FOR THOSE WHO DRIVE THE WORLD

EXTERIOR DESIGN

A NEW HORIZON

A thin light strip positioned below the Chrome band stretches across the entire width seamlessly connecting the tail lights. This gives the vehicle a highly distinctive and modern appearance.

WIDE STANCE, EXCEPTIONAL PRESENCE

The rear of the BMW 7 Series is extremely wide and self-confident on the road. A Chrome trim around the tailpipes with horizontal connection creates a particularly elegant appearance, while the sharp contouring of the sides emphasises the sportiness of the vehicle.

SLIM DESIGN, MAXIMUM EFFECT: THE HEADLIGHTS

The precisely designed front headlights extend into a clearly flattened curve towards the Kidney grille. Decorative lines on the sides of the standard BMW Icon Adaptive Headlights emphasise their depth and high quality.

ELEGANT SILHOUETTE

On the side, the vertical Air breather emphasises the presence of the BMW 7 Series. From here, a Chrome trim down the side, beginning vertically and extending beyond the rear wheel arch. It also underlines the elongated, elegant side view of the BMW 7 Series.

INTERIOR DESIGN

EXECUTIVE LOUNGE SEATING

The Executive Lounge Seating, available as optional equipment, provides the passenger seated behind the front passenger with a high degree of comfort thanks to maximised leg room. The seat and backrest angle can be adjusted to create a comfortable relaxation position. An electrically extending footrest on the front passenger backrest increases comfort even further. Only available on long wheelbase models, as part of Rear Seat Comfort Plus Pack or Ultimate Pack.

SKY LOUNGE PANORAMIC GLASS SUNROOF

The Sky Lounge Panoramic glass sunroof, available as optional equipment for long wheelbase models, has integrated LED light graphics that provide a colourful, atmospheric and luxurious light setting. Six pre-defined colours can be selected, as per the ambient light colour setting selected in the iDrive menu, to create an atmospheric mood at night. The graphic surfaces are barely visible in daylight. Also included within optional Ultimate Pack.

ELECTRIC SUNBLINDS FOR REAR WINDSCREEN AND REAR SIDE WINDOWS

The optional Electric sunblinds for the rear windscreen and rear side windows provide protection from direct sunlight and help to keep the interior from heating up too quickly. An ambient highlight in White is also included in the rear doors. Light intensity can be controlled via a capacitive touch sensor or via the light setting in the optional BMW Touch Command, this function is exclusively available for long wheelbase models. Only available with the electric sunblind for the rear windscreen. Also included within optional Ultimate Pack.
