1-800-GMC-8782

Shown: Yukon XL, in Indigo Blue Metallic with some optional equipment.

Forget all the assumptions about the handling limitations of a full-size SUV. GMC's engineers established new benchmarks when they developed the 2002 Yukon® and Yukon XL. With a tight turning radius and seating for up to nine people, they designed a full-size SUV that is highly flexible and maneuverable. It also has luxurious interior appointments and an interior spaciousness you may not have expected.

Shown: Yukon XL interior with available 2nd-row captain's chairs with some optional equipment.
