

# LADA VESTA SW CROSS

# SAY YES! TO LIFE

YES, to the moment when the blue strip of the sea opens after a turn.

YES, to that feeling when you get off a highway, turn off the air conditioner, and let the warm air with the scent of the field herbs get into the car.

YES, to the pleasure you feel while passing a curve at the Electronic Stability Control system actuation limit.

YES, to the anticipation you feel when you are coming to the car and pressing the polished key button.

YES, to all-new LADA Vesta SW Cross!

- The descending roof line imparts swiftness to the car appearance. A shark fin is in the roof pillar lines and antenna shape.
- Plastic trims of the door sills, wheel arches, and doors will protect the body paint when travelling on gravel, meadows, and similar mild off-road.
- These plastic components are elegant and together with increased wheels make the vehicle a great deal larger visually.
- The gas-charged shock absorbers and reinforced springs are ready to «digest» any kind of road. They also reduce banking and heeling during high-speed manoeuvring.
- Special interior design with bright elements emphasizing the unique personality of LADA Vesta SW Cross. The twin chrome-plated exhaust pipe nozzle is another plus to the sporty style.

Say YES to life!  
YES – to any weather!  
YES – to any road!  
YES – to the vehicle tuned to me.

## LADA VESTA SW CROSS

is designed for active recreation and long-term journeys. That is why space for the rear passengers was increased: the seat-to-ceiling distance gained 2.5 cm. Special interior design and its bright elements emphasize the unique personality of LADA Vesta SW Cross.

## LADA VESTA SW CROSS:

comfort, off-road performance, and refined steerability. To improve steerability, the body has got several reinforcing components to increase its torsional rigidity.

THE TRUNK IN THE CAR OF SUCH BODY TYPE REQUIRES SPECIAL ATTENTION. THAT IS WHY LADA VESTA SW IS THOUGHT THROUGH TO THE LAST DETAIL:

- Double floor with organizer: allows you to make a level platform when folding rear seats backrests.
- The niche of double floor helps organize storage of driver's accessories while keeping the trunk neat.
- Two interchangeable halves of the false floor are trimmed with piled material to improve the trunk design and prevent squeaks and noises.
- Transformable trunk.
- Organizer in the spare wheel niche.
- Vessels storing place with a fixing strap.
- Small, but functional niche in the left part of the trunk.
- The covered niche near the right-side wheel arch.
- Handy hooks to fix the luggage net and shopping bags.
- Exterior trunk opening button.
- Two handles to conveniently close the trunk door.
- The trunk capacity is 480 l (up to the shelf screens), with folded second row seats – 825 l (up to the bottom lines of the side windows).

# PROTECTION MODE: PERMANENT

Say YES to life!  
YES to adventures that end well.  
YES to quality equipment.  
YES to the feeling of security that my car provides.

LADA VESTA IS THE FIRST RUSSIAN CAR TO RECEIVE  
THE MAXIMUM 4 ARCAP «STARS».

