

SpaceWagon.

SIGMA SE WAGON SPOILS YOU. AGAIN.

Lift the tail gate of the new SE Space Wagon and you'll see why it's so aptly named. There's a high, wide and spacious cargo area with all the room a family could want. And that's not all. Chrome skid strips protect the carpeted cargo area and the large rear window is complete with washer-wiper and tinted, heated glass.

Sigma SE is standard with a two litre, 4 cylinder 'silent shaft' Astron engine with 5-speed manual transmission. Optional are the two litre 3-speed automatic and the Sigma exclusive 2.6 litre Astron with 5-speed manual including overdrive or a 3-speed automatic transmission.

On the inside, you're surrounded with the same excellent features of the SE sedan. Including the colour co-ordinated interior and plush cloth and vinyl trim. The driver's seat moves fore and aft and reclines, has seat tilt angle and variable lumbar support.

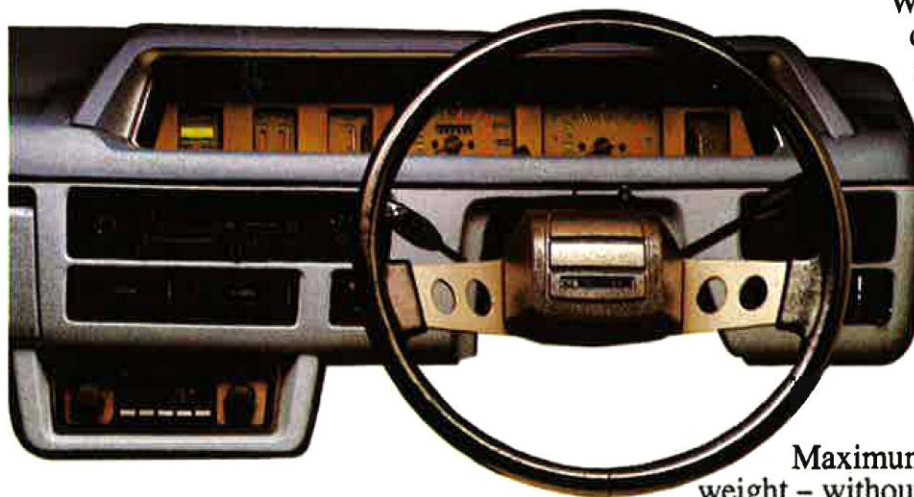

Sigma continues to spoil you with a digital clock, speedometer, tachometer, fuel gauge, petrol saving Fuel Pacer. The overhead console includes dome light, swivel map light, door ajar and seat belt warning lights.

And there's more. Push-button radio, stereo cassette player, cut pile carpet, quartz halogen headlights and 14" steel belt radials are just a few of the Sigma SE Space Wagon's impressive standards.

SPECIFICATIONS:

Astron 2000 Silent Shaft overhead cam 4 cylinder engine with electronic ignition and single two barrel carburettor with automatic choke. 5 speed manual transmission including overdrive.
Optional: Astron 2000 three speed automatic, Astron 2.6 litre Silent Shaft engine with five speed manual or three speed automatic transmission.
