THE 2022 TACOMA

Powerful in every way.

Style, muscle, performance. Check, check, and check.

From serious payloads to serious adventure, the 2022 Tacoma is ready whenever you are – because this is not a truck to be taken lightly. It's a piece of serious engineering, built to take everything you and the world can throw at it, and still come back for more. Backed by over 80 years of Toyota Truck heritage, Tacoma has the power and capability to conquer the toughest jobs and the most extreme terrain with ease. It's a pickup that outperforms expectations, while demanding attention with its sculpted, athletic lines and premium interior accents. Feature for feature, and pound for pound, there's no other truck as capable of turning heads as it is of moving mountains.

[Learn More](#)

[TRD PRO: Learn More](#)

PERFORMANCE

Overbuilt to perform.

Toughness. It's built right in.

Tacoma's ingenious pairing of sheer power and brute strength make it the most exciting truck on and off the road today. The 3.5 L Atkinson cycle V6 engine with D-4S Fuel Injection is particularly impressive, offering 278 hp at 6,000 rpm and 265 lb.ft. of torque at 4,600 rpm. The 6-speed automatic transmission with available electronic shift helps to deliver quick and easy shifting, while also improving fuel economy. Couple that with a finely-tuned suspension for smooth on-road and "go anywhere" off-road performance, and you'll be able to make the most out of any obstacle.

PERFORMANCE

Designed for anything and everything.

BILSTEIN SHOCKS AND ABSORBERS

Available Bilstein shocks help soak up the heavy dips and bumps to deliver a ride so comfortable, you'll mistake the off-road for the blacktop. Tacoma also offers ventilated front disc brakes that deliver confident stopping power no matter how bad the road or weather conditions are.

CRAWL CONTROL

Available Crawl Control automatically adjusts acceleration and braking when driving over jagged off road terrain or on slippery surfaces and minimizes wheelspin and wheel lock-up.

ELECTRONICALLY LOCKING REAR DIFFERENTIAL

Tacoma's available Electronically Controlled Locking Rear Differential distributes engine power evenly to both rear wheels so they move at the same speed, providing more grip in low-traction conditions.

MULTI-TERRAIN SELECT

The available Multi-Terrain Select system regulates wheelspin by automatically adjusting the engine throttle and brakes, helping improve traction.

[Learn More](#)

TOWING POWER

The power and control to rule any terrain.

6,500 lb.¹ of towing power.

Whatever toys you've got, Tacoma's got the power to bring them along. Its powerful V6 engine has a towing capacity of up to 6,500 lb.¹ Since weather, road, and steering conditions can result in dangerous trailer sway, Tacoma comes equipped with Trailer-Sway Control. This advanced system detects trailer sway and applies brake pressure at individual wheels and controls engine torque to help stabilize the trailer. The system also illuminates the stop lamps to alert you to the fact that your vehicle is decelerating.

INGENIOUS CAPABILITY

Load it up and go.

TRIPLE TECH FRAME

Tacoma delivers beyond your expectations with a high strength, triple tech frame to improve rigidity as well as ride and handling.

COMPOSITE BED WITH 120 V OUTLET

The bed is composed of an ultra-durable, fibre-reinforced sheet-moulded composite surface that is dent-resistant and corrosion-free, with a greater impact strength than steel. For added convenience, an available 120 V bed outlet powers up all your essentials.

DECK RAIL SYSTEM

The innovative deck rail system features four heavy-duty adjustable tie-down cleats to give you the strength and adjustability to keep your cargo securely strapped down.

SMART STORAGE

Tacoma keeps your gear out of the way and out of sight thanks to various hidden and locking storage areas.

EXTERIOR STYLING

Bold looks that impress from every angle.

Unwavering capability and the good looks to match.

Tacoma's aggressive grille hints at the power that lies under the hood. Its bold profile is accented by chiselled lines, muscular fenders, and a purposeful off-road stance that makes it the best-looking truck on the trail. Out back, the smoked tail lamps housings and tailgate embossed with the Tacoma logo finish off this truck's striking athletic look. With two bed lengths to choose from and your choice of Sport, Premium, PRO and Off-Road packages, as well as the dynamic Nightshade, there's a Tacoma uniquely designed just for your lifestyle.

NIGHTSHADE: [Learn More](#)

INTERIOR DESIGN

Comfort meets cool.

An interior ready for action and the everyday drive.

If Tacoma's exterior sets it apart from the competition, the interior puts it in a class by itself. With seating for up to five, the versatile cabin features plenty of head and legroom, no matter where you are sitting. The spacious environment offers sophisticated materials and soothing textures throughout, including a soft-touch instrument panel, available heated front seats, and available premium leather seats and leather-wrapped steering wheel. With easy access to the dual zone automatic climate controls, touch-screen display, and available power 8-way adjustable driver's seat, Tacoma was designed to ensure that everything is comfortably and conveniently within reach, so you can focus on what matters – the destination.

The tech you need to keep the fun going.

INTUITIVE TECH

Tacoma offers a host of tech-focused features, such as a 4.2-inch TFT Multi-Information Display, and Apple CarPlay™² and Android Auto™² compatibility. Available features include an 8-inch touch-screen display, Blind Spot Monitor with Rear Cross-Traffic Alert,³ and Intelligent Clearance Sonar.

PANORAMIC VIEW MONITOR

Tacoma's available Panoramic View Monitor uses cameras on the front, sides, and rear of the truck to give you a 360-degree view of what's going on outside.

CONNECTED SERVICES BY TOYOTA²

Staying connected has never been easier with a suite of available features including Remote Connect, Safety Connect®, Service Connect,¹² and Destination Assist to help enhance your driving experience.

Qi WIRELESS CHARGING⁴

Simply place your Qi compatible device on the available Qi wireless charger for a quick and easy charge.

SAFETY

Toyota Safety Sense™

No matter what roads you travel, Toyota Safety Sense™⁵ (TSS-P) is always there to help keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2022 Tacoma, and it is designed to help protect drivers, passengers, pedestrians, and people in other vehicles from harm.

Toyota
Safety
Sense

DYNAMIC RADAR CRUISE CONTROL⁶

Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

LANE DEPARTURE ALERT WITH STEERING ASSIST⁷

Alerts you if you start to drift out of your lane when visible lane markings are detected. The Steering Assist function may also provide small corrective steering inputs.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION⁸

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

AUTOMATIC HIGH BEAMS⁹

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

(1) Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb Weight plus the total Weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard/optional equipment and accessories added by the manufacturer, dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb Weight is to Weight your vehicle without passengers or cargo. Installation of a tow hitch receiver or other accessories located near the rear bumper may require disabling or removing the kick sensor, and the sensor operation setting in your vehicle should be turned off. See Owner's Manual for limitations. (2) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto and Google Assistant are trademarks of Google LLC. A compatible customer phone pairing is required and customers are responsible for all data charges. (3) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (4) Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. When using the wireless charging system avoid placing metal objects between the wireless charger and the mobile device when charging is active. Doing so may cause metal objects to become hot and could cause burns. (5) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (6) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (7) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (8) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (9) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (10) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (11) Not all exterior and interior colour options are available for every model. (12) Services are dependent upon connection to a compatible 4G wireless network, provided by a third-party wireless service provider. Toyota is not responsible for 4G cellular network discontinuance and will not provide compensation for reduced service availability. Based on current information, 4G network availability may end as early as 2029.

Details on the above features can be found in the Owner's Manual or through your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of publication. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.
