THE 2021 CAMRY

Built for the real you.

Beautiful in ways you can't even imagine.

Everything about the restyled 2021 Toyota Camry has been designed to help you get the most out of every road you travel. From its updated sleek, sophisticated lines, to its powerful and engaging drive, right down to the smart, thoughtful technologies that are seamlessly integrated throughout. The Camry leaves you with one distinct impression: this car is destined to bring you so much more.

2021 CAMRY

EXTERIOR DESIGN

Leave a lasting impression.

From every angle, it's so much more.

The 2021 Camry features sweeping curves and chiselled surfaces that aren't just for looks; they actually help redirect airflow to enhance efficiency and performance. From its restyled front fascia to its elegantly sculpted silhouette, the stunning style and craftsmanship are almost too beautiful to resist. If you're looking for a little edge, the XSE, SE, and TRD V6 models feature a sleek, lower roofline, honeycomb grille, side vent inserts, and rear spoiler, while the AWD Nightshade Special Edition includes aggressive 18-inch black wheels, black accents and exclusive badging.

2021 CAMRY

INTERIOR STYLING

Putting you front and centre.

The driver's seat never felt better.

As stunning as the Camry looks from the outside, you'll be floored by how it feels on the inside. Graceful, fluid interior lines and refined materials create a sporty, driver-oriented cockpit that literally wraps around you. In fact, you could say that it fits both your needs and desires. The dash was redesigned to provide both driver and passenger with easy access to the centre controls, while offering improved visibility to the road ahead. The seats are distinctively shaped with available leather trim and contrast stitching, and placed lower to create a generous interior space. The rear seats feature the same dynamic and supportive design as the front seats. Such finely-crafted details put a premium on everyone's comfort.

Tech that takes you further.

INTUITIVE FEATURES

Camry offers a host of tech-focused features including 7-inch touch screen display, Apple CarPlay™¹ and Android Auto™¹ compatibility, TFT Multi-Information Display, as well as available Qi Wireless Charging, 10-inch Head-Up Display, and Intelligent Clearance Sonar with Rear Cross-Traffic Brake.

BIRD'S EYE VIEW CAMERA

The available Bird's Eye View Camera gives you a live, 360-degree view of your vehicle's surrounding area. This advanced feature helps you locate nearby objects, so you can park with more confidence than ever before.

CONNECTED SERVICES BY TOYOTA¹

Staying connected has never been easier with a suite of available connectivity features including Remote Connect, Safety Connect®, Service Connect, and Destination Assist to help enhance your driving experience.

ENERGY MONITOR

Tracking your efficiency is easy with Camry Hybrid's energy monitor. As driving conditions change, the monitor uses both the multimedia display and available Head-Up Display to show you how power is being routed to the drive wheels or how otherwise wasted energy is captured to charge the battery.

PERFORMANCE

Driving excitement, standard.

Discover a ride like no other.

The 2021 Camry injects a level of driving excitement into the category. Its strong, lightweight body offers exceptional handling, while its low, wide stance delivers a responsive feel that puts you in command of the vehicle and the road. The multi-link rear suspension delivers a smooth ride and sharp handling so you can take on any trip, from crosstown to cross-country. And whether you choose the 3.5-litre V6, the 2.5-litre 4-cylinder gasoline engine, or Camry Hybrid's 2.5-litre engine, you get remarkable power, enhanced fuel efficiency, and exceptional driving response to conquer every twist and turn.

[Click to Learn More](#)

2021 CAMRY

PERFORMANCE

Go the distance.

ALL WHEEL DRIVE

For driving on Canadian roads, Camry is equipped with an available Dynamic Torque Control AWD system that distributes engine power from front-to-rear, giving the driver maximum control on a variety of surfaces.

PADDLE SHIFTERS

When the drive takes a spirited turn, Camry's available steering wheel-mounted paddle shifters give you the power to shift gears manually for a more controlled experience. They make extremely fast shifts possible with a precise, responsive feel.

