IMPORTANT NOTICE: Aston Martin Lagonda Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for sale of any particular vehicle. The contents of this brochure represents the Company's business as a whole. Text and photography may relate to models not available for sale in some countries. Some items may not be suitable for use in certain markets due to country-specific legislation and other requirements. Please confirm suitability with your local dealer before ordering. Performance results may vary depending on the specification of the particular vehicle, road and environment conditions and driving style. Published figures should be used for comparison purposes only and verification should not be attempted on public roads. Aston Martin Lagonda Limited strongly urges that all speed laws be obeyed and that safety belts be worn at all times. Distributors and dealers are not agents of Aston Martin Lagonda Limited and have absolutely no authority to bind Aston Martin Lagonda Limited by an express or implied undertaking or representation.

ASTON MARTIN

PERFORMANCE DRIVING

The Aston Martin Performance Driving Course is about two things – helping you understand the capability of your car in a safe and controlled environment and making you a safer, better driver. But above all, it is about having fun whilst doing it!

All our courses are designed to be one-to-one in nature and our highly experienced hand-selected instructors (who will be with you for the duration of your day) have extensive knowledge of track and road driving. In every aspect, the course is personal to you and has been specifically tailored to the driving dynamics of our Aston Martin Performance Driving Course cars.

During the day, the blend of theory and hands-on practice will allow you to drive in a number of different environments where you will experience safe high speed driving on tracks specially designed for this purpose, car dynamics on handling and hill routes, and straight line power delivery and braking on the straights.

Not only will the day be memorable, it will also help to equip you with the skill sets to use and indeed improve the driving and enjoyment of your Aston Martin.

You can choose to take your course at one of our three driving centres, Millbrook in England, Lommel in Belgium or Michigan in North America and if required, we will be happy to recommend local hotels where you can stay before or after the day's course.

Power Beauty Soul

MILLBROOK PROVING GROUND

Bedfordshire, England

Constructed in the late 1960s, Millbrook is recognised as one of the world's foremost automotive technology parks. Set in the heart of the English countryside, Millbrook is the UK's premier multi-purpose test track facility with on and off road tracks. Covering 700 acres with over 38 miles of test environments, Millbrook offers testing for both commercial vehicles and passenger cars.

- 1. Handling circuit
- 2. City course
- 3. One-mile straight
- 4. Hill route circuit
- 5. Low grip area (1)
- 6. Circular high-speed oval
- 7. Low grip area (2)

LOMMELE PROVING GROUND

Limburg , Belgium

Situated in the north-east of Belgium, Lommel is one of Europe's most important automotive test and evaluation centres. Built in 1965 it comprises of over 40 miles of road within almost 800 acres of countryside and boasts the 'Lommel Alps' test hills as one of its many features. Aston Martin's highly trained performance drivers at Lommel are multi-lingual, and between them, speak most of the principal European languages.

- 1. Handling circuit
- 2. City course
- 3. Performance straight
- 4. Low grip area
- 5. High-speed oval
- 6. Vehicle dynamics area

MICHIGAN PROVING GROUND

Romeo, North America

Approximately 50 miles north of Detroit, the Michigan Proving Ground comprises over 100 miles of test roads spread across 3,880 acres. The facility is vast, and amongst its many tracks it offers a 2.5 mile straightaway, a 1,000 foot braking area and a 5-mile oval. With warm climates in spring, summer and autumn, this facility offers the perfect environment for your Performance Driving Course.

- 1. Precision steering and handling circuit
- 2. Straightaway
- 3. Hill route
- 4. High speed oval
- 5. Vehicle dynamics area (VDA)
- 6. Urban drive cycle track
