Leather insert seats

Build number badge
Pursuit badged gear knob (manual only)

Unique instrument cluster

Unique ICC gauges

Interior Control Centre with 8-inch colour touch screen

With only 120 made, the new Limited Edition Pursuit Ute is the ultimate embodiment of high performance and exclusivity in a utility. Featuring the same 'stealth' stripe package as the GT F, GT front bar, 19-inch GT wheels, F6 side skirts and unique badging, this ute is as striking as it is powerful. Under the bonnet lurks a 5.0 litre, supercharged V8 capable of producing a massive 315kW of power and 545Nm of torque. And a high-flow dual outlet exhaust system lets everyone know it. High series performance brakes, FPV Performance independent double wishbone front suspension, a special build number badge, an alloy sports bar and an all black soft tonneau cover complete this supercharged, supercollectable sports utility.

¹Power and torque figures derived using 98 RON. ²Stripe package is not an extra cost option or a delete option, it is part of the external design of the vehicle. ³Prestige paint is an option that incurs an additional cost.