SPORT/ECO/EV MODE

Camry Hybrid's Sport Mode improves throttle response, while ECO Mode adjusts throttle input to maximize efficiency. EV Mode enables electric driving to help reduce noise and emissions. More choices give you a more customized drive.

SAFETY

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™² (TSS) 2.5+ is always there to help keep you – and those around you – as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2021 Camry, and is designed to help protect drivers, passengers, pedestrians, and people in other vehicles with road accident prevention.

PRE-COLLISION SYSTEM WITH PEDESTRIAN & BICYCLE DETECTION³

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. The latest system introduces Left Turn Intersection Support which may detect oncoming vehicles when performing a left turn at an intersection and provide automatic braking in certain conditions. The system may also detect oncoming pedestrians when turning left or right and provide automatic braking in certain conditions as well. The PCS system in TSS 2.5+ is also enhanced with the new Emergency Steering Assist feature that is designed to stabilize the driver's emergency steering maneuver and correct the vehicle's trajectory when avoiding a pedestrian, bicyclist or another vehicle.

AUTOMATIC HIGH BEAMS⁴

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

STANDARD TOYOTA SAFETY SENSE™

LANE DEPARTURE ALERT WITH STEERING ASSIST⁵ & ROAD EDGE DETECTION

Alerts you if you start to drift out of your lane when visible lane markings or the road edge is detected. The Steering Assist function may also provide small corrective steering inputs.

FULL-SPEED RANGE DYNAMIC RADAR CRUISE CONTROL⁶

Dynamic Radar Cruise Control (DRCC) uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a pre-set distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. DRCC receives the Curve Speed Management function in TSS 2.5+. This system will automatically decelerate when driving through a curve if required and return the vehicle to the preset speed after passing the curve.

LANE TRACING ASSIST⁷

Provides steering support to help the driver keep the vehicle centred in its lane when Dynamic Radar Cruise Control is in operation. Lane Tracing Assist performance has been enhanced in TSS 2.5+.

— NEW VEHICLE WARRANTY COVERAGE —

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages:

BASIC

36 months/60,000 kms whichever comes first (all components that are defective in material or workmanship excluding normal wear and maintenance items).

36 MONTHS
OR
60,000 km

HYBRID-RELATED COMPONENT COVERAGE

Hybrid-related components, including the battery control module, hybrid control module and inverter with converter, are covered for 96 months/160,000 kms.

96 MONTHS
OR
160,000 km

HYBRID BATTERY

HV battery is covered for 120 months/240,000kms, whichever comes first. Warranty coverage is subject to terms and conditions.

120 MONTHS
OR
240,000 km

POWERTRAIN

60 months/100,000 kms, whichever comes first (engine, transmission/transaxle, drive system, seatbelts and airbags).

60 MONTHS
OR
100,000 km

CORROSION PERFORATION

60 months/unlimited kms (corrosion perforation of sheet metal).

60 MONTHS
OR
UNLIMITED km

EMISSIONS

Coverages vary under Federal and Provincial regulations.

REFER TO APPLICABLE OWNER'S MANUAL SUPPLEMENT FOR DETAILS.

— D I S C L A I M E R S —

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges.

(2) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended.

(3) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian and Bicycle Detection system is designed to detect a pedestrian and bicyclist ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians and bicyclists, driver input and weather, light and road conditions. Do not overly rely on the Intuitive Intersection Support system. Always visually confirm that it is safe to proceed. System may not operate depending on the traffic conditions and intersection configuration. Intersection Support will NOT detect pedestrians crossing the road in the same direction as the vehicle. Emergency Steering Assist may not operate if an oncoming vehicle or an obstacle that would prevent a safe evasive maneuver are detected.

(4) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off.

(5) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving.

(6) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions.

(7) Lane Tracing (Trace) Assist (LTA) is designed to read visible lane markers and detect other vehicles under certain conditions. When potential lane departure is detected, LTA provides a visual warning and either an audible alert or vibration in the steering wheel and can apply a slight steering force. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions.

(8) Not all exterior and interior colour options are available for every model.

(9) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
