**THE 2006 MERCURY MONTEGO.**

From a vehicle configuration that optimizes cabin space to a drivetrain that optimizes power utilization, Montego stands apart from ordinary automobiles. It is a beautiful example of possibilities realized.

## MUCH MORE THAN MOST.

With the help of sophisticated computer design technology, Mercury engineers have gone beyond what was once thought possible. For example, Montego offers more rear headroom and legroom than any other car in its class.\* Yet it also offers more trunk space than any other car in its class.\* Rear and front passenger seats fold to provide an abundance of load space. Both front seats are positioned high to allow a commanding view of the road. A unique response to an age-old need.

\*Standard five-passenger Large Car class.

## GO WITH THE FLOW.

Partner Montego's available all-wheel drive with the 203-hp V-6 and Continuously Variable Transmission (CVT), then make your move. Because the CVT changes drive ratios seamlessly, power flow is constant and silken. Because the all-wheel-drive system can help prevent a loss of traction, progress is confident and certain.

### **BACKSEAT BONUS.**

Montego's available Rear-Seat Entertainment System includes a DVD player with flip-down, seven-inch color LCD screen and two sets of wireless headphones.

### **WHERE IN THE WORLD.**

The available DVD-based Navigation System will keep you pointed in the right direction with turn-by-turn guidance.

### **TEST DRIVE THE 2006 MERCURY MONTEGO.**

Visit [Shopping Tools](http://ShoppingTools) at [mercuryvehicles.com](http://mercuryvehicles.com) to locate your nearest Dealer and schedule a test drive. Or, if you prefer, you can call 888-566-8888.

### **FASHION AND FUNCTION.**

With its wrap of satin-aluminum and leather trim, the Montego steering wheel is aesthetically pleasing. Switches for speed and audio controls are located on the steering wheel for easy access.

### **SWEET SOUNDS.**

Montego's available Audiophile® Sound System matches eight premium speakers with a subwoofer for brilliant concert-hall-quality performance. The system includes a six-disc in-dash CD changer with MP3 capability.
