

New for 2021
750HP
V8 SUPERCHARGED
ALL-WHEEL DRIVE

SYCLONE™

WARNING: This vehicle produces excessive amounts of horsepower. Horsepower is addictive and can cause heart palpitations, feelings of exhilaration and euphoria.

V8 SUPERCHARGED SYCLONE,

an All-American

MOST TRUCKS ARE MADE TO HAUL STUFF.
THINK OF THE 2021 SYCLONE™ AS A **SUPER
TRUCK** THAT HAULS ASS!

NOW IN THE SPIRIT OF THE LEGENDARY
1ST GEN. GMC SYCLONE, SPECIALTY
VEHICLE ENGINEERING INTRODUCES
THE 2021 LIMITED EDITION V8
SUPERCHARGED SYCLONE™ WITH
FULL TIME ALL-

WHEEL DRIVE.
BASED OFF THE
2021 CANYON
EXTENDED CAB/
SHORT BED TRUCK,
AND AVAILABLE
IN ANY FACTORY
COLOR, THESE
750HP SUPER-
CHARGED SUPER
TRUCKS WILL GO VERY
FAST, LITERALLY!

ONLY **50** 2021 GMC
CANYON-BASED **750HP**
SYCLONE™ SUPER
TRUCKS WILL BE
BUILT.

Mid-size Super Truck!

750HP,

that's how much power this 5.3L V8 engine delivers (600 lb. ft. of torque) and features a blueprinted L83 aluminum block; computer-balanced, race-quality rotating assembly including forged 1538MV twisted steel crankshaft; forged H-beam rods; forged aluminum pistons; modified L83 high flow cylinder heads with ARP high-strength head and main studs; our own OEM-quality centrifugal supercharger with a 33% larger 8-rib belt drive system; an upgraded high and low pressure fuel system with high-flow injectors; state-of-the-art high efficiency air-to-water intercooler system; and custom stainless steel exhaust system with high-flow cats.

A Super Truck with SYCLONE

NEED TO HAUL WITH A SENSE OF URGENCY? THIS EXTENDED CAB, SHORT BED PICKUP TRUCK ON STEROIDS IS MORE THAN UP TO THE TASK.

THE SUPER TRUCK IS NOT A NEW IDEA HOWEVER THIS SYCLONE™ VERSION COULD EASILY QUALIFY AS THE FASTEST LIMITED* PRODUCTION MID-SIZE PICKUP TRUCK IN THE WORLD.

* ONLY 50 2021 GMC CANYON-BASED 750HP SYCLONE™ PICKUP TRUCKS WILL BE BUILT.

- 1 Includes high-performance brake upgrade including 6-piston forged front calipers (red with black SYCLONE lettering and two-piece 13.6" slotted front rotors, rear factory calipers painted red.
- 2 To provide an aggressive low-rider look, the 2021 SYCLONE™ includes our sport suspension system that lowers the truck 2" in front and 5" in the rear, and includes higher-rated front and rear performance shocks.
- 3 **Optional** 4:10 front and rear axle gears
- 4 Includes heavy-duty rear sway bar assembly and heavy-duty traction bars and bushings help control acceleration.

WE *Attitude!*

Lower cladding featuring OE-quality high impact composite rocker panel extensions painted in gloss finish body color

SYCLONE 3-dimensional OE-quality composite door badges in gloss red

Unique 6-spoke 20" x 10" front and rear wheels are machined from aircraft quality aluminum forgings for maximum strength and lightest weight possible (significantly lighter than 20" factory wheels) reducing the unsprung weight to significantly improve the handling of the truck. Includes SYCLONE logo on one spoke and SYCLONE "S" centercaps. Wheels are available satin black finish with red line stripe.

Nitto NT420V 275/45R20 Front and Rear Performance Tires

V8 SUPERCHARGED SYCLONE™

from the **#1** GM Specialty
Vehicle Manufacturer!

