Faster Off The Line

Designed to deliver a consistent take off and maximise acceleration off the line, Fiesta ST is equipped with Launch Control. Set the maximum rpm for the engine and you can put your foot flat on the throttle whilst the car holds your desired rpm.

Unleash The Performance

The new Fiesta ST is more powerful, more responsive, and more fun to drive than ever before. A brand new 1.5-litre EcoBoost engine delivers 147kW² of power with 290Nm² of torque. Cylinder deactivation can improve efficiency for everyday driving, helping you save fuel. And the introduction of a mechanical limited-slip differential enhances traction and control when you need it most.

Drive Like A Pro

The Performance Shift Light is designed to optimise your gear shifts and improve performance. This red-coloured ST logo is perfectly positioned in the rev counter and it illuminates to let you know the best time to shift gears.

Sees The Road Signs You Might Miss

Whether the signs are at the side of the road or above it, permanent or temporary, Speed Sign Recognition can identify them. An icon of that speed or no-overtaking sign appears on the instrument cluster and changes every time you enter a new limit or restriction.

BUILT TO PERFORM

1. The 1.5L EcoBoost must be filled with 95RON (or E10) as a minimum. 2. All performance data for petrol models measured using 98RON fuel. 3. Fuel consumption and emissions as per ADR 81/02 (combined cycle) and to be used for vehicle comparison purposes only. It is unlikely that these fuel consumption and emissions figures will be achieved in real world driving conditions. Actual fuel consumption and emissions will depend on many factors including the driver's habits, prevailing conditions and the vehicle's equipment, condition and use. 4. Capless refuelling with misfuel inhibitor. 5. Kerb Weight includes the vehicle with a full tank of fuel, without occupants, luggage or cargo and with all standard equipment. Additional weight of optional features must be taken into account when calculating kerb weight. Vehicle dimensions/weights are approximate and subject to individual variances. Vehicles should be weighed before adding additional load, accessories or towing a trailer to ensure the maximum Gross Vehicle Mass (GVM) and Gross Combined Mass (GCM) are not exceeded. 6. When Panoramic Sunroof is optioned the Mini Spare Wheel is replaced with a Temporary Mobility Kit. 7. Apple CarPlay / Android Auto requires phone with compatible version of Apple iOS / Android™ (as applicable), active data service, and connection cable (sold separately). SYNC® does not control Apple CarPlay / Android Auto while in use. Apple / Google and other third parties are responsible for their respective functionality. Message and data rates may apply. Apple CarPlay, Siri Eyes Free, iPod and iPhone are trademarks of Apple Inc. registered in the US and other countries. Android Auto and Google Maps are trademarks of Google Inc. Ford Applink® is available on selected SYNC® models and is compatible with select smartphone platforms. Warning: Local laws prohibit some phone functions while driving. Check your local road rules before using these functions. 8. Bluetooth® is a registered trademark of Bluetooth SIG, Inc. and is under license. Some phones not compatible. 9. Traffic Message Channel is currently provided through an arrangement with Intellematics Australia Pty Ltd (Intellematics). The ongoing provision of this feature cannot be guaranteed if Ford's arrangements with Intellematics cease for any reason. 10. Not all SYNC® and SYNC®3 features are compatible with all phones. For compatibility, see ford.com.au/sync. 11. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. May not operate in some driving and road conditions (including at certain speeds) or adverse weather. 12. AEB with Pedestrian and Cyclist Detection operates at speeds between 5km/h and 80km/h. 13. Dynamic Stability Control also known as Electronic Stability Control. 14. Emergency Assistance feature needs a paired and in range mobile phone. Can activate in the event of a crash which deploys an airbag or activates the fuel pump shut off.
