

# Punch and Beauty.

# SIGMA GLX SPORTS PACK SPOILS YOU. AGAIN.

The sporty member of the Sigma team. Its only true test is on the open road.

Pause a moment. Let the car idle. Look past the smoke glass covered sports instrumentation with its tachometer and digital clock to the climbing, winding road before you.

Let your fingers flex and mould themselves around the soft-grip sports steering wheel.

Move the shift into the first gear of the four speed manual transmission and lower your foot. As the car surges forward and all the power of the 2 litre Astron engine comes into its own, you'll feel the natural inertia draw you back into the body contouring, sports stripe cloth seating.

You also have the choice of the 2.6 litre Astron and a five speed manual or three speed automatic transmission.

Twist into a corner and feel the rock solid grip of 14" steel belt radial ply tyres on styled or optional cast alloy wheels. Notice the significant lack of body roll.

Sigma GLX Sports Pack.  
A ride to remember.
