

FORD CAPRI CLUBSPRINT.

HAVE YOU DRIVEN A FORD...LATELY?

LOOKS GREAT AND
GOES EVEN BETTER.

The Ford Capri Clubsport delivers exactly what its appearance promises: exhilarating performance.

Clubsport is a specially built, sports-modified version of the already highly-successful, high performance Ford Capri XR3 Turbo.

It has been developed by Ford in conjunction with TVE, Tickford Vehicle Engineering, the Australian operation of English automotive engineering maestro, Tickford Limited. TVE has taken the Capri and woven into it the same kind of performance magic that,

overseas, Tickford has applied to cars from some of Britain and Europe's most exotic automotive manufacturers.

LOOKING THE
GOODS.

No other car on the road has quite such a bold and assertive appearance as the Capri Clubsport.

The streamlined exterior is black and beautiful with a body that proudly displays muscular curves and a unique aerodynamically styled 'Capote' cover to the extra-large luggage area behind the seats.

The seats themselves are trimmed in vibrant blue leather that loudly proclaims the individuality of both car and driver. Put yourself in the driver's seat and right before you is a black leather Italian 'Momo' steering wheel. Instrumentation is as comprehensive as you'd expect in a thoroughbred sports machine and includes a turbo boost gauge.

EQUIPPED
FOR EXCITEMENT.

Capri Clubsport is built for both performance and pleasure. So while you'll be captivated by its sporting character you'll also enjoy a high degree of comfort. The leather seats include head rests and the entire interior, including the luggage area, is trimmed in cloth fabric.

For audio performance that matches the driving abilities of the Clubsport, a state of the art Alpine four speaker stereo system

High performance Alpine stereo

Convenient electric windows

Remote change CD player is an option

Large luggage area under Capote lid

is fitted. It features an AM/FM radio cassette player with Dolby, music search, auto store and security coded anti-theft protection.

And, for ultimate sound quality, a remote change CD player is available as an option.

Other convenience features include electric remote mirrors, a luggage compartment that is simply convenient and, for those trips when you want to cool off but keep the soft top on, air conditioning is available as an option.

IT'S OPENING

TIME-

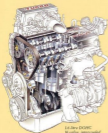

Raising or lowering the Capri Clubsport's soft top takes only moments, a minimum of effort and is easily managed by one person. When lowered, the roof

packs neatly away beneath the Capote cover.

MORE BRIGHT IDEAS.

Capri Clubsport has special rear lights that, with their large round design, perfectly complement the car's unique tail shape. And to show the way ahead at night, powerful driving lights are also fitted.

1.6-liter DOHC
16 valves, intercooled
turbocharged engine.

THE PLEASURE OF POWER.

The heart of any sports car is its engine. Under the Capri Clubprint's hood is a 1.6 liter power plant that boasts Double Overhead Camshafts, 16 valves for rapid gas flow, Electronic Fuel Injection and the ultimate performance enhancer, an intercooled turbocharger.

All of that means the Capri Clubprint can produce 180kW of power with adrenaline pumping performance on the road.

The power is transferred through a light but sensitive five-speed close ratio transmission which, with its short throw gear lever, makes gear changing a positive joy.

TAKE THE RIDE OF YOUR LIFE.

As you'd imagine Capri Clubprint has distinctly sporting handling characteristics.

Its suspension, specially designed for the Clubprint, is stiffer and lower even than that of the standard Capri, itself a highly creditable performer.

Close action.
A short-throw gear lever and shaped clutch make changing gears a sporting delight.

Yet the ride is still remarkably smooth and stable thanks in part to 16" x 6 1/2" wheels and 205/45 ZR16 low profile Michelin tires.

The sensitive and responsive steering features power assistance.

When you need to stop, Ford Capri Clubprint is equipped

with powerful disc brakes on all four wheels.

GO FOR IT,

Capri Clubprint looks and performs like no other car on the road. And in keeping with its unique qualities Clubprint will be a low volume production vehicle.

Yet while its numbers may be small, the pleasures of owning one will be virtually unlimited.

The Ford Capri Clubprint. Be quick.

PLEASE NOTE.

All optional equipment referred to in this brochure is available at extra cost, unless otherwise stated.
