

The Golf

It's pretty big for something small.

GOLF

DESIGN

It goes without saying, once a Golf, always a Golf.

Hatchback. Not all cars have a rear end as lovely as this. But then, not all cars are the Golf. What's so remarkable is that from the outside, you'd never guess just how much it can actually hold. Come to think of it, you'll be surprised from the inside, too.

A-light Alloys! The more alloy on the wheel, the more substance and strength it evokes. A few extra spokes also add to a car's sporty look and elegance. Not a bad thing at all, if you ask us.

Rear Windshield Wiper. It's not just for rain. Since it's hard for airflow to make it around the upright rear, hatchbacks in general tend to get a bit dusty back there. So there's a wiper. We can't change the laws of physics, but we can adjust accordingly.

EXTERIOR

Pick a color, any color.

- Indigo Blue
- Mojave Beige
- Tornado Red
- Reflex Silver
- Black
- Candy White

¹ 15" alloy wheels are standard on the GL with the optional TDI[®] engine and manual transmission, and standard on the GLS. GLS exterior shown. Some features may not be available on all trim levels.

Drivers wanted. 

How does a-bit-of-everything without too-much-of-everything sound?

Sunroof Dial! Know when you're craving sunshine, say, four inches worth, and you're forced to wait with your finger pressed on some button? Well, 15 automatic one-touch settings on this dial mean no more pressing and waiting. Ever again.

Power Windows. Convenience and ease are the name of the game. With a simple touch of any of these buttons, you can roll a window all the way up, or all the way down. Or, if you're feeling particularly adventurous, anywhere in between.

CD and Cassette Player. One day as you're driving along, tuning in to your favorite radio station, it might suddenly dawn on you – this eight-speaker system looks just as cool as it sounds. And to top it off, it came with your Golf as a standard feature.

INTERIOR

GOLF

PERFORMANCE

It takes more than just craftsmanship to perfect an engine.

It takes creativity.

115 hp

2.0L

This engine benefits from a simple and true design. (Some would say it's a classic.) It's compact, pretty lightweight, and requires less space under the hood – all of which goes to providing smooth engine performance. To top it all off, it offers lowered emissions, too.

90 hp

TDI®

Our most fuel-efficient¹ engine has a faster cold start time than most conventional diesels. It's lighter and delivers lots of low-end torque for initial acceleration. It goes without saying you get more miles for the money, but an added bonus is not having to go for tune-ups as often as you might with other engines.

¹EPA fuel mileages are estimates only. Your fuel consumption may vary.

GOLF

ALL-AROUND
SAFETY

Safety.

Our most important standard feature.

Front Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

4-Wheel ABS. An onboard control unit designed to detect wheel lock-up, improving overall braking especially in poor driving conditions.

Anti-Theft Alarm System. Scares away uninvited guests. (Otherwise known as burglars.)

Immobilizer. Prevents the Golf from being started up if an unauthorized key is used.

Daytime Running Lights. The better other drivers see you, the safer you'll be.

Electronic Stabilization Program¹ For better handling and control. (Why skid if you don't have to?)

Rear Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

LATCH System. Lower Anchors and Tethers for Children. A standardized child seat attachment system for vehicles.

Child Safety Rear Door Locks. A feature that prevents a child inside from opening the rear doors.

Three Rear Head Restraints. Helping to reduce the risk of head and neck injury in the event of a collision.

Full-Size Spare Tire. You never know when it might come in handy.

Track-Correcting Torsion Beam Rear Axle. Angled mounts increase vehicle control as turns are completed.

Side Curtain Protection™ Airbags² These extend down the roofline, helping to minimize head and upper torso injury.

Dual Front and Front Side Impact Airbags² Deploying within a tenth of a second if needed.

Anti-Intrusion Side Door Beams. Buying precious time for the side impact airbags to deploy.

Safety Cell Construction. A rigid cell of reinforced steel is built into every Golf.

Steering Column and Wheel. Telescoping, height-adjustable, and collapsible on impact. (Not bad for a steering wheel.)

Sunroof with Pinch Protection⁴ This sunroof doesn't like munching on fingers for lunch.

WARRANTY

Basic Warranty: Every Golf comes with a bumper-to-bumper New Vehicle Limited Warranty for 4 years or 50,000 miles, whichever comes first³

Powertrain Warranty: The Volkswagen Powertrain Limited Warranty provides 5 years or 60,000 miles of protection, whichever comes first.

Anti-Corrosion: A fully galvanized steel body means we can offer you a 12-year unlimited mileage Limited Warranty Against Corrosion Perforation.

Roadside Assistance: The Golf has a 24-hour-a-day Roadside Assistance package⁴ for 4 years or 50,000 miles, whichever comes first.

¹ Feature available on certain trim levels.

² Airbags are supplemental restraints only. Always use safety belts. Seat children only in the rear, using restraints that are appropriate for their size and age.

³ Wear and tear items and adjustments are excluded after the first 12 months or 12,000 miles, whichever comes first.

⁴ Roadside Assistance, for 4 years, provided by AAA and its member clubs. See dealer for details.