#### DAYTIME RUNNING LIGHTS

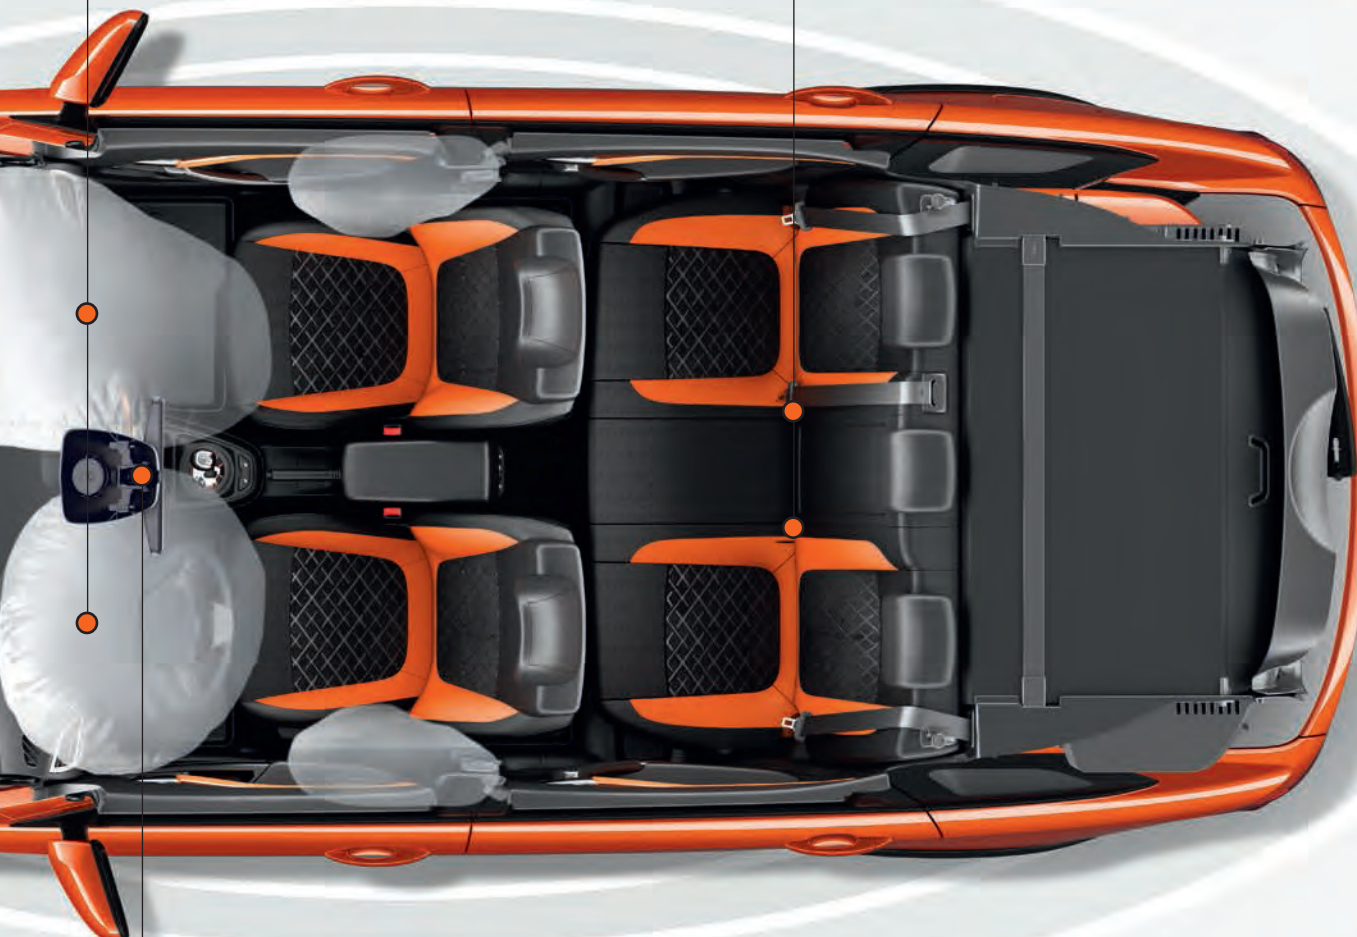

Unless you're on a secret mission, it is good to catch eyes. Daytime running lights are the bright feature of LADA Vesta.

#### DRIVER AND PASSENGER AIRBAGS

Part of basic protection. Like a bullet-proof vest. Like an emergency parachute. When collision is inevitable, base bodywork with areas of pre-programmed deformation absorbs the shock at most, while the seat belts and air bags system protect the passengers.

#### ISOFIX FASTENING ACCESSORIES FOR CHILD SAFETY SEATS AND REAR DOORS LOCKING

We do care about our most important passengers.

