

LADA

NEW HORIZONS

LADA 4x4 Urban

New LADA New impressions

Good off-road ability and compactness are of these qualities of LADA 4x4 in demand in large cities. So our engineers have designed a special version – LADA 4x4 Urban is a new interpretation of the classic style. Black bumper elements, metallic body paint and alloy wheels with large pattern of wheel spokes are exactly the features that look so good in city traffic in the light of street lamps.

**Comfortable
off-roader**

Easy steering, low effort on the pedals, clear switching box gear: in the field of comfort LADA 4x4 retreated from the image of brutal off-roader.

- Air conditioner and athermal glasses maintain comfortable climate.
- Power windows.
- Seat heating.
- Improved vibration insulation (absorbing gaskets are provided on the front plate, outside door panels, on the floor and sidewalls of the body).
- Hydraulic power steering available in basic configuration.
- Dynamic vibration absorber reduces micro vibrations from the engine.

Style and reliability

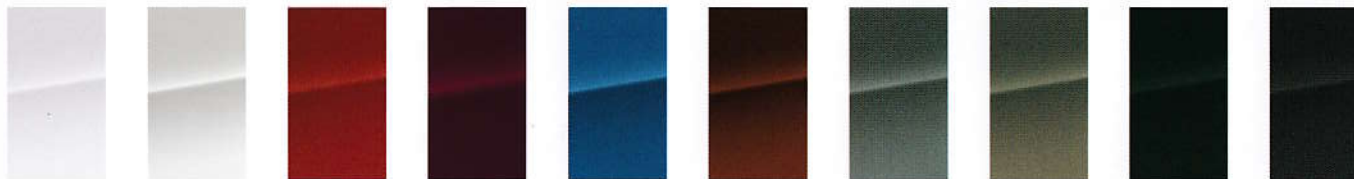

- Cataphoretic priming is a part of the painting method to enhance the corrosion resistance of the body.
- Secondary polyether primer has been applied to prevent chipping.
- Reinforced suspension for improved steerability and reduced risk of deformation.
- LED daytime running lights make the car easier to notice on the road.
- New gaskets in the engine and transmission units to prevent leakages even with a high mileage.
- Enlarged clutch mechanism makes longer service life.
- Adjustment-free hub bearings.
- Renewed design of a steering knuckle: better stability when braking.

Specifications

	Wagon/3	Wagon/5
Body type/Number of doors	4	5
Number of seats		
Length/width/height, mm	3640/1680/1640	4140/1680/1640
