# SIGMA GL WAGON SPOILS YOU. AGAIN.

The high, wide and spacious cargo area in the new Sigma GL has prompted us to call it, affectionately, The Space Wagon. With all the room a family could want for in a wagon and all the luxury of a colour co-ordinated interior, Sigma spoils you.

Chrome skid strips protect the carpeted cargo area. The large rear window with washer/wiper and tinted, heated glass give Sigma GL that something extra all wagon owners will appreciate.

From the driver's seat, Sigma spoils you with standard features like the reclining bucket seats, loop pile carpet, tilt steering column, intermittent wipers, flashing hazard light, heater/demister and flow through ventilation.

And the list goes on. Push button radio, carpeted kick pads on all doors, a floor console, quartz halogen headlights, 14" steel belt radials and the option of cloth and vinyl trim seating.

Beneath the surface of the Sigma GL is the standard four speed manual 2 litre 'silent shaft' Astron engine. You may specify the optional 2 litre 5 speed manual or three speed automatic or Sigma's exclusive 2.6 litre Astron with five speed manual or three speed automatic transmission.

With such a lot to offer, the Sigma GL Space Wagon is admirably suited to anyone who drives a wagon.

## SPECIFICATIONS

Astron 2000 Silent Shaft overhead cam 4 cylinder engine with electronic ignition and single two barrel carburettor with automatic choke. 4 speed manual transmission.

Optional: Astron 2000 Silent Shaft engine or Astron 2.6 litre Silent Shaft with 3 speed automatic or 5 speed manual transmission.
