

Sigma

SIGMA SPOILS YOU AGAIN.

The Sigma sedan makes the same basic promise as the rest of the Sigma range. To spoil you. And it does just that.

Firstly, under the bonnet is the economical power of the four cylinder 1600 Saturn engine with four speed manual transmission. If you wish, a 2 litre 'silent shaft' Astron four speed manual or three speed automatic is available as an option.

Inside, you'll no doubt notice the attractive colour co-ordinated interior.

Other standard features include side window defrost, reclining front bucket seats, loop pile carpet, tilt steering column, intermittent wipers, flashing hazard light, heater/demister and Sigma's striking new instrumentation.

From the dual rectangular quartz halogen headlights and wide 14" wheels to the confident road handling and ride to the four cylinder economy, Sigma sedan will spoil you.
