

the **'61 LARK** with
PERFORMABILITY

SAFETY PADDED DASH on all Studebakers protects against bumps, avoids sun glare. New sports car-type instrument panel is easy to read at a glance. Really roomy glove box is 14" wide; door opens out flat, has 4 cup-holding receptacles.

GET IN AND OUT WITH EASE! The Lark's generous headroom, extra-wide doors, flat floors and flush doorills make it the easiest of all compacts for entry and exit.

THE NEWSMARKING SKYTOP sunroof option (at left). Weather-tight vinyl top slides back with a flip of one hand, opens up a new world of sun and fun!
