

THE NEW ŠKODA

OCTAVIA RS & RS 245

ŠKODA
SIMPLY CLEVER

WHAT IS IT ABOUT THE NEW OCTAVIA RS?

Power can't be measured with a stopwatch. Nor can it be fully evoked by pretty words. It's an emotion that can only be experienced by watching the world blur away at the mere press of your right foot. Enjoy the thrill of total power unleashed inside the new ŠKODA OCTAVIA RS – a genuine mean machine.

This car sets pulses racing even when standing still. With sporty styling and equally impressive LED headlamps, the racy intentions of the OCTAVIA RS are revealed as quickly as the horses rushing under its bonnet. And with optional 4x4, this car is truly in a class of its own.

The OCTAVIA RS is yet another example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

That's Simply Clever. That's ŠKODA.

UP TO 230 BEAUTIFUL HORSES

Mix the timeless aesthetics of the OCTAVIA with sporty styling and you get the OCTAVIA RS. Its impressive look is backed up with a sporty chassis and its functionality is underlined with ingenious exterior elements.

FRONT VIEW

The car can be easily identified by the RS badge on the front grille as well as the ferocious sports expression lent by the full LED headlamps and LED fog lamps in RS design.

LED REAR LIGHTS

The rear lights,

with familiar

C-shaped illumination,

are always equipped with LEDs

as well as the lighting of the

registration plate.

5TH DOOR SPOILER

The liftback version features

a 5th door

spoiler,

which increases

the stability of

the vehicle at faster speeds.

WHEELS

The choice of wheels is a question of your individuality. The alloy wheels are available from 17" up to the 19" Xtreme as an attractive option.

EXHAUST PIPE

The exhaust pipe end pieces in chrome finish further accentuate the

sporty look of the car.

COCKPIT COMFORT

While the driver enjoys the atmosphere of the sports cockpit, passengers indulge in maximum comfort.

DRESS CODE: SPORTY

Exceptional space meets sporty design in the interior, which comes in exclusive black styling. While numerous details make every journey more pleasurable, the original RS logo on the steering wheel, seats and gear stick knob accentuates the thrill-seeking nature of the car.

AMBIENT LIGHTING
The attractive interior of the RS version is even more beautiful when the ambient lighting (with ten appealing colour options) comes on.

SPORTS STEERING WHEEL
The sports multifunctional steering wheel in perforated leather lets you control the radio and phone with digital voice enhancement and alternatively the DSG (Direct Shift Gearbox). It can be also equipped with heating function, controlled via the infotainment system.

SEATS
The sports front seats feature integrated headrests. The original RS logo is embroidered on the backrests. The upholstery in a combination of Alcantara®/leather with grey or red stitching (see photo) is optional. Equally interesting is the combination of fabric/Alcantara®, which comes as standard.

PEDAL COVERS
The noble steel foot pedal covers are stylish plus enhance the driver's comfort.

DOOR SILL STRIPS
The decorative door sill strips in the front carry an original RS inscription.

CONNECT WITH ŠKODA CONNECT

Being online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA CONNECT is your gateway to a world of unlimited communication possibilities.

WEATHER

Get the latest weather report for your current location or destination, with detailed forecasts, including precipitation predictions and warnings.

WEATHER

Get the latest weather report for your current location or destination, with detailed forecasts, including precipitation predictions and warnings.

ŠKODA CONNECT

The unique ŠKODA CONNECT interface includes two categories of services. While Infotainment Online delivers navigation and information in real time, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers an assistance service for any situation that needs it.

ONLINE TRAFFIC INFORMATION

Always take the best route! Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents or traffic jams.

PARKING POSITION

Retrieve the pinpoint location of your car in large parking areas from anywhere on your mobile phone, with the address, time and date of parking displayed.

EMERGENCY CALL

The ŠKODA CONNECT services include a dedicated SOS line. This emergency system is activated by pushing a red button located on the roof above the front seats. In case of a crash, the emergency call is made automatically.