#### ERA-GLONASS EMERGENCY CALL SYSTEM

After airbags actuation, emergency services receive a notification with the information on the date and time of the traffic accident, car location and accident severity. Every LADA Vesta is equipped with it. It's like an emergency smoke flare.

# INNOVATIONS THAT PROTECT

Vesta SW Cross will protect you and give you confidence every second of your ride, especially in unforeseen situations.

## ELECTRONIC STABILITY CONTROL (ESC)

system with anti-slip function. With drifting of the front axle or skidding of the rear axle, the system individually controls each wheel rotation speed to adjust the car orientation.

## ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD) SYSTEM

Optimum distribution of the brake force between the axles to prevent the car from drifting when the brake pedal is depressed.

## HILL START ASSIST (HSA)

Assistance while starting on a hill: after the brake pedal is released, the pressure in the brake line is maintained for a few seconds – enough for a confident start without a risk of rolling back.

## TRACTION CONTROL SYSTEM (TCS)

For dynamic start on a slippery or uneven surface. In case of the wheels skidding, TCS initiates blocking of the differential.

**REAR-VIEW CAMERA**

when moving backwards you can see what is directly behind you, including objects that are not visible in the sideview mirror.

**REAR PARKING SENSORS**

When reversing, you can estimate the distance to extraneous objects.

**BRAKE ASSIST SYSTEM (BAS)**

In case of abrupt braking the system automatically increases the pressure in the brake line to slow down the car as effectively as possible.

**ANTI-LOCK BRAKING SYSTEM (ABS)**

For better steerability of the car in case of emergency braking.

# EVERY DAY DYNAMICS

Say YES to life!

YES to the feeling when your legs muscles spring while jogging.

YES – to the speed and drive!

YES – to the feeling of unity with a powerful car.

LEAD

VESTASW  
CROSS

VESTA

LADA Vesta SW Cross is able to navigate narrow streets with surgical precision, dynamically and comfortably pass along roads of different quality. The solid subframe and shortened steering rack (2.8 revolutions of the steering wheel from stop to stop) give

LADA Vesta SW Cross the traits of a sports coupe. Thanks to the durable suspension with large wheel travel, LADA Vesta SW Cross features off-road performance inherent to crossovers. LADA Vesta SW Cross is always ready for high-speed travel, and even as if asking the driver to rev it up. Two –engine models and two transmission options allow choosing a car that is in line with one's own driving style.

- 106 hp engine. Classic choice. Optimum. Comes with manual transmission or AMT.
- The most powerful 122 hp 1.8 l engine is a new way of revealing the personality of LADA Vesta SW Cross. For this engine, both mechanical and automated manual transmission (AMT) are available. A luring choice to think about.

Just listen to yourself and answer – what is my driving style? Sporty? Or comfortable? AMT is a result of collaboration between the Russian and German engineers. This GB combines the «mechanical» and «automatic» functionalities. In manual mode, the driver can switch gears with the joystick, and in automatic mode the electronic actuators are in charge. The transmission settings ensure the most comfortable and economical gear shifting, simulating the actions of a highly careful and skilled driver. Unlike other transmission options, AMT saves fuel, extends service life. Moreover, it is much more affordable than other automatic transmissions.

1,6		1,8	L
106		122	hp
148		170	Nm
5,8		6,3	L/100 Km

**LADA Vesta:** a car for severe climatic and road conditions:

- Galvanized outside body panels.
- Metal engine protection shield.
- Antigravel floor sill and bottom protection.
- High level of quality: the production technology and components delivery system are based on Renault-Nissan Alliance standards.

# EYE-CATCHING COLORS VIEWS

Glacial 221\*

White non-metallic, famously combined with black body elements and the bright «drops» of the tail lights.

Platinum 691

Classic silver color, which expressively develops the contoured body surface.

Carthage 247

Light and practical. The sparkling and at the same time impressive hue evokes a whole range of positive emotions: from confident calmness to admiration.

