THE 1918 Allen cars described in this little book are a source of pride to us---pride based on accomplishment. ¶ For six years the Allen has been recognized as an automobile of more than ordinary merit---over fifteen thousand satisfied owners the country over stand as testimony to this fact. ¶ The addition of many late improvements since last season increases still further the utility and beauty of these cars, so that today Allen value is greater than ever

The Connecting Link

Diversion is an inherent need of mankind. The farmer and his family enjoy frequent trips to the city. The fellow who works within four walls yearns for the bracing country air. In each case the motor car is the solution---and certainly a satisfactory one, if the car is an Allen

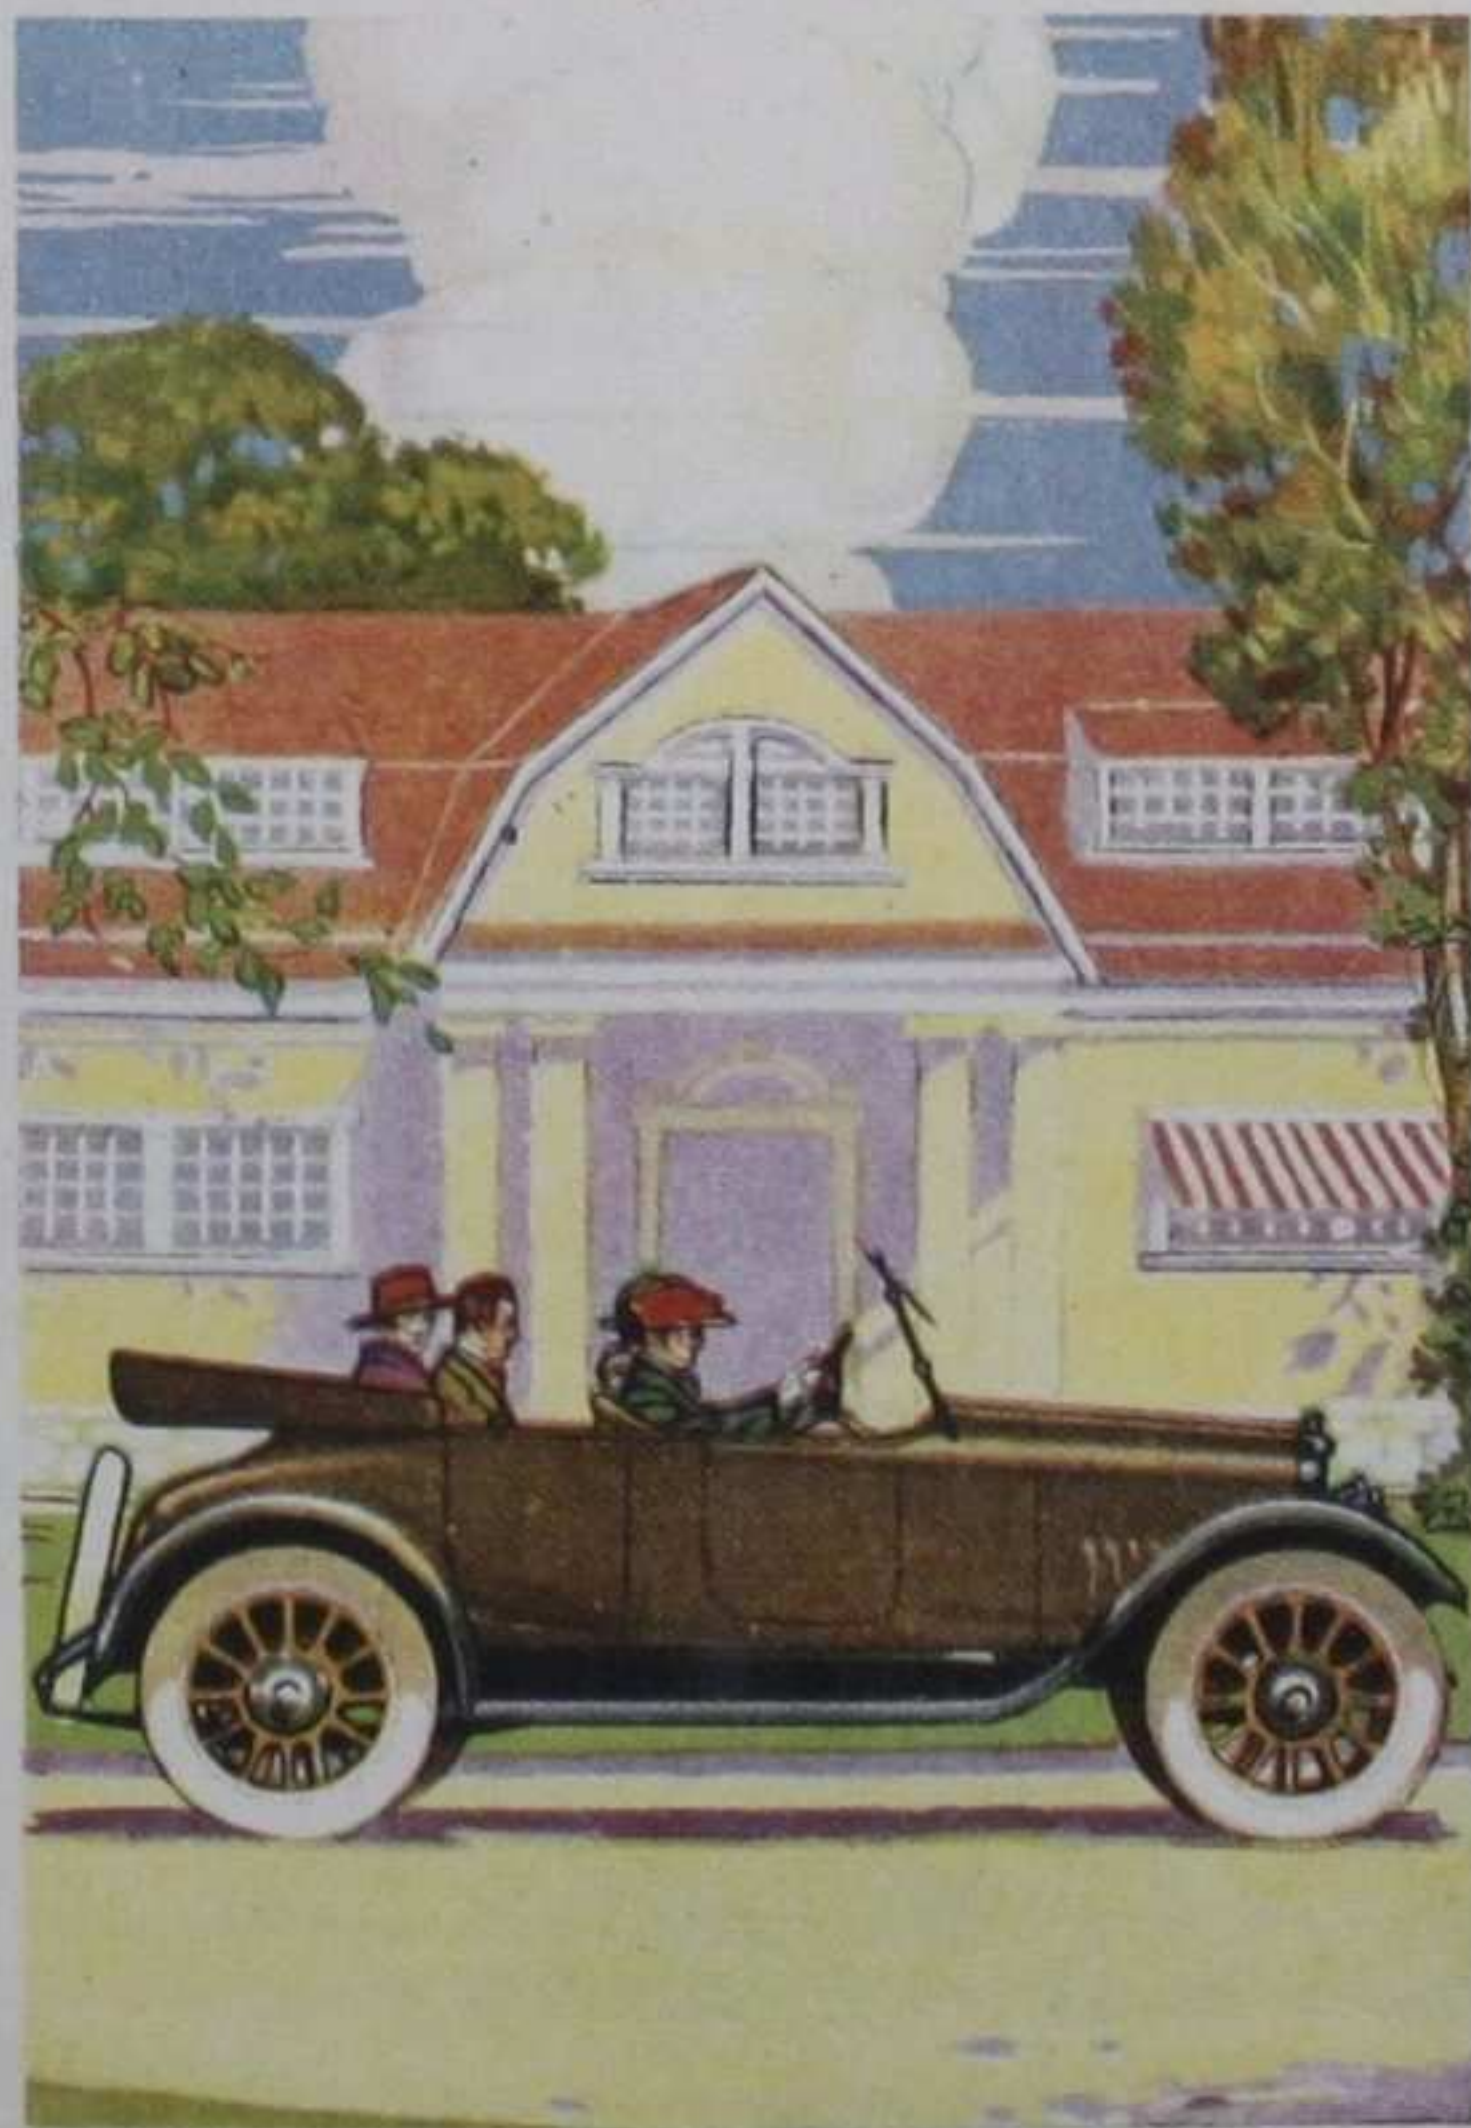

Seating five grown persons comfortably, of handsome design, and equipped with every late improvement, the Allen touring car is ideal for the farmer or city man who desires attractiveness, dependability and real service at a fair price

Good Fellowship

Good fellowship in all its true meaning is exemplified by the Allen four-passenger roadster. Cozy and roomy for two, comfortable and companionable for four, it has that smart appearance that is so sought after. Ample power assures perfect roadster performance under all road conditions. Snappy pick-up and exceptional control under the strain of crowded traffic make this car ideal for professional and business men

Ⓐ This true sporting type of motor car is becoming immensely popular for every day use--- not only for pleasure but for business

Defying King Weather

What a wonderful thing it is to be able to go wherever you choose, whenever you desire, without regard to weather conditions! Snow, rain and windstorms no longer cause you worry once you possess an Allen five-passenger sedan

¶ In the Allen enclosed car you will find extreme comfort, luxurious appointments and that aristocratic appearance which appeals to people of business and social standing. Here is a car that impresses one with its dignity and beauty---and, if an owner, with its service
