

KIA Fleet

A message from our Director of Sales.

In 2021, we're committed to bringing category-leading safety features and we're well-poised to do so - last June, Kia was named the number one mass-market automotive brand by J.D. Power in the 2020 U.S. Initial Quality Study for the 6th year in a row. . Our advanced safety features prevent accidents and collisions, to protect both our drivers and everyone who shares the road with them.

When it comes to technology, our end goal is an enhanced, personalized, custom driving experience. Whether its Smart Cruise Control, Wireless Charging or Integrated Navigation, our tech features keep drivers focused on the road while delivering seamless comfort, convenience, and connectivity. We're here for our fleet partners every step of the way - our competitive warranty program guarantees long-term cost reduction to keep your vehicles on the road.

Sincerely,
Anthony Scigliano

Lastly, we'll continue to champion a greener future, both globally and here at home in Canada. Our EV offerings boast impressive range and dynamic, smooth-powered performance. Coming in 2021, we'll deliver an even greater variety of models and mobility solutions to Canadians looking to get behind the wheel of an electric vehicle.

Above all, we're eager to continue to serve our Kia fans, fleets and drivers. Now with more than one million Kia drivers in Canada, the brand-preference, vehicle quality, and product performance of Kia models speak for themselves. We're committed to delivering best-in-class products and services- we look forward to exploring what we can do for you and your drivers in the year ahead.

Kia celebrates its new face and slogan, declaring the brand's future transformation

The new logo features 'symmetry', 'rhythm' and 'rising' elements that embody Kia's confidence and commitment to customers discloses its' new brand slogan:

'Movement that inspires'

Kia has revealed its new corporate logo and global brand slogan that signify the automaker's bold transformation and all-new brand purpose. The introduction of the new logo represents Kia's ambitions to establish a leadership position in the future mobility industry by revamping nearly all facets of its business.

The logo is a symbol of Kia's new brand purpose and the values it promises to offer customers through future products and services, and the experiences these enable. Kia seals its brand promise by developing the new logo to resemble a handwritten signature. The rhythmical, unbroken line of the logo conveys Kia's commitment to bringing moments of inspiration, while its symmetry demonstrates confidence.

The rising gestures of the logo embody Kia's rising ambitions for the brand, and, more importantly, what it offers customers.

"Kia's new logo represents the company's commitment to becoming an icon for change and innovation", said Ho Sung Song, Kia's President and CEO. "The automotive industry is experiencing a period of rapid transformation, and Kia is proactively shaping and adapting to these changes. Our new logo represents our desire to inspire customers as their mobility needs evolve, and for our employees to rise to the challenges we face in a fast-changing industry."

The launch of the new logo follows the announcement of Kia's 'Plan S' long-term business strategy in 2020. Under Plan S, Kia, among other objectives, has the ambition to take a leading position in the global car market. This is focused on popularizing electric vehicles and introducing a broad range of mobility services, tailored to meet the needs and tastes of individuals and local markets.

Join us to experience Kia's full transformation.

Warranty Information

Kia offers a great variety of options, components and features for its various models. Therefore, the equipment described in this manual, along with the various illustrations, may not all be applicable to your particular vehicle. The information and specifications included in these manuals were accurate at the time of printing. Kia Motors reserves the right to discontinue or change specifications or design at any time without notice and without incurring any obligation. If you have any questions, always check with your Kia Dealer.

Our outstanding Total Care Ownership Coverage includes:

- 5-year/100,000 km - Worry-free comprehensive warranty covering virtually the entire vehicle.*
- 5-year/100,000 km - Powertrain Warranty covering the engine, transmission, axles, differentials and driveshafts.*
- 1-year/20,000 km - First-year adjustments covering consumable items such as bulbs, wiper blades, fuses, brake pads, etc.*
- 8-year/130,000 km - Major Emission Components that guarantee that the car will conform with government emission regulations.*
- 5 year/ unlimited mileage - 24/7 roadside Assistance covers you in case of mechanical breakdown.
- 8-year / 150,000 kms Hybrid, Plug-In Hybrid, Electric Vehicle (EV) Components

Cost of ownership

Kia offers a wide range of outstanding fleet vehicles that will help you minimize TCO through their leading fuel economy, low insurance premiums, unmatched reliability, and minimal maintenance requirements.

Kia's green fleet options can help reduce operating costs, and all fleet vehicles come with a comprehensive warranty, so you don't spend more on vehicle maintenance than you need to. Plus, our advanced technology offers safety features that can help reduce accidents and assist with monitoring your fleet.

A photograph of a Kia car's interior, showing the steering wheel with the Kia logo, the dashboard with three circular air vents, and a large infotainment screen displaying a navigation map. The text "Kia | Safety & quality" is overlaid on the left side of the image.

Kia | Safety & quality

Kia safety technology is some of the most impressive on the market, giving drivers the added peace of mind of knowing they have additional protection and awareness on the road.

Body of a vehicle usually refers to the frame on the surface. It takes up about 30 percent of the vehicle's total weight and plays a pivotal role in the vehicle's crash safety and styling. In a Kia car, your safety is ensured as it has a full set of airbags, including driver/passenger seat airbag, driver knee airbag, curtain airbag and front/rear side airbag, whoever you drive with.

A seat belt pretensioner is a device that is used to hold a passenger firmly in their seat just before and at the start of a collision and then allow that passenger to come into contact with the inflated in a controlled way. Upon impact between a pedestrian and a car, the lower leg-form or lower stiffener can minimize the bending of his/her knee and make him/her fall onto the car to reduce the possibility for him/her to go under the car and end up in a more critical state.
