12-month trial included with the new vehicle purchase, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then current rates.** Trial service is not transferable. Fees and taxes apply. Please see the Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes calling SiriusXM at 1-866-635-2349. All fees and programming are subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. [3] Three-month/1GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See dealer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. [4] Voice Texting feature requires a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit www.UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check www.UconnectPhone.com for device compatibility. [5] The Uconnect Phone requires a mobile phone equipped with the Bluetooth Hands-Free Profile. To check phone compatibility, please visit www.UconnectPhone.com. [6] Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. You must have an active subscription to SiriusXM Guardian in order to use remote services. See Terms of Service for limitations. [7] All SiriusXM Guardian equipped vehicles come with a 12-month trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States and Puerto Rico. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. [8] Requires compatible iPhone. See dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a registered trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. [9] Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. [10] To use Android Auto on your phone screen, you'll need an Android phone running 5.0 or higher and the Android Auto App. Android and Android Auto are trademarks of Google LLC. [11] Always check entire surroundings visually before proceeding. [12] Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. [13] Always check visually for vehicles prior to changing lanes. [14] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [15] This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [16] This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. [17] Mopar Performance Parts are sold "as is" unless otherwise noted. [18] This system is an alert system for the front of the vehicle. It is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [19] Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. [20] Always sit properly in designated seating positions with seat belts securely fastened at all times. [21] Vehicle must be locked and system activated for alarm to sound. [22] Visit Mopar.com for complete details and a copy of the Powertrain Limited Warranty.
