

**LADA**

NEW HORIZONS

**LADA Largus**  
van

LADA Largus van features excellent off-road performance, good interior capacity, decent load-carrying capacity, a widespread network of service stations and proven reliability.

Easy loading and unloading in a restricted space. Both of the side doors and rear flip-flap doors have several attachment points. High rear door opening means easy cargo access and ability to put in large-dimensional cargo.

# Reliable help for small and larger business

Largus

**When work  
turns  
into play**

Multi-purpose vehicle with high comfort level. Air-conditioning, audio system, seats heating, central lock, electric windows and other options: a car for business can be comfortable.

- Hydraulic booster.
- Spacious glove box.
- Storage pockets in front doors.
- Ergonomic design of driver's console.

- Trunk compartment with lighting.  
A dish-shaped wall behind the driver's seat for highly adjustable workspace.

#### Obvious advantages:

- LADA Largus van is the most spacious in LADA family. The trunk volume is 2,540 l.
- LADA Largus van has the highest load capacity in LADA family (800 kg).
- Four cargo attachment points and a rubber mat for reliable and safe transportation.
- A euro-pallet easily fits in the cabin.
- The cargo compartment length is 1.94 m.
- Wide rear opening makes it easy to arrange the cargo.
- Unpainted bumpers are a part of practical design.
- With a towbar, Largus can be fitted with a 650-kg trailer.
- LADA Largus van offers plenty of comfort options: a dish-shaped wall behind the driver's seat for highly adjustable workspace.

# Safety ranks top score

Safety at work is a number one issue worldwide. LADA Largus van is provided with an optimal safety kit. This is a careful design of the load-bearing frame, air bags, ABS and, of course, strong clamps for cargo attachment.

- Driver's airbag.
- Passenger's airbag.
- Height-adjustable front seat belts.
- Anti-lock braking system (ABS).
- Fog lamps.

This modification has given the engine a really high torque. Originally designed for the market of Eastern Europe, LADA Largus van was modified for Russia: reinforced suspension and brakes, better antigravel protection, anti-chipping protection of the wheel arcs. Engine control settings make the car fully adapted for Russian gasoline.

Short overhangs, high road clearance (145 mm with full load) is what makes LADA Largus van a true cargo off-roadster. Gear ratios have been selected especially for this modification. Final drive ratio for the ring/pinion set has been increased up to 4.9 (for passenger versions the final drive (ring and pinion) is 4.2 and 4.5).

This modification has given the engine a really high torque. Engine control settings make the car fully adapted for Russian gasoline. Exterior panels from zinc-plated steel.

## Specifications

Body type/Number of doors	Van/5
