# Philosophy

**Exclusivity, individuality, craftsmanship.**  
**Concepts which have always been associated with Porsche.**

The Porsche Exclusive program stands for the individual personalization of your vehicle, direct from the factory. The possibilities are as diverse as your ideas. You tell us what you want and we will do our utmost to give it to you—provided, of course, that it is technically feasible and does not compromise quality.

When customizing a car, it is not enough just to use the best available materials. Our overriding principle has always been to make full use of the traditional skills of our craftsmen, carrying out the work by hand. Our specialists also have years of experience in the handcrafting of decorative hardwoods, enabling us to bring out the individual character of this superb material.

And what about Carbon Fiber? Lightweight and extremely durable. Expressing all the excitement of the racetrack. Or Aluminum? Brushed or high-gloss, this lightweight alloy accentuates the finer details of your Panamera.

Would you like to personalize the interior or exterior of your car?  
Your wish is our command.