For more than 25 years, Specialty Vehicle Engineering (formerly SLP) has been a Second Stage Vehicle Manufacturer and Tier One Supplier to GM and its dealers, having built over 55,000 cars, trucks, and SUV specialty vehicles; **making us the #1 GM Specialty Vehicle Manufacturer in the USA!**

Exterior Content (standard unless otherwise noted)

- 1 Hood insert manufactured from OEM-quality high-impact composite material comes standard in body color with flat black lovers. Includes OE-quality chrome and red 750HP hood badges. Black finish upper door chrome moldings (shown at left)
- 2 **Optional** body color painted front grille
- 3 Forged aluminum alloy 20" x 10" 6-spoke wheels in black satin finish with red line stripe, red SYCLONE graphics on one spoke, S centercaps, and Nitto NT420V 275/45R20 front and rear performance tires.
- 4 Lower cladding featuring OE-quality high impact composite rocker panel extensions painted in gloss finish body color (shown with included traction bar)
- 5 SYCLONE 3-dimensional OE-quality composite door badges in gloss red
- 6 **Optional** folding tonneau cover (black only) BAK-FLIP MX4 by BAK INDUSTRIES

Performance Upgrades...

...For the Worlds Most Powerful Limited Production Mid-Size Truck!

Not only did we swap in a V8, we supercharged it, provided the beefiest, fastest shifting transmission available, and included AWD. Yes, you read that correctly; **FULL-TIME ALL-WHEEL DRIVE!** We thought it was only fitting to include all of these great performance features to maintain the SYCLONE's iconic image. Since the V8 L83 engine is almost identical in weight to the V6, it doesn't change the vehicle weight distribution.

Rods/Pistons

Forged lightweight pistons machined from aircraft-quality high strength 2618 aluminum, with race-quality "H" Beam 4340 forged steel connecting rods, all robust enough to deliver long service life and maximum horsepower.

5.3L Engine

The heart and soul of the SYCLONETM is the fully blueprinted, supercharged 5.3L aluminum L83 V8 engine. It includes an aluminum L83 block, forged 1538MV twisted steel crankshaft, forged steel rods and aluminum pistons, ARP high strength head and main studs, custom ground camshaft, upgraded L83 cylinder heads with high lift valve springs, upgraded high and low pressure fuel system and injectors, high-output centrifugal supercharger, custom stainless steel true dual exhaust with high-flow cats, and custom performance calibration.

Transmission

In order to handle the raw power of the supercharged V8 engine, we utilized a completely upgraded 8L90E automatic transmission and custom high-stall torque converter that offers greater performance, reliability, and efficiency than any other transmission.

Heavy-Duty Driveshafts

We include HD Front and Rear Driveshafts to transmit all of that power to the wheels.

Engine Cover

Custom SYCLONE AWD V8 Supercharged engine cover included.

Air-to-Water Intercoolers

We utilize these massive air-to-water intercoolers to maximize the amount of heat pulled out of the air stream with virtually no pressure drop, instant throttle response, and no heat soak, resulting in maximum performance.

Transfer Case

The full time AWD transfer case is the key to the neck snapping acceleration the SYCLONE provides.

The Torque in the transfer case is split so that 62% of the power goes to the rear wheels and 38% goes to the front wheels. When traction is lost at either the front or rear wheels, the torque is biased up to 100% to the non-slipping wheels to maintain maximum traction.

Includes stainless steel true dual exhaust system w/black satin-finish tips

Includes SYCLONE 3-dimensional tailgate badge painted in flat body color

Includes chrome rear bumpers painted in gloss finish body color

Includes high-impact OE-quality composite bumper step-delete inserts painted in gloss finish body color

Includes 3-dimensional Specialty Vehicle Engineering badge and chrome and red 750HP badge on tailgate

The **optional** leather seat trim package features a leather surround with a leather insert, and is available in two colors to match the available factory interior colors.

The leather seat trim packages are accented by red and white stitching on black seats (1) and black and white stitching on Cocoa Dune seats (2), with the **SYCLONE** V8 Supercharged logo embroidered in red on the front headrests (stock headrests as well).

Ridin' in style!

- 1
- 2
- 3 Includes premium front floor mats with SYCLONE logo embroidered in red. Floormats available in Black or Cocoa Dune.
- 4 Each 2021 SYCLONE™ Supercharged Sport Truck includes a numbered (1-50) dash plaque and two numbered keyfobs displaying the HP and torque.
- 5 Includes faux leather bound portfolio, owner's manual, window sticker.

2021 750HP SYCLONE™ Content
