**A Note On Child Safety** Children generally are safer if they are secured in a rear seat using the appropriate child safety seats and restraints, which is why General Motors recommends that child safety seats be properly secured in the vehicle's rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner's Manual and child safety seat instructions for more safety information. Always wear safety belts, even with air bags.

#### Jimmy Has Many Standard Safety Features, Including:

**Occupant Protection Equipment.** Lap/shoulder belts, rear outboard. Driver and front passenger air bags. Child security door locks, rear doors. Child comfort guides, rear outboard shoulder belt. Safety belt cinch capability for child seats. Power window lock-out, rear door windows. Side door guard beams.

**Crash Avoidance Equipment.** Four-wheel antilock brake system. Brake/transmission shift interlock. Automatic ignition-activated halogen headlamps. Daytime Running Lamps. Tires with built-in tread wear indicators. Audible brake lining wear indicators with front disc brakes. Side window defogger, front. Tinted glass windshield.

**Theft Deterrence Equipment.** Content theft alarm. Laser-etched VIN plate. Marked body parts. Single two-sided key system. Passlock theft deterrent. Remote hood release. Remote rear hatch release.

**Trailerling With Your Jimmy** Jimmy is built strong and durable to handle the demands of towing. Certain equipment that prepares Jimmy for trailerling is standard: power steering and brakes, a large fuel tank, a 100-amp alternator, a front stabilizer bar, transmission and engine oil coolers. For other available trailerling-related equipment, talk to your dealer. You'll need a hitch, of course, and a wide selection of hitch types is available. If you plan to tow frequently, you should equip your Jimmy with the available towing package (RPO Z82). This package includes a weight-distributing hitch platform and a heavy-duty eight-wire electrical harness. Also required with this package are a hitch ball, mounting head, and in some cases equalizing and anti-sway assemblies; these are available through aftermarket sources. If you have any questions about trailerling with a Jimmy, before you buy, feel free to ask your dealer for a copy of the GMC Trailerling Guide.

**Engines** GMC vehicles are equipped with engines produced by different operating units of General Motors, its subsidiaries or suppliers to General Motors worldwide.

**Tire Chains** Tire chains should not be used with P235/70R15 or P235/75R15 tires because they could damage your Jimmy.

**Off-Roading With Your Jimmy** When you go off-road, you should ensure your driving is appropriate to the vehicle and environment. Avoid sharp turns and abrupt maneuvers. Failure to operate vehicles correctly off-road could result in loss of vehicle control or vehicle rollover. When you are off-road, make sure that all cargo is properly loaded and secured. Whenever possible, use established trails, roads and other areas that have been set aside for public off-road recreational driving. And obey posted regulations. Don't drive on private property without the permission of the owner; in some states, you must have it in writing. Avoid any driving practice that could harm the environment or hurt wildlife, like wheel-spinning, breaking down trees, driving through streams or driving over soft ground. And never park your vehicle over dry grass or other materials that could catch fire from the heat of the vehicle's exhaust system.

**A Word About This Brochure** We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time and without notice, in prices, colors, materials, equipment, specifications, models and availability. Information may have been updated since the time of printing. Please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

**Assembly** GMC models and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to General Motors worldwide. We sometimes find it necessary to produce GMC models with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered, or, if there are changes, that they are acceptable to you. GMC regularly sends its dealers useful GMC product service bulletins. To obtain these bulletins, ask your dealer or call 1-800-GMC-8782.

GMC recognizes the importance of mobility to everyone's life and therefore offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to \$1000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers when installed or reinstalled on any eligible purchased or leased new GM vehicle. For details and free resource information, call 1-800-323-9935 (TTY users: 1-800-833-9935).

GMC is proud to be a partner in conservation with The Nature Conservancy, an organization dedicated to protecting the diversity of life on Earth. GMC contributes both money and trucks to support this worthwhile organization.

GMC backs your new vehicle with its no deductible, Bumper to Bumper limited warranty. The entire vehicle is warranted for repairs, including parts and labor, to correct problems in materials or workmanship, for three years or 36,000 miles, whichever comes first (except normal maintenance). The warranty covers towing to the nearest GMC dealership, and there is no deductible for warranty repairs during the warranty period. The warranty transfers automatically with vehicle ownership during the warranty period. GMCs are designed and built to resist corrosion. All body sheet-metal components are warranted against rust-through corrosion for six years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required, and none is recommended. See your GMC dealer for terms and conditions of these limited warranties.

GMC supports the National SAFE KIDS Campaign®, a grassroots program dedicated to promoting child passenger safety.

Qualified approved customers can conveniently arrange GMAC® leasing and financing right at your GMC dealership. For more information, see your dealer or call 1-800-32-SMART.

The GM MasterCard gives you an important financial advantage, GM Card Earnings. GM Card Earnings can be used to purchase or lease a new GM car or truck (excludes Saturn, Saab, EVI). Card members receive 5% in earnings on any GM Card purchase — accumulating up to \$500 per account year. That's over and above any other discount or incentive. Call 1-800-8GM-CARD.