MY ŠKODA APP

Meet Paul, the interactive assistant of the MyŠKODA App (for Android or iOS systems), who can be helpful in various daily situations. You can use him to access information about your car or for a complete description of what controls what, what each indicator lamp means, etc. Paul can also keep an eye on the dates in your planner. Not only will you never forget a meeting, but your assistant will also advise you on how to get there.

SMARTLINK+

With the SmartLink+ (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay and Android Auto), the car's infotainment system enables the driver to safely use the phone while driving. The SmartLink+ system also includes the SmartGate function. It enables you to connect your smartphone to the car via WiFi to access interesting data about your drive, like driving economy, driving dynamics or service information.*

* Visit our website for usage terms and compatibility information for SmartLink+.

YOU'LL NEVER DRIVE ALONE

Various active and passive assistant systems ensure that every drive in the OCTAVIA RS is safe and totally hassle-free. These assistants allow you to respond promptly to whatever the road throws at you.

FRONT ASSIST WITH PREDICTIVE PEDESTRIAN PROTECTION
The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including automatic slowing down and braking. The new OCTAVIA RS comes with Front Assist expanded with predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

ADAPTIVE CRUISE CONTROL
Besides the basic cruise control function, the ACC maintains a safe distance from vehicles in front of you. It uses a radar device in the front grille.

TRAILER ASSIST
Do you need to park your car with a trailer? Trailer Assist makes your parking manoeuvres easier and safer. This system takes control of the car when reversing slowly.

BLIND SPOT DETECT
Using radar sensors in the rear bumper, Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

EXHILARATION ON THE ROAD

The OCTAVIA RS uniquely combines a dynamic driving experience with a comfortable family vehicle. And thanks to the excellent driving characteristics of the car, you can fully, yet safely, use the whole potential of the engine.

PERFORMANCE MODE SELECT
The car features Performance Mode Select, which includes the Performance Sound Generator function allowing the sound of the engine in the cabin to be set to the normal, eco or sport mode.

PERSONALISATION OPTIONS
The infotainment system allows different drivers to create their own individual preferences. These include, for example, setting the driving mode, the electrically-adjustable driver seat, air conditioning, radio and navigation system. A personalised car is provided with three keys. When the key is used to unlock the car, the functions are automatically adjusted to the driver's saved settings.

4x4
The intelligent 4x4 drive represents a very interesting alternative. Under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions, the excellent traction of the 4x4 drive.

INSTRUMENT PANEL
The attractive Maxi DOT colour display offers a LapTimer function, which further adds to the feel of a sports drive experience. The driver will also appreciate the clearly legible white interface.

ENGINES
Each OCTAVIA RS has a sporty heart, no matter which engine you choose. Our offer for the basic RS level includes 2.0 TSI/169 kW (petrol) and 2.0 TDI/135 kW (diesel), which is also available with 4x4 drive.

WHAT IS IT ABOUT THE NEW ŠKODA OCTAVIA RS 245?

IS IT THE POWER?

IS IT THE LED HEADLAMPS?

IS IT THE 19" XTREME
WHEELS?

EMPEROR AMONG KINGS

The OCTAVIA RS 245 represents the most powerful level of achievement. Its sporty design is accompanied with extraordinary comfort. However, what makes the vehicle absolutely exceptional is what lies under the bonnet: a 245hp petrol engine. In addition, the car is equipped with the active Electronic Differential Lock of the front axle. It maximises traction, reduces understeering and adds agility.

OCTAVIA RS 245

BLACK COVERS

The black external side-view mirror covers are another characteristic detail of the RS 245 version.

FRONT VIEW

The dynamic front features a front grille frame in glossy black colour as well as the specific RS badge.

SEATS

The comfortable upholstery in a combination of Alcantara®/leather is adorned with red or grey stitching. And, naturally, the backrests are decorated with the RS logo.

WHEELS

The exclusive 19" Xtreme alloy wheels in black colour further enhance the strong impression.

EXHAUST PIPE

The exhaust pipe end pieces in glossy black finish have been specially tuned to produce the engine's characteristic sporty sound.
