

**DUAL-GHIA styling and body assembly by Italian craftsmen—
Power plant and running gear of standard American components**

Styling treatment and careful body assembly are handled exclusively by Ghia of Torino, Italy. Through the introduction, in final assembly in the U.S., of standard American running gear, this is the only sports convertible of its kind that is completely serviceable by American service and replacement parts.

**DUAL MOTORS

DUAL-GHIA—beauty in motion from hand formed steel

Parts for the beautiful Dual-Ghia body, which is of steel, are hand formed over aluminum dies. The sub assemblies are welded together, making a one piece integral body with frame.
