

2020 DODGE CHALLENGER

SRT Hellcat shown in FB Green

2020 DODGE CHALLENGER

“Irreverent” might be the best word to sum up Dodge vehicles. For a 100+-year-old Brand, we act anything but. We believe attitude is neither constrained nor defined by a number of years. It’s defined by something much less tangible. It’s defined by geniuses of engineering. By being different. By offering the unexpected.

Each Challenger honours the ones that come before it with Award-Winning features and detailed interior craftsmanship like the aluminum-lithograph instrument-panel bezel. Its one-piece construction highlights easy-to-use technology like the available Largest-in-Class^{1*} 8.4-inch touchscreen. The lineup includes the potent 797-horsepower, 707-lb-ft-of-torque Challenger SRT Hellcat[®] Redeye and 717-horsepower, 656-lb-ft-of-torque Challenger SRT Hellcat. Regardless of which model you choose, you’ll feel the thrust of bold power and premium performance.

SRT Hellcat Redeye Widebody
shown in Frostbite

DON'T DOUBT WHAT YOUR EYES HAVE SEEN //// Before the SRT Demon finished its limited run, it imparted its soul – the Supercharged 6.2L HEMI[®] V8 high-output engine – into the SRT Hellcat[®], and the SRT Hellcat Redeye was born. Like its Demon brother, SRT Hellcat Redeye boasts 25 major component upgrades to withstand the intensity that comes from 797 horsepower, 707 lb-ft of torque and a top speed of 326 km/h (203 mph).

The fully functional dual-snorkel hood not only provides maximum air intake to the supercharged powerplant, it also pays homage to the most famous Dodge muscle cars in its appearance. SRT Hellcat Redeye shows off with badging featuring a sinister Red jewel-like eye design on the Hellcat that jumps off the Midnight Grey Metallic-finish fender badge. A die-cast SRT emblem on the supercharger housing also showcases the new Redeye logo.

WIDEBODY OPTIONS //// Dodge muscle cars are known for two things: radical performance and the ability to customize and add options. SRT Hellcat Redeye, SRT Hellcat and Scat Pack 392 offer a Widebody Package. Wider fender flares add 8.89 centimetres (3.5 inches) to the overall width of the vehicle, resulting in a more muscular, planted stance. Widebody Packages include 20x11-inch aluminum wheels riding on sticky 305/35ZR20 Pirelli[®] P Zero[™] tires for improved performance and a more menacing look. Widebody on Scat Pack also includes six-piston Brembo[®] front brakes and an Adaptive Damping Suspension.

SRT HELLCAT® 717

SRT Hellcat Widebody shown in Triple Nickel

WHAT A LEGEND LOOKS LIKE //// Dodge SRT Hellcat models bring absolute power, track-ready components and jaw-dropping quarter-mile times to the Challenger lineup. It starts with a Supercharged 6.2L HEMI® SRT® V8 engine on SRT Hellcat that delivers 717 horsepower and 656 lb-ft of torque. This power is held steady by the SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension System that provides driver-selectable settings to include: Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; and Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs.

The only thing that rivals this vehicle's legendary performance is its iconic looks. The front shows off with a performance hood with dual snorkels, menacing quad-halo LED surround with illuminated Air Catcher® headlamps and available heritage stripe options. A robust back end features the split LED taillamps and signature SRT Hellcat badging. Tip-to-tail, Challenger tells a story of intimidation and power.

DON'T MESS WITH PERFECTION

SRT Drive Modes, which are accessed via the 8.4-inch Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track Modes. There is also a custom setting that allows drivers the ability to tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages brings critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

SCAT PACK 392

The name is a throwback, but the mechanics are anything but. Challenger Scat Pack 392 houses a track-worthy 392 HEMI® V8 engine that shows off with 485 horses, 475 lb-ft of torque, 0 – 60 mph in the low 4-second range and a quarter mile in the mid-12-second range. This pavement-pounding power is backed by four-piston Brembo® brakes, Three-Mode Electronic Stability Control (ESC)³ with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20x9-inch aluminum wheels. For a bigger performance kick, opt for cold-air induction and available full-floating, open-element Shaker hood scoop, included with optional Shaker Package.

485 HP
475 LB-FT TORQUE

7-inch, full-colour, customizable, in-cluster display centre

Scat Pack 392 shown with Nappa leather-faced/Alcantara® seats in Black/Ruby Red

Every Scat Pack 392 model includes Dodge SRT® Performance Pages that features everything from Launch Control to a g-force metre to drag-race timers. This real-time data can also be accessed on either the standard 7-inch, full-colour, customizable, in-cluster display centre housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive Modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC³ tuning and suspension firmness (if equipped with Adaptive Damping Suspension). Race-inspired seats feature a Scat Pack Bee logo embroidered on either a standard high-performance premium cloth or available Nappa leather-faced trim with Alcantara suede inserts. Open-element Shaker hood scoop included with the optional Shaker Package.