Pluto 608

Dark gray paint, giving a kind of austerity, while emphasizing the play of X-shaped graphics of LADA Vesta.

Carnelian 196

Bright metallic-red, the symbol of LADA Vesta's energy. A great addition to the bright design of the car.

Mars 130

Incarnation of passion, color of dynamics and adventure. The branded paint developed specifically for LADA Vesta SW fully reflects the remarkability of the car.

Phantom 496

A real-time chameleon color, fluctuating from golden brown to bluish one. Like a semi-precious stone, arousing inside you a desire to admire and view the car from different angles.

Angkor 246

Chocolate «metallic», an attractive balance between bright colors and the austerity of the black and gray range.

Blues 492

The color of the sky before a storm, with its complexity and special energy, as well as the musical style, giving the name to this shade.

Black Pearl 676

An austere color, benefiting from the harmony with X-shaped chrome moldings and silvery alloy wheel rims.

\* Non-metallized enamel

# EQUIPMENT AND OPTIONS

Version	Luxe
Dual air bags for the driver and front passenger (may be disabled), side air bags	•
Rear headrests, 3 pcs	•
ISOFIX fastening accessories for child safety seat, 2 pcs	•
Rear doors child lock	•
Automatic doors locking at drive-away	•
Automatic emergency lights activation in case of abrupt braking	•
Automatic doors unlocking in a collision	•
Anti-theft system	•
Daytime running lights	•
Fog lamps	•
ERA-GLONASS Emergency Call System	•
Rear disk brakes	•
Anti-lock Braking System with Brake Assist System (ABS + BAS)	•
Electronic Brakeforce Distribution (EBD) System	•
Electronic Stability Control (ESC) System	•
Traction Control System (TCS)	•
Hill-Start Assist (HSA) System	•
Engine and engine compartment protection	•
On-board computer with gear shift prompter on the instrument cluster	•
Central armrest with a box	•
60/40 folding rear seat	•
Driver's and passenger's eyeshield with mirror	•
Eyeglass case	•
12V socket in the trunk	•
Stretched trunk rack	•
Double floor of the trunk (load of 50 kg) with tool organizers	•
Automatic lights switch-off	•
Interior lighting with courtesy delay	•
Central lamp for the second row of seats	•
Lighting of the glove box, trunk and entry/exit openings in the front doors	•
Organizer for on-board documentation	•
Steering wheel adjustable by height and reach	•
Height-adjustable front seat belts	•
Height adjustable driver's seat with lumbar support	•
Cabin air filter	•
Foldable key	•
Central lock with remote control	•
Front and rear electric windows	•
3-level front seat heating	•
Electric adjustment and heating of the sideview mirrors	•
Windshield heating	•
Rear parking sensors	•
Rain and light sensors	•
Climate control	•
Cooled glove box	•
Cruise-control system + speed limiter	•
Multifunctional steering wheel	•
Audio system (4.3" monochrome display, FM/AM with RDS function, USB, SD card, AUX, Bluetooth, Hands free, 4 speakers, shark fin antenna)	•
Sideview mirrors with side repeaters	•
Roof rails	•
Spoiler	•
Decorative exhaust pipe nozzle	•
17" alloy wheel rims	•
15" full size spare wheel (steel rim)	•
<b>Multimedia package</b>	
Rear-view camera	•
Multimedia navigation system (7" color display with TouchScreen, FM/AM with RDS function, USB, SD card, AUX, Bluetooth, Hands free, 6 speakers, shark fin antenna)	•
<b>Prestige package</b>	
Rear armrest	•
Steering wheel with leather cover	•
Interior LED lighting	•
Extra tinted rear windows	•
Rear seat heating	•
Rear-view camera	•
Multimedia navigation system (7" color display with TouchScreen, FM/AM with RDS function, USB, SD card, AUX, Bluetooth, Hands free, 6 speakers, shark fin antenna)	•
