

SIGMA SE WAGON.

This is the premier wagon of the sensational Sigma range.

Its stylish good looks and impressive list of standard Sigma features are complemented by a high, wide and spacious cargo area. In fact, whatever you need a wagon for, there's sure to be room in this new Sigma SE.

The large rear window, complete with washer-wiper and tinted, heated glass, affords the driver excellent visibility. The telescopic, gas-filled struts mean you can lift the tail-gate with a minimum of effort. And the chrome skid strips to protect the carpeted cargo area are standard.

Beneath this sleek wagon exterior is all the smooth, quiet and economical power of the Astron 2000 'silent shaft' engine with five speed transmission, including overdrive and electronic ignition. (A three speed automatic transmission is optional).

When it comes to interior comfort, Sigma SE is equipped as befits its top of the range position.

Behind anti-glare smoked glass, the comprehensive instrumentation includes electric clock, speedo with tripmeter, tachometer, temperature gauge, low fuel warning light and hand brake 'on' warning light. Overhead console carries door ajar warning light, seat belt reminder light, swivelling map light, and dome light.

Plush cloth trim is standard, with exclusive leather trim as an option.

For complete driving comfort, the driver's seat adjusts fore and aft and reclines, has seat tilt angle and variable lumbar support. The steering wheel height can also be adjusted. In Sigma SE it's simple to find your most comfortable driving position.

Push-button radio, fully adjustable flow-through ventilation, laminated windscreen, cut-pile carpet, carpeted kick pads on all doors, courtesy switches on all doors, side protection body mouldings and quartz halogen headlights (high beam only), are just a few of Sigma SE's impressive and sensational standards.