Scat Pack 392 with Shaker Package shown in Sinamon Stick

1320

SHOW UP AND SHOW OUT

Scat Pack 1320 shown in Hellraisin

Subtle isn't what this car is about. It was conceived to live its best life on the drag strip. Its purpose is maximum acceleration. It's outfitted with everything needed to floor it on the last yellow: SRT[®] tuned Adaptive Damping Suspension with Drag Mode, Line Lock, Transbrake and Torque Reserve, 275/40R20 102Y drag radial tires, 20x9.5-inch Low-Gloss Black drag wheels and knurled bead seats. This is the 1320, and it's only available on Scat Pack 392.

The unique fender badge lets everyone know you aren't messing around; the badge on the instrument panel reminds you that you're well-equipped for the run. Settle in, select Drag Mode to adjust the traction and stability control settings, grip the Alcantara[®] wrapped performance steering wheel, wait for double yellow lights, then engage the Transbrake, release when the Christmas tree goes green and move down the quarter mile with the full force of the 6.4L HEMI[®] engine and its 485 horses and 475 lb-ft of torque.

T/A

R/T T/A shown in Go Mango with optional Mopar® Hood Pins

Dodge has never been shy about tapping the archives. When they do, you can be sure each evolution is fortified with 21st-century engineering. Challenger T/A was born for 1970s Trans-Am racing. Today, it's a modern-day icon. Choose between the legendary 5.7L HEMI® Variable Valve Timing (VVT) V8 engine, with up to 375 horsepower and 410 lb-ft of torque (standard on R/T T/A), or the uncompromising 485 horsepower and 475 lb-ft of torque from the 6.4L SRT® HEMI V8 (standard on T/A 392).

Heritage details include premium-painted Satin Black Mopar Induction Hood, Satin Black rear spoiler with Challenger T/A badge, T/A bodyside stripes, T/A illuminated dual Air Catcher® headlamps, Satin Black-wrapped roof and deck lid, lightweight forged aluminum wheels, and more.

Front performance seats have large side bolsters for maximum lateral support. Race-inspired details include sporty bright pedals, Dodge Performance Pages, heritage-inspired shifter and Tic-Toc-Tach gauges. Opt between Houndstooth cloth seats or Nappa leather-faced seats with perforated Alcantara® inserts.

CRAFTED TO PERFORM

The Challenger interior is inspired by equal parts nostalgia and performance. Every model features a 7-inch, full-colour, customizable, in-cluster display centre. From here, you get real-time information and vehicle status updates in full colour, as well as available turn-by-turn navigation⁴ information and visual safety system notifications.

Comfortable 5-passenger seating ranges from premium cloth to Nappa leather-faced with Alcantara[®] suede inserts to premium Laguna full-leather. Everyone is kept comfortable with standard soft-touch details and Dual-Zone Automatic Temperature Control (ATC). Available amenities include heated/ventilated front seats and a full-circumference heated steering wheel for year-round comfort.

SRT Hellcat[®] shown with premium Laguna full-leather seats in Sepia

SRT Hellcat shown with Black seats

Challenger GT AWD shown in Pitch Black

YEAR-ROUND ATTITUDE

AWD

When the weather changes, you don't need to garage your Challenger for the season. Loose gravel shouldn't make you lose your cool either. Challenger SXT and GT All-Wheel Drive (AWD) deliver big control exactly when you need it. The advanced automatic front-axle disconnect technologically, intuitively and seamlessly transitions between Rear-Wheel Drive (RWD) and AWD without driver intervention.

Under normal driving conditions, the front axle is disengaged and 100 percent of the engine's torque is directed to the rear wheel. When sensors indicate more traction is needed, the system automatically engages the front axle and instantly transitions to AWD mode. These systems work with the vehicle's Electronic Stability Control³ system.

LEGENDS OF PERFORMANCE

SRT Hellcat® Widebody shown in Triple Nickel

CANADA'S BEST-SELLING ENGINE⁵ – 3.6L PENTASTAR™ VARIABLE VALVE TIMING (VVT) V6. The robust 3.6L with a fuel efficiency rating of 7.8 L/100 km (36 mpg) highway⁶ on Rear-Wheel-Drive (RWD) models produces 305 horsepower and 268 lb-ft of torque.

CANADA'S BEST-SELLING V8 ENGINE⁷ – 5.7L HEMI® VVT V8. Providing up to 375 horsepower and 410 lb-ft of torque, this powerplant moves you from 0 – 60 mph in the 5-second range. When equipped with the standard TorqueFlite® eight-speed automatic transmission, the FuelSaver Multi-Displacement System (MDS) technology allows the vehicle to transition from eight cylinders to four to optimize fuel efficiency when full power is not required. A TREMEC® six-speed manual transmission is optional on Challenger models.

