What you get in Renault's Surprise Package makes Le Car a real value. But then, so does what you get when you just buy Le Car: a combination of performance, economy, and comfort no other car of its size can match.

Le Car picks up where Rabbit, Honda Civic, and Chevette leave off.

Le Car is the only one that gives you front-wheel drive, rack and pinion steering, *and* Michelin steel-belted radial tires all as standard equipment. Along with the fantastic handling, cornering and maneuverability they produce.

You get two things unheard of in a car of its size: room and comfort.

Le Car gives you a longer wheelbase than the Rabbit, the Civic, or the Chevette. As a result it gives you a ride so remarkably smooth that critics have called it unbelievable in a car that size.

Le Car also gives you unheard-of roominess. And you'll probably find the seats more comfortable than the competition's, too. You'll also take comfort from the fact that the front seats lift up and forward, so your passengers don't have to be contortionists to get in and out of the back seat.

You get the kind of performance you may have given up looking for in an economical car.

Le Car is a sports car with a back seat. In Sports Car Club of America racing, it beat Hondas, Datsuns, Pintos, Vegas, Toyotas, Fiats and Spitfires so

regularly that Sports Car magazine was prompted to write "SSC (Showroom Stock Class C) is spelled R-E-N-A-U-L-T".

Yet, Le Car gives you economy that's every bit as great as its performance: 41 mpg Highway, 25 mpg City, according to EPA estimates.*

Compare Le Car to La Competition.
