GET MORE POWER

THE POWER OF ENGINES WITH RELIABLE 5-SPEED MANUAL TRANSMISSION IS IN YOUR HANDS

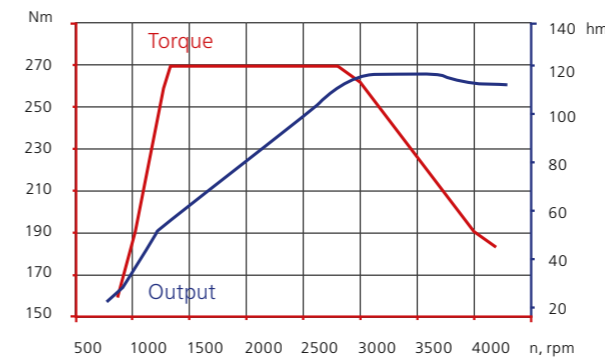

Petrol engine V = 2,7 L and maximum output 128 hp

Excellent petrol engine is known for its proven design, plain tastes to fuel quality and off-road durability

Diesel engine volume — 2,23 L and maximum output 113,5 hp

Designed in cooperation with leading engineering companies from abroad the diesel engine powering the new UAZ PICKUP is equipped with Common Rail system of the world — known brand BOSH and the timing chain allowing you to significantly reduce the vehicle maintenance costs.

GET MORE FREEDOM

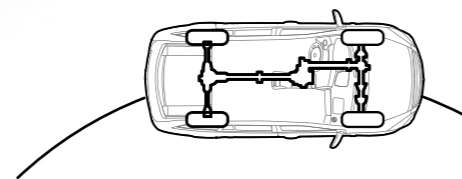

FOUR-WHEEL DRIVE ENSURES MAXIMUM CONTROL ON ALL TYPES OF TERRAIN

CHASSIS

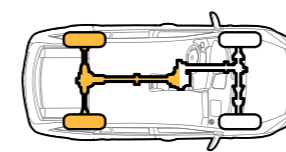

Rigid ladder frame isolates the body from impacts, torsional and tensile loads appearing when you drive off the road, tow a heavy trailer or try to pull a stuck vehicle out. The frame endows the new UAZ Pickup with immense durability under the heaviest operation conditions. Front and rear conventional suspension system possesses incredible ruggedness, which proves that UAZ Pickup is truly a professional off-road vehicle.

TURNING RADIUS

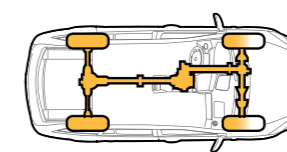

7,35 m

2H MODE

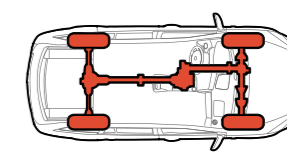

The engine torque is transferred only to the rear wheels making the drive under normal conditions fuel efficient.

4H MODE

Part time four wheel drive is ideal for coping with difficult road and weather conditions.

4L MODE

The engagement of the reduction gear in the transfer case with gear ratio 2.542:1 helps you break through the severest off road situation
