

GMC

WE ARE PROFESSIONAL GRADE.™

2007 GMC CANYON

For almost 100 years, we have dedicated ourselves to understanding what people expect in a truck, and then worked to exceed those expectations. Our experience is apparent in the 2007 Canyon. It's a mid-size truck that combines power, comfort and cargo room.* It also features a wide range of advanced engineering, including a choice of powerful Vortec engines and innovative features such as a GM-exclusive available Eaton® automatic locking rear differential. Canyon — engineered to the highest standard: Professional Grade.

Canyon SLT Extended Cab in Sunburst Orange Metallic shown with available equipment.
*Cargo and load capacity limited by weight and distribution.

1 Cargo and load capacity limited by weight and distribution. 2 Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. 3 Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for additional details. 4 Gross Vehicle Weight Rating. When properly equipped, includes weight of vehicle, driver, passengers, cargo and optional equipment. 5 Available only on 2WD models with Heavy-Duty Suspension. 6 Included and available only with Value Leader Package. 7 Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the vehicle Owner's Manual and child safety seat instructions for more information. 8 Head-curtain side-impact air bags are designed to help reduce the risk of head injuries to outboard front- and rear-seat occupants during certain side-impact collisions. 9 Not available with five-speed manual transmission. 10 Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for system limitations and details. 11 Requires Power Convenience Package. 12 Standard on Regular and Extended Cab models. Available on Crew Cab models. Not available with five-speed manual transmission on Crew Cab models with Heavy-Duty Suspension Package. 13 Crew Cab models only. 14 RDS functions only where stations broadcast RDS information. 15 XM is available only in the 48 contiguous United States. Service fees apply. Visit gm.xradio.com for more details.