6.4L SRT® HEMI V8. This engine assaults the asphalt with 485 horsepower, 475 lb-ft of torque, an impressively flat torque curve and a 0 – 60 mph time in the 4-second range. With the standard TorqueFlite eight-speed automatic transmission, the FuelSaver MDS technology deactivates four cylinders when eight are not needed, creating a double threat of power and efficiency. A TREMEC six-speed manual transmission is optional on Challenger.

6.2L SUPERCHARGED HEMI SRT HELLCAT V8 ENGINE. With 717 horsepower, 656 lb-ft of torque and a fierce 0 – 60 mph time in the low 3-second range, this engine makes Challenger SRT Hellcat models a force to be reckoned with. The hood design on these models helps create these intense numbers. The high-performance Viper-modified TREMEC six-speed manual transmission boasts an internal cooling pump and external vehicle-mounted oil cooler, and is optional on Challenger models.

6.2L SUPERCHARGED HIGH-OUTPUT SRT HELLCAT HEMI V8. Only on Challenger SRT Hellcat Redeye, this track-inspired engine unleashes a fury of intense power and performance. This engine can output 797 horsepower, 707 lb-ft of torque and a top track speed of 326 km/h (203 mph). These numbers take Challenger Redeye from 0 – 60 mph in 3.4 seconds and a quarter mile in 10.8 seconds.

STANDARD AND AVAILABLE SAFETY & SECURITY FEATURES

BLIND-SPOT MONITORING (BSM) WITH REAR CROSS-PATH DETECTION²¹

Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the sideview mirrors and by an audible chime if the turn signal is activated. The system includes Rear Cross-Path Detection, which monitors for vehicles and objects travelling perpendicular to the vehicle while, for example, backing out of tight parking spots. Available.

PARK-SENSE[®] REAR PARK ASSIST SYSTEM²¹

When the vehicle is in Reverse and moving at low speeds, the system can sense nearby objects. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available.

ADAPTIVE CRUISE CONTROL (ACC)²¹

Utilizing radar and video sensors, this system helps maintain a safe, driver-selectable distance from the vehicle ahead. Available.

PARKVIEW[®] REAR BACK-UP CAMERA²¹ WITH DYNAMIC GRID LINES

This system displays an accurate visual reference on the vehicle's touchscreen of what is behind your vehicle when it's in Reverse. Standard.

ELECTRONIC STABILITY CONTROL (ESC)³

This system is designed to assist drivers in maintaining control of their vehicles during extreme steering manoeuvres. ESC senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels. Standard.

FORWARD COLLISION WARNING (FCW)²¹

FCW uses radar sensors to monitor the roadway in front of the vehicle, discerning distance, horizontal direction and angle, and relative speed between the vehicle and any object or vehicle ahead. The system can warn the driver of a potential collision risk via an audible chime and visual alert in the in-cluster display. Available.

RAIN-SENSING WINDSHIELD WIPERS

System sensors automatically detect moisture on the windshield and activate the wipers. Available.

Preset voice-to-text messaging and incoming text message reading require a MAP-enabled phone. 10. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 11. All SiriusXM Guardian equipped vehicles come with a 12-month trial effective on the date of purchase or lease of a new vehicle. Enrolment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. 12. Roadside Assistance Call provides direct calling to Roadside Assistance Service. Vehicle must be within the United States, Puerto Rico or Canada and have network coverage. Additional roadside assistance charges may apply. Check warranty for details. 13. In the event of a medical or other emergency, press the SOS button to be connected to a Customer Care agent who can direct emergency assistance to your vehicle's location. 14. Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. You must have an active subscription to SiriusXM Guardian in order to use remote services. See Terms of Service for service limitations. 15. Stolen vehicle police report required. Always notify law enforcement if your vehicle is stolen and do not attempt to recover it on your own. 16. Send & Go requires a vehicle equipped with Navigation. To use Send & Go, you must have the Uconnect App with SiriusXM Guardian installed on a compatible smartphone and have an active subscription to SiriusXM Guardian. 17. Three-month/1GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. WiFi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 18. SiriusXM Traffic Plus and SiriusXM Travel Link require a subscription, sold separately, or as a package, by SiriusXM Radio Inc. **If you decide to continue service after your trial period included with the new vehicle purchase, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Trial service is not transferable. Fees and taxes apply. Please see the Customer Agreement at www.siriusxm.ca for complete terms and how to cancel, which includes calling SiriusXM at 1-866-539-7474. All fees and programming are subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. 19. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto App on Google Play and an Android compatible smartphone running Android 5.0 or higher. Data plan rates may apply. 20. Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. 21. This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions.
